FOR

1892.

COMPILED BY GEO. E. PLUMBE, A. B., LL. B.

EIGHTH YEAR.

ISSUED BY

THE CHICAGO DAILY NEWS.

PREFACE.

THE DAILY NEWS ALMANAC for 1892, while covering with completeness its usual wide range of subjects, is specially designed to be a vade mecum for the presidential campaign of the year. A complete comparison of the imports and exports under the old and new tariffs will enable the reader to determine what has been the effect of the change in the tariff laws. A full and impartial history of the coinage of gold and silver, with summary of all laws passed since the formation of the government, is given, so that it may readily be seen how the two metals have been used in our coinage and how the ratio between the two has been maintained. An account of the rise and progress of the farmers' movement in the United States is of timely interest.

Liberal space is allotted to the *World's Fair at Chicago*.

The New Orleans massacre and the diplomatic correspondence with Italy growing out of it are treated at length. A complete account of the Nicaragua canal, with a statement of previous efforts at its construction, is given. The progress and culmination of the confederation movement in Australia and the Chilean war, which are among the foreign events that have awakened widespread interest in this country, are concisely discussed.

In religious matters the history of the efforts at creed revision in the Presbyterian church is set out at some length—the subject being of general interest to Christians of all denominations.

Politically 1891 was an "off year," but elections have been held in nineteen states, five of which chose their governors. Among these five are some that are regarded as pivotal in the presidential election of the year, while all have an important bearing on that contest.

The *DAILY NEWS ALMANAC* for 1892, as will be seen by reference to its index, contains a vast amount of new matter which is of very general public importance and value. No pains have been spared to meet the universal demand for non-partisan and reliable information upon educational, political, financial and religious affairs. The census returns have been drawn on for much late and valuable statistical matter. The invitation is renewed by the editor to all friends of the work to furnish him with criticisms and suggestions for future issues.

Chicago, January, 1892.

Chicago Daily News Almanac 1892.

ECLIPSES.

In the year 1892 there will be four eclipses—two of the Sun and two of the Moon.

I. A Total Eclipse of the Sun, April 26. Invisible. Visible to the western coast of South America and South Pacific Ocean.

II. A Partial Eclipse of the Moon, May 11. Visible more or less to Europe, Asia, Africa, Western Australia, South America, eastern edge of North America and Atlantic Ocean. Occurring as follows:

Standard.	Eastern Time.			Central Time.		
	D.	H.	M.	D.	H.	M.
Middle of eclipse.....	11	5	53 A.	Invisible.		
Moon leaves shadow.....	11	7	37 A.	11	6	37 A.
Moon leaves penumbra.....	11	8	53 A.	11	7	53 A.

Magnitude of eclipse equals 0.959 (moon's diameter equals 1).

III. A Partial Eclipse of the Sun, October 20. Visible to North America (except to California and western half of Mexico), to the northern part of South America, West Indies, and larger portion of the North Atlantic Ocean. Occurring as follows:

	Standard.	Begins.			Ends			Digits eclipsed.
		D.	H.	M.	D.	H.	M.	
Boston.....	Eastern	20	0	7 A.	20	3	8 A.	8
New York.....	Eastern	20	0	5 A.	20	3	6 A.	8
Pittsburg.....	Eastern	20	11	58 M.	20	2	58 A.	7
Washington.....	Eastern	20	0	5 A.	20	3	5 A.	7
Charleston.....	Eastern	20	0	15 A.	20	3	11 A.	6
Cincinnati.....	Central	20	10	56 M.	20	1	52 A.	6

NOTE.—To ascertain any day of the week first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. *For Example:* To know on what day of the week July 4 will be in the year 1891, in the table of years look for 1891, and in a parallel line, under July, is figure 3, which directs to column 3, in which it will be seen that July 4 falls on Saturday.

*1752 same as 1772 from Jan. 1 to Sept. 2. From Sept. 14 to Dec. 31 same as 1780 (Sept. 3-13 were omitted).—This *Calendar* is from *Whitaker's London Almanack*, with some revisions.

IMPORTS OF MERCHANDISE, WITH RATE OF DUTY,

For the twelve months ending June 30, 1891, compared with the corresponding period of 1890
(Corrected to July 30, 1891.)

Abbreviation: n. e. s., not elsewhere specified.

HISTORY OF OUR COINAGE.

Including a summary of all the laws of the United States for the minting of gold and silver.

THE FIRST COINAGE LAW.

THE ACT OF 1792.

The first act of the congress of the United States respecting coinage was the act of April 2, 1792, entitled "An act establishing a mint and regulating the coins of the United States." The ninth section of this act provided:

"That there shall be from time to time struck and coined at the said mint, coins of gold, silver and copper of the following denominations, values and descriptions, viz: Eagles—each to be of the value of ten dollars or units, and to contain two hundred and forty-seven grains and four-eighths of a grain of pure, or two hundred and seventy grains of standard gold."

After providing for half eagles, each to be of half the value of the eagle, and quarter eagles, each to be of one-fourth of the value of the eagle, the section continues, as follows:

"Dollars or units—Each to be of the value of a Spanish milled dollar as the same is now current, and to contain three hundred and seventy-one grains and four-sixteenth parts of a grain of pure, or four hundred and sixteen grains of standard silver."

The act also provided for half-dollars, quarter-dollars, dimes and half-dimes, each to contain, respectively, one-half, one-fourth, one-tenth and one-twentieth of the pure silver contained in the dollar. The coinage of cents and half-cents of copper were also provided for.

It will be seen that in this first coinage act the words "dollar or unit" are applied equally to dollars of gold and the dollar of silver—that is, "dollar" is the name of the unit of money in our system, and the gold eagle was to be of the value of ten dollars, or units. The coin which represented exactly the unit was the silver dollar, and the act provided that it should be of the value of the Spanish milled dollar, as that piece was then current. The assay of a number of Spanish dollars, then in common use, showed them to contain three hundred and seventy-one and a fourth grains of pure silver, or four hundred and sixteen grains of standard silver.

The proportion of pure gold to the alloy in gold coins was made by this act, eleven parts gold and one part alloy, the alloy being composed of silver and copper. The proportion of pure silver to the alloy in silver coins was made fourteen hundred and eighty-five parts fine silver to one hundred and seventy-nine parts alloy. The reason for this proportion of silver to alloy was that the alloy was found in that proportion in the Spanish dollars then current. These coins having been a long time in circulation were more or less worn and their assay did not show the exact original weight of the coin, and probably not the exact original proportion of alloy. The alloy in the silver dollar consisted of $4\frac{1}{4}$ grains of copper, making the dollar $892\frac{1}{4}$ fine; this, by the act of 1837, was changed to $41\frac{1}{4}$ grains of copper, making the standard nine-tenths fine. Section 11 of the act provided:

"That the proportional value of gold to silver in all coins which shall by law be current as money within the United States, shall be as 15 to 1, according to quantity in weight, of pure gold or pure silver; that is to say, every fifteen-pounds weight of pure silver shall be of equal value in all payments with one-pound weight of pure gold, and so in proportion as to any greater or less quantities of the respective metals."

A dollar of gold contained 24.75 grains of pure metal, and a dollar of silver 371.25 grains—

being exactly 15 to 1. Section 14 provided,

"That it shall be lawful for any person or persons to bring to the said mint gold and silver bullion, in order to their being coined; and that the bullion so brought shall be there assayed and coined as speedily as may be after the receipt thereof, and that free of expense to the person or persons by whom the same shall have been brought. And as soon as the said bullion shall have been coined, the person or persons by whom the same shall have been delivered, shall, upon demand, receive in lieu thereof coins of the same species of bullion which shall have been so delivered, weight for weight, of the pure gold or pure silver therein contained."

Section 16, which follows, made the coinage of both metals equally a lawful tender in all payments whatsoever, thus establishing the free coinage and full legal tender of both metals without limit, at the ratio of 15 to 1. The exact language of section 16 of the act is:

"That all the gold and silver coins which shall have been struck at, and issued from the said mint, shall be a lawful tender in all payments whatsoever; those of full weight according to the respective values hereinbefore declared, and those of less than full weight at values proportional to their respective weights."

Thus it will be seen that by this first act of congress establishing a mint, gold and silver, as recommended by Hamilton and Jefferson, and approved by Washington, were placed upon an exact equality as money metals, and their coinage made free and unlimited.

The ratio of 15 to 1 for American coins was not exactly in accordance with the ratio which then prevailed in European countries. Silver was slightly over-valued and gold a little under-valued. The result was that the metallic money of the United States, during this period consisted mostly of silver coins and largely of foreign coins. But \$11,908,890 of gold altogether were coined from 1793 to 1834, and this was generally soon exported. The production of gold for the same period in the United States is given at \$14,000,000.

But it should be remembered that this ratio of 15 to 1 was adopted eleven years before the law of France, enacted in 1833, fixed the warring ratio at 15½ to 1, at which it stood without variation except as accounted for by the course of exchange, till 1873.

COINAGE LAWS FROM 1792 TO 1873.

The act of May 8, 1792, provided for the purchase of copper, "not exceeding 150 tons," "to be coined into cents and half cents," which, by the act of April 2, 1792, were to contain respectively eleven and five and a half pennyweights. The act of Jan. 14, 1793, provided that the cent piece should contain 208 grains of copper and the half cent 104 grains.

The act of Feb. 9, 1793, prescribed the rates at which foreign gold and silver coins should be legal tender in the United States. This act provided that Spanish milled dollars should be legal tender "at the rate of 100 cents for each dollar, the actual weight whereof shall not be less than seventeen pennyweights and seven grains." Section 2 of this act provided, "That at the expiration of three years next ensuing the time when the coinage of gold and silver, agreeably to the act entitled 'An act establishing a mint and regulating the coins of the United States,' shall commence at the mint of the United States (which time shall be announced by the proclamation of the president of the United States), all foreign gold coins and all foreign silver coins, except

Spanish milled dollars and parts of such dollars, shall cease to be a legal tender, as aforesaid." By this provision it will be seen that while all other coins were to be deprived of legal tender, the Spanish milled dollar was to continue to be a part of the money of the country.

Section 5 of the act of March 3, 1795, provided for the deduction of 2 cents per ounce from deposits of silver bullion when below the standard of the United States, and 4 cents per ounce from gold bullion below the United States standard, to cover the cost of refining. Section 7 of this act provided that preference might be given in coining gold or silver bullion which came up to the United States standard, over that which required to be refined. Section 8 of the same act authorized the president of the United States to reduce the weight of the copper coin.

The act of Feb. 1, 1798, suspended for three years the act of Feb. 9, 1793, and made foreign gold and silver coins legal tender until 1801.

Section 2 of the act of April 24, 1800, provided "That there shall be retained from every deposit in the mint of gold or silver bullion below the standard of the United States such sum as shall be equivalent to the expense incurred in refining the same." Thus, the only charge made at the mint against either gold or silver bullion was the cost of refining it when below the coining standard.

The act of April 10, 1806, repealed the act of Feb. 9, 1793, regulating foreign coins, and provided that "Foreign gold and silver coins shall pass current as money within the United States and be a legal tender for the payment of all debts and demands," at rates provided in the act. Among the coins named was the Spanish milled dollar. This act also made it the duty of the secretary of the treasury to cause assays of foreign coins to be had at the mint of the United States each year and to make a report thereof to congress.

The act of April 21, 1806, provided penalties for falsifying or counterfeiting coins of the United States, or foreign coins circulating in the United States.

The act of April 23, 1816, provided that after three years gold coins of Great Britain, France, Portugal and Spain, and the crowns and 5-franc silver pieces of France should not be legal tender. This act was, however, modified by the act of March 3, 1819, which provided that from and after the 1st day of November of that year foreign gold coins should cease to be legal tender in the United States. The French crown and 5-franc piece, however, were continued as legal tender for two years and were afterward continued legal tender till 1823 and again till 1827.

But by the act of March 3, 1823, all foreign gold coins were again made receivable for public lands. The act of June 25, 1834, made the dollar piece of Mexico, Peru, Chile and Central America and the 5-franc piece of France legal tender at their nominal value when of full weight.

As will appear from the foregoing summary of the coinage laws from 1792 to 1834, the coinage of both gold and silver for the benefit of the holder remained free and unrestricted at the ratio of 15 to 1, as established by the act of 1792, and that during this period foreign gold and silver coins, at values designated by congress, continued to be current in the United States. It is worthy of note too, that at no time was the Spanish milled dollar, the prototype of the American standard dollar, barred from circulation or deprived of its legal tender quality.

In 1834 the first change in the ratio of pure metal in the gold and silver coins of the United States was made. By the act of June 28, the pure gold in the gold eagle was reduced from 247½ grains to 232 grains, and the other

gold pieces in proportion. Section 3 of the act changing the weight of gold coins provided "That all gold coins of the United States minted anterior to the 31st day of July next shall be receivable in all payments at the rate of 94.8 cents per pennyweight."

By an act of the same date foreign gold coins were made current in the United States at the same rate per pennyweight as provided for United States gold coins, except French gold coins, which, being nine-tenths fine (instead of eleven-twelfths fine, as were our first gold and most foreign gold coins), were made current at the rate of 93.1 cents a pennyweight.

This act of 1834 making the eagle contain 232 grains of pure and 238 grains of standard gold, changed the alloy to very nearly one-tenth instead of eleven-twelfths. If the pure gold in the eagle had been made 232.2 grains instead of 232 grains, the proportion of pure gold to alloy would have been exactly as 9 to 1. The change to this proportion was made three years later when the French standard of fineness was adopted for both gold and silver coins, and from that date all our gold and silver coins have been nine-tenths fine.

The new gold coins provided for by the act of 1834 were made legal tender in all payments. The old gold coins, those coined prior to 1834, as shown above, were made receivable in all payments at the rate of 94.8 cents per pennyweight, and as the eagle piece contained 270 grains eleven-twelfths fine, or 27 grains of the then standard gold to the dollar, these coins were by this act raised to \$1.00.

The ratio of pure gold to pure silver in our coins was made by the act of 1834, 23.2 to 371.4, or almost exactly 16 to 1. No change was made in our silver coins by the act of 1834. Why the ratio should have been changed at this time from 15 to 1, as established in 1792, to 16 to 1, thirty-one years after the French act of 1803, which had practically fixed the ratio for all Europe at 15½ to 1, is difficult to understand. The reason usually given is that under the ratio of 15 to 1 little or no gold came or stayed here, and new mines of gold having been discovered in North Carolina and Georgia about this time, the higher ratio was adopted in order to give the gold a higher rating relatively to silver, and thereby keep it here.

In the debates in the house in 1834 there was some opposition to the adoption of the ratio of 16 to 1, but an amendment offered in the house by Mr. Selden to make the ratio 15.825 to 1 was voted down by 127 to 52. In the senate there was but little discussion on the subject and but seven votes were cast against the bill. Mr. Ewing, however, as did Mr. Gorham of the house, expressed the opinion that the act rated gold too high and that the effect would be that silver coins would leave the country as gold coins had before.

If the ratio fixed in the act of 1792 was a mistake, the ratio adopted by the act of 1834 was a much greater mistake, since, while in 1792 Europe had not settled on a definite ratio, in 1834 the ratio of 15½ to 1 had been well established for over thirty years. This mistake has been a grievous stumbling-block in the way of establishing a uniform ratio for the different countries.

The discovery of gold in North Carolina and Georgia led to the establishment in 1835 of three branch mints, one at New Orleans, one at Charlotte, N. C., and one at Dahlhognea, Ga.; but except the mint at New Orleans they were little used.

The act of Jan. 18, 1837, revised the mint laws throughout and condensed the whole into thirty-eight sections of a new act, which is known as the mint act of 1837. Section 8 of this act provided "That the standard for both gold and silver coins of the United States shall

hereafter be such that of 1,000 parts by weight 900 shall be of pure metal and 100 of alloy; and the alloy of the silver coins shall be of copper; and the alloy of the gold coins shall be of copper and silver, provided that the silver does not exceed one-half of the whole alloy."

Section 9 provided "That of the silver coins the dollar shall be of the weight of 412½ grains; the half-dollar of the weight of 206¼ grains; the quarter-dollar of the weight of 103½ grains; the dime, or tenth part of a dollar, of the weight of 41¼ grains; and the half-dime, or twentieth part of a dollar, of the weight of 20½ grains. And that dollars, half-dollars and quarter-dollars, dimes and half-dimes shall be legal tenders of payment according to their nominal value for any sums whatever."

Section 10 provided "That of the gold coins the weight of the eagle shall be 258 grains; that of the half-eagle 129 grains, and that of the quarter-eagle 64½ grains. And that for all sums whatever the eagle shall be a legal tender of payment for \$10, the half-eagle for \$5 and the quarter-eagle for \$2.50."

Section 11 provided "That the silver coins heretofore issued at the mint of the United States, and the gold coins issued since the 31st day of July 1834, shall continue to be legal tenders of payment for their nominal values on the same terms as if they were of the coinage provided for by this act."

The only change made in the gold coins by this act, from the act of 1834, was that by this act the alloy in gold coins as well as in silver coins was made exactly one-tenth; that is, the standard for coins of both metals was made by this act nine-tenths fine; and since the passage of this act standard gold and standard silver is understood to be gold or silver nine-tenths fine. To bring the alloy in gold coins to exactly one-tenth of the weight of the coin, the small fraction of two-tenths of a grain of pure gold was added to the weight of the eagle, or two-hundredths of a grain to a dollar, and the alloy reduced by the same amount, so that the weight of the eagle remained exactly the same under both acts; that is, 258 grains for the eagle piece, or 25.8 grains to the dollar. But by this change in the relative weight of pure metal and alloy, the ratio between gold and silver coins was changed from almost exactly 16 to 1, to 15.3685 plus to 1, our present ratio.

After providing for devices, legends, etc., on the various coins, section 14 provided "That gold and silver bullion brought to the mint for coinage shall be received and coined by the proper officers for the benefit of the depositor."

It was made lawful by this act to refuse a deposit of less value than \$100, or of bullion so base as to be unsuitable for the mint. Depositors were to be paid for bullion in coin, and in the order in which deposits were made.

Sections 15 and 19 provided for weighing deposits in the presence of the depositor and for giving a certificate for the net amount "to be paid in coin of the same species of bullion as that deposited."

Section 18 specified what charges the depositor of bullion should be subject to. These are: "For refining when the bullion is below standard," for purifying "when metals are contained in it which render it unfit for coining," etc. These charges were not to exceed, however, the cost to the mint of the labor and materials required to bring the metals to the proper standard.

Between the act of 1792, establishing the mint, and the act of 1837, no change whatever was made in the silver coins, and the only change made in these coins by the act of 1837 was the change in the alloy from 44¼ grains, as contained in the dollar of the act of 1792, to

41¼ grains, the pure silver being left the same exactly by the act of 1837 as it was in the original act of 1792. The pure gold was changed from 24.75 grains to a dollar, as in the act of 1792, to 23.22 grains, as fixed in the act of 1837. As 371¼ grains is the weight of pure silver in our present standard dollar, it will be seen that this unit has therefore never varied in weight of pure metal through all the changes of our mint laws. It stands to-day the same dollar it was when our money system was established.

By the act of March 3, 1843, British gold coins were made legal tender at the rate of 94.6 cents per pennyweight; French gold coins nine-tenths fine were made legal tender at the rate of 92.9 per pennyweight. By the same act the silver dollars of Mexico, Peru and Bolivia were made legal tender at their nominal value; the French 5-franc piece was made legal tender for 48 cents.

The act of March 3, 1849, provided for the gold dollar piece to contain 25.8 grains of standard gold and "to be of the value of one dollar, or unit." This act also provided for a \$20 piece.

The act of March 3, 1851, provided for coining the 3-cent piece to meet the requirements of the 3-cent postage law.

The change in the ratio to 16 to 1, in 1834, while the European ratio stood at 15½ to 1, led to the exportation of nearly all our full-weight silver coins. For, by this variation in the ratio between the two metals in the United States and in Europe, full-weight silver coins were worth for export a little more than 3 per cent more than our gold coins; and as our subsidiary coins contained proportionally the same weight of pure silver contained in the dollar piece, it was as profitable to export these coins as the dollar piece; consequently the country was well-nigh depleted of small coins. To remedy this evil congress, by the act of Feb. 21, 1853, reduced the weight of the half-dollar from 206¼ grains to 192 grains standard silver and the smaller silver coins in proportion. Until this act fractional silver coins were legal tender for all sums; but by this act they were made legal tender for \$5 only. Deposits of silver for coinage into fractional pieces for the benefit of the depositor were no longer received, but provision was made for the purchase of silver bullion on government account for the fabrication of the light-weight subsidiary coins. The same act provided for the redemption of subsidiary coins and for their transmission to assistant treasurers and depositaries free of charge.

Section 6 of this act provided that depositors might, at their option, have their gold and silver cast into ingots or bars.

Section 7 of the same act provided for the coinage of the \$3 gold piece, which, like the 3-cent silver piece, was never a popular coin.

The act of Feb. 21, 1857, deprived all foreign coins of currency in the United States. The old Spanish quarter, the shilling or eighth, the sixpence, or sixteenth of the Spanish milled dollar and of the Mexican dollar, which had passed current for 25, 12½ and 6¼ cents respectively, were made receivable by the government for 20, 10 and 5 cents respectively, and when so received they were to be remitted into American coins.

Section 3 of this act provided "That all former acts authorizing the currency of foreign gold or silver coins, and declaring the same a legal tender in payment for debts, are hereby repealed."

This act also provided for the present form of the cent piece of seventy-two grains, composed of copper and nickel. The 5-cent nickel piece to take the place of fractional currency and to be a legal tender for \$1 was provided for by the act of May 16, 1863.

From this summary of the coinage laws of the United States it will be seen that from the foundation of the mint down to 1873 gold and silver stood upon a plane of absolute equality as to all rights of minting and power of legal tender. The unit rested on both metals alike. No discrimination whatever was made in any act between the two metals. Holders of gold and silver bullion were allowed, throughout this period of more than three-quarters of a century, without any discrimination whatever, to deposit their metal and have the same coined for their benefit into the various full legal tender coins prescribed by congress, without limit and free of cost, except such expense as might be incurred by the mint to bring the bullion to the required standard for coinage.

DEMONETIZATION OF SILVER.

THE ACT OF 1873.

In 1867 an international monetary conference was held in Paris, at which Samuel B. Ruggles represented the United States. At this conference our representative favored "a common unit of money," which was to be gold alone. In June, 1868, Hon. John Sherman, chairman of the senate finance committee, made a report to the senate in favor of "a single standard exclusively of gold" and the same year introduced a bill having for its object the establishment of a single standard "exclusively of gold" with silver for subsidiary purposes only. This bill was not put upon its passage. In April, 1870, Mr. Sherman introduced a bill "revising the laws relating to the mints, assay offices and coinage of the United States," which was accompanied by a letter from Mr. Boutwell, secretary of the treasury, stating that "the passage of the enclosed bill" would "conduce to the efficiency and economy of this important branch of the government service." On the 10th of January, 1871, the bill passed the senate and the next day went to the house.

There has been considerable dispute as to the means used to secure a passage of this bill. The friends of silver declare that the house was tricked into its passage, while the advocates of the bill affirm that it was fairly introduced and passed. It is, however, certain that the bill was never read in the house and that Mr. Kelley, who had first charge of the bill, did not himself understand its full import.

Section 14 of the bill provided that "the gold coins of the United States shall be a one dollar piece, which, at the standard weight of twenty-five and eight-tenths grains, shall be the unit of value." Section 16 of the act provided that the weight of the silver dollar should be 384 grains "and shall be a legal tender at its nominal value for any amount not exceeding \$5 in one payment." This section dropped the old dollar of 412 grains, substituting a new one of 384 grains in its place and limited its legal tender functions to \$5 and changed the ratio between gold and silver from 16 to 1 to 14.8 to 1.

Section 22 of the act took away the right to have silver coined for the benefit of the depositor—a right that had existed from the formation of the government. As the bill had been materially changed in the house it went back to the senate in May. The bill was reported back with various amendments, which were printed January 7, 1873. The bill, as amended in the senate, provided for a "trade dollar" of 420 grains troy, striking out the provision for a 384-grain dollar as provided by the house, but made the silver coins legal tender for not more than \$5. The senate also amended the deposit section, enabling a depositor to have trade dollars coined but no other silver coins. The bill passed the senate

January 17, 1873, and went to the house, which did not concur in the senate amendments. A conference committee was appointed which agreed to the senate bill, and on the 6th of February the senate adopted the committee's report and the house adopted it on the next day, and the bill became a law.

THE BLAND-ALLISON ACT OF 1873.

The act of 1873 was specially unpopular at the west and was violently assailed as well as vigorously defended, and numerous resolutions were introduced into the Forty-fifth congress to restore the silver dollar. Nov. 3, 1877, Mr. Bland moved to suspend the rules of the house and pass a bill providing "that there shall be coined at the several mints of the United States silver dollars of the weight of 412½ grains troy of standard silver, as provided in the act of Jan. 18, 1837, on which shall be the device and superscriptions provided by said act; which coins, together with all silver dollars heretofore coined by the United States of like weight and fineness, shall be a legal tender at their nominal value for all debts and dues public and private, except where otherwise provided by contract; and any owner of silver bullion may deposit the same at any United States coin-mint or assay office, to be coined into such dollars, for his benefit, upon the same terms and conditions as gold bullion is deposited for coinage under existing laws.

"All acts and parts of acts inconsistent with the provisions of this act are hereby repealed."

This was agreed to and passed by a vote of 164 to 34 and it went to the senate. Mr. Allison moved in the senate to amend by striking out the last clause commencing "and any owner" and inserting the following:

"And the secretary of the treasury is authorized and directed, out of any money in the treasury not otherwise appropriated, to purchase, from time to time, silver bullion, at the market price thereof, not less than two million dollars per month nor more than four million dollars per month, and cause the same to be coined monthly, as fast as so purchased, into such dollars. And any gain or seigniorage arising from this coinage shall be accounted for and paid into the treasury, as provided under existing laws relative to the subsidiary coinage; provided, that the amount of money at any one time invested in such silver bullion, exclusive of such resulting coin, shall not exceed five million dollars."

The Bland bill with Allison's amendment passed the senate Feb. 15, 1878, by a vote of 48 to 21. The bill went back to the house for concurrence Feb. 21, 1878, when it passed by a vote of 238 to 72.

President Hayes vetoed the bill Feb. 28, and in the same day it was passed over his veto by a vote of 196 to 73 in the house and 46 to 19 in the senate. This bill, instead of restoring silver to its place as a money metal, provided merely for making money out of silver, but it restored the legal tender power of the old dollar, except where "expressly stipulated in the contract" gold was to be paid.

PERIOD FROM 1878 TO 1890.

Neither the silver advocates nor the single standard champions accepted as final the act of 1873. In the extra session of the Forty-sixth congress Mr. Warner of Ohio April 30, 1879, introduced a bill amending section 3511 of the Revised Statutes so as to read as follows: "The gold coins of the United States shall be a dollar or unit," etc.

Also amending section 3513 of the Revised Statutes so as to make it read: "The silver coins of the United States shall be a dollar or unit," etc., thus restoring the unit to both metals.

Also to amend section 3520 of the Revised

Statutes so as to make it read: "Any owner of silver bullion may deposit the same at any mint, to be formed into bars or into standard dollars of the weight of 412½ grains troy, for his benefit," etc., thus restoring unlimited coinage.

Also section 3555 so as to make it read: "The gold coins of the United States and standard silver dollars shall be a legal tender in all payments," etc., thus restoring to silver full legal-tender power the same as gold. This bill passed the house May 24 by a vote of 114 to 97. It went to the senate but was never acted upon.

June 4, 1879, an act was passed raising the limit of legal tender for subsidiary silver coins to \$10, and also providing for their redemption in full legal tender money.

June 17, 1879, Mr. Vest of Missouri offered the following in the senate: "Resolved, That the complete remonetization of silver, its full restoration as a monetary metal, and its free coinage by the mints of the United States are demanded alike by the dictates of justice and wise statesmanship." This resolution was referred to the senate committee on finance by a vote of 23 to 22 and was not again heard of.

In the forty-ninth congress a proviso was attached to the sundry civil appropriation bill authorizing the issue of one, two and five dollar silver certificates. This provision has operated to remove, in a measure, the objections to silver where large sums are required in small denominations, as in pay-rolls on railroads and other like operations.

ACTION OF THE FIFTY-FIRST CONGRESS.

On the 20th of January, 1890, Mr. Conger of Iowa introduced a bill into the house which was formulated by the treasury department. It was referred to the committee on coinage, weights and measures and on the 26th of March was reported back to the house. The bill as reported to the house was as follows (No. 5381):

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That any owner of silver bullion, the product of the mines of the United States or of ores smelted or refined in the United States, may deposit the same at any coinage-mint or at any assay office in the United States that the secretary of the treasury may designate, and receive therefor treasury notes hereinafter provided for, equal at the date of deposit to the net value of such silver, at the market price; such price to be determined by the secretary of the treasury under rules and regulations prescribed, based upon the price current in the leading silver markets of the world, but no deposit consisting in whole or in part of silver bullion or foreign silver coins imported into this country, or bars resulting from melted or refined foreign silver coins, shall be received under the provisions of this act.

Sec. 2. That the secretary of the treasury shall cause to be prepared treasury notes in such amounts as may be required for the purpose of the above section, and in such form and denominations as he may prescribe: *Provided*, That no note shall be of a denomination less than one dollar nor more than one thousand dollars.

Sec. 3. That the notes issued under this act shall be receivable for customs, taxes, and all public dues, and when received into the treasury may be reissued, and such notes, when held by any national banking association, shall be counted as part of its lawful reserve.

Sec. 4. That the notes issued under the provisions of this act shall be redeemed upon demand at the treasury of the United States or at the office of an assistant treasury of the United States, by the issue of a certificate of

deposit for the sum of the notes so presented, payable at one of the mints of the United States, in an amount of silver bullion equal in value on the date of said certificate to the number of dollars stated therein, at the market price of silver, to be determined as provided in section 1; or such notes may be redeemed in gold coin, at the option of the government: *Provided*, That upon demand of the holder such notes shall be redeemed in silver dollars.

Sec. 5. That when the market price of silver, as determined by the secretary of the treasury, shall exceed one dollar for 371.25 grains of pure silver, it shall be the duty of the secretary of the treasury to refuse to receive deposits of silver bullion for the purposes of this act: *Provided*, That when the market price of silver, as determined in accordance with section 1 of this act, is one dollar for 371.25 grains of pure silver, it shall be lawful for the owner of any silver bullion, the deposit of which for notes is herein provided for, to deposit the same at any coinage-mint of the United States, to be formed into standard silver dollars for his benefit, as provided in the act of January 18, 1837.

Sec. 6. That the silver bullion deposited under this act, represented by treasury notes which have been redeemed in gold coin or in silver dollars, may be coined into standard silver dollars or any other denomination of silver coin now authorized by law, for the purpose of replacing the coin used in the redemption of the notes.

Sec. 7. That so much of the act of February 28, 1875, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage into silver dollars of not less than two million dollars nor more than four million dollars' worth of silver bullion, is hereby repealed.

Sec. 8. That any gain or seigniorage arising from the coinage which may be executed under the provisions of this act shall be accounted for and paid into the treasury as provided by existing law.

Sec. 9. That silver bullion received under the provisions of this act shall be subject to the requirements of existing law, and the regulations of the mint service, governing the methods of receipt, determining the amount of pure silver contained, and the amount of charges or deductions, if any, to be made.

Sec. 10. That it shall be the duty of the collectors of customs of the United States to stamp with a steel stamp on every bar of silver bullion imported into the United States the word "foreign." It shall be the duty of every assayer or refiner in the United States, or any other person or firm, who may receive bars of silver stamped "foreign," in case such bars are remelted or refined, to stamp with a steel stamp the resulting bars "foreign." In case bars of silver stamped "foreign" are remelted or refined with other silver products of the United States in such a way that it is not possible to separate in the resulting bars the exact product of such foreign silver, it shall be the duty of such assayer or refiner, or other person or firm, to stamp with a steel stamp on an amount of silver bars which shall be equivalent to the amount of foreign silver melted or refined the word "foreign." It shall be the duty of every assayer or refiner in the United States, or any other person or firm, who may receive coins of silver of the coinage of countries other than the United States, in case such coins are remelted or refined, to stamp with a steel stamp the resulting bars "foreign." In case foreign silver coins are remelted or refined with other silver products of the United States in such a way that it is not possible to separate in the resulting bars

the exact product of such foreign silver coins, it shall be the duty of such assayer or refiner, or other person or firm, to stamp with a steel stamp on an amount of silver bars which shall be equivalent to the amount of foreign silver coins melted or refined the word "foreign." Every person who fails to stamp bars resulting from the remelting or refining of foreign silver bullion or foreign silver coins with the word "foreign," and every person who falsely removes this stamp or who by any art, way or means mutilates the stamp for the purpose of preventing identification of the bars, shall be punished by a fine of not less than \$100 nor more than \$1,000 for each bar: *Provided*, That nothing in this section shall be held to apply to silver products extracted by the processes of smelting, amalgamation, and lixiviation or any other metallurgical process, in the United States, from ores imported from foreign countries.

Sec. 11. That nothing in this act shall be construed to prevent the purchase, from time to time, as may be required, of silver bullion for the subsidiary silver coinage, not to affect the legal-tender quality of the standard silver dollar.

Sec. 12. That a sum sufficient to carry out the provisions of this act is hereby appropriated, out of any money in the treasury not otherwise appropriated.

Sec. 13. That all acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

Sec. 14. That this act shall take effect thirty days from and after its passage.

A minority report was made, signed by Mr. Bland and Mr. Williams, recommending free coinage as proposed in the following bill:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That from and after the passage of this act all holders of silver bullion of the value of \$50 or more, standard fineness, shall be entitled to have the same coined in standard silver dollars of 412½ grains troy of standard silver to the dollar, upon like terms and conditions as gold is now coined for private holders; that the standard silver dollar heretofore coined and herein provided for shall be the unit of account and standard of value in like manner as now provided for the gold dollar, and shall be a legal tender for all debts, public and private, except where otherwise stipulated.

Sec. 2. That so much of the provisions of the act of February 28, 1878, entitled "An act to authorize the coinage of the standard silver dollar and restore its legal-tender character," as provides for issuing certificates on the deposit of silver dollars, shall be applicable to the coin herein named; and so much of the said act of February 28, 1878, as provides for the purchase of silver bullion to be coined monthly into standard silver dollars, be, and the same is, hereby repealed.

Sec. 3. That the secretary of the treasury is hereby authorized to adopt such rules and regulations as may be necessary to enforce the provisions of this act.

On the 25th of February, Mr. Jones of Nevada reported from the finance committee to the senate the following as a substitute for other bills before the committee:

Be it enacted, etc., That the secretary of the treasury is hereby directed to purchase from time to time silver bullion to the aggregate amount of \$4,500,000 worth in each month, at the market price thereof, not exceeding one dollar for 371.25 grains of pure silver, and also to purchase such gold bullion as may be offered at the treasury or any subtreasury of the United States at a price not exceeding one dollar for 23.22 grains of pure gold, and to issue in payment for such purchases of silver

and gold bullion treasury notes to be prepared by the secretary of the treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe, and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the treasury not otherwise appropriated.

Sec. 2. That the treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in lawful money of the United States, at the treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed shall be canceled; and such treasury notes shall be receivable for customs, taxes and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve.

Sec. 3. That the secretary of the treasury shall coin such portion of the gold or silver bullion purchased under the provisions of this act as may be necessary to provide for the redemption of the treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the treasury.

Sec. 4. That the gold and silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service, governing the methods of determining the amount of pure gold or pure silver contained, and the amount of charges or deductions, if any, to be made.

Sec. 5. That so much of the act of Feb. 28, 1878, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal-tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than \$2,000,000 nor more than \$4,000,000 worth of silver bullion, is hereby repealed.

Sec. 6. That this act shall take effect thirty days from and after its passage.

Meanwhile petitions from many parts of the country asking for the free coinage of silver were presented in both houses.

The bills as presented by their respective committees to the house and senate contained provisions differing widely, which, from a partisan standpoint, it was important to harmonize. The differences were made the subject of a joint caucus by the republicans of the two houses. The disagreement was principally over the bullion redemption feature of the house bill, and on this point no agreement was reached, as certain of the western senators, led by Senator Teller, refused to assent to this provision of the treasury scheme.

The provisions agreed upon, however, by a majority of those attending the caucus were incorporated in a new bill which was introduced in the house by Mr. Conger, April 24, and referred to the committee on coinage, weights and measures. The bill was there amended so as to make the purchase \$4,500,000 worth instead of 4,500,000 ounces, as in the first caucus bill, and making notes issued therefor redeemable in "coin" instead of "lawful money." The bill as amended was offered in the house by Mr. Conger, June 6th, as a substitute for the original committee bill which had been previously reported to the house. It was debated until the 7th. It passed the house by a vote of 135 to 119. The 135 years were all republicans and the 119 nays contained 112 democrats and 7 republicans.

The bill as it passed the house contained two important features—the bullion redemption clause and the section providing for free coinage when silver reached parity with gold on our ratio, or \$1.29 an ounce. The bill went

to the senate June 9th, and on motion of Mr. Teller was ordered to be printed and lie on the table. On the following day it was, on motion of Mr. Morrill, referred to the committee on finance. It was reported back to the senate by Mr. Morrill June 11th with sundry amendments, and with notice that he would at the proper time offer it as a substitute for the bill then pending in the senate. It was ably discussed on both sides till June 17th, when it was put upon its passage and passed on that day by a vote of 42 to 25. The bill as it passed the senate was as perfect a free coinage measure as could be desired. The first section restored the unit to both metals, as in the act of 1792, made the coinage of both metals free and made silver as well as gold full legal tender for all purposes. It also made all certificates issued on either gold or silver, legal tender for all debts, public and private. Thus the bill went back to the house with the substitution of free coinage in lieu of the purchase of four and a half millions worth of silver a month, with bullion redemption.

THE SENATE BILL IN THE HOUSE.

This bill which passed the senate as a substitute for house bill No. 5381, came back to the house June 18th and was referred to the committee on coinage, weights and measures. This reference of the bill by the speaker was called in question by Mr. Mills of Texas, who on the next day objected to the approval of the journal of the house which contained the reference of the bill. The point was that the bill should come before the house without a reference to a committee. The house voted to correct the journal by a vote of 132 to 130. The speaker ruled that the bill had been properly referred to the committee and was with that committee. In the long wrangle over this matter free coinage which had passed the senate failed to pass the house. The bill came up again in the house June 24th. After being debated, Mr. Bland moved that the senate amendments be concurred in which was lost by a vote of 135 to 152. Thus free coinage which passed the senate by a vote of seventeen was lost in the house by exactly the same vote.

THE PRESENT LAW.

June 28, 1890, the senate was notified that the house had disagreed to the senate amendments to bill 5381, and asked for a committee of conference. The request was granted and a committee consisting of Messrs. Conger, Walker and Bland on the part of the house, and Messrs. Sherman, Jones and Harris on the part of the senate was appointed. The committee made its report which was agreed to by the senate July 10, by a vote of 39 to 26, and by the house July 11, by a vote of 122 to 50. The vote was a strict party one, all the affirmative votes in the house being republicans, and all the negative votes being democrats. The following is the law as passed, which went into effect July 14, 1890:

PURCHASE OF BULLION.

An act directing the purchase of silver bullion and the issue of treasury notes thereon, and for other purposes:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, That the secretary of the treasury is hereby directed to purchase, from time to time, silver bullion to the aggregate amount of four million five hundred thousand ounces, or so much thereof as may be offered in each month, at the market price thereof, not exceeding one dollar for three hundred and seventy-one and twenty-five hundredths grains of pure silver, and to issue in payment for such purchases of silver bull-

ion treasury notes of the United States to be prepared by the secretary of the treasury, in such form and of such denominations, not less than one dollar nor more than one thousand dollars, as he may prescribe, and a sum sufficient to carry into effect the provisions of this act is hereby appropriated out of any money in the treasury not otherwise appropriated.

Sec. 2. That the treasury notes issued in accordance with the provisions of this act shall be redeemable on demand, in coin, at the treasury of the United States, or at the office of any assistant treasurer of the United States, and when so redeemed may be reissued, but no greater or less amount of such notes shall be outstanding at any time than the cost of the silver bullion and the standard silver dollars coined therefrom, then held in the treasury purchased by such notes; and such treasury notes shall be a legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract, and shall be receivable for customs, taxes, and all public dues, and when so received may be reissued; and such notes, when held by any national banking association, may be counted as a part of its lawful reserve. That upon demand of the holder of any of the treasury notes herein provided for the secretary of the treasury shall, under such regulations as he may prescribe, redeem such notes in gold or silver coin, at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other upon the present legal ratio, or such ratio as may be provided by law.

Sec. 3. That the secretary of the treasury shall each month coin two million ounces of the silver bullion purchased under the provisions of this act into standard silver dollars until July 1, 1891, and after that time he shall coin of the silver bullion purchased under the provisions of this act as much as may be necessary to provide for the redemption of the treasury notes herein provided for, and any gain or seigniorage arising from such coinage shall be accounted for and paid into the treasury.

Sec. 4. That the silver bullion purchased under the provisions of this act shall be subject to the requirements of existing law and the regulations of the mint service governing the methods of determining the amount of pure silver contained and the amount of charges or deductions, if any, to be made.

Sec. 5. That so much of the act of February 28, 1878, entitled "An act to authorize the coinage of the standard silver dollar and to restore its legal tender character," as requires the monthly purchase and coinage of the same into silver dollars of not less than \$200,000, nor more than \$4,000,000 worth of silver bullion, is hereby repealed.

Sec. 6. That upon the passage of this act the balances standing with the treasurer of the United States to the respective credits of national banks for deposits made to redeem the circulating notes of such banks, and all deposits thereafter received for like purpose, shall be covered into the treasury as a miscellaneous receipt, and the treasury of the United States shall redeem from the general cash in the treasury the circulating notes of said banks which may come into his possession subject to redemption; and upon the certificate of the comptroller of the currency that such notes have been received by him and that they have been destroyed and that no new notes will be issued in their place, reimbursement of their amount shall be made to the treasurer, under such regulations as the secretary of treasury may prescribe, from an appropriation hereby created, to be known

as national bank notes: redemption account, but the provisions of this act shall not apply to the deposits received under section 3, of the act of June 30, 1874, requiring every national bank to keep in lawful money with the treasurer of the United States a sum equal to five per centum of its circulation, to be held and used for the redemption of its circulating notes; and the balance remaining of the deposits so covered shall, at the close of each

month, be reported on the monthly public debt statement as debt of the United States bearing no interest.

Sec. 7. That this act shall take effect thirty days from and after its passage. (Approved July 14, 1890.)

This law is in the nature of a compromise, and as it is not satisfactory to either side it is more than probable that the end of the silver controversy is not yet,

MONEY IN THE UNITED STATES.

Statement showing the amount of money in the treasury and in circulation on the 1st day of July in the years name 1. Prepared at the Treasury Department:

YEAR.	Amt. of Money in United States.	Amt. in Circulation.	Population.	Money per capita.	Circulation per capita.

THE NEW ORLEANS MASSACRE.

History of the affair and the diplomatic correspondence following it. Prepared by William E. Curtis of the State Department.

On the night of October 15, 1890, David C. Hennessey, chief of police in the City of New Orleans, La., was murdered in the street of that city. On the 13th of December following, Antonio Scaffidi, Antonio Bagnetto, Antonio Marchesi, Pietro Monastero, Charles Traina, Manuel Politz, and Loretto Comitz were indicted as principals and James Caruso, Roco Gerachi, Frank Romero, and Joseph P. Macheca as accessories before the fact. About the middle of February 1891 they were arraigned for trial. Nine of them were tried separately. On the 13th of March Bagnetto, Marchesi, and Macheca were found not guilty and in the cases of Scaffidi, Politz, and Monastero the jury failed to agree. The verdict was universally condemned in New Orleans as unjust and a meeting was called to be held at 10:30 o'clock a.m. on the 15th of March to take into consideration the vindication of the law. At the appointed hour a large crowd assembled and proceeded to the parish prison where the accused were confined and, forcing an entrance, shot them to death.

Eleven were killed in all and besides those named above, who had been tried, were James Caruso, Loretto Comitz, Frank Romero and Roco Gerachi who were awaiting trial.

On the 4th of December the secretary of state requested the attorney general to ascertain whether the persons indicted for the Hennessey murder were citizens of Italy or the United States. On the 20th of that month the U. S. District Attorney at New Orleans reported that of the persons indicted the following were naturalized citizens of the United States: Antonio Bagnetto, John Caruso, James Caruso, Charles Matrauga, Antonio

Marchesi, Antonio Scaffidi, Charles Pietzo, Joseph Macheca, Charles Potorno, Frank Romero, and that Salvador Coscenso was registered as a voter although there was no record of his naturalization. The following did not appear to have been naturalized: Asperi Marchese, Manuel Politz, Charles Trahani, Loretto Scovotis, Pietro Monastero, Pedro Martelli, Bastian Incardino, Salvatore Sinceri, Roco Gerachi.

On the 15th of March 1891, Baron Fava the Italian minister at Washington informed Mr. Blaine that eleven of the prisoners had been murdered by a mob, and submitted a dispatch from the Marquis de Rudini, Italian minister of foreign affairs at Rome, demanding in the name of justice and civilization that the federal administration interfere for the protection of the living prisoners, and the other members of the Italian colony in New Orleans. He demanded also that the mob, and those who inspired it be speedily brought to justice.

Mr. Blaine at once telegraphed the governor of Louisiana deploring the massacre, expressing the hope of the president that the subjects of a friendly power be furnished adequate protection, and that the leaders of the mob be promptly brought to justice. A telegram was at the same time sent to the United States minister to Rome instructing him to convey to the Italian government the profound horror and regret of the president and to assure it that every possible effort would be made to protect its subjects.

Several dispatches of a similar character passed between Washington and Rome on the following date.

Governor Nichols on the 16th of March in-

formed the secretary of state that there was no reason to apprehend further trouble, and that the action of the mob was directed against individuals and not against their race or nationality. Copies of the correspondence were telegraphed to Rome.

On the 18th of March Baron Fava handed the secretary of state a long statement of the massacre and the incidents that preceded it, and complained that the local authorities at New Orleans had been guilty of neglect of their duty. He also submitted a cablegram from the Marquis de Rudini directing him to apply for indemnity, as a declaration of regret on the part of the United States could not be accepted as reparation.

On the 21st of March Baron Fava repeated the demand and submitted a cablegram from Rudini insisting upon an official assurance from the government of the United States that the persons guilty of the massacre had been brought to justice. He also insisted upon immediate indemnity. On the same date Mr. Blaine called upon Baron Fava for the names, and condition of Italian subjects murdered in New Orleans.

On the 24th of March Baron Fava handed Mr. Blaine a cablegram from Rudini insisting that the demand of the Italian government for the punishment of the mob, and indemnity for their victims must be complied with or he would be under the painful necessity of recalling the Italian minister from a country where he is unable to obtain justice. On the following day Rudini telegraphed: "I cannot admit further delay." On the same day Baron Fava submitted a statement from the consul at New Orleans showing that three of the persons murdered were citizens of Italy, and that six had only declared their intention to be naturalized. On the 26th of March Baron Fava sent a note to Mr. Blaine by his secretary requesting an immediate answer to the demand of Rudini. In the meantime Mr. Blaine instructed the United States minister at Rome to explain to the Italian government the dual character of the government of the United States and the necessity of a thorough investigation of the circumstances of the massacre before a proper answer could be made to the demands of the Marquis de Rudini.

On the 31st of March Baron Fava again called the attention of Mr. Blaine to the demands of the Italian government, and insisted upon the assurance (1) that the guilty parties should be punished, and (2) that the principle that indemnity was due to the families of the victims should be recognized by the United States. As the secretary of state had in an interview declined to give this assurance, Baron Fava announced his withdrawal from Washington under the instruction of his government. On the following day Mr. Blaine replied to this communication, expressing regret at the departure of Baron Fava for which he was unable to see "adequate reasons," and continuing as follows:

"The cause of sundering his diplomatic relations with this government" said Mr. Blaine "is thus given in his note:

"The reparation demanded by the government of the king, as I have had the honor to inform you in our interviews held during the last few days, was to consist of the following points:

"(1) The official assurance by the federal government that the guilty parties should be brought to justice."

"(2) The recognition, in principle, that an indemnity is due to the relatives of the victims."

"The first demand thus stated by Baron Fava is slightly changed in phrase from that employed by him in his many verbal requests based on a telegram from the Marquis Rudini

which he left with me. The Marquis Rudini declared that 'Italy's right to demand and to obtain the punishment of the murderers and an indemnity for the victims is unquestionable.' It is inferred that Baron Fava's change of phrase meant no change of demand."

"I have endeavored to impress upon him, in the several personal interviews with which he has honored me, that the government of the United States is utterly unable to give the assurance which the Marquis Rudini has demanded. Even if the national government had the entire jurisdiction over the alleged murderers, it could not give assurance to any foreign power that they should be punished. The president is unable to see how any government could justly give an assurance of this character in advance of investigation or trial."

"In the constitution of the United States it is declared that: In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial by an impartial jury of the state and district wherein the crime shall have been committed."

"It needs no argument to prove that a jury could not be impartial if it were in any sense, or to any degree, bound, before the trial of the accused, by an assurance which the president of the United States had ventured to give to a foreign power."

"In the constitution of the state of Louisiana, under whose immediate jurisdiction the crimes were committed, substantially the same provision is found; so that the governor of that state would be as unable to give a pledge in advance for the result of a trial under state law as the president would be were it practicable to try the leaders of the mob under the laws of the United States."

"In Baron Fava's second point he demands the recognition, in principle, that an indemnity is due to the relatives of the victims. He is assuredly under a grave error when he declares that the United States government declined to take this demand into consideration, and I shall regret if he has communicated such a conclusion to your government. The United States, so far from refusing, has distinctly recognized the principle of indemnity to those Italian subjects who may have been wronged by a violation of the rights secured to them under the treaty with the United States concluded February 26, 1871."

"I have repeatedly given to Baron Fava the assurance that, under the direction of the president, all the incidents connected with the unhappy tragedy at New Orleans on the 14th of March last should be most thoroughly investigated. I have also informed him that in a matter of such gravity the government of the United States would not permit itself to be unduly hurried; nor will it make answer to any demand until every fact essential to a correct judgment shall have been fully ascertained through legal authority. The impatience of the aggrieved may be natural, but its indulgence does not always secure the most substantial justice."

"Accept, etc.,

JAMES G. BLAINE."

Under date of April 1, Mr. Porter the United States minister at Rome informed the department of state that while the Italian government understood the division between the federal and state jurisdictions in criminal cases under the constitution of the United States, the ministry was not satisfied that the federal authority was making as strenuous efforts to bring the murderers to justice as the circumstances required; that parliament was to meet on the 14th; and that being a coalition ministry it dreaded criticism for lack of vigor, wanted to be armed by some assurance from President Harrison that the perpetrators of

the crime would certainly be brought to justice.

On the following day the Marquis Imperiali, first secretary of the Italian legation furnished Mr. Blaine with a copy of a dispatch from Rudini, saying:

"The government of the king of Italy has asked nothing beyond the prompt institution of judicial proceedings through the regular channels. It would have been absurd to claim the punishment of the guilty parties without the warrant of a regular judgment. The Italian government now repeats the same demand. Not until the federal government shall have explicitly declared that the fore-said proceedings shall be promptly begun can the diplomatic incident be considered as closed. Meanwhile his majesty's government takes note of the declaration whereby the federal government recognizes that an indemnity is due to the families of the victims in virtue of the treaty in force between the two countries."

To this Mr. Blaine replied: "This government certainly has no desire whatever to change the meaning of the Marquis Rudini's telegram of March 24. It was delivered at the state department by Baron Fava in person, written in his own hand, and expressed in the English language. The following is the full text of the telegram:

"ROME, March 24, 1891.—*Italian Minister, Washington:* Our requests to the federal government are very simple. Some Italian subjects, acquitted by the American magistrates, have been murdered in prison while under the immediate protection of the authorities. *Our right, therefore, to demand and obtain the punishment of the murderers and an indemnity for the victims is unquestionable.* I wish to add that the public opinion in Italy is justly impatient, and, if concrete provisions were not at once taken, I should find myself in the painful necessity of showing openly our dissatisfaction by recalling the minister of his majesty from a country where he is unable to obtain justice. [Signed] **RUDINI.**"

"The words underscored are precisely those which I quoted in my former note; and I am directed by the president to express the satisfaction of this government with the very material qualification of the demand made by the Marquis Rudini on behalf of the Italian government."

"You quote in your note another part of the Marquis Rudini's telegram of April 2 in these words:

"Meanwhile his majesty's government takes note of the declaration whereby the federal government recognizes that an indemnity is due to the families of the victims in virtue of the treaty in force between the two countries."

"If the Marquis Rudini will carefully examine my note of April 1 he will discover that I did not recognize that an indemnity is due to the families of the victims in virtue of the treaty in force between the two countries."

What I did say was in answer to Baron Fava's assertion that the United States government refused to take this demand for indemnity into consideration. I quote my reply: "The United States, so far from refusing, has distinctly recognized the principle of indemnity to those Italian subjects who may have been wronged by a violation of the rights secured to them under the treaty with the United States concluded February 26, 1851."

"The Marquis Rudini may be assured that the United States would recompense every Italian subject who might be wronged by the violation of a treaty to which the faith of the United States is pledged. But this assurance leaves unsettled the important question whether the treaty has been violated. Upon this point the president, with sufficient facts placed before him, has taken full time for de-

cision. He now directs that certain considerations on the general subject be submitted to the judgment of the Italian government."

"As a precedent of great value to the case under discussion, the president recalls the conclusion maintained by Mr. Webster in 1851, when he was secretary of state under President Fillmore. In August of that year a mob in New Orleans demolished the building in which the office of the Spanish consul was located, and at the same time attacks were made upon coffee-houses and cigar shops kept by Spanish subjects. American citizens were involved in the losses, which, in the aggregate, were large. The supposed cause of the mob was the intelligence of the execution of fifty young Americans in Havana and the banishment to Spanish mines of nearly two hundred citizens of the United States. The victims were all members of the abortive Lopez expedition."

"In consequence of these depredations of the mob upon the property of the Spanish consul, as well as against the Spanish subjects, Don Calderon de la Barca, the minister of Spain, demanded indemnification for all the losses, both official and personal."

"Mr. Webster admitted that the Spanish consul was entitled to indemnity, and assured the Spanish minister that if the injured consul, Mr. Laborde, shall return to his post, or any other consul for New Orleans shall be appointed by her catholic majesty's government, the officers of this government resident in that city will be instructed to receive and treat him with courtesy and with a national salute to the flag of his ship, if he shall arrive in a Spanish vessel as a demonstration of respect, such as may signify to him and to his government the sense entertained by the government of the United States of the gross injustice done to his predecessor by a lawless mob, as well as the indignity and insult offered by it to a foreign state with which the United States are, and wish ever to remain, on terms of the most respectful and pacific intercourse."

"But when pressed by the Spanish minister to afford indemnity to Spanish subjects injured by the mob in common with American citizens, Mr. Webster declined to accede to the demand and gave his reasons as follows:

"This government supposes that the rights of the Spanish consul, a public officer residing here under the protection of the United States government, are quite different from those of the Spanish subjects who have come into the country to mingle with our own citizens and here to pursue their private business and objects. The former may claim special indemnity; the latter are entitled to such protection as is afforded to our own citizens. While, therefore, the losses of individuals, private Spanish subjects, are greatly to be regretted, yet it is understood that many American citizens suffered equal losses from the same cause; and these private individuals, subjects of her catholic majesty, coming voluntarily to reside in the United States, have certainly no cause of complaint if they are protected by the same laws and the same administration of law as native-born citizens of this country. They have, in fact, some advantages over citizens of the state in which they happen to be, inasmuch as they are enabled, until they become citizens themselves, to prosecute for any injuries done to their persons or property in the courts of the United States or the state courts, at their election."

"It is proper, however, to add that two years after Mr. Webster wrote the foregoing note to congress, in recognition of certain magnanimous conduct on the part of the queen of Spain in pardons bestowed on Americans who had unjustly invaded the island of Cuba, enacted a joint resolution, approved by Presi-

dent Fillmore March 3, 1853, the last day of his term, indemnifying the Spanish consul and other Spanish subjects for the losses sustained in the New Orleans mob of 1851. The considerations upon which this resolution was passed were held not to contravene the original position of Mr. Webster, shared also by President Fillmore.

"The right to judicial remedy which Mr. Webster assured to the Spanish subjects is likewise assured to the Italian subjects. The right is specially guaranteed in the second section of the third article of the constitution. And, as Mr. Webster points out, the resident alien has a privilege which is denied to the citizen. The widows and children of the citizens who lost their lives by mob violence may sue the leaders and members of the mob only in the courts of the state of Louisiana, while the widows and children of the Italian subjects who suffered death have the right to sue each member of the mob, not only in the state courts, but also before the federal tribunals for the district of Louisiana.

"Provision is made in the revised civil code of Louisiana for redress of such grievances as the widows and children of the victims of the mob may plead. I quote:

"ARTICLE 2314. Every act whatever of man that causes damage to another obliges him by whose fault it happened to repair it. The right of this action shall survive, in case of death, in favor of the minor children and widow of the deceased, or either of them, and, in default of these, in favor of the surviving father or mother, or either of them, for the space of one year from the death."

"ART. 2315. Every person is responsible for the damage he occasions, not merely by his act, but by his negligence, his imprudence or his want of skill."

"ART. 2324. He who causes another person to do an unlawful act, or assists or encourages in the commission of it, is answerable *in solido* with that person for the damage caused by such act."

"The government of the United States would feel justified in resting on the argument and conclusion of Mr. Webster if the mob of March 14, 1851, did not, in some of its characteristics, differ from the mob of 1851. But it is due to entire candor, due to this government and due to the government of Italy to point out certain differences of which the government of the United States is honorably bound to take notice. In the case of the mob of 1851 Mr. Webster asserts that 'no personal injury was offered to anyone'; that 'the police and other legal authorities did all that was possible to preserve the peace and arrest the rioters'; that 'the mob acted in the heat of blood and not in pursuance of any predetermined plan or purpose of injury or insult'; that 'the mob was composed of irresponsible persons, the names of none of whom are known to the government of the United States, nor, so far as the government is informed, to its officers in New Orleans.'

"As promptly as possible after the lamentable occurrence at New Orleans the president directed the attorney-general to cause through his department a full inquiry to be made into all facts connected therewith, and solicited his opinion whether any criminal proceedings would lie under the federal laws in the federal courts against persons charged with the killing of Italian subjects. He has not yet received the official report. If it be found that a prosecution can be maintained under the statutes of the United States, the case will be presented to the next grand jury according to the usual methods of criminal administration. But if it shall be found, as seems probable, that criminal proceedings can only be taken in the courts of Louisiana,

the president can in this direction do no more than to urge upon the state officers the duty of promptly bringing the offenders to trial. This was done in his telegram to the governor of Louisiana as early as March 15. If it shall result that the case can be prosecuted only in the state courts of Louisiana, and the usual judicial investigation and procedure under the criminal law is not resorted to, it will then be the duty of the United States to consider whether some other form of redress may be asked. It is understood that the state grand jury is now investigating the affair, and while it is possible that the jury may fail to present indictments, the United States cannot assume that such will be the case.

"The United States did not by the treaty with Italy become the insurer of the lives or property of Italian subjects resident within our territory. No government is able, however high its civilization, however vigilant its police supervision, however severe its criminal code, and however prompt and inflexible its criminal administration, to secure its own citizens against violence promoted by individual malice or by sudden popular tumult. The foreign resident must be content in such cases to share the same redress that is offered by the law to the citizen; and has no just cause of complaint or right to ask the interposition of his country if the courts are equally open to him for the redress of his injuries.

"The treaty, in the first, second, third, and, notably, in the twenty-third articles, clearly limits the rights guaranteed to the citizens of the contracting powers in the territory of each to equal treatment and to free access to the courts of justice. Foreign residents are not made a favored class. It is not believed that Italy would desire a more stringent construction of her duty under the treaty. Where the injury inflicted upon a foreign resident is not the act of the government or of its officers, but of an individual or of a mob, it is believed that no claim for indemnity can justly be made, unless it shall be made to appear that the public authorities charged with the peace of the community have connived at the unlawful act, or having timely notice of the threatened danger, have been guilty of such gross negligence in taking the necessary precautions as to amount to connivance.

"If, therefore, it should appear that among those killed by the mob at New Orleans there were some Italian subjects who were resident or domiciled in that city, agreeably to our treaty with Italy and not in violation of our immigration laws, and who were abiding in the peace of the United States and obeying the laws thereof and of the state of Louisiana, and that the public officers charged with the duty of protecting life and property in that city connived at the work of the mob, or, upon proper notice or information of the threatened danger, failed to take any steps for the preservation of the public peace and afterward to bring the guilty to trial, the president would, under such circumstances, feel that a case was established that should be submitted to the consideration of congress with a view to the relief of the families of the Italian subjects who had lost their lives by lawless violence. Accept, etc."

"JAMES G. BLAINE"

On the 28th of April the United States attorney at New Orleans, under instructions from the attorney general, submitted a lengthy report of the indictment, trial and murder of the Italians, with a brief biography of each, and all the evidence that could be obtained concerning their nativity and citizenship. This report shows that Charles Traina, Loretta Comitz and Pietro Monastero only of all the victims were not citizens of the United States, or had not filed a declaration of their

intention to become such. He also submitted evidence of the existence of a secret society organized for the purpose of crime; also a list of assassinations, ninety-four in number, which were alleged to have been committed by members of this society.

On the 3d of May Marquis Rudini addressed the following to the Italian charge d'affaires at Washington, which was not transmitted to the secretary of state but was published in the newspapers:

"I have now before me a note addressed to you by Secretary Blaine April 14. Its perusal produces a most painful impression upon me. I will not stop to lay stress upon the lack of conformity with diplomatic usages displayed in making use, as Mr. Blaine did not hesitate to do, of a portion of a telegram of mine communicated to him in strict confidence, in order to get rid of a question clearly defined in our official documents, which alone possess a diplomatic value; nor will I stop to point out the reference in this telegram of mine of March 24 that the words 'punishment of the guilty' in the brevity of telegraphic language actually signified only that prosecution ought to be commenced in order that the individuals recognized as guilty should not escape punishment.

"Far above all astute arguments remains the fact that henceforth the federal government declares itself conscious of what we have constantly asked and yet it does not grant our legitimate demands.

"Mr. Blaine is right when he makes the payment of indemnity to the families of the victims dependent upon proof of the violation of the treaty; but we shrink from thinking that he considers that the fact of such violation still needs proof. Italian subjects acquitted by American juries were massacred in prisons of the state without measures being taken to defend them.

"What other proof does the federal government expect of a violation of a treaty wherein constant protection and security of subjects of the contracting parties is expressly stipulated?

"We have placed on evidence that we have never asked anything else but the opening of regular proceedings. In regard to this, Baron Fava's first note, dated March 15, contained even the formula of the telegram addressed on the same day by Mr. Blaine, under the order of President Harrison, to the governor of Louisiana. Now, however, in the note of April 14 Mr. Blaine is silent on the subject

which is, for us, the main point of controversy.

"We are under the sad necessity of concluding that what to every other government would be the accomplishment of simple duty is impossible to the federal government. It is time to break off the bootless controversy. Public opinion, the sovereign judge, will know how to indicate an equitable solution of this grave problem.

"We have affirmed, and we again affirm, our right. Let the federal government reflect upon its side if it is expedient to leave to the mercy of each state of the Union, irresponsible to foreign countries, the efficiency of treaties pledging its faith and honor to entire nations.

"The present dispatch is addressed to you exclusively, not to the federal government.

"Your duties henceforth are solely restricted to dealing with current business."

On the day of the publication of the above document, Mr. Blaine called it to the attention of the American minister at Rome, and after quoting the first paragraph, said:

"The intimation of the Marquis Rudini that the telegram in question was delivered in strict confidence is a total error. As the telegram expressed the demand of the Italian government, it was impossible that Marquis Rudini could transmit it in strict confidence. As I have already stated, it was communicated to me in person by Baron Fava, written in English in his own handwriting, without a suggestion of privacy and the telegram itself has not a single mark upon it denoting a confidential character. I have caused a number of copies of the telegram to be forwarded to you to-day in facsimile. The usual mark for italic printing was used by me under four lines, and they appear in the copies. You will use the facsimiles in such manner as will most effectually prove the error into which the Marquis Rudini has fallen. BLAINE."

This closed the correspondence between the United States and the Italian government.

On the 19th of May the attorney-general of the United States forwarded to the secretary of state a copy of the report of the grand jury as to the murder of the prisoners in the parish jail, to which is appended the report of the committee of fifty citizens on the existence of secret societies in New Orleans. Both these reports show with reasonable conclusiveness that the jury that tried the prisoners had been tampered with by the friends of the prisoners and that the trial was a travesty on justice.

American Telescopes.

The twelve largest refracting telescopes are those of the Lick Observatory, with an aperture of 36 inches, Yale University, 28; United States Naval, 26; Leander McCormick, 23; Princeton, 23; Denver, 20; Smithsonian, 20; Dearborn, 18.5; Carleton College, 16.2; Warner, 16; Washington, 15.5, and Harvard, 15. The largest reflecting telescopes are those of Harvard College, 28 inches, and the Rev. Dr. John Peate, 22. Dr. Peate, who is an amateur maker, has finished a 31½ inch silver-on-glass mirror, which will be presented to the Allegheny college at Meadville. When mounted it will be the largest reflecting telescope in this country. There are numerous reflectors made by Brashear from nine to twelve inches in diameter. The Clarks have ground an object glass of forty inches for a telescope to be mounted in an observatory yet to be built on Mount Wilson, in Southern California. Though the Lick Observatory possesses the largest telescope at present, Harvard college has the best equipped observatory for general astronomical work in America, and one of the best in the world.

Northern Explorations.

The most northern point ever attained by man was reached by Lieut. James B. Lockwood, a member of the American Lady Franklin Bay Expedition, who May 13, 1882, stood under 82° 28' N. He was accompanied by Sergt. Brainard, who in his field notes says: "We have reached a higher latitude than ever before reached by mortal man, and on a land farther north than was supposed by many to exist. We unfurled the glorious stars and stripes to the exhilarating northern breezes with an exultation impossible to describe." For three centuries England had held the honors of the farthest north. The following table shows the farthest points of north latitude reached by Arctic explorers:

Year.	Explorers.	D. M. S.
1607.	Hudson.....	80 23 00
1731.	Phips (Lord Musgrave).....	80 48 00
1806.	Scoresby.....	81 12 42
1827.	Perry.....	82 45 30
1874.	Meyer (on land).....	82 00 00
1875.	Markham (Nares' expedition).....	83 20 26
1876.	Payer.....	83 07 00
1882.	Lockwood (Greely's expedition).....	83 28 08

UNITED STATES STANDARD WEIGHTS AND MEASURES.

The following tables have been issued from the office of standard weights and measures, United States coast and geodetic survey, T. C. Mendenhall, superintendent:

The only authorized material standard of customary length is the Troughton scale belonging to this office, whose length at 59.62 deg. Fahr. conforms to the British standard. The yard in use in the United States is therefore equal to the British yard.

The only authorized material standard of customary weight is the troy pound of the mint. It is of brass of unknown density, and therefore not suitable for a standard of mass. It was derived from the British standard troy pound of 1758 by direct comparison. The British avoirdupois pound was also derived from the latter, and contains 7,000 grains troy.

The grain troy is therefore the same as the grain avoirdupois, and the pound avoirdupois in use in the United States is equal to the British pound avoirdupois.

The British gallon, 4.54346 liters. The British bushel, 36.3477 liters.

By the concurrent action of the principal governments of the world an international bureau of weights and measures has been established near Paris. Under the direction of the international committee two ingots were cast of pure platinum-iridium in the proportion of nine parts of the former to one of the latter metal. From one of these a certain number of kilogrammes were prepared, from the other a definite number of meter bars. These standards of weight and length were intercompared, without preference, and certain ones were selected as international prototype standards. The others were distributed by lot to the different governments and are called national prototype standards. Those apportioned to the United States are in the keeping of this office.

The metric system was legalized in the United States in 1866.

The international standard meter is derived from the meter des archives, and its length is defined by the distance between two lines at 0° centigrade, on a platinum-iridium bar deposited at the international bureau of weights and measures.

The international standard kilogramme is a mass of platinum-iridium deposited at the same place, and its weight in vacuo is the same as that of the kilogramme des archives.

The liter is equal to a cubic decimeter of water, and it is measured by the quantity of distilled water which, at its maximum density, will counterpoise the standard kilogramme in a vacuum, the volume of such a quantity of water being, as nearly as has been ascertained, equal to a cubic decimeter.

FOREIGN IMMIGRATION.

NOTE.—Immigrants from the British North American Possessions and Mexico are not included in the statistics of immigration owing to the absence of law providing for the collection of accurate data in regard thereto. The arrivals of emigrants in the customs districts above specified comprise about 99 per cent. of the entire immigration into the country.

Arrivals, by nationalities and by decades, of alien passengers from October 1, 1820, to December 31, 1897, and of immigrants from January 1, 1898, to June 30, 1899.

Illinois.....	24	Missouri.....	17	Rhode Island....	4	Total.....	444
Indiana.....	15	Montana.....	3	South Carolina..	9		
Iowa.....	13	Nebraska.....	8	South Dakota....	4		

As the successful candidates for president and vice president must receive a majority of the whole electoral vote, it will require 223 to elect.

THE SEAL FISHERIES DISPUTE.

The territory of Alaska has been valuable for its seal fisheries. In 1799 the territory was granted by Russia to the Russo-American Fur Company which grant extended to 1839. This company established a station or settlement at New Archangel, one of the Alaskan islands, and annually exported about 25,000 skins of the seal, sea otter, beaver and other fur-bearing animals. In 1867 the whole Russian possessions in America were ceded to the United States, and on the 9th of October in that year our government took formal possession of the territory, paying therefor \$7,200,000. The seal fisheries continued to grow more valuable, and to prevent the total extinction of the seals, congress, in 1868, placed Alaska under the jurisdiction of the treasury department, and in the same act forbade the killing, except by the permission of the department, of any mink, marten, sable, or fur-seal, or other fur-bearing animal in the territory of Alaska or in the waters thereof. The Pribylov Islands of St. Paul and St. George, which are the breeding grounds of the seals, were leased to the Alaska Commercial Company of San Francisco at an annual rental of \$60,000 with a royalty of \$2 on every seal-skin shipped. The number permitted to be killed is 100,000 each year. With the increase of population on the Pacific coast the difficulty of preserving the seals from destruction became greatly increased. Vessels from British Columbia hovered around the seal islands, and found many ways of securing cargoes of seal-skins which the Alaska Company and the government could not prevent. American vessels also engaged in the forbidden traffic, and it became evident unless this poaching could be stopped that the total extinction of the seal was a matter of a very few years.

In 1876 the United States government sent cruisers to the Bering sea to stop such depredations, and since then a more or less effective policing of those islands and waters has been maintained. The Indians, however, carried on an illicit traffic in fur-skins which it was impossible to check. They would stalk and harpoon the seals on the islands, and take the skins in their boats out to sea, exchanging them with vessels engaged in the business, for money or whisky. In order to stop this business the treasury department in 1886 attempted to enforce the doctrine that the Bering sea was a *mare clausum*, and that the United States had jurisdiction over one-half of it. There is no doubt but that Russia had always maintained this doctrine, and that Great Britain had once admitted it, but in 1822 when Russia again attempted to claim sovereignty over the sea, both the United States and Great Britain raised a strong protest against the claim that any nation could assert territorial jurisdiction over a sea having an entrance more than 1000 miles in width. When, therefore, our own government made the same claim to jurisdiction that it had disputed when made by Russia, Great Britain again protested and used the same arguments against the claim that the United States had used when it was made by Russia in 1822.

The revenue cutter "Corwin" was sent to the Bering sea, and its commander was instructed to seize all sealers found east of a line drawn from between the Diomed Islands, in Bering sea, straight in a south-westerly direction to a point equi-distant from Copper, and Otter Islands in the Aleutian group. In 1886 the British schooners Carolina, Onward, and Thornton were captured and taken to Sitka. A trial was held, the vessels were condemned, the masters fined and the seal-skins on board were confiscated and sent

to San Francisco. The British government at once made a demand for the release of the prisoners and presented a claim against the United States of about \$160,000 for loss of property, damages, etc. In January 1887 the president directed the authorities of Alaska to release unconditionally the imprisoned men and to surrender the vessels and property. The order was not complied with until September. The treasury department, however, did not revoke its instructions to commanders of naval vessels in those waters but dispatched the "Rush" with the same instructions. In the summer of 1887 the "Rush" seized the British vessels Dolphin, Annie Beck, W. P. Saywood, Grace and Alfred Adams besides seven American sealers, at various distances from the shore, of from thirty to seventy miles. The British vessels were again released.

In 1889 a bill passed congress to provide for the better protection of the Alaskan fisheries, but in the law as passed the government tacitly receded from its claim that the Bering sea was a *mare clausum*. Arbitration of the whole subject was proposed and practically accepted. In the meantime the season was approaching when the animals seek the islands, and arbitration could not be completed in time to prevent the indiscriminate slaughter of seals by poachers. A *modus vivendi* was proposed to meet the pressing difficulty, and accepted. The correspondence which resulted in the adoption of the *modus vivendi* began with a letter from Secretary Blaine dated May 4, 1891, to the British minister, Sir Julian Pauncefote, to which a reply was made June 3. The whole correspondence includes eleven letters which passed between the diplomats between that date and June 13. Some of these letters were of much importance, since the negotiators differed about several points of interest. The negotiations were concluded finally on the 15th of June 1891, on which date the president issued a proclamation making public the terms of the agreement finally reached on that day. The rapidity with which the latter steps in the negotiation were made is unusual in diplomatic affairs and was only rendered possible by the free use of the cable.

The agreement finally concluded is signed by Acting Secretary of State Wharton, who has conducted the concluding correspondence, and Sir Julian Pauncefote, the British minister. The terms of the convention are as follows:

Agreement between the government of the United States and the government of Her Britannic Majesty for a *modus vivendi* in relation to the fur-seal fisheries in Bering sea.

For the purpose of avoiding irritating differences and with a view to promote the friendly settlement of the questions pending between the two governments touching their respective rights in Bering sea, and for the preservation of the seal species, the following agreement is made without prejudice to the rights or claims of either party:

1. Her Majesty's government will prohibit, until May next, seal killing in that part of Bering sea lying eastward of the line of demarcation described in article No. 1 of the treaty of 1867 between the United States and Russia; and will promptly use its best efforts to insure the observance of this prohibition by British subjects and vessels.

2. The United States government will prohibit seal killing for the same period in the same part of Bering sea and on the shores and islands thereof, the property of the United States (in excess of 7,500 to be taken

on the islands for the subsistence and care of the natives, and will promptly use its best efforts to insure the observance of this prohibition by United States citizens and vessels.

3. Every vessel or person offending against this prohibition in the said waters of Bering sea, outside of the ordinary territorial limits of the United States, may be seized and detained by the naval or other duly commissioned officers of either of the high contracting parties, but they shall be handed over as soon as practicable to the authorities of the nation to which they respectively belong, who shall alone have jurisdiction to try the offense and impose the penalties for the same. The witnesses and proofs necessary to establish the offense shall also be sent with them.

4. In order to facilitate such proper inquiries as Her Majesty's government may desire to make, with a view to the presentation of the case of that government before arbitrators, and in expectation that an agreement for arbitration may be arrived at, it is agreed that suitable persons designated by Great Britain will be permitted at any time, upon application, to visit or to remain upon the seal islands during the present sealing season for that purpose.

The agreement reached is the result of suggestions made and modifications accepted on both sides, but in regard to substantial matters the United States succeeded in carrying its points. One of the matters about which a difference of opinion arose was in regard to the participation of Russia in the agreement to be adopted, a point which was urged by Sir Julian Pauncefote in his proposal of June 3, made in reply to Secretary Blaine's note of May 4. Sir Julian proposed an agreement for

a close season, with the limitation that the agreement should not go into operation unless Russia should assent to it. This was declared by Assistant Secretary Wharton to present an insuperable difficulty, inasmuch as Russia had never asserted any rights in the waters in question affecting the subject matter of the contention, and he said that an insistence upon it would be construed as a practical withdrawal from the negotiations for a *modus vivendi*. This condition was withdrawn by cabled instructions from Lord Salisbury to the British minister.

In a proposed modification of the terms of an agreement suggested by Assistant Secretary Wharton, Lord Salisbury suggested that a joint commission of experts should be appointed to report upon the question what inter-arrangements, if any, between Great Britain and the United States and Russia, or any other power, are necessary for the purpose of preserving the fur-seal race in the northern Pacific ocean. In reply to this proposition the state department declared that it regarded this as one of the incidents of the agreement for arbitration and to have no proper place in the proposals for a *modus vivendi*. On being pressed for prompt action, Lord Salisbury finally gave the British minister at Washington the requisite authority to sign the agreement in the shape which it finally took, but with the understanding that a joint commission should be appointed without delay, a condition to which the state department readily agreed. The appointment of a joint high commission to consider permanent measures for preventing the extinction of seal life will, therefore, be made without unnecessary delay.

CREED REVISION.

What it is and how it is being accomplished.

The discussion now going on in the Presbyterian church regarding the revision of its confession of faith is of interest not only to the adherents of that church but to the great body of Christians in the United States irrespective of denominational affiliations. The common idea is that creed revision is only another name for the abandonment of truths once held to be essential, and that it implies the surrender of unpopular beliefs in response to a demand for liberalism inside, as well as outside, of the church itself. Nothing could be much further from the truth. The period of greatest power and accomplishment in the Christian church was during the three centuries succeeding the death of the Savior, and during that whole period the simplicity of the creed was a tower of strength. It was practically what is now known as the apostle's creed. The increase of churches and of philosophic thought caused disputes as to the construction and meaning of biblical statements which resulted in divisions into sects. Each band of Christians that left some parent church proceeded to particularize the cause of its secession and to emphasize its peculiar tenets, which it incorporated into its creed as a badge of its distinctive belief. In this way the creeds of churches have become encumbered with many dogmas which, while they may be true, are liable to be misunderstood and have not the authority of "Thus saith the Lord" for being made a test of Christianity. Creed revision is, therefore, not the surrender of any body of Christian truth, but the giving up of tenets, easily misunderstood, not held to be essential by the early church—it is a return to first principles of Christianity rather than a letting down in any of the essentials of early Christian faith and practice. There are many truths in mathe-

matics that have no place in the multiplication table and there are also many truths, held by all Christians to be divine, that have no place in a church creed, and creed revision is the withdrawal of such non-essential truths from the confession of faith.

In the nature of the case it is difficult to indicate definitely the beginning of any great movement of religious thought, but we may say, in general, that by the year 1887 the question of revision had become prominent in the Presbyterian church in the United States of America. The presbytery of Long Island took the initiative in communicating with other presbyteries upon the subject, with the result that when the general assembly convened in New York City in 1889, overtures were sent to it from fifteen presbyteries asking for some revision of the confession of faith upon the ground that in the opinion of "many of our ministers and people" some forms of statement contained therein were "liable to misunderstanding and exposed the system of doctrine to unmerited criticism."

Upon this the assembly of 1889 submitted two questions to all the presbyteries: 1. Do you desire a revision of the confession of faith? 2. If so, in what respects and to what extent? The answers to these questions were returned to the next assembly, convened at Saratoga in 1890, when it appeared that 134 presbyteries had answered "yes" to the first question.

A committee was then appointed, consisting of fifteen ministers and ten elders, to be known as "The Assembly's Committee on the Revision of the Confession of Faith," whose business it should be to formulate and report to the assembly of 1891, at Detroit, such alterations and amendments to the confession of

faith as in their judgment might be deemed advisable.

Inasmuch, however, as sixty-eight presbyteries had answered "no" to the first of the above questions, and sixty-nine presbyteries of those answering "yes" had expressly said that they desired "no change in the confession of faith that should impair the integrity of the system of doctrine taught therein," the committee on revision was instructed not to propose any alterations or amendments that should in any way impair the integrity of the reformed or Calvinistic system of doctrine taught in the confession.

At the meeting of the general assembly in Detroit in 1891 the following alterations, amendments and additions which the revision committee on the confession of faith had prepared to recommend to the general assembly were submitted. It is the result of the labors of a committee composed of theological professors, college presidents, pastors and elders, chosen from the factions which favored revision and also from those who opposed it. The new version precedes the old as here printed, the new being leaded. Words in the new statement inclosed in quotation marks are additions to the received text. William C. Roberts was chairman of the revision committee and Wm. E. Moore secretary.

CHAPTER I.—OF THE HOLY SCRIPTURE.

V. We may be moved and induced by the testimony of the church to an high and reverent esteem for the Holy Scripture. And "the truthfulness of the history, the faithful witness of prophecy and miracle," the heavenliness of the matter, the efficacy of the doctrine, the majesty of the style, the consent of all the parts, the scope of the whole (which is to give all glory to God), the full discovery it makes of the only way of man's salvation, the many other incomparable excellencies and the entire perfection thereof, are arguments whereby it doth abundantly evidence itself to be the word of God; yet, notwithstanding, our full persuasion and assurance of the infallible truth and divine authority thereof is from the inward work of the Holy Spirit, bearing witness by and with the word, in our hearts.

V. We may be moved and induced by the testimony of the church to an high and reverent esteem for the Holy Scripture. And the heavenliness of the matter, the efficacy of the doctrine, the majesty of the style, the consent of all the parts, the scope of the whole (which is to give all glory to God), the full discovery it makes of the only way of man's salvation, the many other incomparable excellencies and the entire perfection thereof, are arguments whereby it doth abundantly evidence itself to be the word of God; yet, notwithstanding, our full persuasion and assurance of the infallible truth and divine authority thereof is from the inward work of the Holy Spirit, bearing witness by and with the word, in our hearts.

CHAPTER III.—OF GOD'S ETERNAL DECREE.

Sections I and II unchanged; sections III and IV stricken out, and section V amended so that section III will read:

III. God, before the foundation of the world was laid, according to his eternal and immutable purpose and the secret counsel and good pleasure of his will, hath predestined some of mankind unto life, and hath particu-

larly and unchangeably chosen them in Christ unto everlasting glory, out of his mere free grace and love, without any foresight of faith, or good works, or perseverance in either of them, or any other thing in the creature, as conditions or causes, moving him thereunto; and all to the praise of his glorious grace.

Section VI remains unchanged and becomes section IV. Section VII was amended and becomes section V, and is as follows:

V. The rest of mankind, God was pleased according to the unsearchable counsel of his own will, whereby he extendeth or withholdeth mercy as he pleaseth, "not to elect unto everlasting life," but to ordain them to dishonor and wrath for their sin, to the praise of his glorious justice; "yet so as thereby neither is any limitation put upon the offer of salvation to all, upon condition of faith in Christ; nor is restraint laid upon the freedom of any one to hinder his acceptance of this offer."

VI. Section VIII remains unchanged and becomes section VI.

III. By the decree of God for the manifestation of his glory, some men and angels are predestined unto everlasting life, and others foreordained to everlasting death.

IV. These angels and men, thus predestinated and foreordained, are particularly and unchangeably designed; and their number is so certain and definite that it cannot be either increased or diminished.

V. Those of mankind that are predestined into life, God, before the foundation of the world was laid, according to his eternal and immutable purpose and the secret counsel and good pleasure of his will, hath chosen in Christ unto everlasting glory, out of his mere free grace and love, without any foresight of faith or good works, or perseverance in either of them, or any other thing in the creature, as conditions or causes moving him thereunto; and all to the praise of his glorious grace.

VII. The rest of mankind God was pleased, according to the unsearchable counsel of his own will, whereby he extendeth or withholdeth mercy as he pleaseth for the glory of his sovereign power over his creatures to pass by, and to ordain them to dishonor and wrath for their sin, to the praise of his glorious justice.

CHAPTER IV.—OF CREATION.

I. It pleased God, the Father, Son and Holy Ghost for the manifestation of the glory of his eternal power, wisdom and goodness in the beginning to create of nothing "the universe" and all things therein, whether visible or invisible, and all very good. "The heavens and the earth, with all that they contain, were made by him in six creative days."

I. It pleased God, the Father, Son and Holy Ghost for the manifestation of the glory of his eternal power, wisdom and goodness in the beginning to create or make of nothing the world and all things therein, whether visible or invisible, in the space of six days, and all very good.

CHAPTER VI.—OF THE FALL OF MAN, OF SIN AND OF THE PUNISHMENT THEREOF.

IV. From this original corruption, whereby we are utterly indisposed, disabled and made

opposite to all "that is spiritually" good, and wholly inclined to evil, do proceed all actual transgressions. "Nevertheless, the providence of God and the common operations of his spirit restrain unregenerate men from much that is evil and lead them to exercise many social and civil virtues."

IV. From this original corruption, whereby we are utterly indisposed, disabled and made opposite to all good, and wholly inclined to all evil, do proceed all actual transgressions.

CHAPTER VII.—OF GOD'S COVENANT WITH MAN.

III. Man by his fall, having made himself incapable of life by that covenant, the Lord was pleased to make a second, commonly called the covenant of grace, wherein he freely offereth "by his word and spirit" unto sinners life and salvation by Jesus Christ, requiring of them faith in him that they may be saved, and promising to give unto all those that are ordained unto life his holy spirit to make them willing and able to believe.

III. Man by his fall, having made himself incapable of life by that covenant, the Lord was pleased to make a second, commonly called the covenant of grace, wherein he freely offereth unto sinners life and salvation by Jesus Christ, requiring of them faith in him that they might be saved, and promising to give unto all those that are ordained unto life his holy spirit to make them willing and able to believe.

Section IV was stricken out; section V becomes section IV. The words in the last line, "and is called the Old Testament," were stricken out.

IV. This covenant was differently administered in the time of the law and in the time of the gospel, under the law it was administered by promises, prophecies, sacrifices, circumcision, the paschal lamb and other types and ordinances delivered to the people of the Jews, all fore-signifying Christ to come, which were for that time sufficient and efficacious, through the operation of the spirit, to instruct and build up the elect in faith in the promised Messiah, by whom they had full remission of sins and eternal salvation.

IV. This covenant of grace is frequently set forth in the Scripture by the name of a testament in reference to the death of Jesus Christ, the testator, and to the everlasting inheritance, with all things belonging to it, therein bequeathed.

Section VI becomes section V. In line nine the words, "and is called the New Testament," were stricken out.

V. Under the gospel, when Christ, the substance, was exhibited, the ordinances, in which this covenant is dispensed, are the preaching of the word and the administration of the sacraments of baptism and the Lord's supper, which, though few in number, and administered with more simplicity and less outward glory, yet in them it is held forth in more fullness, evidence and spiritual efficacy to all nations, both Jews and Gentiles. There are not, therefore, two covenants of grace differing in

substance, but one and the same under various dispensations.

CHAPTER VIII.—OF CHRIST THE MEDIATOR.

V. The Lord Jesus, by his perfect obedience and sacrifice of himself, which he through the eternal spirit once offered up unto God, hath fully satisfied "divine" justice and purchased not only reconciliation but an everlasting inheritance in the kingdom of heaven for all those whom the Father hath given unto him.

The chapter, "Of the Work of the Holy Spirit," becomes chapter IX.

V. The Lord Jesus, by his perfect obedience and sacrifice of himself, which he through the eternal spirit once offered up unto God, hath fully satisfied the justice of his Father and purchased not only reconciliation but an everlasting inheritance in the kingdom of heaven for all those whom the Father hath given unto him.

CHAPTER IX.—OF THE WORK OF THE HOLY SPIRIT.

I. The Holy Spirit, the third person in the trinity, being very and eternal God, the same in substance with the Father and the Son, and equal in power and glory(1), is together with the Father and Son to be believed in, loved, obeyed and worshipped throughout all ages(2). (1) Matt., 3: 16-17; 28: 19; John 14, 16-17; I Cor., 2: 11. (2) II Cor., 13: 14; Gal., 5: 22, 25; Eph., 4: 4-6; Heb., 9: 14.

II. The Holy Spirit, who of old revealed to men in various ways the mind and will of God, hath fully and authoritatively made known this mind and will in all things pertaining to life and salvation in the sacred Scriptures(1), holy men of God speaking therein as they were moved by the Holy Ghost(2), and these Scriptures, being so inspired, are the infallible word of God, the supreme rule of faith and duty(3). (1) I Cor., 2: 10-13; Heb., 1: 1-2; John, 16: 13. (2) Acts, 1: 16; II Tim., 3: 15-16; II Peter, 1: 21. (3) I Thess., 2: 13; John, 5: 39; Col., 3: 16.

III. The Holy Spirit, the Lord and giver of life, is everywhere present among men, confirming the teachings of nature and the law of God written on the heart, restraining from evil and inclining to good, and is the source of all the wisdom, virtue and reverence for God found in men, and of all the peace and good order in society, thus preparing the way for the gospel wherever it is preached(1). He everywhere accompanies the gospel with his persuasive energy and urges its passage upon the unregenerate, enlightening their minds concerning divine things, quickening their consciences and drawing them by his grace so that they who reject the merciful offer of the gospel are not only without excuse but are also guilty of resisting the Holy spirit(2). (1) Joel, 2: 28; John 1: 9; Rev., 22: 17; Rom., 10: 18; Rom., 1: 19, 20; 2: 14, 15. (2) John, 16: 8; Isa., 63: 10; Acts, 2: 16-18; Acts, 7: 51; 24: 25; Heb., 10: 29.

IV. The Holy Spirit is the only efficient

agent in applying and communicating redemption. He effectually calls sinners to new life in Christ Jesus, regenerating them by his almighty grace, freeing them from the bondage of sin and death and persuading and enabling them to embrace Jesus Christ by faith (1). He dwells in all believers as their comforter and sanctifier, and as the spirit of adoption and of supplication (2), leading them into all the truth, making the means of grace efficacious in their edification, strengthening them for all duty, sustaining them in all affliction (3) and performing all other gracious offices by which they are sanctified, sealed and made meet for the inheritance of the saints in light. (1) John, 3: 5; II Cor., 5: 5, 17; Rom., 8: 2; I Cor., 12: 3; II Cor., 7: 10. (2) John, 1: 12; 14: 17; Rom. 8: 15, 26, 27. (3) Gal., 5: 5, 22; Jude, 5: 20, 21; Eph., 3: 16; 4: 30; II Thess., 2: 13; Col. 1: 12.

V. By the indwelling of the Holy Spirit all believers are vitally united to Christ, who is the head, and are thus united to one another in the church, which is his body (1). He calls and anoints ministers for their holy office. He also calls and qualifies all other officers in the church for their special work and imparts various gifts, and graces to its members (2). He gives efficacy to the word and to the ordinances of the gospel, keeps the church from apostasy, revives it in times of declension and enables it to bear effectual testimony to the truth (3). By him the church has been and will be preserved, increased and purified until it shall cover the earth and at last be presented to Christ a glorious church, not having spot or wrinkle or any such thing (4). (1) I Tim., 3: 15; Eph., 1: 22, 23; 3: 10, 16. (2) Acts, 13: 2; I Cor., 2: 4. (3) Eph., 4: 3, 4; I Tim., 4: 1; Joel 2: 28; Acts, 1: 27; Matt., 28: 18-20. (4) Eph., 5: 27; Rev., 5: 11-13; 11: 15.

CHAPTER IX. (X.)—OF FREEWILL

III. Man, by his fall into a state of sin, hath wholly lost all ability of will to any spiritual good accompanying salvation, so as a natural man, being altogether "indisposed to" that good and dead in sin, is not able, by his own strength, to convert himself or to prepare himself thereunto. "Yet is his responsibility as a free moral agent not thereby impaired."

The chapter "Of the Universal Offer of the Gospel," becomes chapter XI., and the number of all succeeding chapters is increased by two.

III. Man, by his fall into a state of sin, hath wholly lost all ability of will to any spiritual good accompanying salvation; so as a natural man, being altogether averse from that good and dead in sin, is not able by his own strength to convert himself or to prepare himself thereunto.

CHAPTER XI.—OF THE UNIVERSAL OFFER OF THE GOSPEL.

I. God so loved the world that he provided in the covenant of grace, through the mediation and sacrifice of the Lord Jesus Christ, a way of life and salvation sufficient for and

adapted to the whole lost race of man (1); and he doth freely offer this salvation to all men in the gospel (2). (1) Rom., 1: 16; 11 Cor., 5: 19; Eph., 1: 10; Col., 1: 20; Heb., 9: 26; 10: 14; I John, 1: 7; 2: 2. (2) Luke, 23: 47; Acts, 2: 39; 13: 47; Col., 1: 23.

II. The gospel declares the love of God for the world (1), and his desire for the salvation of all men (2). It sets forth fully and clearly the only way of salvation, which is through Christ alone (3); promises that all who truly repent and believe in him shall be saved (4); commands, exhorts and invites all to embrace the offered mercy; and urges every motive to induce man to accept its gracious invitations (5). This free and universal offer of the gospel is accompanied by the holy spirit (6), striving with and entreating men to believe in the Lord Jesus Christ. (1) John, 3: 16; I John, 4: 14. (2) Ezek., 33: 11; Matt., 23: 37; Luke, 19: 41, 42; I Tim., 2: 4. (3) Isa., 53: 5; Matt., 1: 21; Luke, 2: 30-32; I Cor., 1: 30; 3: 11; I Tim., 2: 5, 6; 3: 16. (4) John, 5: 24; 6: 47; 20: 31; Acts, 2: 38; 3: 19; 10: 43; 16: 31; Rom., 10: 9-11. (5) Isa., 55: 1-3; Matt., 11: 28-30; Mark, 1: 15; 8: 36; Luke, 4: 18; John, 7: 37; Acts, 17: 30; II Cor., 5: 20. (6) John, 16: 8-11; Acts, 2: 17; 10: 44, 45; 16: 14; I Cor., 2: 4; Titus, 3: 5, 6; Heb., 2: 4; Rev. 22: 17.

III. It is the duty and privilege of every one who hears the gospel immediately to accept its merciful provisions (1). Great guilt and danger are incurred by delay or neglect (2). And they who continue to disobey the gospel perish by their own fault and are wholly without excuse, because they have resisted the holy spirit and rejected God's gracious offer of eternal life (3). (1) Matt., 3: 2; Luke, 9: 61, 62; 13: 24, 25; II Cor., 6: 2; Heb., 3: 13, 15. (2) Matt., 7: 24-27; 25: 10; Luke, 12: 30; 14: 18; Acts, 24: 25; Heb., 2: 1-3; 12: 25. (3) Prov., 1: 24-26; John, 3: 18; 19: 36; Acts, 7: 51; Rom., 2: 4, 5; II Cor., 2: 15, 16; 4: 3, 4; II Thess., 1: 8, 9.

IV. As there is no other way of salvation than that revealed in the gospel (1), and as in the divinely established and ordinary method of grace faith cometh by hearing the word of God, Christ hath given to his church the written word, the sacraments and the ministry; endowed her with the holy spirit and commissioned her to go with his gospel into all the world and to make disciples of all nations (2). It is, therefore, the duty and privilege of all believers to sustain the means of grace where they are already established, and to contribute by their prayers, gifts and personal efforts to the extension of the kingdom of Christ throughout the whole earth. (1) John, 8: 24; 10: 9; 14: 6; Acts, 4: 12. (2) Matt., 23: 19, 20; Mark, 16: 15; Acts, 1: 8; 8: 4; 26: 16-18; Rom., 1: 14, 15; 10: 14, 15, 17; 16: 25, 26.

CHAPTER (X.) XII.—OF EFFECTUAL CALLING.

II. This effectual call is of God's free and special grace alone, not from anything at all foreseen in man, who is altogether passive "in the act of regeneration wherein;" being

quickened and renewed by the holy spirit, he is enabled to answer "God's" call and to embrace the grace offered and conveyed in it.

II. This effectual call is of God's free and special grace alone, not from anything at all foreseen in man, who is altogether passive therein, until being quickened and renewed by the holy spirit, he is thereby enabled to answer this call and to embrace the grace offered and conveyed in it.

III. "All" infants dying in infancy, and all other persons who "from birth to death" are incapable of being outwardly called by the ministry of the word, "are redeemed" by Christ, "and regenerated by the spirit," who worketh when, and where, and how he pleaseth.

III. Elect infants dying in infancy are regenerated and saved by Christ through the spirit, who worketh when, and where, and how he pleaseth. So also are all other elect persons who are incapable of being outwardly called by the ministry of the word.

IV. Others, not elected, although they may be called by the ministry of the word and may have some common operations of the spirit, yet "inasmuch as they" never truly come to Christ, "they" cannot be saved; "neither is there salvation" in any other way "than by Christ through the spirit, however diligent men may be in framing" their lives according to the light of nature and the law of that religion they do profess.

IV. Others, not elected, although they may be called by the ministry of the word and may have some common operations of the spirit, yet never truly come to Christ, and therefore cannot be saved; much less can men not professing the christian religion be saved in any other way whatsoever, be they never so diligent to frame their lives according to the light of nature and the law of that religion they do profess, and to assert and maintain that they may be very pernicious and to be detested.

CHAPTER (XI.) XIII.—OF JUSTIFICATION.

I. Those whom God effectually calleth he also freely justifieth; not by infusing righteousness into them, but by pardoning their sins and by accounting and accepting their persons as righteous; not for anything wrought in them or done by them, but for Christ's sake alone; not by imputing faith itself, the act of believing, or any other evangelical obedience to them as their righteousness, but by imputing the obedience and satisfaction of Christ unto them, they receiving and resting on him and his righteousness by faith, which faith (they have not of themselves, it) is the gift of God.

The words in parenthesis were stricken out so as to read, "which faith is" the gift of God.

III. Christ, by his obedience and death, did fully discharge the debt of all those that are thus justified, and did make a proper, real and full satisfaction to "divine" justice in their behalf. Yet, inasmuch as he was given by the Father for them, and his obedience and satisfaction accepted in their stead, and both freely, not for anything in them, their justifi-

cation is only of free grace; that both the exact justice and rich grace of God might be glorified in the justification of sinners.

In line four "divine" is substituted for His Father's justice.

CHAPTER (XIV.) XVI.—OF SAVING FAITH.

I. The grace of faith whereby "sinners" are enabled to believe to the saving of their souls is the work of the spirit of Christ in their hearts, and is ordinarily wrought by the ministry of the word, by which also, and by the administration of the sacraments and prayer, it is increased and strengthened.

I. The grace of faith whereby the elect are enabled to believe to the saving of their souls is the work of the spirit of Christ in their hearts, and is ordinarily wrought by the ministry of the word, by which also, and by the administration of the sacraments and prayer, it is increased and strengthened.

CHAPTER (XVI.) XVIII.—OF GOOD WORKS.

VII. Works done by unregenerate men, although they may be things which God commands and are of good use both to themselves and others; "and while their neglect of such things is sinful and displeasing unto God," yet because they proceed not from a heart purified by faith, nor are done in a right manner, according to the word; nor to a right end, the glory of God, they are therefore "not free from sin," and cannot "be accepted of" God or make a man meet to receive grace from God.

VII. Works done by unregenerate men, although for the matter of them they may be things which God commands, and of good use both to themselves and others, yet because they proceed not from a heart purified by faith, nor are done in a right manner, according to the word; nor to a right end, the glory of God, they are therefore sinful, and cannot please God or make a man meet to receive grace from God. And yet their neglect of them is more sinful and displeasing unto God.

CHAPTER (XXI.) XXIII.—OF RELIGIOUS WORSHIP AND THE SABBATH DAY.

IV. Prayer is to be made for things lawful; "for the forgiveness of all sins except" the sin unto death; and for all sorts of men living or that shall live hereafter, but not for the dead.

IV. Prayer is to be made for things lawful, and for all sorts of men living or that shall live hereafter; but not for the dead nor those of whom it may be known that they have sinned the sin unto death.

CHAPTER (XXII.) XXIV.—OF LAWFUL OATHS AND VOWS.

VII. No man may vow to do anything forbidden in the word of God or what would hinder any duty therein commanded, or which is not in his own power, and for the performance whereof he hath no promise or ability from God. In which respect popish monastical vows of perpetual single life, professed poverty and regular obedience are so far removed from degrees of higher perfection that they are superstitious and sinful snares in

which no christian may entangle himself. The word "popish," in line six, was stricken out, so as to read "monastical vows," etc.

CHAPTER (XXIII.) XXV.—OF THE CIVIL MAGISTRATE.

III. Civil magistrates may not assume to themselves the administration of the word and sacraments, or the power of the keys of the kingdom of heaven, or in the least interfere in matters of faith. Yet, as nursing fathers, it is the duty of civil magistrates to protect the church of our common Lord without giving the preference to any denomination of christians above the rest, in such a manner that all ecclesiastical persons whatever shall enjoy the full, free and unquestioned liberty of discharging every part of their sacred functions without violence or danger. And as Jesus Christ hath appointed a regular government and discipline in his church, no law of any commonwealth should interfere with, let or hinder the due exercise thereof among the voluntary members of any denomination of christians according to their own profession and belief. It is the duty of civil magistrates to protect the person and good name of all their people in such an effectual manner as that no person be suffered, either upon pretense of religion or infidelity, to offer any indignity, violence, abuse or injury to any other person whatsoever; and to take order that all religious and ecclesiastical assemblies be held without molestation or disturbance.

The words, "as nursing fathers," lines five and six, were stricken out.

CHAPTER (XXIV.) XXVI.—OF MARRIAGE AND DIVORCE.

III. It is lawful for all sorts of people to marry who are able, with judgment, to give their consent; yet it is the duty of christians to marry only in the Lord; and, therefore, such as profess the true religion should not marry with infidels "nor with the adherents of false religions;" neither should such as are godly be unequally yoked by marrying with such as are notoriously wicked in their life.

III. It is lawful for all sorts of people to marry who are able with judgment to give their consent; yet it is the duty of christians to marry only in the Lord; and, therefore, such as profess the true reformed religion should not marry with infidels, papists or other idolaters; neither should such as are godly be unequally yoked by marrying with such as are notoriously wicked in their life or maintain damnable heresies.

CHAPTER (XXV.) XXVII.—OF THE CHURCH.

VI. There is no other head of the church but the Lord Jesus Christ, "and the claim of the pope of Rome to be the vicar of Christ and the head of the church universal is without warrant in Scripture or in fact, and is a usurpation dishonoring to the Lord Jesus Christ."

VI. There is no other head of the church but the Lord Jesus Christ; nor can the pope of Rome in any sense be head thereof, but is that anti-Christ, that man of sin and son of perdition that exalteth himself in the church against Christ and all that is called God.

CHAPTER (XXIX.) XXXI.—OF THE LORD'S SUPPER.

II. In this sacrament Christ is not offered up to his Father, nor any real sacrifice made at all, for remission of sins of the quick or dead; but only a commemoration of that one offering up of himself by himself upon the cross once for all, and a spiritual oblation of all possible praise unto God for the same; so that the "Roman catholic doctrine of the" sacrifice of the mass is most abominably injurious to Christ's one only sacrifice "for sin."

II. In this sacrament Christ is not offered up to his Father, nor any real sacrifice made at all, for remission of sins of the quick or dead; but only a commemoration of that one offering up of himself by oblation of all possible praise unto God for the same; so that the popish sacrifice of the mass, as they call it, is most abominably injurious to Christ's one only sacrifice, the alone propitiation for all the sins of the elect.

VIII. Although ignorant and wicked men receive the outward elements in this sacrament, yet they receive not the thing signified thereby; but, by their unworthy coming thereunto, are guilty of the body and blood of the Lord to their own damnation. Wherefore all ignorant and ungodly persons, as they are unfit to enjoy communion with him, so are they unworthy of the Lord's table and cannot, without great sin against Christ, while they remain such, partake of these holy mysteries or be admitted thereunto.

For damnation, line six, "condemnation" was substituted.

CHAPTER (XXX.) XXXII.—OF CHURCH CENSURES.

II. To these officers the keys of the kingdom of heaven are committed, by virtue whereof they have "ministerial and declarative" power respectively to retain and remit sins, to shut that kingdom against the impenitent, both by the word and censures, and to open it unto penitent sinners by the ministry of the gospel and by absolution from censures, as occasion shall require.

II. To these officers the keys of the kingdom of heaven are committed, by virtue whereof they have power respectively to retain and remit sins, to shut that kingdom against the impenitent, both by the word and censures, and to open it unto penitent sinners by the ministry of the gospel and by absolution from censures, as occasion shall require.

This report was sent down to the presbyteries by the general assembly "for consideration, criticism or amendment." If it is adopted by three-fourths of all the presbyteries it will be returned to the general assembly for enactment.

BALLOT REFORM.

AUSTRALIAN SYSTEM IN SHADED STATES AND TERRITORIES.

The last few years have witnessed marvelous reforms in the methods of exercising the elective franchise in the United States. There has been a popular demand among the people that safeguards be thrown about the ballot-box to protect the voter and secure absolute secrecy in voting. The system in vogue in some of the Australian colonies for the last fifteen years became more popular in this country the more fully it was understood, and that system, with various modifications and amendments, has now been adopted in twenty-nine out of the forty-eight states and territories of the Union. The Australian system was practically first introduced into the United States in 1838, when it was adopted by the state of Massachusetts and by the state of Kentucky in which it was made applicable to the city of Louisville. The same year this system was embodied in the Saxton bill which was introduced into and passed by the legislature of the state of New York but was vetoed by Gov. Hill, on the ground of unconstitutionality. A compromise bill was, however, passed by the legislature of that state in 1830, and became a law. Following these examples of Massachusetts and Kentucky, the legislatures of the following states in 1839 passed laws adopting the new system. Indiana, Montana, Rhode Island, Wisconsin, Tennessee, Minnesota, Missouri, Michigan, and Connecticut. In 1830 Arkansas, Delaware, Louisiana, Illinois, Maine, Nebraska, New Hampshire, North Dakota, Ohio, Oklahoma Territory, Oregon, South Dakota, and West Virginia adopted similar measures. To secure the greatest privacy to the voter is the essential feature of all these enactments. This is provided for by all the new laws through the mechanical arrangements of booths, guard-rails, etc., similar to those in use in England

and wherever the Australian system is employed. The laws in force in the various states may not all have secured absolute secrecy, but they certainly have come very close to bringing about this millennium in modern election methods. The laws protect the blind and the illiterate voters who cannot read the tickets. Those unable to prepare their own tickets are assisted by the election judges in some states, and in others, they may select a person to accompany them within the booth. Some laws, like those of Missouri, specify that the judges shall perform this service for the voter when it is requested. New York and New Jersey having separate ballots for each of the parties, which require no marking unless the voter wants to scratch, make no provision for those unable to read or write.

There are two methods of grouping the names on the tickets and both have been tried. The first of these is the English, or more properly the original Australian style of alphabetical arrangement of the names of the candidates under the title of the office. This is used by the following states: California, Kentucky, Massachusetts, Minnesota, Montana, Nebraska, New Hampshire, Oregon, Rhode Island, Tennessee, Vermont, Washington, and Wyoming.

The second is known as the Belgian system, and consists of grouping all nominations and offices by parties. It is used in Missouri, Ohio, Wisconsin, Delaware, Illinois, Indiana, Maine, Maryland, and Oklahoma Territory.

In addition to its reform law, Massachusetts has a bell, and some mechanism in each ballot-box which registers and cancels the votes. This apparatus was adopted before the ballot reform law was proposed and has proved to be a most useful and practical arrangement.

A WATCH AS A COMPASS.

All watches are compasses. Point the hour hand to the sun and the south is exactly halfway between that hour and the figure twelve on the dial of the watch. For instance, suppose that it is four o'clock; point the hand indicating four to the sun and two on the watch

is exactly south. Or suppose it is eight o'clock; point the hand indicating eight to the sun and the figure ten on the watch will be south. This was tested recently by a writer in the Massachusetts Medical Record and found to be an accurate guide.

FOREIGN TARIFFS ON AGRICULTURAL PRODUCTS.

The department of state has furnished the following statement showing the rates of duty levied by a number of the principal European countries on imported agricultural products as compiled from recent consular returns:

<i>Austria-Hungary.*</i>		<i>Duty.</i>	<i>Holland.</i>		<i>Duty.</i>
Live animals—Oxen.....	per head	\$7.20	Meats, bacon, pork and mutton—

THE PENSION OFFICE.

Work of the department for the fiscal year 1891.

The annual report of Commissioner Raum of the pension bureau, submitted to the secretary of the Interior, shows that on June 30, 1891, there were 676,160 pensioners borne on the rolls of the bureau, being 138,216 more than were carried on the rolls at the close of the last fiscal year. They are classified as follows: Widows and daughters of revolutionary soldiers, 23; army invalid pensioners, 413,597; army widows, minor children, etc., 108,537; navy invalid pensioners 5,449, navy widows, minor children, etc., 2,568; survivors of the war of 1812, 7,590; survivors of the Mexican war, 16,379; widows of soldiers of the Mexican war 6,976.

Following are the number of pensions of the several classes granted under the act of June 27, 1890: Army invalid pensioners 97,136; army widows, minor children, etc., 12,209; navy invalid pensioners 3,376; navy widows, minor children, etc., 1,436. During the last fiscal year first payments were paid upon 131,160 original claims, requiring \$3,391,535 for their payment. This is an increase in the number of original payments over the year 1890 of 64,532. The aggregate cost, however, was \$1,067,302 less.

There were 222,521 first payments of every description, requiring \$88,552,274, being \$69,562 less than was required for the 130,514 first payments made during the last fiscal year. The average value of first payments made during the year was \$239.33 and the average value of first payments on claims allowed under the act of June 27, 1890, was \$71.28. The average value of first payments for the preceding year was \$455.71, being a reduction in the average first payments of \$246.38.

The aggregate annual value of the 676,160 pensioners on the roll June 31 last, 1891, was \$9,247,200 and the average annual value of each pension was \$139.99 and the average annual value of each pension under the act of June 27, 1890, was \$121.51.

At the close of the fiscal year there were 38,574 pensioners on the roll who remained unpaid for the want of time and who were entitled to receive \$4,883,242, which will be paid out of the appropriation for the current fiscal year, and there remained at the close of the

fiscal year in the hands of the several pension agents the sum of \$5,713,532.84 which has since been covered into the treasury. This amount added to \$3,607,133.22 of the pension amount not drawn from the treasury aggregates \$9,320,666.06 of the appropriation which was not expended. There will be a deficiency in the appropriation for the payment of fees and expenses of examining surgeons of about \$30,000.

The total amount disbursed on account of pensions, expenses, etc., during the fiscal year was \$118,548,959.71 as compared with \$106,493,800.19 disbursed during the preceding fiscal year. So that it appears that 136,216 pensions were added to the rolls during the fiscal year just closed, at an increased cost to the nation of \$12,055,069 as compared with the expenditures for the previous fiscal year, and said expenditure includes \$4,357,347 paid upon vouchers remaining unpaid at the close of the year. The largest number of certificates issued to any class was 4,633 to men who served thirty-six months. The age of the greatest number of pensioners under both the old and new law was forty-seven years. During the last year 20,325 pensioners were dropped from the rolls for various causes, and of this number 13,229 were dropped by reason of death.

The loss to the pension rolls by the decease of widows and dependent mothers and fathers was at the rate of thirty-five per 1,000 in 1891. It is estimated that of the soldiers who served the country during the late war 1,004,658 were killed in battle or died during and since the war. On June 30 last 124,750 of these deceased soldiers were represented on the pension rolls by their widows or other dependents.

There are about 1,268,707 soldiers of the union now living, and of the survivors 520,158 are now on the pension rolls. There are, therefore, 688,549 survivors who are not pensioned and 879,908 deceased soldiers not represented on the pension rolls. The commissioner renews his recommendation of last year as to the readjustment of the pension ratings under the act of March 3, 1883, and March 4, 1890.

DISBURSEMENTS, 1891.

Amount disbursed at U. S. pension agencies during the fiscal year ending June 30, 1891.

PERCENTAGE OF MORTALITY.

The following table shows the number of pensioners of the various classes with the percentage of deaths per thousand persons. In 1889 the loss to the pension rolls by the decease of widows and dependent mothers and fathers was at the rate of 25 per thousand; in 1890, 33 per thousand, and in 1891, 35 per thousand.

It is estimated that of the soldiers who served the country during the late war, 1,004,658 were killed in battle or died during and since the war. On the 30th day of June last 124,750 of these deceased soldiers were represented on the pension rolls by their widows or other dependants.

There are about 1,208,707 soldiers of the union now living, and of these survivors 520,158 are now on the pension rolls. There are, therefore, 688,549 survivors who are not pensioned and 879,908 deceased soldiers not represented on the pension rolls.

The following table shows the percentages of mortality for each class of pensioners for the year ended June 30, 1891.

CLASSES.	Pensioners on pension roll at the end of the year.	Number of pensioners who died during the year.	Average death rate for each 1,000 pensioners on pension roll June 30, 1891.
General Law, Army and Navy—			
Invalids.....	419,046	7,113	17
Widows, etc.....	111,128	3,900	35
Act of June 27, 1890,* Army and Navy—			
Invalids.....	101,112	430	14
Widows, etc.....	13,644	103	29
War of 1812—			
Survivors.....	284	112	400
Widows.....	7,540	789	104
War with Mexico—			
Survivors.....	16,379	600	42
Widows.....	6,976	92	13
Total.....	676,160	13,229	

* The cases allowed under this act cover an average period of three and one-fourth months. The actual death rate of the "invalid" pensioners was 4 per thousand, or an average annual death rate of 14 per thousand, while that of the "widows, etc.," was 8 per thousand, or an average annual death rate of 29 per thousand.

‡This includes cost of transportation of all kinds.

INDIAN CONTRACT SCHOOLS.

In addition to the government schools in operation numerous contract schools are included in the foregoing tables. The amount of money set apart for these institutions for the year ending June 30, 1892, as well as in preceding years, is shown by the following table:

	1886.	1887.	1888.	1889.	1890.	1891.	1892.
Roman Catholic.....	\$118,343	\$194,635	\$221,169	\$347,672	\$356,957	\$363,349	\$387,426
Presbyterian	32,995	37,910	36,500	41,825	47,650	44,850	44,310

Total	228,259	363,214	376,264	530,905	562,640	570,218	604,240

Of these schools the Commissioner of Indian Affairs says: "The policy of aiding church schools is one that has grown up as a matter of administration, having only a semblance of legislative authority. But the rapid development of the public-school system has brought the government schools into a position where it is entirely feasible for them at an early day to assume the whole charge of Indian education, so far as it is carried on by the government. I can not refrain from the expression of the earnest conviction that it is contrary to the letter and the spirit of the Constitution of the United States and utterly repugnant to our American institutions and our American history to take from the public money funds for the support of sectarian institutions. I believe that the government ought to assume, absolutely and completely, the control of Indian education, and that these wards should be trained in the government institutions with the specific end of fitting them for American citizenship, and that no moneys from the pub-

lic treasury should be devoted to sectarian or church institutions. If churches desire to maintain mission schools among the Indians, they should do so as missionary work and support them out of missionary funds.

There is a rapidly growing public opinion, shared by those who have heretofore received from the government large sums of money for church schools, that the time is near at hand when the mixed system should be done away with. There should be no violent or sudden change, no action that can be construed as partial or unjust, but a gradual extension of the national system until it embraces the entire work. Meantime, the purpose of the office is to maintain practically the *status quo*, making no changes except such as are rendered necessary by circumstances. In thus expressing my own personal convictions on this important question, I believe I am giving expression to the American idea of the entire separation of church and state."

REDUCTION OF INDIAN RESERVATIONS.

The work of reducing the area of the reservations, by extinguishing by purchase from the Indians their title to the land and its restoration to the public domain, has been carried forward rapidly, as is shown in the following detailed statements:

Counting the 22 small reserves of the Mission Indians of California as only one reserve, and the 19 Pueblo reserves of New Mexico as one also, the number of reservations as given in the annual report of this office for 1890 was 138, having an aggregate area of about 104,314,349 acres, or 162,391 square miles. This amount is about 12,071.3-0 acres, or 18,861 square miles, less than the amount reported in 1889, while at the present time there are five more reservations than in 1889, owing to the division of the Great Sioux Reservation, as provided by act of March 2, 1889.

The agreements ratified by act of congress

approved February 13, 1891, restored to the public domain 391,184.65 acres from the Sac and Fox Reservations, in Oklahoma, including 25,134.61 acres for school purposes; and from the Iowa Reservation, in the same territory, 219,447.27 acres, including 12,271.75 acres for school purposes. The ratification of agreements by the act of March 3, 1891, restored to the public domain from the Pottawatomie Reservation, Oklahoma, 309,134.77 acres, including 22,650.44 for school purposes; from the Cheyenne and Arapahoe Reservation, Oklahoma, about 3,000,000 acres; from the Cœur d'Alene Reservation, Idaho, about 185,000 acres; from the Fort Berthold Reservation, North Dakota, about 1,600,000 acres; from the Lake Traverse Reservation, South Dakota, about 660,000 acres, and from the Crow Reservation, Montana, about 1,800,000 acres; a total of about 8,164,765 acres.

THE CHILEAN WAR.

It may be too soon to say which of the contending parties in the Chilean civil war were in the right, although it may be easy to trace the causes that led up to that contest.

The government of Chile is republican, not very unlike our own. It is based upon a constitution which prescribes the duties and powers of the president and the congress. The late war grew out of a dispute between the president and congress as to the interpretation of the constitution.

Article 50 of the constitution of Chile declares that the president of the republic shall hold the administration of the state and be supreme chief of the nation, and the following extract from article 71 is much to the same purport: "To the president of the republic is confided the administration and the government of the state, and his authority extends to everything having for its object the preservation of public order at home and the security of the republic abroad, he observing and exacting observance of the constitution and the laws."

This constitution clearly intrusts the chief magistrate with powers unheard of in any parliamentary governments outside Spanish America, and it is hard to see just where Balmaceda exceeded his authority, or until the trouble had culminated in war at any rate.

He clearly had the right to select his own ministers and of appointing to all offices in the executive departments, and this right had never before been questioned, but had always

been exercised by his predecessors. The constitution of Chile was adopted May 25, 1833, and the sovereignty is by it declared to reside with the people; but during the sixty years of her existence as a constitutionally governed nation the fact has been far otherwise, for the destinies of the country have been for all this time practically in the hands of an oligarchy composed of the leading territorial families, back of whom again were the clergy, who have had more than a little to do with the direction of Chilean affairs.

As was natural, the minority was dissatisfied with this state of affairs, and a small political party existed which opposed the political order of things in Chile. The war with Peru greatly strengthened the minority and gave to Chile a patriotic sentiment and national pride which it had never before possessed. To this growing democratic sentiment the hitherto feeble liberals addressed themselves, and with such success that at the presidential election in September, 1891, Jose Manuel Balmaceda, a great liberal leader, and a man of the people, was elected to the presidency, and with this election the contest began which ended finally in the war which has raged throughout the entire summer.

Quarrels soon started between the president and legislative bodies, growing more and more serious as time went on, until a complete deadlock was established between them and the situation became very much like that in England when King Charles and the long

parliament were at loggerheads, although President Balmaceda seems to have kept within the written limits at least of his prerogative, while the British monarch went far beyond his.

The legislative branch of the government concluded that the only way to force the president to recede from the position he had taken was to withhold supplies, salaries and the like. It also refused to pass the law "fixing the forces by land and sea" which is passed annually, and did other extreme acts, to meet which the president was forced to equally extreme measures. As under the constitution a president could not succeed himself, Balmaceda had selected Senor Santuente to become the candidate of his party for that office. Congress at once violently assailed the president's choice, who was also secretary of the interior. At Balmaceda's own request Senor Santuente resigned both his portfolio and his candidacy. The president next proposed that a convention be formed of members of all sections of the liberal party in order to decide upon a generally acceptable candidate, even allowing congress to decide what fractional majority of the whole number of votes should be necessary to decide such candidature. Congress rejected this proposal after a single day's consideration, and repeatedly refused to vote supplies or to pass the military and marine bill just referred to. Finally, in the early days of December, congress threatened to impeach the previous ministry, which, according to law, would debar the president from dissolving or proroguing congress until such ministers had either been acquitted or convicted, the intention evidently being to prolong its own session. At this, and before the threatened impeachment was formulated, President Balmaceda abruptly dissolved congress, when nothing was left save a resort to arms, and both sides immediately commenced active preparations for the strife. This was the situation at the opening of last winter. A large number of the officers of the navy sympathized with the congressionalists, and the great majority of pure whites and people of unmixed Spanish blood also sided with them, while Balmaceda's following was largely among the more ignorant half-breeds or Mestizos, though his officers, both civil and military, were equal to those of his enemies.

The independent or opposition members of the senate and house of deputies met Jan. 1, 1891, and signed a solemn act declaring the president no longer head of the state or president of the republic, as he was unworthy of his post and had violated the constitution. This document, practically a declaration of war, was taken on board the Chilean men-of-war, and on Jan. 7 the navy steamed into Valparaiso bay and declared itself in support of the legislative power in the name of the people and in the name of the law and against

Balmaceda. It was expected the army would follow the example of the navy, but this it did not do; it remained loyal to the president. The insurgents were composed of the aristocratic families, supported by the Roman Catholic Church and very many British residents. The great mass of the people and the army adhered to Balmaceda. The insurgents could establish no footing at Valparaiso or Santiago, but they had the wisdom to go north and seize the nitrate fields that Chile had conquered from Peru, and they made Iquique their base of operations. The product of these nitrate fields kept them in funds to carry on the war.

Chile being a country of only four or five million people—a narrow elongated strip of seacoast—the insurgents were fortunate in holding most of the navy and in obtaining the nitrate beds, which are the richest resources in the country. There was during the season hard fighting in the north, with the advantages generally on the side of the insurgents, who established themselves in Iquique, Pisagua and Antofagasta. Balmaceda had the larger army, but he lacked a navy and funds to carry on the war.

Late in August the insurgents decided to push the war to a close. They knew that the president was expecting two iron-clad war vessels from Europe, which would enable him to contend with them on more equal terms. An attempt was made to force a decisive battle before their arrival. Valparaiso was invulnerable against a naval attack. On the 21st of August the insurgents landed every available man they had at Concepcion, about ten miles north of Valparaiso, where they attacked the president's forces the day following. The battle was a fierce one, there being about twenty thousand men on each side engaged, and the president was defeated. He rallied his shattered forces under cover of the forts and made his last stand at Piacillo on the 23d. The carnage was frightful, owing to the effective rifles of the insurgents. Balmaceda lost both his generals. He was forced to retreat and his defeat was complete. Valparaiso was taken, Santiago soon capitulated, and Balmaceda was a helpless fugitive. He remained in hiding at the embassy of the Argentine Republic until the morning of Sept. 19, when he committed suicide in the building of the Argentine legation. From the fact that neither faction acted under the forms of law, it is not worth while to pass judgment upon the merits of the controversy. That the opposition drove Balmaceda to the most high-handed and unconstitutional measures is obvious, but constitutions are made for times of peace, and we found in our last war. Until he was so violently opposed his reforms were of the most salutary and sweeping character, but for his later acts of tyranny there is no apology. The Spanish and Indian blood in his veins was not conducive to the calmness of the Anglo-Saxon.

THE NICARAGUA CANAL.

The idea of joining the Atlantic and Pacific oceans by a canal through the intermediary basin of Lake Nicaragua originated with Antonio Galvano in 1550. But as the commerce of the world did not require such a work it was chiefly of interest to engineers and navigators. The discovery of gold in California in 1848 made a new and quicker route from the east to the west an imperative necessity, and the various routes across the country between Mexico and South America became the subjects of much interest and discussion.

The completion of the Panama railroad in 1855 increased rather than supplied the neces-

sity for a more comprehensive mode of inter-oceanic transportation and several expeditions went out to look for the most desirable and feasible route between the two oceans. In 1872-3, 1876-7 and 1885 expeditions for the exploration, and location of routes were dispatched to Nicaragua by the United States government. Some of these surveys occupied the period of years and by that in 1872-3 eight different routes were examined. The deliberate and final determination of the government in favor of the Nicaragua route dates from 1876. Private individuals had, before this decision of the government, adopted

the same route and had undertaken the construction of a ship canal. The first concession to build such a canal along the route now proposed was granted by the government of Nicaragua in 1849 to the Atlantic and Pacific Ship Canal company. This company did nothing, and was succeeded by the Central American Transit Company which is still in existence, and claims certain rights and privileges from the company now engaged in constructing the work. These claims have been denied both by the Nicaraguan government, and our own. A treaty to permit the construction of a canal across Nicaragua was signed between the United States and the republic of Nicaragua Dec. 1, 1884, but it was not ratified within the stipulated period of two years. The American Atlantic and Pacific Ship Canal company was organized in 1886 and obtained the exclusive right to build, own and manage a canal across Nicaragua for eighty-five years from its completion but as nothing was done, the government of Nicaragua declared its charter invalid in 1887. In March 1887 a contract was signed with Nicaragua securing to a New York association exclusive right of way through the territory of the republic for the construction of a ship-canal between the Atlantic and Pacific oceans. The route chosen had been approved as the most practical route for such a canal through the isthmus by a government commission consisting of the chief engineers of the army, the chief of the bureau of navigation and the superintendent of the coast survey.

The New York association became the Maritime Canal Company of Nicaragua which

had been chartered by the state of Vermont, and incorporated by congress in February 1889. The company engaged to build the canal to completion before 1900. Work was begun at once, and in its first year the company expended more than \$3,000,000. The route of the canal is 169.8 miles in length but only 28.9 miles can really be called a canal. It begins at Greytown, on the eastern side, follows the course of the San Juan river above Ochoa through Lake Nicaragua, a distance of 129 miles, and thence to the harbor of Brito, the Pacific terminus. The surface of the lake, 110 feet above the sea, is the summit level. At the eastern end of the lake the San Juan river will be backed up and kept at the lake level by a dam for a distance of sixty-four miles, thus forming an extension of the lake which will have a width of 1000 feet and a depth of from 23 to 130 feet. There are ninety miles of lake navigation very wide and deep. From the point where the canal leaves the lake on the west to Brito, seventeen miles, there will be three locks. Over this portion of the route some rock cutting, and dredging will be required. The canal itself is to be eighty feet wide at the bottom in deep cuts, and 120 feet wide in the enlarged sections. The estimated cost of the canal is \$84,000,000 which includes also electric lighting and railroads for transportation of canal supplies, and the time for completion is fixed at six years. It is estimated that at least 5,000,000 tons of shipping will be ready to seek transit through the canal by 1902, with tolls at the rate of \$2.50 a ton a revenue of \$12,500,000 would be received. It is believed \$500,000 a year will cover ordinary operating expenses.

AUSTRALIAN CONFEDERATION.

Events leading up to it. Synopsis of the Constitutions as drawn.

The most important political event in the world's history since the declaration of Independence by the American colonies, is the Australasian confederation which was accomplished in 1891. Unlike the American colonies which declared and achieved their independence of the mother country by a long and bloody war the colonies on the continent of Australia will, by their confederation, acquire their independence peaceably but no less perfectly. It is the very generally accepted belief that confederation will sooner or later result in a total separation of the Australian colonies from the British empire. As long ago as 1849 the British colonial office made provision in one of its measures for the possible creation of a general assembly for two or more of the colonies in Australia. The house of lords declined to accede to the proposal and Lord Grey informed the colonies that the government had abandoned this portion of its measure because some of the colonies objected to it and New South Wales did not care for it. The matter rested quiet until 1853 when Mr. Wentworth, premier for the colony, in drawing up a new constitution for New South Wales, suggested federation to the extent of a power to legislate, by a general assembly, on all subjects which might be submitted to it by addresses from the councils or assemblies of other colonies. This plan also provided for a federal revenue and a general court of appeals. In 1857 Mr. Wentworth went to London to advocate his scheme which became the germ of the idea which later took form in the federal council of Australia. The idea of Mr. Wentworth was seized upon by Sir Henry Parkes who carried it forward to its fullest realization and who, more than any other one man, is to be credited with the confederation of Australia.

In 1881 a colonial conference assembled which resulted in the act of parliament of

1883 by which a federal council for the Australian colonies was established. New South Wales however refused to join the council, and it became inoperative from want of the authority of that colony. In 1889 an officer of the British army was detailed to make a report upon the military forces of the Australian colonies, and this report was made use of by Sir Henry Parkes to further his plans for confederation. Mr. Parkes, who was the premier of New South Wales, went to Queensland where he had an interview with Sir Samuel Griffith, and Sir Thomas McIlwraith upon the subject of confederation. Being assured of the support of Queensland he consulted with Victoria and the other colonies.

The result of these interviews was the conference of 1890 which met at Melbourne in February of that year. The conference was attended by representatives from all the Australian colonies and from New Zealand. The delegates from New Zealand decided that they could not come into the confederation. An effort was made to induce New Zealand and Fiji to become parts of the confederation, but failed. Federation resolutions, for appointing delegates to a conference to be held in Sydney in 1891, were passed by all the Australian parliaments in 1890, and March of the present year the conference began its work.

When the conference met Mr. Parkes of New South Wales was made its president, and conducted its deliberations with the most consummate skill and ability. There were very many and diverse interests to harmonize, and it is a marvel that a constitution could be agreed upon. The conference closed its labors on the 9th of April, having finished a constitution in many respects like that of the United States.

The salient points of the constitution are as follows: The federation shall be known as the Commonwealth of Australia, and the

colonies be called states. The legislature is to consist of a senate and a house of representatives, to be called a parliament. The governor-general will be appointed by the queen, and receive a salary of not less than £10,000. The members of parliament before taking seats are to make oath of or affirmation of allegiance to the queen. The parliaments are to be held as appointed by the governor, but there is to be a session of parliament at least once every year, so that twelve months shall not intervene between two sittings of parliament. The senate is to be composed of eight members of each state, chosen by the house of parliament of each state. Senators will be chosen for six years, one-half the members to retire every three years. The president of the senate is to be chosen by the senate. He is to be in all cases entitled to a vote, and when voting is equal the question is to pass in the negative. The house of representatives will be chosen by the people of the several states in proportion to their numbers, each state to have one representative for every 30,000 people; but the minimum number of representatives for each state will be four. The speaker is to be elected by the house of representatives, and when the votes are equal, but not otherwise, the speaker is to have a casting vote. The life of the house of representatives is to be three years. Parliament must be called together not later than thirty days after the day appointed for return of writs for a general election. Members of both houses are to receive an allowance of £500 (\$2,500) per annum, and the usual penalty clauses are provided to meet cases where a member is under disability to sit. No member of the house of representatives is to hold any office of profit under the crown, but ministers are not to be compelled to offer themselves for re-election.

The powers of parliament as to the making

of laws include the regulation of coinage, trade and commerce, and are in general the same as delegated to congress by the constitution of the United States. Appropriation or tax bills must be sent down by message from the governor. The governor-general is to assent to all measures, and have the power of reserving any bill for the queen's approval. The queen, in council, may disallow any bill within two years after its receipt.

The executive power of the commonwealth is to be vested in the queen, and exercised by the governor-general as the queen's representative. The governor is to be advised by an executive council, consisting of a ministry whose number is not to exceed seven. The ministers are to be members of the federal executive council and the queen's ministers of state for the commonwealth. They may sit in either house of parliament, and £15,000 per annum is set apart for the payment of their salaries until other provision is made.

The supreme court is to consist of a chief justice and not less than four other justices, to be appointed by parliament and hold office during good behavior.

As soon as a uniform tariff has been imposed, inter-colonial free trade is to prevail between all colonies. The revenue collected is to be applied in defraying the expenses of the federal government, after which parliament is to decide the manner in which the surplus is to be divided. Parliament may make provision for the consolidating of the whole or any part of the debts of the states. The states are to retain all powers which they at present possess, with the exception of those expressly delegated to the federal parliament.

The constitution is to be submitted to the colonies, and must then receive the sanction of the British parliament.

THE MONEY OF THE WORLD.

The director of the mint has prepared a series of interesting tables showing the gold and silver estimated and officially reported to be in circulation as money throughout the world, and the specie holdings of the leading European banks.

Country.	Gold.	Silver.
United States.....	\$702,018,869	\$482,071,346
United Kingdom.....	550,000,000	100,000,000
France.....	900,000,000	700,000,000
Germany.....	500,000,000	145,000,000
Belgium.....	65,000,000	65,000,000
Italy.....	140,000,000	60,000,000
Switzerland.....	15,000,000	15,000,000
Greece.....	2,000,000	4,000,000
Spain.....	100,000,000	125,000,000
Portugal.....	40,000,000	10,000,000
Austria-Hungary.....	40,000,000	90,000,000
Netherlands.....	25,000,000	65,000,000
Scandinavian Union.....	32,000,000	10,000,000
Russia.....	190,000,000	60,000,000
Turkey.....	50,000,000	45,000,000
Australia.....	100,000,000	7,000,000
Egypt.....	100,000,000	15,000,000
Mexico.....	5,000,000	50,000,000
Central America.....		500,000
South America.....	45,000,000	25,000,000
Japan.....	90,000,000	50,000,000
India.....		900,000,000
China.....		700,000,000
The Straits.....		100,000,000
Canada.....	16,000,000	5,000,000
Cuba, Hayti, etc.....	20,000,000	2,000,000
Totals.....	\$3,727,018,879	\$3,820,571,346

The silver money is classified in the following table into that which is full legal tender and that which is tender for but limited amounts.

Country.	Full legal tender.	Limited tender.
United Kingdom.....		\$100,000,000
France.....	\$50,000,000	50,000,000
Germany.....	102,000,000	43,000,000
Belgium.....	48,400,000	6,800,000
Italy.....	25,800,000	34,200,000
Switzerland.....	11,400,000	8,600,000
Greece.....	1,800,000	2,200,000
Spain.....	90,000,000	35,000,000
Portugal.....		10,000,000
Austria-Hungary.....	90,000,000	8,200,000
Netherlands.....	61,800,000	10,000,000
Scandinavian Union.....		38,000,000
Russia.....	22,000,000	7,000,000
Turkey.....		15,000,000
Australia.....		
Egypt.....	50,000,000	
Mexico.....	500,000	
Central America.....	25,000,000	
South America.....	50,000,000	
Japan.....	900,000,000	
India.....	700,000,000	
China.....	100,000,000	
The Straits.....		5,000,000
Canada.....	1,200,000	800,000
Cuba, Hayti, etc.....		
Totals.....	\$2,929,900,000	\$408,600,000

The total stock of full legal-tender silver coin in Europe is given at \$1,101,400,000.

NEW WEATHER SIGNALS.

The department of agriculture has issued a new code of weather signals by which it is designed to give wider currency to the weather reports of the signal service. The flags or signals are made of tin, painted white, blue or black, and their size, shape and color, with the code of signals, will be as follows:

No. 1—White flag, six feet square, will indicate clear or fair weather.

No. 2—Blue flag, six feet square, will indicate rain or snow.

No. 3—White and blue flag, six feet square, will indicate that local rains or showers will occur, and that the rainfall will not be general.

No. 4—Black, triangular flag, four feet at the base and six feet long, always refers to temperature. When placed above flags 1, 2 or 3 it will indicate warmer weather. When placed below the numbers it will indicate colder weather. When it is not displayed the indications are that the temperature will remain stationary, or that the change in temperature will not vary more than 4 degrees from the temperature of the same hour of the preceding day from March to October, inclusive, and not more than 6 degrees for the remaining months of the year.

No. 5—White flag, six feet square, with black square in center, will indicate the approach of a sudden and decided fall in temperature. This signal will not be displayed unless it is expected that the temperature will fall to 42 degrees or lower, and will be ordered displayed at least twenty-four hours in advance of the cold wave. When No. 5 is displayed No. 4 is always omitted.

When displayed on poles the signals will be arranged to read downward; when displayed on horizontal supports a small streamer will be attached to indicate the point from which the signals are to be read.

No. 1, alone—Fair weather, stationary temperature.

No. 2, alone—Rain or snow, stationary temperature.

No. 3, alone—Local rain, stationary temperature.

No. 1, with No. 4 above it—Fair weather, warmer.

No. 1, with No. 4 below it—Fair weather, colder.

No. 2, with No. 4 above it—Warmer weather, rain or snow.

No. 2, with No. 4 below it—Colder weather, rain or snow.

No. 3, with No. 4 above it—Warmer weather, local rains.

No. 3, with No. 4 below it—Colder weather, local rains.

No. 1, with No. 5 above it—Fair weather, cold wave.

A WATERPROOF blacking which will give a fine polish without rubbing, and will not injure the leather: 18 parts beeswax, 6 parts spermaceti, 66 parts oil of turpentine, 5 parts asphalt varnish, 1 part powdered borax, 5 parts Frankfort black, 2 parts Prussian blue, 1 part nitrobenzol. Melt the wax, add the powdered

No. 2, with No. 5 above it—Wet weather, cold wave.

The department will also make arrangements to have the flags displayed on railroad cars. The starting points of the trains on all the railroads will be supplied every morning with the forecast, and one man on each train will be assigned to the duty of displaying the flags. When the public has made itself familiar with the code every person can ascertain the forecast by looking at any passing train.

A plan has also been devised to have locomotives and factories whistle the forecast for the information of farmers who live too far away to see the flags.

Notification will be given in every town and village where there is a steam whistle that at a certain hour every day the whistle will sound the signal to indicate the probable weather for the ensuing twenty-four hours. Factories will receive the forecast by telegraph and locomotive engineers will receive it at their starting point.

The warning signal to attract attention will be what is called the long blast, lasting twenty seconds. After this signal has been sounded, blasts of from four to six seconds duration will refer to the weather; short blasts of three seconds each will refer to the temperature, those for the weather to be sounded first, like this:

One long blast indicates fair weather; two long blasts, rain or snow; three long blasts, local rains; one short blast, lower temperature; two short blasts, higher temperature; three short blasts, cold wave.

One long, alone—Fair weather, stationary temperature.

Two long, alone—Rain or snow, stationary temperature.

One long and one short—Fair weather, lower temperature.

Two long and two short—Rain or snow, higher temperature.

One long and three short—Fair weather, cold wave.

Three long and two short—Local rains, higher temperature.

Each combination will be repeated a few times, with an interval of ten seconds between. This will avoid the possibility of any error in ascertaining the forecast.

Some difficulty may arise with regard to the locomotive whistles. Engineers have to give railroad signals, and the public mind may become confused by the two, but it is thought this difficulty can be overcome.

It is expected to have the system in full operation before 1892.

borax, and stir until a kind of jelly has been formed. In another pan melt the spermaceti, add the asphalt varnish, previously mixed with the oil of turpentine, stir well, and add to the wax. Lastly add the color, previously rubbed smooth with a little of the mass. The nitro-benzol gives fragrance.

POPULATION OF ILLINOIS, 1890-1880.

The following table gives the population of the state of Illinois in detail by counties, townships or precincts, cities, wards of cities, towns and villages, according to the official count of the returns made under the eleventh census (1880). The population of the same divisions, according to the census of 1880, is also given for purposes of comparison. The population of the state in 1880 was 3,077,871. In 1890 the population returned was 3,826,851, an increase of 748,480, or 24.32 per cent. Of the 102 counties in the state, thirty show slight decreases.

There has been a very large increase in urban population in the state since the enumeration in 1880. Under the tenth census (1880) there were thirty-eight cities and towns having a population of 4,000 or more, with an aggregate population of 844,462. Under the present census there are forty-seven cities, towns and villages having a population of 4,000 or more, with an aggregate population of 1,604,943. Thus an increase is shown in the aggregate population in cities of this size of 760,481, or 90.06 per cent. Of these forty-seven places two only show decreases. The largest increase numerically is found in Chicago, which has increased 596,665, or 118.58 per cent during the decade. Large increases are also found in Peoria, Rockford, Joliet, Elgin, Aurora, Decatur and Streator. The largest percentages of increase are found in Austin, Oak Park, Streator, Chicago, Elgin, Joliet, Rockford and Decatur. Population of Illinois cities will be found on page 87.

Changes have been made in the official figures for Bloomington and Jacksonville, it having been discovered in the more recent critical examination of the returns that parts of enumeration districts should be included which had been wrongly returned, and consequently not included in the population of those places.

The table also shows the population of each county in detail by minor civil divisions, including all incorporated places and places not incorporated having a population of 500 or more, so far as it has been possible to make the separation from the returns of the enumerators:

* Not under township organization. † Formerly Bolton.

OUR CENTER OF POPULATION.

It appears from a bulletin issued by the United States census office that this point was situated June 1, 1890, in 39 degrees 11 minutes and 55 seconds north latitude and 85 degrees 32 minutes 53 seconds west longitude, a point twenty miles east of Columbus, Ind. In the ten years preceding, it moved forty-eight miles west and nine miles north. From the begin-

ning in 1790, this point has clung close to the parallel of 39 degrees, the greatest variation being less than 19 minutes. The movement west in each decade has been as follows: 1790-1800, 41 miles; 1800-1810, 36 miles; 1810-20, 50 miles; 1820-30, 39 miles; 1830-40, 55 miles; 1840-50, 55 miles; 1850-60, 81 miles; 1860-70, 42 miles; 1870-80, 53 miles; 1880-90, 48 miles.

POPULATION OF CITIES AND VILLAGES.

The following table shows the population of all cities and villages in the United States which had more than 4,000 in 1890 with the population of the same as returned by the census of 1880.

THE NATIONAL LEAGUE FOR THE PROTECTION OF AMERICAN INSTITUTIONS.

President—John Jay.

Vice-Presidents—William Strong, William H. Parsons.

Gene al secretary—James M. King.

Treasurer—William Fellows Morgan.

Law Committee—William Allen Butler, Dorman B. Eaton, Cephas Brainerd, Henry E. Howland and Stephen A. Walker.

Offices—140 Nassau street, New York.

The league, which is entirely non-partisan and unsectarian, was incorporated Dec. 24, 1889, under an act of the New York legislature. Its objects are "to secure constitutional and legislative safeguards for the protection of the common school system and other American institutions, and to promote public instruction in harmony with such institutions, and to prevent all sectarian or denominational appropriations of public funds." As an important step to this end, the league proposes to secure the passage of the following amendment to the constitution of the United States: "No state shall pass any law respect-

ing an establishment of religion or prohibiting the free exercise thereof, or use its property or credit, or any money raised by taxation, or authorize either to be used for the purpose of founding, maintaining or aiding by appropriation payment for services, expenses or otherwise, any church, religious denomination or religious society, or any institution, society or undertaking which is wholly or in part under sectarian or ecclesiastical control."

It will also endeavor to secure similar amendments to the state constitutions.

The league has been in active operation since May, 1890, and already has many thousands of adherents distributed throughout every state and territory. Many religious and patriotic organizations have formally approved its principles.

Auxiliary leagues are being organized and local secretaries appointed in all the states, and correspondence and co-operation is invited from thoughtful citizens throughout the country.

POPULATION.

93

WHITE AND COLORED POPULATION.

Statement showing the number of white and colored inhabitants of the southern states at each census from 1850 to 1890, inclusive. Census of 1890.

THE REPUBLICAN LEAGUE.

Resolutions adopted at Cincinnati April 21, 1891, and Executive Committee.

The republican league of the United States, in convention assembled, pauses on the threshold of its proceedings to honor the memory of General Sherman, Admiral Porter and Secretary Windom, who for more than a quarter of a century have been especially eminent in the public service.

We indorse the wise, statesmanlike, courageous and patriotic course of the administration of President Harrison.

Its conduct of both domestic and foreign affairs has been such as to command the thorough respect and hearty admiration of every true citizen. Its attitude in dealing with alien residents and giving to them the protection accorded to American citizens, and no more, is just, and should commend itself to the civilized world. We heartily commend the action of Speaker Reed and his republican colleagues in the house of representatives in asserting and maintaining the right of the majority to rule, and in compelling the members of the house to transact the public business, the purpose for which they were elected by the people.

We declare our belief in the doctrine of protection to American labor, American industries and American homes, and indorse the wisdom of the republican party in continued advocacy of that doctrine. We also believe in such reciprocal trade with the countries of America as will enlarge the markets for the products of our farms and factories without increasing the competition which tends to lessen wages and degrade labor.

We oppose any attempt to debase the currency and coin of the country, but insist upon such legitimate increase of our circulating medium and such maintenance of the double standard as will fairly satisfy the increasing necessities of trade and commerce. Loyal and intelligent republicans will not seek to destroy vested interests nor to cripple any legitimate enterprises, but they demand that the best thought of the republican party shall be concentrated on the formulation of such legislation as will save the people from the exactions of the usurer, from oppressions of monopolies or from extortionate demands of public carriers.

The soldier and the sailor who saved the union deserve and shall continue to receive grateful consideration at the hands of the

republican party. Recent events have made more apparent than ever before the necessity for exercising the sovereign right, inherent in our nation as in all others, to use discrimination in the admission of foreigners as residents of this country. We therefore recommend such changes in our laws as will effectually prohibit the immigration of paupers and criminals.

We reaffirm our belief in and devotion to the supreme and sovereign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in public elections, and to have that ballot duly counted and certified as counted. Denial of such right should result in decrease of representation in congress and in the electoral college. We recognize the republican press of the country as a great and indispensable force in the advance and promotion of republican principles, and commend to every believer in republicanism the duty of lending his influence and efforts to the extension of the benefits of this potent agency.

OFFICERS AND EXECUTIVE COMMITTEE.

Headquarters—212 Fifth avenue, New York city.

President—J. S. Clarkson, of Iowa.

Secretary—A. B. Humphrey, of New York.

Treasurer—Ex-Governor Lounsbury, of Connecticut.

Executive Committee—Alabama, R. W. Austin; Connecticut, Edward L. Lindsey; Delaware, Philip Walter; Georgia, R. D. Locke; Idaho, George N. Roberts; Illinois, James C. Edwards; Indiana, George W. * Expenditures in excess of revenue.

NATIONAL WOMAN'S CHRISTIAN TEMPERANCE UNION.

This organization, the result of the Woman's Crusade, was formed in Cleveland, Ohio, in 1874, and has 144,385 paying members. The following are the officers of the national union:

President—Miss F. E. Willard, Evanston, Ill.

Corresponding Secretary—Mrs. C. B. Buell, Chicago, Ill.

Recording Secretary—Mrs. M. A. Woodbridge, Ravenna, Ohio.

Assistant Rec. Secretary—Mrs. L. M. N. Stevens, Stroudwater, Me.

Treasurer—Miss Esther Pugh, Chicago, Ill.

State.

Maine.....	Mrs. L. M. N. Stevens, Stroudwater.	Mrs. Sarah L. Cram, Biddeford.
New Hampshire.....	Mrs. N. H. Knox, Manchester.....	Miss C. R. Wendell, Dover.
Vermont.....	Mrs. Esther T. Housh, Brattleboro.....	Mrs. G. E. Davison, Newfane.
Massachusetts.....	Mrs. S. S. Fessenden, Malden.....	Mrs. Kate L. Stevenson, Boston.
Rhode Island.....	Mrs. Mary A. Babcock, Phenix.....	Miss Elizabeth P. Nichols, Prov'dnce.
Connecticut.....	Mrs. S. B. Forbes, Hartford.....	Mrs. M. M. Andrews, Stamford.
New York.....	Mrs. Mary T. Burt, New York City.....	Mrs. E. A. Boole, New York City.
New Jersey.....	Mrs. S. J. C. Downs, Asbury Park.....	Mrs. J. T. Ellis, Newark.
Pennsylvania.....	Mrs. J. R. Jones, Philadelphia.....	Mrs. H. H. Forrest, Philadelphia.
Delaware.....	Miss Margaret S. Hills, Wilmington.	Mrs. Mary L. Cox, Middletown.
Maryland.....	Mrs. Juliet S. Baldwin, Baltimore.....	Mrs. M. A. Lake, Mt. Washington.
Dist. of Columbia.....	Mrs. S. D. La Fetra, Washington.....	Mrs. L. C. Kessler, Washington.
Virginia.....	Mrs. R. H. Jones, Norfolk.....	Miss Lona Kern, Winchester.
West Virginia.....	Mrs. Jennie P. Sisson, Koney's Point.	Mrs. Mary Cartwright, Parkersburg.
Ohio.....	Mrs. H. L. Monroe, Xenia.....	Mrs. C. C. Clevenger, Wilmington.
Illinois.....	Mrs. Louise S. Rounds, Chicago.....	Miss Helen L. Hood, Chicago.
Indiana.....	Mrs. Mary E. Haggart, Indianapolis.	Miss Lodie E. Reed, Indianapolis.
Wisconsin.....	Mrs. Amy K. Morse, Durand.....	Mrs. Emma J. Curtis, Madison.
Michigan.....	Mrs. Mary T. Lathrap, Jackson.....	Mrs. E. A. Wheeler, Grand Rapids.
Minnesota.....	Mrs. H. A. Hobart, Red Wing.....	Mrs. E. S. Wright, Red Wing.
Iowa.....	Mrs. Marion H. Dunham, Burlington.	Mrs. M. H. M. Blair, Washington.
Nebraska.....	Mrs. M. A. Hitchcock, Fremont.....	Mrs. Jennie F. Holmes, Tecumseh.
Kansas.....	Mrs. Fannie H. Rastall, Topeka.....	Mrs. Kate M. Biggars, Longton.
Louisiana.....	Mrs. E. T. Merrick, New Orleans.....	Mrs. Emma A. White, Alexandria.
Mississippi.....	Mrs. L. S. Mount, Greenville.....	Mrs. E. C. Hurlbut, Meridian.
Missouri.....	Mrs. Clara C. Hoffman, Kansas City.	Miss Ellen D. Morris, Kansas City.
Arkansas.....	Mrs. Lydia M. Chace, Little Rock.....	Mrs. Sara K. Hart, Little Rock.
California.....	Mrs. R. B. Johnston, Oakland.....	Mrs. H. H. Havens, Oakland.
South California.....	Mrs. N. P. J. Button, Riverside.....	Mrs. Mary E. Garbutt, Los Angeles.
Colorado.....	Mrs. Eva Higgins, La Veta.....	Miss W. Spaulding, Canon City.
Oregon.....	Mrs. Anna H. Riggs, Portland.....	Mrs. Henrietta Brown, Albany.
Nevada.....	Mrs. D. W. Van Denter, Virg. City.	Mrs. Caroline Norcross, Reno.
North Carolina.....	Mrs. Mary C. Woody, New Garden.	Miss B. B. Caldwell, Greensboro.
South Carolina.....	Mrs. S. F. Chapin, Charleston.....	Mrs. Virginia D. Young, Sanders.
Georgia.....	Mrs. W. C. Sibley, Augusta.....	Miss M. H. Stokes, Decatur.
Alabama.....	Mrs. Kate D. Smith, Birmingham.....	Miss Ala D. Hayes, Decatur.
Florida.....	Mrs. A. A. W. Cadwallader, Jack's le.	Mrs. Lillian S. Wells, Tampa.
North Dakota.....	Miss Addie M. Kinnear, Fargo.....	Mrs. M. V. Wood, Fargo.
South Dakota.....	Mrs. Helen M. Barker, Huron.....	Mrs. F. M. Swift, Yankton.
Tennessee.....	Mrs. Lide Merlweather, Memphis.....	Mrs. Nat. Baxter, Sr., Nashville.
Kentucky.....	Mrs. W. H. Munnell, Louisville.....	Mrs. M. M. Givens, Cynthiaana.
Texas.....	Mrs. S. C. Acheson, Denison.....	Miss Annie Horner, Denton.
Wyoming.....	Miss L. A. Northrup, Cheyenne.....	Mrs. F. A. Jones, Green River.
Utah.....	Mrs. Lydia M. Bailey, Ogden.....	Miss V. W. Ludden, Ogden.
Montana.....	Mrs. M. L. Cummins, Helena.....	Mrs. H. V. Wheeler, Helena.
Idaho.....	Mrs. Susan H. Black, Nampa.....	Mrs. Mary E. McGee, Nampa.
East Washington.....	Mrs. Lucy A. Switzer, Cheney.....	Miss H. M. Peet, Spokane Falls.
West Washington.....	Mrs. M. A. Shaffer, Tacoma.....	Miss Jennie M. Hopkins, Tacoma.
New Mexico.....	Mrs. M. J. Borden, Las Vegas.....	Mrs. L. N. Higgins, East Las Vegas.
Arizona.....	Mrs. L. C. Hughes, Tucson.....	Mrs. L. C. Hughes, Tucson.
Alaska.....	Mrs. John G. Brady, Sitka.....	Mrs. Mary S. Haydon, Sitka.
Indian Territory.....	Mrs. L. Jane Stapler, Tahlequah.....	Mrs. T. M. Fuller, Tahlequah.
Oklahoma.....	Mrs. Murray, Oklahoma City.....	Mrs. L. Holzapfel, Oklahoma City.

NON-PARTISAN NATIONAL W. C. T. U.

This organization was organized in January, 1889, at Cleveland, Ohio, with 273 members present from eleven states and the District of Columbia, on the non-partisan and non-sectarian basis. The following were elected officers of the national organization:

President—Mrs. Ellen J. Phinney, Cleveland, Ohio.

Vice-President—Mrs. T. B. Walker, Minneapolis, Minn.

General Secretary—Miss Jennie F. Duty, Cleveland, Ohio.

Recording Secretary—Mrs. Florence Miller, Des Moines, Iowa.

Financial Secretary and Treasurer—Mrs. C. C. Alford, Brooklyn, N. Y.

Evangelistic Secretary—Mrs. Mary J. Aldrich, Cedar Rapids, Iowa.

Educational Secretary—Mrs. Joseph D. Weeks, Pittsburg, Pa.

Legislative Secretary—Mrs. Lydia H. Tilton, Washington, D. C.

Literature Secretary—Mrs. Florence Porter, Oldtown, Me.

State.

Maine.....	Mrs. A. C. Paul, Ft. Fairfield.....	Mrs. J. A. Clark, Augusta.
Vermont.....	Miss Anna C. Park, Bennington.....	Mrs. A. W. Barnum, Milton.
Pennsylvania.....	Mrs. H. C. Campbell, Allegheny.....	Mrs. Ellen M. Watson, Pittsburg.
Ohio.....	Mrs. Ellen J. Phinney, Cleveland.....	Miss M. E. Ingersoll, Cleveland.
Illinois.....	Mrs. Martha A. Deitz, Chicago.....	Mrs. M. E. Walker, Cerro Gordo.
Iowa.....	Mrs. Mattie M. Bailey, Shenandoah.....	Mrs. M. J. Aldrich, Cedar Rapids.
Minnesota.....	Mrs. H. G. Walker, Minneapolis.....	Miss C. J. Lund, Minneapolis.
Dist. of Columbia.....	Mrs. J. Ellen Foster, Washington.....	Mrs. Lydia H. Tilton, Washington.

The following table, which is compiled by the Government Bureau of Statistics at Washington, shows the quantities of distilled spirits, wines and malt liquors consumed in the United States for each year from 1870 to 1880, inclusive, and for the census years 1840, 1850 and 1860; also, the average consumption per capita for each year. The figures include consumption for all purposes. The large per capita consumption of spirits for the years 1840, 1850 and 1860 is explained by the fact that, previous to the imposition of the high internal revenue tax, spirits were largely used in the arts and manufactures, which uses were largely destroyed by the high tax.

CONSUMPTION OF INTOXICATING LIQUORS.

Year ended June 30.	DISTILLED SPIRITS.				WINES.				MALT LIQUORS.				TOTAL PER CAPITA OF POPULATION.

*Proof less exports, included with "All other." Includes 2,316,455 proof gallons of domestic spirits exported and brought back. Includes 1,353,812 proof gallons of domestic spirits exported and brought back.

NOTES.—(1) The production of domestic liquors and wines for 1840, 1850 and 1860 was derived from the United States census. (2) The consumption of domestic liquors and wines for 1870 to 1880 has been estimated by the Department of Agriculture, by Mr. Charles M. Leoser, President of Wine and Spirit Traders' Society, New York, and other well-informed persons. (3) The consumption of domestic spirits and malt liquors from 1870 to 1889 was obtained from the reports of the Commissioner of Internal Revenue, and for prior years from the United States census. (4) The consumption of imported liquors and wines from 1870 to 1889 was taken from the official returns made to the Bureau of Statistics by collectors of customs. (5) In computing the quantity of sparkling and still wines and vermouth in bottles, 3 so-called quart bottles are reckoned as equivalent to the gallon.

THE WORLD'S BEER PRODUCTION.

The following table is compiled by the Bavarian director-general of customs and indirect taxes, and gives reliable figures as to the quantities of beer and other malt liquors produced and consumed by the different countries named, the number of breweries operated in each country, the per capita production and consumption, and the percentage which the beer tax forms of the total revenues of each country. "The Brewer's Journal" states that there is an additional 1,072,000 hectoliters produced annually in countries not included in the table, making a total production for the whole world of 163,784,179 hectoliters, or 4,485,273,549 gallons.

*Decreases—total 58,686 barrels. The net increase for the year, therefore, was 3,200,126 barrels.

SALES OF MALT LIQUORS FOR 1891.

The *Brewers' Journal* for July publishes the following statistics, compiled from official sources, showing the sales of malt liquors in each of the states and territories for the last seven years; also showing the sales in principal cities. The increase is greater than in any previous year in the history of the country, amounting to nearly 12 per cent upon the very large sales of 1890. The Dakotas show a decrease of from 32,386 barrels to 9,444 barrels, equal to 70 per cent, while Kansas shows a decrease from 2,700 barrels to 2,050, equal to 25 per cent. New Hampshire, whose prohibition law is almost worthless, shows a decrease. It must be remembered that this year covers the entire period from the announcement of the original package decision to the passage of the original package law, during which time it would have been quite natural to expect an increase of beer sales in the prohibition states:

The average yield per bushel of grain was $\frac{114,178,077}{26,385,401} = 4.32+$ gallons of spirits.

The average yield per gallon of molasses was $\frac{1,784,312}{2,368,171} = .753+$ gallons of rum.

*242,747 gallons of molasses were used in combination with grain for the production of spirits. Instead of rum; and their equivalent, estimated in bushels of grain, is added to the total grain in determining the yield per bushel of grain.

INTERNAL REVENUE RECEIPTS.

Comparative statement showing the receipts from the several objects of internal taxation in the United States during the fiscal years ended June 30, 1890 and 1891.

Average quantity of leaf tobacco used per thousand cigars, 19½ pounds. Average quantity of leaf tobacco used per thousand cigarettes, 4 pounds.

SUGAR FROM BEETS.

The following is a list of producers of sugar in the United States from beets who have made application for license, with the number of acres of beets planted and the amount of sugar proposed to be produced as stated in their applications:

PRODUCER.	Location.	Acres planted.	Estimated production (lbs.)
Utah Sugar Company	Salt Lake City, Utah.....	2,000	7,200,000
Alameda Sugar Company	Alvarado, Cal.....	1,000	3,000,000
Western Beet Sugar Company	Watsonville, Cal.....	2,500	8,000,000
Chino Valley Beet Sugar Company	Chino, Cal.....	2,500	5,000,000
Oxnard Beet Sugar Company	Grand Island, Neb.....	2,500	3,000,000
Norfolk Beet Sugar Company	Norfolk, Neb.....	2,200	3,000,000
O. K. Lapham & Co.*	Staunton, Va.....	20	10,000
William W. Mills†	Ariel, Wayne county, Pa.....	24	†.....
Total.....		12,744	29,210,000

* License issued, but party afterward decided to make no sugar for bounty. † No license issued at date of this report. ‡ Not stated.

The beet-sugar industry in the continental countries of Europe has grown within recent years to great dimensions, so that now the production of beet sugar in the world exceeds that of cane. The improved methods of manufacture established in those countries and the payment of bounties to beet-sugar manufacturers on exporting their product have produced this result.

The bounty granted to the manufacturers of sugar under the act of October 1, 1890, the admission free of duty of beet-sugar machinery until July 1, 1892, and the encouragement given by the Department of Agriculture in the experiments for the benefit of farmers, and the aid given by different states will doubtless have the effect of stimulating the industry in this country.

In 1887 we produced in this country from the sugar beet 400,000 pounds of sugar, in 1888 about 3,600,000 pounds, in 1889 about 6,000,000 pounds. In 1890 three factories in this country (two in California and one in Nebraska) produced about 8,000,000 pounds. Three additional factories have been established during the past year, and it is estimated that their production this year will be about 25,000,000 pounds.

IMPORTANT LEGISLATION.

The following is a synopsis of the most important laws passed at the second session of the List congress. For synopsis of laws of the first session see DAILY NEWS ALMANAC for 1891, page 110, et seq.:

REAPPORTIONMENT.

The act reapportioning the congressional districts in accordance with the census of 1890 takes effect in time for the increase to be made both in the membership of the house of representatives and in the number of presidential electors in 1892. Its full text is as follows:

That after March 3, 1893, the house of representatives shall be composed of 356 members, to be apportioned among the several states as follows: Alabama, 9; Arkansas, 6; California, 7; Colorado, 2; Connecticut, 4; Delaware, 1; Florida, 2; Georgia, 11; Idaho, 1; Illinois, 22; Indiana, 13; Iowa, 11; Kansas, 8; Kentucky, 11; Louisiana, 6; Maine, 4; Maryland, 6; Massachusetts, 13; Michigan, 12; Minnesota, 7; Mississippi, 7; Missouri, 15; Montana, 1; Nebraska, 6; Nevada, 1; New Hampshire, 2; New Jersey, 8; New York, 34; North Carolina, 9; North Dakota, 1; Ohio, 21; Oregon, 2; Pennsylvania, 30; Rhode Island, 2; South Carolina, 7; South Dakota, 2; Tennessee, 10; Texas, 13; Vermont, 2; Virginia, 10; Washington, 2; West Virginia, 4; Wisconsin, 10; Wyoming, 1.

Sec. 2. That whenever a new state is admitted to the union the representative or representatives assigned to it shall be in addition to the number 356.

Sec. 3. That in each state entitled under this apportionment the number to which such state may be entitled in the LIIRD and each subsequent congress shall be elected by districts composed of contiguous territory and containing as nearly as practicable an equal number of inhabitants. Said districts shall be equal to the number of representatives to which such state may be entitled in congress, no one district electing more than one representative.

Sec. 4. That in case of an increase in the number of representatives which may be given to any state under this apportionment such additional representative or representatives shall be elected by the state at large and the other representatives by the districts now prescribed by law until the legislature of such state in the manner herein prescribed shall redistrict such state, and if there be no increase in the number of representatives from a state the representatives thereof shall be elected from the districts now prescribed by law until such state be redistricted as herein prescribed by the legislature of said state.

Sec. 5. That all acts and parts of acts inconsistent with this act are hereby repealed.

SUPREME COURT RELIEF.

The bill for the relief of the Supreme court provides for the appointment in each circuit of an additional circuit judge and creates in each circuit a circuit court of appeals to consist of three judges, of whom two shall constitute a quorum. This court shall have final jurisdiction in some classes of cases on which appeals are now allowed to the United States Supreme court. In case there is not a quorum of circuit judges and justices of the Supreme court at the sessions of any circuit court of appeals one or more of the district judges within the circuit is made competent to sit in the court. But no judge is to sit in a case which he has heretofore passed upon. Each of these circuit courts is to have a marshal, clerk and other necessary court officers. A term of one of the several courts of appeals is required to be held annually in Boston,

New York, Philadelphia, Richmond, New Orleans, Cincinnati, Chicago, St. Louis and San Francisco and such other places as may be designated by the courts.

Hereafter appeals from the judgment of district courts or from the existing circuit courts may be taken directly to the Supreme court in the following cases only: Where the jurisdiction of the court is in issue; from final sentences and decrees in *nisi prius* causes; upon conviction of a capital or infamous crime where the construction or application of the constitution of the United States is involved; where the constitutionality of any federal law or the validity or construction of any treaty is drawn in question, or where a state constitution or law is held to be in contravention of the federal constitution. Appeals may also be taken from judgment of the state supreme courts.

The judgment of the circuit court of appeals established by the bill is to be final in all cases in which the jurisdiction is dependent entirely upon the opposite parties to the suit being aliens and citizens of the United States or citizens of different states; in cases arising under the patent laws; the revenue law, and the criminal laws, and in admiralty cases, except that the courts of appeal may certify to the Supreme court any questions on which they desire instruction. There are also some other provisions with respect to the right of the Supreme court to take under review special cases. It is expected by this bill to reduce materially the docket of the Supreme court.

Another federal court bill provides that the salaries of the several judges of the district courts of the United States shall hereafter be at the rate of \$5,000 per annum.

DIRECT TAX REFUND.

The direct tax bill in substance provides that the secretary of the treasury shall credit each state and territory and the District of Columbia with a sum equal to all collections by set-off or otherwise made under the terms of the direct tax act of 1861. That all money still due the United States under the requirements of that act is remitted. A sufficient sum of money to reimburse the states and territories for the collections under the direct tax act is appropriated, to be paid when the legislature shall have accepted the sums in full satisfaction of all claims against the United States on account of the levy. Money appropriated to meet individual claims is to be held in trust by the state authorities, six years being allowed for the reception of these claims. Payment is also to be made to the owner of lands in St. Helena and St. Luke's parishes in South Carolina that were sold under the operation of the direct tax act.

IMMIGRATION.

The new immigration act is amendatory to the existing law. It excludes from admission into this country all idiots, insane persons, paupers, persons likely to become a public charge, persons suffering from loathsome or dangerous contagious diseases, persons convicted of felony or infamous crime involving moral turpitude, polygamists, and any person whose passage is paid for with the money of another, or who is assisted by others to come, unless it is affirmatively shown that such person does not belong to one of the foregoing

excluded classes or to the class of contract laborers. But it is specially provided that persons living in the United States may assist friends or relatives who are not of the excluded classes. Persons convicted of a political offense, whether such offense be a felony or not by the laws of their country, are not to be excluded from immigration. No suit for violation of the act prohibiting the importation of foreigners under contract is to be settled, compromised or discontinued without the consent of the court and a record of the reasons.

To induce immigration by advertisements of any kind in foreign countries is prohibited except when done by states or state immigration bureaus, and any alien coming to this country in consequence of such advertisement is to be deemed a contract immigrant. Steamship, vessel and transportation companies are prohibited from inducing or encouraging immigration directly or indirectly except by ordinary commercial letters or advertisements stating the sailings of their vessels and terms and facilities of transportation. A fine of \$1,000 or an imprisonment of not more than one year is prescribed for bringing or aiding in bringing into this country any alien excluded by law.

The office of superintendent of immigration is created, with a salary of \$1,000, to be connected with the treasury department and controlled by the secretary of the treasury. The superintendent is to have his office in Washington and a chief clerk at \$2,000 and two first-class clerks. The captains and agents of steam sailing vessels arriving in any port of the United States with immigrants on board are required before landing any alien to report the name, nationality, last residence and the destination of every alien to the proper inspection officers. Provision is made for inspection and medical examination of immigrants. The inspectors are given power to administer oaths and take testimony touching the right of an alien to land. The decisions of inspectors are made final, unless overruled by the superintendent of immigration or secretary of the treasury on appeal.

A fine of \$1,000 or less or imprisonment for one year or less is fixed for violation of the law against landing any alien at any time or place other than that designated by the inspection officers. The secretary of the treasury is authorized to prescribe rules for inspection along the borders of Canada, British Columbia and Mexico so as not to unnecessarily delay, impede or annoy passengers in ordinary travel. One inspector may be appointed for each inspection district. State officers and local courts are given jurisdiction over immigrant stations for the purpose of keeping the peace and making arrests for crimes against the law of the states. Aliens coming into this country in violation of law are to be sent back at once at the expense of the owners of the vessel upon which they arrived. Any such alien may be sent back within one year, and any alien who becomes a public charge within one year after arrival from causes existing prior to landing shall be deemed to have come in violation of law and shall be returned. The bill contains a section relieving ministers of religious denominations, persons belonging to recognized professions and professors of colleges and seminaries from exclusion under the act against immigration under contracts.

INTERSTATE COMMERCE.

Sec. 12 of the interstate commerce act, which relates to the powers of the commission in inquiring into the business of common carriers, is amended so that upon the request

of the commission any district attorney of the United States is required to institute proceedings for the enforcement of the act and for the punishment of all violations of it. The attendance of witnesses and the productions of documentary evidence may be required from any place in the United States at any designated place of hearing. The following new provision is added to section 12:

The testimony of any witness may be taken at the instance of a party in any proceeding or investigation pending before the commission by deposition at any time after a cause or proceeding is at issue on petition and answer. The commission may also order testimony to be taken by deposition in any proceeding or investigation pending before it at any stage of such proceeding or investigation. Such depositions may be taken before any judge of any court of the United States or any commissioner of a circuit or any clerk of a district or circuit court, or any chancellor, justice or judge of a supreme or superior court, mayor or chief magistrate of a city, judge of county court or court of common pleas of any of the United States, or any notary public not being counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. Reasonable notice must first be given in writing by the party or his attorney proposing to take such deposition to the opposite party or his attorney of record, as either may be nearest, which notice shall state the name of the witness and the time and place for the taking of his deposition. Any person may be compelled to appear and depose and to produce documentary evidence in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the commission as hereinbefore provided.

Every person deposing as herein provided shall be cautioned and sworn or affirmed if he so requests to testify the whole truth, and shall be carefully examined. His testimony shall be reduced to writing by the magistrate taking the deposition, or under his direction, and shall after it has been reduced to writing be subscribed by the deponent.

If a witness whose testimony may be desired to be taken by deposition be in a foreign country the deposition may be taken before an officer or person designated by the commission or agreed upon by the parties by stipulation in writing to be filed with the commission. All depositions must be promptly filed with the commission.

TARIFF-LAW CHANGES.

The changes made in the McKinley tariff law were simply correcting errors in the original measure. The drawback on tobacco was allowed and the clause in regard to binding-twine was corrected to read as follows:

Cables, cordage and twine (except binding-twine) composed in whole or in part of istle or tampoico fiber, manilla, sisal grass or sunn, 1½ cents per pound; all binding-twine manufactured in whole or in part from istle or tampoico fiber, manilla, sisal grass or sunn, 7-10 of a cent per pound; cables and cordage made of hemp, 2½ cents per pound; tarred cables and cordage, 3 cents per pound.

A bill was also passed providing that nothing in the act shall be held to repeal or impair the commercial reciprocity treaty with the Hawaiian islands.

POSTAL-SUBSIDY BILL.

The provisions of the ocean-mail-subsidy bill are in substance as follows:

The postmaster-general is authorized to

contract, after due advertisement, with the lowest responsible bidder for terms of not less than five nor more than ten years, with American citizens, for carrying the mails on American steamships between ports of the United States and such foreign ports (excluding Canada) as in his judgment will best promote the postal and commercial interests of the United States, the mail service to be distributed equitably among the Atlantic, Mexican gulf and Pacific ports. The vessels are to be American-built steamships, owned and officered by American citizens, and the crew is to be composed of American citizens in the following proportions: During the first two contract years one-fourth, the next three one-third and the remaining time at least one-half. The vessels are to be constructed after the latest and most approved types, divided into four classes as follows:

First class, iron or steel 20-knot vessels of not less than 8,000 tons. (The American-English mails are to be carried on this class entirely.) Second class, iron or steel 14-knot vessels of not less than 2,500 tons; fourth class, iron, steel or wooden 12 knot vessels of not less than 1,500 tons. Vessels of the first, second and third classes are to be constructed with particular reference to prompt and economical conversion into auxiliary naval cruisers on plans approved by the secretary of the navy, strong enough to carry six-inch rifles and of the highest known maritime rating. The compensation to be paid is as follows: First class, \$4 per mile; second class, \$2 per mile by the shortest practicable route for each outward voyage; third class, \$1 per mile; fourth class, 63 cents per mile for the number of miles required by the postoffice department to be traveled on each outward voyage.

Provision is made for deductions on account of omitted voyages or delays; for the transportation of a mail messenger on each vessel; for carrying apprentices or cadets of American birth (one for each 1,000 tons); for the use of the vessels by the United States as transports or cruisers upon payment to the owner of actual value at the time of the taking and for the assignment to duty on the vessels under furlough pay of naval officers who may volunteer for the service.

INDIAN DEPREDACTIONS.

The bill to provide for the readjudication of Indian depredation claims gives the court of claims authority to hear and determine these claims. The bill provides for the appointment of an assistant attorney-general, who is to assist the court in its work. A compromise was effected which enlarged the class of claims that may be considered so as to include all claims that have been favorably passed upon by the interior department and whose investigation has been authorized by various acts of congress. All claims accruing previous to 1855 that have not been presented to the interior department or to congress are barred, and for depredations committed subsequent to 1855 claimants will have three years in which to present their claims.

PUBLIC LANDS.

A sweeping change in the public land system of the country is made in what is known as the timber-culture-law repeal. It is one of the most important bills passed by this congress. As it becomes a law the bill first repeals the timber-culture-act, but with a reservation in favor of bona-fide claims heretofore initiated. In computing the period of cultivation on claims already ac-

cluding it is provided that the time shall run from the date of the entry if the necessary acts of cultivation are performed within the proper time. The preparation of land and planting of trees are to be construed as acts of cultivation. Persons who have complied with the provisions of the timber-culture act for four years may prove up their claims by the payment of \$1.25 an acre.

The desert-land act is amended by requiring the filing of a map showing the proposed method of reclamation, and no person shall receive patents for land under the act unless he has expended in the work of reclamation at least \$3 per acre, \$1 to be expended within each year. After four years time may be secured by the payment of \$1 per acre.

Section 2282 of the revised statutes is amended so that any bona fide settler may have the right to transfer any portion of his claim for right of way for irrigation purposes as well as for church, cemetery, railroad or school purposes.

The pre-emption law is also repealed except as to claims heretofore initiated and except as to pre-emption by counties under a special law. Section 2289 is amended so that persons already holding 160 acres of land or who abandon their residence on their own land shall not have the right to make homestead entry. Entries may be suspended for the correction of clerical errors. The United States is estopped from the vacation of any patent on claims heretofore initiated unless suit is brought within five years and on future claims within six years. It is provided that in Colorado, Montana, North and South Dakota, Wyoming and the gold and silver regions of Nevada and Utah, it shall be sufficient defense in any prosecution for trespass to show that the timber culture was for agricultural, mining, manufacturing or domestic purposes, and was not transported out of the state. This provision, however, is not to apply to railroads.

Provision is made for town-site entry in Alaska and for the acquisition there of lands necessary for trade or manufacturing purposes. Towns and cities, it is declared, may make town-site entries on mineral lands, but this right shall not interfere with the working of underground mineral claims. Provision is made for grants of right of way for irrigation purposes, but reservoir sites are not to contain any more land than is necessary for their construction and maintenance. The maximum amount of land which any person may acquire is limited to 320 acres. The right is given the president to set apart and reserve in any territory forest lands as public reservations not subject to be entered upon. This will meet the principal aim of what is known as the Yellowstone park bill.

INTERNATIONAL COPYRIGHT.

The copyright act applies to books, etc., published after July 1, 1891. To acquire the benefit of international copyright English authors will have to publish simultaneously—that is, on the same day—on both sides of the Atlantic. They will have to publish here to secure American copyright and in England to secure English copyright. The book must be printed from type set up in this country or plates made from such type, and it must be bound here. In the case of a book, map, dramatic or musical composition, photograph, chromo or lithograph, the two copies required to be deposited in the library of congress shall be printed from type set within the United States or from plates made therefrom, and from engravings, cuts, negatives and drawings on stone executed within the

United States. The importation of copyrighted books, etc., printed abroad is prohibited except in the case of persons purchasing for use and not for sale, who import subject to the duty thereon not more than two copies of a book at one time, and except in the case of newspapers and magazines not containing in whole or in part matter copyrighted under the provisions of the act unauthorized by the author. In case of books in foreign languages, of which only translations in English are copyrighted, the prohibition of importation applies only to the translation, and the importation of books in the original language is permitted. The president of the United States is empowered to declare by proclamation the existence of conditions determining in foreign countries the right of American authors to copyright or the existence of an international agreement which provides for reciprocity in granting of copyright, by the terms of which agreement the United States may at its pleasure become party to the agreement.

FINANCIAL LEGISLATION.

The only financial legislation of the session is found in the provisions of the sundry civil and legislative appropriation bills. By a clause in the sundry civil bill \$150,000 is set aside for the recoining of uncurrent fractional silver coin and trade dollars. There is in the treasury of the United States subsidiary coin amounting to about \$22,500,000, about \$19,000,000 of which is in half-dollars, about \$2,500,000 in quarter-dollars, about \$300,000 in dimes and the remainder in unsorted coin. By reason of abrasion a very large proportion of this coin is uncurrent, much of it is of a denomination for which there is practically no demand and the whole of it is carried on the books of the treasury as an unavailable asset. It has been accumulating for years and it seems impossible to put it into circulation in its present form and condition. Now it will all be put in circulation.

By the legislative bill the secretary of the treasury is authorized at his discretion to make a charge on gold bullion exchanged for coin equal to the cost of making the bars. This was the law previous to 1882, but at that time an act was passed requiring the director of the mint to exchange gold bars without any charge. Gold bars are much more easily handled and are less costly to ship to Europe and are rated as more valuable for bullion abroad. It often happens that if a charge were made for the bars when coin is offered in exchange the difference would be sufficient to prevent the exportation of gold. It now becomes discretionary with the secretary whether or not to make such charge, and of course he would only make it when it would have the effect of stopping gold exports. At other times it is much more convenient for the government to exchange the bars for the gold coin. When there was a bar charge, previous to 1882, the matter not being discretionary with the secretary, the exports of gold were nearly all made in coin.

UNITED STATES LAND COURT.

The act creating a private land court establishes a court to consist of five members, three of whom shall constitute a quorum. Jurisdiction is conveyed to this court to pass on the land litigation which has grown up in Utah, New Mexico, Colorado, Wyoming and Nevada. Provision is made for judicial investigation and settlement of private land claims in these states and territories.

The titles of certain persons in actual and

continuous possession for twenty years of their homes and lands not exceeding 160 acres are defined and established. Persons claiming lands under a complete and perfect title may apply to the court for confirmation of such title. The same respect is to be given titles lawfully and regularly derived from any of the states of the republic of Mexico as if from the government of Spain or Mexico.

INTERSTATE MEAT INSPECTION.

Under the act for interstate meat inspection the secretary of agriculture is authorized to cause a careful inspection to be made of all cattle intended for export for the purpose of ascertaining whether they are free from disease, and empowers the inspectors to give official certificate of the condition in which the animals are found, and forbids the issuance of clearance papers to any vessel having cattle on board for exportation unless the owner or shipper of the cattle is provided with a certificate that the cattle are free from disease. The secretary of agriculture is also authorized to cause a careful inspection of live cattle the meat of which is intended for exportation to ascertain whether the cattle are free from disease and their meat sound and wholesome, and no vessel having fresh meat on board for exportation to and sale in a foreign country will be allowed clearance until the owner or shipper shall have obtained an inspector's certificate of the soundness of such meat.

The secretary is authorized to cause a careful inspection of cattle, sheep and swine before being slaughtered at slaughter-houses, corning, salting and packing establishments, the carcasses of which are to be transported from one state or territory to another; also, there shall be an inspection after being slaughtered, if deemed necessary, under regulations to be prescribed by the secretary of agriculture. The carcasses found to be free from disease and fit for human food are to be marked, stamped or labeled for identification. A penalty not exceeding \$1,000 or imprisonment not exceeding one year, or both, is prescribed for knowingly altering, forging or defacing inspectors' marks or labels. The same penalty is provided for the offense of transporting or delivery for transportation from one state to another the carcasses or the food products of any cattle, sheep or swine which have been inspected and declared to be unsound. When an inspector has given a certificate of soundness of live cattle or wholesomeness of meat intended for exportation he is required to deliver one copy to the owner or shipper, one to the chief officer of the vessel and file one in the department of agriculture.

It is specially provided that the act is not to apply to cattle, sheep or swine slaughtered by any farmer upon his farm, which may be transported from one state or territory into another, unless the carcasses go to a packing or canning establishment and are intended for transportation into another state or territory.

UNITED STATES PRISONS.

The act for the erection of United States prisons and the imprisonment of federal prisoners provides for three prisons—one south of the Ohio and east of the Mississippi, one north of the Ohio and east of the Mississippi, and one west of the Mississippi. They are to be under the direction of the department of justice.

10th District—Counties of Wilkinson, Washington, Jefferson, Bullock, Hancock, Warren, Richmond, Columbia, Lincoln, McDuffie and Taliaferro.

11th District—Counties of Walton, Newton, Rockdale, DeKalb, Fulton, Douglass, Campbell, Henry, Clayton, Fayette and Spaulding.

INDIANA.

Indiana as redistributed in 1891:

1st District—Counties of Posey, Vanderburg, Gibson, Pike, Warwick, Spencer and Perry.

2d District—Counties of Crawford, Dubois, Orange, Lawrence, Martin, Davless, Green and Knox.

3d District—Counties of Harrison, Floyd, Clark, Scott, Jefferson, Jennings, Jackson and Washington.

4th District—Counties of Switzerland, Ohio, Dearborn, Ripley, Decatur, Franklin, Rush and Shelby.

5th District—Counties of Bartholomew, Brown, Johnson, Monroe, Morgan, Hendricks, Owen and Putnam.

6th District—Counties of Fayette, Union, Wayne, Randolph, Henry and Delaware.

7th District—Counties of Marion, Hancock and Madison.

8th District—Counties of Sullivan, Vigo, Clay, Vermillion, Park and Fountain.

9th District—Counties of Hamilton, Boone, Tipton, Howard, Clinton, Tippecanoe, Warren and Benton.

10th District—Counties of Lake, Newton, Porter, Jasper, Pulaski, Fulton, White, Cass and Carroll.

11th District—Counties of Miami, Wabash, Huntington, Wells, Adams, Jay, Blackford and Grant.

12th District—Counties of Lagrange, Steuben, Noble, DeKalb, Whitley and Allen.

13th District—Counties of Elkhart, Kosciusko, Marshall, St. Joseph, La Porte and Starke.

MICHIGAN.

The following gives the congressional districts of Michigan as the state was apportioned under the census of 1890 by the last legislature. The arrangement of the different counties under the bill, with the population of each, is:

1. The 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 13th and 15th wards of the city of Detroit; population, 173,841.

2. Jackson, Lenawee, Washtenaw, Monroe, and the townships of Plymouth, Canton, Van Buren, Romulus, Sumpter, Huron, Brownstown, Monguagon, Taylor and Ecorse, and the city of Wyandotte in Wayne county; population, 192,779.

3. Hillsdale, Branch, Calhoun, Kalamazoo and Eaton; population, 172,309.

4. St. Joseph, Cass, Berrien, Van Buren, Allegan and Barry; population, 180,874.

5. Ottawa, Kent and Ionia; population, 178,081.

6. Ingham, Livingston, Genesee and Oakland, the townships of Livonia, Nankin, Dearborn, Redford, Springwell and Greenfield in the county of Wayne, and the 12th, 14th and 16th wards in the city of Detroit; population, 190,443.

7. Huron, Sanilac, Lapeer, St. Clair and McComb, and the townships of Grosse Pointe

and Hamtramck in Wayne county; population, 181,441.

8. Tuscola, Saginaw, Shiawassee and Clinton; population, 172,342.

9. Muskegon, Newaygo, Oceana, Mason, Lake, Wexford, Manistee, Benzie, Leelanaw and Manitowish; population, 149,558.

10. Bay, Midland, Gladwin, Arenac, Ogemaw, Iosco, Alcona, Oscoda, Crawford, Montmorency, Alpena, Presque Isle, Cheboygan, Emmet and Otsego; population, 154,811.

11. Montcalm, Gratiot, Isabella, Mecosta, Osceola, Clare, Roscommon, Missaukee, Kalkaska, Grand Traverse, Antrim and Charlevoix; population, 167,529.

12. Delta, Schoolcraft, Chippewa, Mackinac, Ontonagon, Marquette, Menominee, Dickinson, Baraga, Houghton, Keweenaw, Isle Royal, Alger, Luce, Iron and Gogebic (comprising the upper peninsular); population, 180,653.

It is intended to give six safely democratic districts—the 1st, 2d, 5th, 7th, 8th and 10th. The 6th and 9th are set down as doubtful, but as giving the democrats more than a fighting chance. The 3d, 4th, 11th and 12th are safely republican. By some the 5th is also classified as doubtful, but under ordinary circumstances it would undoubtedly be hard for the republicans to carry it.

MINNESOTA.

Minnesota as redistricted in 1891:

1st District—Counties of Wabasha, Winona, Houston, Olmsted, Fillmore, Dodge, Mower, Steele, Freeborn and Waseca.

2d District—Counties of Blue Earth, Nicollet, Faribault, Brown, Watonwan, Martin, Jackson, Cottonwood, Redwood, Chippewa, Lac qui Parle, Yellow Medicine, Lincoln, Lyon, Pipe Stone, Murray, Rock and Nobles.

3d District—Counties of Goodhue, Dakota, Rice, Scott, Carver, Meeker, Sibley, Le Sueur and Renville.

4th District—Counties of Washington, Chicago, Isanti and Kanabec.

5th District—The county of Hennepin.

6th District—Counties of Anoka, Wright, Sherburne, Stearns, Benton, Mille Lacs, Morrison, Todd, Crow Wing, Atkins, Pine, Carlton, Cass, Wadena, Hubbard, Beltrami, Itasca, St. Louis, Lake and Cook.

7th District—Counties of Kandiyohi, Swift, Big Stone, Stevens, Pope, Traverse, Grant, Douglass, Wilkin, Otter Tail, Clay, Becker, Norman, Polk, Marshall and Kittson.

NEBRASKA.

Nebraska as redistricted in 1891:

1st District—Counties of Richardson, Pawnee, Johnson, Nemaha, Otoe, Lancaster and Cass.

2d District—Counties of Sarpy, Douglass and Washington.

3d District—Counties of Merrick, Nance, Boone, Antelope, Knox, Pierce, Madison, Platte, Colfax, Stanton, Wayne, Cedar, Dixon, Dakota, Thurston, Comins, Burt and Dodge.

4th District—Counties of Gage, Jefferson, Thayer, Saline, Fillmore, Seward, York, Hamilton, Polk, Butler and Saunders.

5th District—Counties of Clay, Nuckolls, Hall, Adams, Webster, Kearney, Franklin, Harlan, Phelps, Furnas, Gosper, Red Willow, Frontier, Hitchcock, Hayes, Dundy, Chase and Perkins.

6th District—The remainder of the state.

NEW JERSEY.

New Jersey as redistricted in 1891:

1st District—Counties of Cape May, Cumberland, Salem, Gloucester and Camden.

2d District—Counties of Atlantic, Burlington, Ocean and Mercer.

3d District—Counties of Monmouth, Middlesex and Somerset.

4th District—Counties of Hunterdon, Warren, Morris, Essex and Sussex.

5th District—Counties of Bergen and Passaic.

6th District—City of Newark.

7th District—Cities of Hoboken and Jersey City.

8th District—County of Union.

NORTH CAROLINA.

North Carolina as redistricted in 1891:

1st District—Carteret, Pamlico, Pitt, Beaufort, Hyde, Dare, Tyrrell, Washington, Martin, Chowan, Hertford, Perquimans, Gates, Pasquotank and Currituck.

2d District—Counties of Lenoir, Wayne, Greene, Wilson, Edgecombe, Warren, Halifax, Northampton and Bertie.

3d District—Counties of Craven, Jones, Onslow, Duplin, Bladen, Sampson, Cumberland, Harnett and Moore.

4th District—Counties of Vance, Franklin, Nash, Johnson, Wake, Chatham and Randolph.

5th District—Counties of Granville, Durham, Person, Orange, Alamance, Caswell, Guilford, Rockingham and Stokes.

6th District—Counties of Pender, New Hanover, Brunswick, Columbus, Robeson, Richmond, Anson, Union and Mecklenburg.

7th District—Counties of Montgomery, Stanly, Cabarrus, Rowan, Davidson, Davie, Yadkin, Iredell, Catawba and Lincoln.

8th District—Counties of Gaston, Cleveland, Burke, Alexander, Caldwell, Mitchell, Watauga, Wilkes, Ashe, Alleghany, Surry and Forsythe.

9th District—Counties of Polk, Rutherford, McDowell, Yancey, Buncombe, Henderson, Madison, Haywood, Transylvania, Jackson, Swain, Macon, Graham, Cherokee and Clay.

OHIO.

Ohio as redistricted by act of March 11, 1890:

District 1. That so much of the county of Hamilton as is now contained within the limits of the 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, 9th, 18th, 19th, 20th, 21st, 23th and 27th wards of the city of Cincinnati, as they are now constituted, and the townships of Anderson, Columbia, Spencer, Symmes, Sycamore and Southeast, St. Bernard and Clifton precincts of Mill Creek township.

2. The balance of the county of Hamilton as is now contained within the limits of the 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 22d, 23d, 24th, 25th, 26th, 29th and 30th wards of the city of Cincinnati as they are now constituted, and the townships of Springfield, Colerain, Green, Delhi, Miami, Whitewater, Harrison, Crosby and College Hill, Winton Place, Western, Avondale, Bond Hill, Elmwood and Northeast precincts of Mill Creek township.

3. The counties of Butler, Montgomery and Warren.

Military Societies of the United States.

SOCIETY OF THE CINCINNATI.

The Order of Cincinnati was instituted at the cantonments of the continental army on the Hudson river, May 10, 1783. Membership is restricted to the eldest male descendant of an original member, or to the eldest male descendant of any continental or French officer of the revolution who was qualified by his service to become an original member. There are seven state societies, there having been originally thirteen. Gen. Washington was the first president-general and Alexander Hamilton was the second. Ex-Secretary of State Fish is the ninth. The number of members May, 1890, was 439. Among the honorary members are President Harrison, ex-President Cleveland, Maj.-Gen. Howard and Maj.-Gen. Schofield.

General Officers.

President-General, Hon. Hamilton Fish, LL.D., of New York, New York city.
Vice-President-General, Hon. Robert M. McLane of Maryland, Baltimore.
Treasurer-General, Mr. John Schuyler of New York, New York city.

Assistant Treasurer-General, Dr. Herman Bur-
 gin of New Jersey, Germantown, Pa.
Secretary-General, Hon. Asa Bird Gardiner,
 LL. D., of Rhode Island, Garden City, N. Y.
Assistant Secretary-General, Thomas P.
 Lowndes, Charleston, S. C.

State Societies.

Massachusetts—Organized June 9, 1783; Wins-
 low Warren, president.
New York—Organized June 9, 1778; Hon. Ham-
 ilton Fish, LL. D., president, New York city.
Pennsylvania—Organized Oct. 4, 1783; Hon.
 William Wayne, president, Paoli, Chester
 County, Pa.
Maryland—Organized Nov. 21, 1783; Hon. Robert
 Milligan McLane, president, Baltimore,
 Md.

Rhode Island—Organized June 24, 1783; Hon.
 Nathaniel Greene, president, Newport, R. I.
New Jersey—Organized June 11, 1783; Hon. Clif-
 ford Stanley Sims, president, Mt. Holly, N. J.
South Carolina—Organized Aug. 29, 1783; Rev.
 Charles Cotesworth Pinckney, D. D., presi-
 dent, Charleston, S. C.
France—Organized at Paris, Jan. 7, 1784; reinstit-
 uted July 1, 1887; Marquis de Rochambeau,
 president, 61 Rue de Naples, Paris.

SOCIETY OF THE SONS OF THE AMERICAN REVOLUTION.

(Organized June 29, 1876.)

General Officers.

President-General—Dr. William Seward Webb, New York city.

Vice-President General—Horace Porter, New
 York city.
Vice-President-General—Jonathan Trumbull,
 Norwich.
Vice-President-General—Bradley T. Johnson,
 Baltimore.
Vice-President-Gen'l—Albert Edgerton, St. Paul.
Vice-President-General—Champion S. Chase,
 Omaha.
Honorary Vice-President-General—John L.
 Worden, U. S. N., New York.
Honorary Vice-President-General—L. L. Tar-
 bell, Marlboro.

Honorary Vice-President-General—Wm. Wirt
 Henry, Richmond.
Secretary-General—J. C. Cresap, U. S. N., An-
 napolis.
Treasurer-General—James Otis, New York.
Registrar-General—G. Brown Goode, Ph. D.,
 LL. D., Washington, D. C.
Historian-General—Henry Hall, New York
 city.
Surgeon-General—Charles E. Briggs, M. D.,
 St. Louis.
Chaplain-General—Charles Edw. Cheney, D.
 D., LL. D., Chicago.

State Societies and Officers.

Alabama—J. F. Johnston, president, Birming-
 ham.
Arkansas—J. H. Sninn, president, Little Rock.
California—A. S. Hubbard, president, San
 Francisco.
Connecticut—Jonathan Trumbull, president,
 Norwich.
Delaware—T. F. Bayard, president, Wilming-
 ton.
District of Columbia—A. W. Greely, presi-
 dent, Washington.
Illinois—H. M. Shepard, president, Chicago.
Indiana—W. E. Niblack, president, Indianap-
 ois.
Kentucky—H. W. Bruce, president, Louisville.
Louisiana—W. H. Jack, president, Natchi-
 toches.
Maine—J. E. DeWitt, president, Portland.
Maryland—B. T. Johnson, president, Balti-
 more.
Massachusetts—E. S. Barrett, president, Con-
 cord.

Michigan—H. B. Ledyard, president, Detroit.
Minnesota—Albert Edgerton, president, St.
 Paul.
Missouri—Nathan Cole, president, St. Louis.
Nebraska—T. A. Creigh, president, Omaha.
New Jersey—John Whitehead, president, Mor-
 ristown.
New York—C. M. Depew, president, New York
 city.
Ohio—John L. Vance, president, Gallipolis.
Oregon and Washington—Thomas M. Ander-
 son, president, Vancouver Barracks, Wash.
Rhode Island—Alfred Stone, president, Prov-
 idence.
South Carolina—J. P. Richardson, president,
 Columbia.
Tennessee—D. C. Kelly, president, Nashville.
Vermont—Redfield Proctor, president, Wash-
 ington, D. C.
West Virginia—J. J. Jacobs, president, Wheel-
 ington.
Wisconsin—D. J. Whittemore, president.

SONS OF THE REVOLUTION.

Organized 1875.

GENERAL OFFICERS.

General President..... John Lee Carroll, Md.
General Vice-President.... William Wayne, Pa.
General Treasurer..... R. M. Cadwalader, Pa.

General Secretary..... J. M. Montgomery, N. Y.
General Asst.-Secretary, T. M. Cheeseman, N. Y.
General Asst.-Treasurer, T. B. M. Myers, U. S. N.

There are six other state societies of the Sons of the Revolution now organized and others are being formed. The Pennsylvania society numbers 420 members and the officers are: President, William Wayne; Vice-President, Richard M. Cadwalader; Secretary, Dr. George H. Burgin. The District of Columbia society numbers 104 members and the officers are: President, Gov. John Lee Carroll; Vice-President, T. B. M. Myers; Secretary, Arthur H. Dutton. The Iowa society has been formed under the presidency of the Right Rev. William Stevens Perry, bishop of Iowa, and within the past three months (prior to Dec. 1, 1891) flourishing societies have been organized in Massachusetts, Georgia and New Jersey. The total membership of all Dec. 1, 1891, is 1,580.

[These two societies (Sons of the American Revolution and Sons of the Revolution) are alike in their aims and objects. These are the fostering among themselves and their descendants the patriotic spirit of the men who in the naval, military or civil service of the colonies assisted in advancing the independence of the United States, and to collect and preserve the history of the revolutionary war and to promote intercourse and fraternal feeling among the members. Eligibility to membership in each is confined to male descendants from an ancestor who as a soldier, sailor or civil official assisted in establishing American independence during the war of the revolution.]

ORDER OF THE LOYAL LEGION.

(Instituted 1865.)

Commander-in-Chief—Bvt. Maj.-Gen. R. B. Hayes, U. S. V., Fremont, O.
Senior Vice-Commander-in-Chief—Rear-Admiral J. J. Almy, Washington, D. C.
Junior Vice-Commander-in-Chief—Col. Nelson Cole, U. S. V., St. Louis, Mo.
Recorder-in-Chief—Col. J. P. Nicholson, Philadelphia, Pa.

Commanderies.

California—Maj. William O. Gould, U. S. V., commander, San Francisco.
Colorado—Lieut. W. S. Decker, U. S. V., commander, Denver.
Illinois—Maj. George L. Paddock, U. S. V., commander, Chicago.
Indiana—Maj.-Gen. Lew Wallace, U. S. V., commander, Crawfordsville.
Iowa—Capt. William Dean, U. S. V., commander, Des Moines.
Kansas—Col. E. F. Townsend, U. S. A., commander, Leavenworth.
Maine—Bvt. Brig.-Gen. Thomas W. Hyde, U. S. V., commander, Portland.
Massachusetts—Bvt. Brig.-Gen. John L. Otis, U. S. V., commander, Boston.
Michigan—Bvt. Lieut.-Col. Samuel E. Pittman, U. S. V., commander, Detroit.

Minnesota—Col. James Gillfillan, U. S. V., commander, St. Paul.
Missouri—Maj. James G. Butler, U. S. V., commander, St. Louis.
Nebraska—Maj. Joseph W. Paddock, U. S. V., commander, Omaha.
New York—Bvt. Maj.-Gen. Wager Swayne, U. S. A., commander, New York.
Ohio—Bvt. Lieut.-Col. E. C. Dawes, U. S. V., commander, Cincinnati.
Oregon—Col. Thomas M. Anderson, U. S. A., commander, Portland.
Pennsylvania—Bvt. Maj.-Gen. D. McM. Gregg, U. S. V., commander, Reading.
Wisconsin—Lieut. Edward Ferguson, U. S. V., commander, Milwaukee.
District of Columbia—Col. Redfield Proctor, U. S. V., commander, Washington, D. C.
Washington—Capt. James R. Hayden, U. S. V., commander, Tacoma.

Commandery Recorders.

California—Lieut.-Col. William R. Smedberg, U. S. A., San Francisco.
Colorado—Capt. James R. Saville, U. S. V., Denver.
District of Columbia—Maj. William P. Huxford, U. S. A., Washington.
Illinois—Col. Charles W. Davis, U. S. V., Chicago.
Indiana—Lieut. Benjamin B. Peck, U. S. V., Indianapolis.
Iowa—Lieut. Byron A. Beeson, U. S. V., Des Moines.
Kansas—Capt. Forrest H. Hathaway, U. S. A., Fort Leavenworth.
Maine—Maj. Henry S. Burrage, U. S. V., Portland.
Massachusetts—Col. Arnold A. Rand, U. S. V., Boston.

Michigan—Maj. George W. Chandler, U. S. V., Detroit.
Minnesota—Maj. George Q. White, U. S. A., St. Paul.
Missouri—Capt. William R. Hodges, U. S. V., St. Louis.
Nebraska—Maj. Horace Ludington, U. S. V., Omaha.
New York—Paymaster George De F. Barton, U. S. N., New York.
Ohio—Capt. Robert Hunter, U. S. V., Cincinnati.
Oregon—Capt. G. E. Calkin, U. S. V., Portland.
Pennsylvania—Col. John P. Nicholson, U. S. V., Philadelphia.
Washington—Maj. Frank Clendenin, U. S. V., Tacoma.
Wisconsin—Capt. A. Ross Houston, U. S. V., Milwaukee.

GRAND ARMY OF THE REPUBLIC.

(Organized 1866.)

Commander-in-Chief—John Palmer, Albany, N. Y.

Senior Vice-Commander-in-Chief—Henry M. Duffield, Detroit.
Junior Vice-Commander-in-Chief—T. S. Clarkson, Omaha.
Surgeon-General—Benjamin F. Stevenson, Visalia, Ky.

Chaplain-in-Chief—Rev. S. B. Paine, St. Augustine, Fla.
Adjutant-General—Frederick Phisterer, Albany, N. Y.
Quartermaster-General—John Taylor, Philadelphia, Pa.

The headquarters of the Grand Army of the Republic are established at 452 Broadway, Albany, N. Y.

Department Commanders.

Alabama—Seymour Bullock, comdr., Mobile; W. J. Pender, A. A. G., Birmingham.
Arizona—Ed Schwartz, comdr., Phoenix; C. D. Belden, A. A. G., Phoenix.
Arkansas—Wm. H. H. Clayton, comdr., Fort Smith; S. K. Robinson, A. A. G., Fort Smith.
California—W. H. L. Barnes, comdr., San Francisco; T. C. Masteller, A. A. G., San Francisco.
Colorado and Wyoming—G. W. Cook, comdr., Denver; Philip Trounstine, A. A. G., Denver.
Connecticut—H. N. Fanton, comdr., Danbury; John H. Thacher, A. A. G., Hartford.
Delaware—Daniel Greene, comdr., Newport; John B. Stradley, A. A. G., Wilmington.
Florida—John H. Welsh, comdr., Welshton; T. S. Wilmarth, A. A. G., Jacksonville.
Georgia—A. E. Sholes, comdr., Augusta; A. Gulton, A. A. G., Augusta.
Idaho—Judson Spofford, comdr., Boise City; Norman H. Camp, A. A. G., Boise City.
Illinois—Horace S. Clark, comdr., Mattoon; P. L. McKinnie, A. A. G., Chicago.
Indiana—I. N. Walker, comdr., Indianapolis; Irvin Robbins, A. A. G., Indianapolis.
Iowa—Charles L. Davidson, comdr., Hull; Charles L. Longley, A. A. G., Cedar Rapids.
Kansas—T. McCarthy, comdr., Larned; A. B. Campbell, A. A. G., Larned.
Kentucky—S. G. Hillis, comdr., Fearis; A. S. Cole, A. A. G., Fearis.
Louisiana and Mississippi—George T. Hodges, comdr., New Orleans; C. W. Keeting, A. A. G., New Orleans.
Maine—Samuel L. Miller, comdr., Waldoboro; E. C. Milliken, A. A. G., Portland.
Maryland—J. C. Hill, comdr., Baltimore; Hugh A. Maughlin, A. A. G., Baltimore.
Massachusetts—A. A. Smith, comdr., Griswoldville; A. C. Munroe, A. A. G., Boston.
Michigan—Charles L. Eaton, comdr., Paw Paw; K. W. Noyes, A. A. G., Paw Paw.
Minnesota—C. D. Parker, comdr., St. Paul; Joe L. Brigham, A. A. G., St. Paul.
Missouri—George W. Martin, comdr., Brookfield; Thomas B. Rodgers, A. A. G., St. Louis.
Montana—H. C. Kessler, comdr., Butte; L. F. Wyman, A. A. G., Butte.

Nebraska—Joseph Teeter, comdr., Lincoln; J. W. Bowen, A. A. G., Lincoln.
New Hampshire—E. B. Huse, comdr., Enfield; J. Minot, A. A. G., Concord.
New Jersey—J. R. Mullikin, comdr., Newark; F. W. Sullivan, A. A. G., Newark.
New Mexico—Albert P. Fountain, comdr., Las Cruces; J. F. Bennett, A. A. G., Las Cruces.
New York—C. H. Freeman, comdr., Corning; W. W. Bennett, A. A. G., Albany.
North Dakota—William A. Bentley, comdr., Bismarck; John Bowen, A. A. G., Bismarck.
Ohio—A. M. Warner, comdr., Cincinnati; W. B. Folger, A. A. G., Cincinnati.
Oklahoma and Indian Territory—G. A. Colton, comdr., Kingfisher; E. B. Burns, A. A. G., Kingfisher.
Oregon—Owen Summers, comdr., Portland; R. S. Greenleaf, A. A. G., Portland.
Pennsylvania—George G. Boyer, comdr., Harrisburg; S. P. Town, A. A. G., Philadelphia.
Potomac—J. M. Pipes, comdr., Washington, D. C.; John P. Church, A. A. G., Washington, D. C.
Rhode Island—Benj. H. Child, comdr., Providence; Edmund F. Prentiss, A. A. G., Providence.
South Dakota—C. S. Palmer, comdr., Sioux Falls; W. D. Stiles, A. A. G., Sioux Falls.
Tennessee—A. J. Gahagan, comdr., Chattanooga; H. B. Case, A. A. G., Chattanooga.
Texas—M. W. Mann, comdr., Dallas; J. C. Bigger, A. A. G., Dallas.
Utah—Frank Hoffman, comdr., Salt Lake City; F. P. Addleman, A. A. G., Salt Lake City.
Vermont—D. L. Morgan, comdr., Rutland; C. C. Kinsman, A. A. G., Rutland.
Virginia—H. B. Nichols, comdr., Norfolk; W. N. Eaton, A. A. G., Portsmouth.
Washington and Alaska—D. G. Lovell, comdr., Tacoma; Frank Clendenin, A. A. G., Tacoma.
West Virginia—I. H. Duval, comdr., Wellsburg; George B. Crawford, A. A. G., Wellsburg.
Wisconsin—W. H. Upham, comdr., Marshfield; E. B. Gray, A. A. G., Marshfield.

SONS OF VETERANS.

Officers of Commandery-in-Chief.

Commander-in-Chief—Bartow S. Weeks, New York city.
Senior Vice-Commander-in-Chief—H. S. Fuller, Milwaukee, Wis.
Junior Vice-Commander-in-Chief—C. A. Brookwalter, Indianapolis, Ind.
Adjutant-General—Raphael Tobias, New York city.
Quartermaster-General—J. V. B. Clarkson, New York city.

Headquarters are at No. 40 Broadway, New York city.

Colonels of Divisions.

Alabama and Tennessee—W. R. Cooper, Knoxville, Tenn.
Arkansas—J. H. Wilkins, Paris.
California—S. L. Blodgett, Bakersfield.
Colorado—L. W. Kennedy, Denver.
Connecticut—Willis N. Barber, Meriden.
Florida—J. W. V. R. Plummer, Key West.
Illinois—George H. Hurlbut, Belvidere.
Indiana—John W. Newton, Winchester.
Iowa—George Van Houten, Lenox.
Kansas—Charles D. Jones, Norton.
Kentucky—Fred G. Singleton, Newport.
Maine—Edward C. Moran, Thomaston.
Maryland—John R. Neeley, Washington, D. C.
Massachusetts—Charles K. Darling, Fitchburg.
Michigan—F. C. Stillson, Battle Creek.
Minnesota—George H. Sheld, St. Paul.

Missouri—B. W. Frauenthal, St. Louis.
Montana—Charles F. Morrison, Fort Keogh.
Nebraska—F. F. Corrick, Stockham.
New Hampshire—Burt E. Fisher, Dover.
New Jersey—Thomas H. Edmond, Trenton.
New York—C. E. Holmes, Mt. Vernon.
Ohio—J. V. Hillard, Newark.
Oklahoma—W. M. Allison, Guthrie.
Oregon—Frank Melvin, Portland.
Pennsylvania—H. M. Rebele, Allegheny City.
Rhode Island—W. B. Russell, Providence.
South Dakota—L. D. Lyon, Watertown.
Vermont—K. W. Morse, West Randolph.
Washington—E. W. Young, Seattle.
West Virginia—John S. McCasky, New Martinsville.
Wisconsin—George W. Wing, Kewaunee.

All camps in the territories of Idaho and Utah are under the jurisdiction of the commander of the division of Montana. All camps in the territories of Arizona, New Mexico and Wyoming are under the jurisdiction of the commander of the division of Colorado. All

camps in Texas are under the jurisdiction of the commander of the division of Arkansas. All camps in the states of Louisiana, Mississippi and Georgia are under the jurisdiction of the commander of the division of Alabama and Tennessee. All camps in Virginia, North and South Carolina and Delaware are under the jurisdiction of the commander of the division of Maryland. All camps in Canada are under the jurisdiction of the commander of the division of Vermont. All camps in Alaska are under the jurisdiction of the commander of the division of Washington.

DAUGHTERS OF THE AMERICAN REVOLUTION.

"To cherish, maintain and extend the institutions of American freedom, to foster true patriotism and love of country, and to aid in securing for mankind all the blessings of liberty."

President-General—Caroline Scott Harrison, Executive Mansion, Washington, D. C.

Vice-President-General Presiding—M. V. E.

Cabell, Washington, D. C.

Recording Secretary-General—Mary L. Shields,

2619 N street, Washington, D. C.

Corresponding Secretary-General—Ellen Har-

din Walworth, 1111 17th st., Washington, D. C.

Registrar-General—Eugenia Washington, 813

13th street, Washington, D. C.

IMPORTS AND EXPORTS UNDER RECIPROCITY TREATIES.

From the Report of the Secretary of the Treasury.

The reciprocity clause of the new tariff is opening new markets and increasing the demand for our products. During the year ending June 30, 1890, our exports of domestic products to Brazil amounted to \$11,502,490, and in 1891 to \$14,049,273, an increase of \$2,546,777. The treaty with Brazil went into effect April 1 last, and it is not to be expected that the results will be very marked as yet. During the six months ending Sept. 30, 1890, our domestic exports of merchandise to Brazil amounted to \$1,208,804, and during the same period of 1891, under the operation of the reciprocity treaty, to \$7,515,858—an increase of \$1,307,054.

This increase in exports to Brazil since the reciprocity treaty went into effect has been mainly in locomotives, steam engines, machinery and cars for tramways and railways, wheat flour, bacon, boards, deals, planks, etc. There has been a decrease in the exports of wheat, lard and cotton manufactures. The reciprocity treaties with Santo Domingo and with Spain concerning trade relations with Cuba and Puerto Rico did not go into effect until Sept. 1, and as yet there are no available statistics to show the effects of the treaties upon our commerce. Furthermore, the reduction of duties on wheat and wheat flour imported into these islands from the United States will not take effect until Jan. 1, 1892.

Table showing the value of imports and exports of merchandise in the trade of the United States with Mexico, Central America, the West Indies and South America, and the excess of imports or of exports during the year ending June 30, 1891:

COUNTRIES.	Imports.	Exports, domestic and foreign.	Excess of imports.	Excess of exports.
Mexico.....	\$27,295,992	\$14,969,620	\$12,326,372

VALUE OF PENSIONS DROPPED.*

Annual value of cases dropped by death from pension rolls during fiscal year ending June 30, 1891:

CHARACTER.	Number.	Average annual value.	Annual value of all dropped.
General law:			
Invalids.....	7,113	\$131.99	\$938,844.87
Widows and others..	3,900	131.99	514,761.00
Act June 27, 1890:			
Invalids.....	430	121.51	52,249.30
Widows and others..	103	121.51	12,515.53
War of 1812:			
Survivors.....	112	96.00	10,752.00
Widows.....	789	144.00	113,616.00
Mexican war:			
Survivors.....	690	96.00	66,240.00
Widows.....	92	96.00	8,832.00
Total.....	13,229		\$1,717,810.70

* This table is to be taken in connection with the one showing the percentage of mortality of pensioners on page 54.

POPULATION OF THE WORLD.

The area and population of the world, according to the Bevölkerung der Erde, is as follows:

	Square miles.	Population.	To square mile.
Europe*.....	3,756,860	357,379,000	94
Asia†.....	17,590,684	825,954,000	47
Africa‡.....	11,277,364	163,353,000	14
North and South America§.....	14,801,402	121,713,000	8
Australia 	2,991,442	3,230,000	1
Oceanic islands.....	733,120	7,420,000	10
Polar regions.....	1,730,810	80,400	—
Totals.....	52,821,684	1,473,729,400	—

Among European countries Belgium leads in density of population, the proportion being 530 per square mile. Holland has 365, the United Kingdom 312, and England nearly 480 per square mile. The population for China proper is estimated at 350,000,000. The total population of the Chinese empire is given at 361,500,000, on an area of 4,674,420 square miles.

* Without Iceland. † Nova Zembla. ‡ Atlantic islands, etc. § Without Arctic islands. || Without Madagascar, etc. ¶ Without Arctic regions. | The continent and Tasmania.

ASSESSED VALUATION OF REAL AND PERSONAL PROPERTY

Of the several states and territories for 1880 and 1890.

STATES AND TERRITORIES.	TOTAL ASSESSED VALUATION.		Increase of assessed valuation.	ASSESSED VALUATION PER CAPITA.		Increase per cent of assessed valuation.	Increase per cent of population.
	1880.	1890.		1880.	1890.

*The assessed valuation of Oklahoma not being given, the population of that territory is omitted in calculating the assessed valuation per capita for 1890 of the United States. †Annual report of 1889. ‡The state board of equalization declares that in 1880 the assessed value was 50 per cent and in 1890 only 25 per cent of the true value; hence the reduction. §Decrease. ¶Assessment of 1886; assessment made every five years.

TABLE OF PRINCIPAL ALLOYS.

A combination of zinc and copper makes bell metal.
A combination of copper and tin makes bronze metal.
A combination of antimony, tin, copper and bismuth makes britannia metal.
A combination of copper and tin makes cannon metal.
A combination of copper and zinc makes Dutch gold.
A combination of copper, nickel and zinc, with sometimes a little iron and tin, makes German silver.
A combination of gold and copper makes standard gold.

A combination of gold, copper and silver makes old standard gold.
A combination of tin and copper makes gun metal.
A combination of copper and zinc makes mosaic gold.
A combination of tin and lead makes pewter.
A combination of lead and a little arsenic makes sheet metal.
A combination of silver and copper makes standard silver.
A combination of lead and antimony makes type metal.
A combination of copper and arsenic makes white copper.

United States Diplomatic and Consular Service.

Party Platforms.

UTTERANCES OF NATIONAL CONVENTIONS, 1891.

People's Party.

Adopted at Cincinnati O., May 20, 1891.

1. That in view of the great social, industrial and economical revolution now dawning upon the civilized world and the new and living issues confronting the American people, we believe that the time has arrived for a crystallization of the political reform forces of our country and the formation of what should be known as the people's party of the United States of America.

2. That we most heartily indorse the demands of the platforms as adopted at St. Louis, Mo., in 1889, Ocala, Fla., in 1890, and Omaha, Neb., in 1891, by industrial organizations there represented, summarized as follows:

(a) The right to make and issue money is a sovereign power to be maintained by the people for the common benefit; hence we demand the abolition of national banks as banks of issue, and as a substitute for national bank notes we demand that legal tender treasury notes be issued in sufficient volume to transact the business of the country on a cash basis, without damage or special advantage to any class or calling, such notes to be legal tender payment of all debts, public and private, and such notes, when demanded by the people, shall be loaned to them at not more than 2 per cent. per annum upon non-perishable products, as indicated in the sub-treasury plan, and also upon real estate, with proper limitation upon the quantity of land and amount of money.

(b) We demand the free and unlimited coinage of silver.

(c) We demand the passage of laws prohibiting alien ownership of land, and that congress take prompt action to devise some plan to obtain all lands now owned by alien and foreign syndicates, and that all lands held by railroads and other corporations in excess of such as is actually used and needed by them be reclaimed by the government and held for actual settlers only.

(d) Believing in the doctrine of equal rights to all and special privilege to none, we demand that taxation—national, state or municipal—shall not be used to build up one interest or class at the expense of another.

(e) We demand that all revenues—national, state or county—shall be limited to the necessary expenses of the government economically and honestly administered.

(f) We demand a just and equitable system of graduated tax on income.

(g) We demand the most rigid, honest and just national control and supervision of the means of public communication and transportation, and if this control and supervision does not remove the abuses now existing, we demand the government ownership of such means of communication and transportation.

(h) We demand the election of president,

vice-president and United States senators by a direct vote of the people.

3. That we urge the united action of all progressive organizations in attending the conference called for Feb. 22, 1892, by six of the leading reform organizations.

4. That a national central committee be appointed by this conference, to be composed of a chairman to be elected by this body, and of three members from each state represented, to be named by each state delegation.

5. That this central committee shall represent this body, attend the national conference Feb. 22, 1892, and if possible unite with that and all other reform organizations there assembled. If no satisfactory arrangement can be effected, this committee shall call a national convention not later than June 1, 1892, for the purpose of nominating candidates for president and vice-president.

6. That the members of the central committee for each state where there is no independent political organization conduct an active system of political agitation in their respective states.

Additional resolutions were carried as follows:

Resolved, That the question of universal suffrage be recommended to the favorable consideration of the various states and territories.

Resolved, That while the party in power in 1893 pledged the faith of the nation to pay a debt in coin that had been contracted on a depreciated currency basis, and payable in currency, thus adding nearly \$1,000,000,000 to the burdens of the people, which meant gold for the bondholders and depreciated currency for the soldiers, and holding that the men who imperiled their lives to save the life of a nation should have been paid in money as good as that paid to the bondholder; we demand the issue of legal-tender treasury notes in sufficient amount to make the pay of the soldiers equal to par with coin, or such other legislation as shall do equal and exact justice to the Union soldiers of this country.

Resolved, That as eight hours constitute a legal day's work for government employes in mechanical departments we believe this principle should be further extended so as to apply to all corporations employing labor in the different states of the Union.

Resolved, That this conference condemns in unmeasured terms the action of the directors of the World's Columbian Exposition on May 19 in refusing the minimum rate of wages asked for by the labor organizations of Chicago.

Resolved, That the attorney-general of the United States should make immediate provision to submit the act of March 2, 1893, providing for the opening of Oklahoma to homestead settlement to the United States supreme court so that the expensive and dilatory legislation now pending there be ended.

STATE ELECTIONS OF 1891.

Iowa Republicans.

Adopted at Cedar Rapids, July 1, 1891.

1. The republican party of Iowa in convention assembled gives renewed expression of devotion to the principles of the national republican party and declares the acceptance of those principles to be the bond of union with the republican party of Iowa.

2. We commend the patriotic, wise and courageous administration of President Harrison.

3. We commend the republican party in the

last congress for its redemption of pledges made the people as to a revision of the tariff in the interest of home industry and on its work in behalf of liberal provision for pensions for old soldiers in accordance with the pledges of the nation.

4. We approve the coinage act by which the great product of the silver mines of the United States is added to the currency of the people and out of which experiment may come a wise adjustment of the financial questions liberal toward western interests.

5. We commend most heartily the policy that has been inaugurated looking to reciprocal trade relations with other people of the American continent and the administrative efforts now making for the enlargement of foreign markets for American beef and pork.

6. We assert that the republican party stands on record in every state of this Union in favor of elections based upon the freedom of individual conscience and that the republican party may be trusted in Iowa or in any state to promote any plan of reform, Australian or other, calculated to extend this liberty and to further protect the purity of the ballot.

7. While inviting to our shores the worthy poor of all nations we earnestly recommend the laws that will protect our country and our people against the influx of the vicious and criminal classes of foreign nations and the importation of laborers under contract to compete with our own citizens, and earnestly approve the rigid enforcement of these laws and of such further legislation as may be necessary.

8. We favor such legislation as will impose upon all classes of property, corporate and individual, equally the burdens of taxation.

9. We favor the passage of the Conger land bill and state legislation tending to promote farmers' institutes and enlarging the powers of the dairy commissioner.

10. We regard the World's Columbian Exposition as an important event in the world's history, and we are in hearty sympathy with the effort to make it a success. In the friendly rivalry of states we should make a creditable exhibit of Iowa's products and we favor a liberal appropriation by the next general assembly for this purpose, that our prosperity and greatness may be fully exemplified.

11. We take pride in the record of this state and recognize that its growth and power, its prosperity and its good name are the fruits of its industrious people, and we believe in such a policy, state and national, as will promote justice and give wide opportunities among these classes. To their support in the future as in the past we pledge our most intelligent judgment and our most sincere endeavor.

12. We point to the record of the state under republican administrations for justification in the declaration that we favor economy and honesty in the administration of public affairs. To that record we also point for judgment that the republican party has kept faith with the people of this state in the obligations of the past and upon that record we invite continued support and confidence.

13. We have no apologies to offer to the people nor to the democratic party for the republican record in the conspicuous issue in the state campaign this year. In the interests of true temperance and under the laws of Iowa, enacted by the representatives of its sovereign people, the saloon was made an outlaw in this state. We charge that the outlaw has had the patronage, counsel and protection of the democratic party; that the democratic party, as it has won power, has nullified the law, defied the authority of the state and the expressed will of its people, and that now an appeal is made to the electors of the whole state for approval of the lawless work. We recognize that the issue is law against defiance of law, subordination against insubordination, the state of Iowa against the democratic party. We recognize that the issue is between the interests of true temperance and the freedom and rule of an indiscriminate traffic. We renew our allegiance to the people of Iowa and submit to them the determination of the issue, recognizing that the control of the next legislature by the democratic party means state-wide license, and that the control of the next legislature by the repub-

licans means continued opposition to the behests of the saloon power through the maintenance and enforcement of the law.

14. We denounce the democratic party of Iowa as insincere in its dealings with the saloon issue. We charge that party with service to the saloons and with a purpose to strengthen the saloon grasp upon the homes and politics of the state. We cite in proof of this its surrender this year of the local option feature of the platform of 1889, under which last year a pretense of indorsement by this state was made, and to which a pledge was given in proof for legislative authority. We charge that this abandonment of local option is the forerunner of further premeditated betrayal, and that trust in the democratic party will end in a complete breaking down of the temperance legislation of the state, and the complete turning over of the state in every township thereof, to the pollution and fester of the saloon, against whatever protest of communities now free.

15. We protest against the re-election of Boies to the governorship of Iowa. We charge that in his unwise and ambitious zeal to cultivate the favor of alleged new allies in the northwest, and upon that strength to commend himself to the favoring graces of Grover Cleveland, that he did most outrageously misrepresent the honest, industrious, frugal and prosperous people of Iowa in his banquet speech in the city of New York December 23 last. We denounce as purposely misleading the alleged statistics with which the governor assumed to sustain the indictment against the state which had dignified his name.

16. We denounce the Ottumwa platform of this year as framed with the deliberate purpose to mislead and deceive; wherein sympathy is expressed where none is felt; wherein hope is proposed where none will be rendered; wherein purposes are avowed which are not entertained. In support of this indictment we point to the pretended friendship for the soldier and to the arraignment at the same time of the republican party for having appropriated money for the payment of pensions; to the free silver plank intended to deceive the supporters of free and unlimited coinage of silver; to the plank assuming to reaffirm the doctrine of control and regulation of railroads, a policy implanted upon this state under the administration of the last republican governor, against the opposition, secret and open, of the democratic party, extending to an alliance with corporate power in the first election of railroad commissioners under the law in 1888.

17. We denounce the democratic party for misrepresentation in its platform and before the people of the McKinley bill, charging that it seeks to mislead the people through reiteration of untruths as to the effect of that bill, and in all ways to work upon the prejudices of the uninformed.

18. We arraign the democratic party for opposition to ballot reform in the south, while yet making pretense of ballot reform in Iowa, where the undisputed right to cast a free ballot and to have it honestly counted goes in every precinct of the state unchallenged.

19. We arraign the democratic party as the enemy of labor, scheming to break down the defenses of protective laws, to block the wheels of home industry and to degrade the masses of the people—a party controlled by aristocratic and reactionary tendencies, the legacy of slavery.

20. The republican party of Iowa appeals to the intelligence and to the integrity of the people of this state and from all good citizens we invite support.

Iowa Democrats.

Adopted at Ottumwa, June 24, 1891.

1. As a signal illustration of the public good to be secured by letting the office seek the man, we congratulate the people of Iowa upon the pure, able and fearless administration of our present distinguished chief executive, Horace Boies.

2. We demand the repeal of the prohibitory liquor law and in the interests of true temperance we favor the passage of a carefully guarded license-tax law which shall provide for the issuance of licenses in towns, townships and municipal corporations and which shall provide that for each license an annual tax of \$500 be paid into the county treasury and such further tax as the town, township or municipal corporation shall provide, the proceeds thereof to go to the use of such municipalities.

3. We favor such changes in our laws as will insure, under stringent penalties, full and equal taxation of every species of property, after allowing the present exemptions as fixed by law, and we demand strict economy and honesty in the expenditure of all public moneys taken from the substance of the people under any form or guise of taxation.

4. We favor the Australian system of voting to the end that we may have an honest ballot. We denounce the republican party for the defeat of this salutary reform in the XXIII general assembly, in defiance of a popular vote in its favor and in the face of its adoption by so many of our sister states, with the undeniable result of securing a pure and untrammelled ballot.

5. We reaffirm our adherence to the doctrine of the control and regulation of railroads as now enacted into law, and we favor such changes as experience may show to be necessary to protect the people from evasions of law, from encroachments and extortion through imperfections of the law, and as will establish just and equitable relations between the people and railroad corporations in all travel and traffic over railway lines.

6. We denounce all trusts, pools and combines and we favor such action, state and national, as will forfeit to the public all franchises and property made use of by corporations or others to form trusts in manufactures, trade or commerce to the injury and spoliation of the people, and also to insure the punishment criminally of the individuals thus conspiring against the public weal. The democratic party declares that in the division of the product of labor and capital labor does not receive its fair proportion.

7. On behalf of our laboring and producing masses we renew that devotion to their interests and rights which has always been a fundamental doctrine and practice of the democratic party.

8. We are in favor of the election of United States senators by a direct vote of the people and until an amendment to the national constitution can be secured requiring their election by such direct vote their nomination by state conventions or individual preference.

9. We reiterate our demand of one year ago for the free coinage of silver and that it be made full legal tender for all debts, public and private, and denounce as unjust and dishonest the provision of the law recently enacted allowing parties to stipulate against payment in silver and silver certificates, thus setting up one standard for the creditor and another for the debtor; one for the poor man and another for the rich man.

10. We again acknowledge the great debt of gratitude the nation owes to the soldiers and sailors of the union and we declare in favor

of just, liberal and equitable pension laws for all invalid and dependent soldiers and sailors, their widows and orphans.

11. We denounce the McKinley law, the motives of its authors and defenders and the theory under which it is submitted for the approval of the American people. Such legislation increases the cost of the necessities of life, promotes dishonest manufactures, trusts and combines, creates sectional envy, despoils the many for the benefit of the few, threatens the country with an aristocracy based upon ill-gotten gain and above all corrupts the politics of the country so as to seriously endanger the perpetuity of popular government. We demand equal opportunities for every section of our country and for every citizen and we insist that every oppressive feature of the tariff be eliminated, to the end that our merchant marine may be restored to the sea and the markets of the world opened to the producing classes. The sugar bounty is not tariff. It is spoliation of the treasury for special classes and interests which are no more entitled to be aided by the government than the farmers of Iowa in raising hogs and corn or the pioneer settlers of the frontier in their hardships and sufferings as the vanguard of civilization.

12. We denounce the wasteful and lavish appropriations of the last congress, which in time of profound peace expended an amount equal to one-third the total public debt incurred in four years of unparalleled wars for the preservation of the Union. This \$1,000,000,000 congress marks the final effort of desperate politicians to perpetuate themselves in power by subsidizing classes, communities, special interests and privileged individuals from the public funds, which should be a sacred trust to be administered solely for the necessities of the government.

13. But while we concede the right of the relatives of our naturalized citizens to inherit lands and the right of foreign investors and creditors to hold for a reasonable period land acquired in the collection of debt, and while we welcome the actual settler as an owner upon his filing a declaration of his intention to become a citizen, we are nevertheless unalterably opposed to the non-resident alien ownership of land and of foreign syndicate ownership of our industries; and we also demand that all unearned railroad land grants be reclaimed by the general government and held for actual settlement.

14. We tender to the Irish people our profound sympathy in their struggle for home rule, that safeguard of freedom which the infamous force bill attempted to take from the American people in congressional elections. We abhor the persecutions of Russia toward the Jewish people and we believe that all civilized nations should protest against such barbarism and inhumanity.

Resolved, That we are in hearty sympathy with the efforts being put forth to make a creditable exhibit of Iowa's resources at the World's Columbian Exposition and we favor a liberal appropriation by the next general assembly, that the prosperity and greatness may be fully exemplified at the great gathering of the nations of the world.

For the indorsement of these principles and for the election of state officers and a legislature in support of them, we appeal to the consciences, the intelligence and the judgment of our fellow citizens, irrespective of their former party affiliations.

Iowa Prohibitionists.

Adopted at Des Moines, June 10, 1891.

The prohibition party in the state of Iowa in convention assembled, acknowledging Almighty God as the source of all power in

government, the holy scriptures be recognized as the basis of all civil law, do hereby declare:

1. That the manufacture, importation, exportation, transportation and sale of alcoholic beverages should be made public crimes and prohibited as such.

2. That such prohibition can be secured only through amendments to the national and state constitutions and adequate laws secured and supported by the prohibition party in nation and state.

3. That any form of license or taxation of the liquor traffic is partnership therein and participation in its immorality; it is therefore the duty of every good citizen to withhold his support from the republican, democratic and so-called people's parties, which are committed to the continuance of the license iniquity.

4. That the internal revenue system should be immediately abolished.

5. We demand the retention of the present law prohibiting the traffic in intoxicating liquors as a beverage. To secure the execution of the law we favor by the next legislature the appointment of a commission with power to remove all peace and police officers within the state who will not enforce the law; the appointment of a state constabulary and also a sufficient appropriation of state funds to enable the law to be enforced in rebellious cities and counties.

6. We favor the submission by congress of a federal constitutional amendment ordering that the right to vote shall not be denied or abridged by the United States or any state on account of sex; we favor an educational basis of qualification.

7. We demand laws prohibiting deals in futures upon any board of trade, chamber of commerce or public market.

8. We demand the passage of laws prohibiting aliens owning land within the territory of the United States; also corporate privileges; and that congress take prompt action to devise a plan to obtain all lands now owned by aliens and foreign syndicates, and that all lands held by railroads and other corporations unearned according to contracts, and in excess of actual use and needs, be reclaimed by the government and held for actual settlers only.

9. The right to make and issue money is sovereign power, residing with and to be maintained by the people for the common benefit. We believe in a true currency consisting of gold, silver and paper money, floating at par in the market. We demand the abolition of national banks as banks of issue and that the federal government issue all moneys. We favor the free coinage of gold and silver limited to the production of the United States, putting a dollar's worth of material and labor into each dollar that may hereafter be coined.

10. We demand the election of president, vice-president and United States senators by a direct vote of the people.

11. We favor the Australian ballot system.

12. We demand that our American laborers shall be protected from pauper and criminal labor of Europe and that our immigration and naturalization laws be so arranged that our shores shall cease to be the dumping-ground for the political and social dregs of foreign lands.

13. We express our appreciation of the National Women's Christian Temperance union and all loyal workers therein.

14. We favor a gradual, just and equitable income tax for the collection of state and national revenue.

15. Arbitrations should take the place of strikes and other injurious methods of settling labor disputes; employes should be protected from bodily injury or in property while

in the faithful performance of their duties; equal pay for equal work should be given both sexes.

16. It is the sense of this convention that all wage-workers should be paid in cash and allowed to purchase in the markets with perfect freedom.

Iowa People's Party.

Adopted at Des Moines, June 3, 1891.

Resolved, By the people's party of the state of Iowa in convention assembled that we view with alarm the continued encroachment of confederated monopolies and trusts on the rights of the people and are firmly convinced of the inability of the old parties to meet the issues which are forced upon us. A vicious system of class legislation protects a moneyed oligarchy most dangerous to the rights and liberties of the people and is fast undermining the foundation of our civil government which must rest upon the equality and intelligence of all. We hereby heartily ratify and confirm the movement inaugurated at the Cincinnati conference of May 19, 1891, and the wise and patriotic platform of principles there adopted.

Concerning questions of local state concern, we declare:

1. That we condemn the action of our executive council for its refusal to increase the railroad assessment to an average equal to that of farm and other property and affirm that said assessments to be equitable and just should at present be at least \$80,000,000, and that the legislature should provide by stringent law for such assessment.

2. That we demand the establishment in our state of the Australian ballot system.

3. We denounce the action of the XXII and XXIII general assemblies for defeating the Australian ballot bill; for incorporating the contract clause in the miners' screen bill; for the defeat of the 2-cent fare bill, the uniform school-book bill and the bill for the taxation of mortgages, all of which measures we endorse and advocate.

We sympathize with the miners of Iowa in their struggle for the eight-hour day and pledge them our support for the repeal of the contract clause in the screen bill and the abolition of the truck-store system and demand weekly pay for the miner.

We favor a uniform system of school books for the entire state, the books to be furnished by the state at cost to the pupils.

4. We censure the leaders of the republican and democratic parties for the constant effort to reopen the temperance question in this state to the exclusion of the grave economic questions which now confront our people.

5. We favor a judicious service pension law and demand additional compensation equivalent to the disparity between the currency paid to our union soldiers and that of gold at the time of payment. In granting pensions there should be no discrimination on account of rank.

6. The creation of private corporations for pecuniary profit we believe to be contrary to moral law and in violation of sound public policy, and we therefore demand that our next legislature shall provide for the investigation of our present system of private corporations with a view to their ultimate suppression as soon as it can be done with safety to the business interests.

Michigan Republicans.

Adopted at Jackson, Fe. 24, 1891.

The republicans of Michigan, in convention assembled, in the city of Jackson, where, thirty-six years ago, under the oaks, the great party of human liberty and equal rights was born, looking backward over a period of un-

paralleled national and state prosperity, as the result of the supremacy of republican principles, do hereby adopt the following platform:

1. *Resolved*, That we believe in maintaining the integrity of the currency, and that silver and gold should be used as a money basis by the United States; and to accomplish this end all the American silver product should be received at its market value by the government and legal-tender silver certificates or silver coin should be issued therefor.

2. We believe in the purity of the ballot-box, and that any abridgment of the right of suffrage is perilous to the safety of the nation, and we demand the enactment of such national laws as shall protect every American citizen in the exercise of this sacred right.

3. The republicans of Michigan, believing in the rule of the majority, demand that the United States senate shall adopt such rules as shall enable that body to reach a vote on any question after reasonable debate.

4. We hereby indorse the late revision of our national tariff laws protecting producers, laborers and farmers against the ruinous competitions of foreign productions and cheaper labor, and especially commend those features of the law which provide for the protection of farm products as well as manufactured articles; and we cordially approve of the reciprocity provisions therein contained, under which important treaties opening new markets have already been entered into by the administration under the magnificent leadership of James G. Blaine.

5. We indorse and commend the action of the republican party in carrying out its pledges in relation to pension legislation.

6. We reaffirm the position of the republican party upon the subjects of temperance legislation and taxation as expressed in its last state platform, and demand such a state tax law as shall make taxes upon non-resident lands collectable with promptness and certainty, that there may be no discrimination against the resident owner.

7. With sincere sorrow the republican party of Michigan mourns the recent deaths of Gen. William T. Sherman and Admiral David D. Porter. Our heroes of the civil war are fast passing away, but their memory will remain with us as an inspiration of fidelity to our common country. Let it be ours to hand down to posterity a free and untarnished republic which their patriotism helped to establish and maintain.

Michigan Democrats.

Adopted at Lansing, Feb. 26, 1891.

The democratic party of Michigan in convention assembled stand upon and reaffirm the platform of the democracy adopted at Grand Rapids in 1890, which is as follows:

When the people are asked to judge or choose between principles and policies of opposing political parties, whether those of one or the other be for the good or for the ill of the nation, whether those of the one or the other will bring the greatest good to the greatest number, a comparison of influence and results following the practical application in government of their respective principles and policies affords the best means for judgment and choice.

We, the democrats of Michigan, in convention assembled, claiming for ourselves motives and purposes of the highest patriotism, and without reflecting upon the motives of the great mass of those who have heretofore voted with our opponents, invite such comparison and solicit the support of all good citizens of Michigan in the coming election.

1. We reaffirm the declaration of principles

in the platform adopted by the party in its last national convention.

2. With just pride we point to the prudent, wise and statesmanlike administration of Grover Cleveland.

3. We condemn the administration of Benjamin Harrison for the utter disregard of its solemn pledges made to the people before election. We denounce it for its unparalleled extravagance, which has in the first eighteen months of its life dissipated the greater part of the vast surplus left in the treasury by the preceding frugal democratic administration, and brought the country to confront the possibility of an early deficiency and higher taxation as the result of such extravagance. We condemn it for its deliberate abandonment of civil-service reform; for its use of cabinet positions and other high stations in payment of financial campaign debts; for using the public patronage as a family appendage instead of a public trust; for its complete subservience to Wall street and the money power, and its undisguised hostility or indifference to the rights and interests of the producing and laboring classes.

4. We reaffirm the obligation of the people to the soldiers and sailors of the war for the preservation of the union, and favor a policy of liberal pensions to the disabled survivors and dependent families.

5. The power to tax is wholly a prerogative of sovereignty, and should be delegated to congress by the people for these purposes only; to pay the public debts, to provide for the common defense and to provide for the general welfare. The enactment of a system of taxation avowedly for different ends, and under which the national treasury may be congested by an enormous surplus collected from the people in taxes on the necessities of life, but also under which the prerogative to tax is actually redegated by congress to favored classes, who for their own enrichment may levy a tariff upon such necessities in addition to fair cost and fair profits, which would be a radical perversion of the power to tax conferred upon congress by the people.

6. We denounce and condemn the high tariff policy of the present administration and demand that our tariff and internal revenue taxes shall not be higher than required to maintain the government, economically administered. We especially condemn the McKinley tariff bill which still further restricts the market for American products while it increases the burden of taxation. We denounce it because it has not a section or line that will open a new market for a single bushel of wheat or a single barrel of pork; and also because it still further restricts our markets and limits our trade with the world—a policy that must more depress American agriculture, lessen the value of American farms and increase the cost of living to the American people.

7. We believe in the free and unlimited coinage of gold and silver, unhampered by conditions as to the legal tender qualities of either, and unhampered by the proviso suspending coinage of silver after July 1, 1891. We condemn the republican policy because it demonetized silver and still refuses the demand of the people for a restoration of silver to a complete equality with gold. We condemn the republican members of congress from the state of Michigan who voted against the complete remonetization of silver.

8. We demand that henceforth the issuing of all circulating medium be made under acts of congress through the national treasury in such amounts as the business wants of the country require.

9. We denounce the Lodge force bill which has passed the house and has the active sup-

port of the administration, as revolutionary and unconstitutional. It strikes down home rule and local self-government; provides the machinery to accomplish dishonest returns and false certificates of election; fosters sectionalism and bayonet rule where every interest of the people invites to peace, fraternity and unity; outrages the traditions and customs of a century by giving life tenure to partisan returning boards; makes the legislative and executive branches dependent upon the judiciary and converts the judiciary into an instrument of oppression and corruption; involves the unnecessary expenditure of millions of the people's money. We declare that interference of any kind by the federal government with state elections is a dangerous menace to the form of government bequeathed to us by the framers of the constitution, and that the intelligence and patriotism of the American people may safely be trusted to remedy any evils that may exist in our elections.

10. The public domain should be reserved for homesteads for actual settlers. Lands granted as subsidies to corporations which were not earned in strict conformity with the terms of the grants should be declared forfeited and settlers upon them should be protected. We denounce the repeated acts of the republican senate in refusing to pass the bills of the democratic house, declaring forfeited more than fifty-four million acres of unearned lands, and we denounce the action of the republican legislature of Michigan, when, after the poor act of meager justice to the homesteaders of Michigan had been wrested from the senate of the United States (changed and mangled from an act of full justice to the settlers as it came from the house), that legislature refused to put the construction upon the act that the state of Michigan accepted it for the benefit of those who had settled upon the land in good faith, and not for the benefit of subsidized corporations.

11. We condemn the policy of giving bounties to promote commercial relations with other countries until closer commercial relations with those countries can be maintained. We believe in the creation of a merchant marine, which can be best brought about by unrestricted commerce. Until the freedom of commerce permits the reciprocal return in profitable exchange for American products sold abroad; we condemn the system of subsidies which only maintains a line so long as the subsidy lasts.

We are in favor of a secret ballot and of such legislation as shall be adequate to effectively preserve the purity of elections while securing to each voter the exercise of his right of suffrage.

We congratulate the democrats of the national congress on their splendid battle against, and permanent defeat of the infamous force bill.

The McKinley bill is a law but the democratic party pledges itself to the people to execute their judgment pronounced in 1890 for the repeal of the law, and that this shall be done in the year of our Lord, 1893.

The great communities of farmers are too numerous to form effective trusts and as this large body of our citizens raise a surplus, the selling price must by a natural law be fixed by the prices of the world's markets abroad.

Reciprocity merely with countries which do not demand or need our agricultural products and increase but which will buy only our manufactures will not suffice.

Those great markets of the farmer, too long closed, and whose dense populations are the great consumers of the world, must be opened by inviting repeals of retaliatory laws and by

striking off the shackles which fetter exchange of trade.

We challenge the policy of the republican party, which, while seeking to enact prohibitory duties for the destruction of trade with other countries, at the same time proposes to appropriate millions of dollars of the earnings of the people as subsidies to steamship lines, under the pretense of restoring trade.

We indorse the action of the state senate in fearlessly deciding the late contest for seats according to the testimony and in unseating members holding their places by fraud and giving their seats to the members chosen by the people.

Michigan Prohibitionists.

Adopted at Jackson, Feb. 18, 1891.

The prohibition party of Michigan, in state convention assembled, acknowledging Almighty God as the source of all moral power in government, and recognizing in the political and industrial affairs of the nation a crying demand for reforms, proposes to assert now, as always, its determination to advocate such reforms as will relieve the people from the great burdens imposed upon them.

1. We stand unalterably opposed to any system which gives a statutory recognition to the liquor traffic and which places it among the legitimate and protected industries of the people. We declare it an outlaw and criminal, the disturber of private peace and the corrupter of public morals. We pronounce that system pernicious which supports the state on the vices and vicious propensities of the citizen. The virtues, not the vices, of the people afford the best security for a nation's prosperity. We will not countenance any form of legislation which licenses a crime for a revenue consideration, and denounce as unworthy the trust of a righteous people any political party which takes such revenue as the price of its power. Knowing that in this we are right, we declare it our purpose, if entrusted with power, to repeal all laws in this state which tax or license the liquor traffic, and the enactment of laws which will unconditionally prohibit the business in this commonwealth.

2. All money to be issued by the general government in sufficient quantities to meet the business demands of the country, the same to be full legal tender; the free and unlimited coinage of silver and the establishment by the national government of postal savings banks.

3. A readjustment of the tariff so as to tax luxuries and exempt the necessities of life. The increase of specific taxes so that the corporate wealth of this state shall bear as high a rate of taxation as that of the private citizen, with an equitable income tax as a supplemental means of raising revenue.

4. A service per diem pension to all honorably discharged union soldiers.

5. The adoption throughout Michigan of the Australian ballot system.

6. A perfected and enforced system of civil-service laws.

7. That the government should control in the public interest the railroad, telegraph and telephone systems, to the end that the public be guaranteed rates covering actual cost of operation and fair interest on capital actually invested.

8. Equal suffrage without distinction of sex but with an educational qualification.

9. Speculations in margins, the cornering of markets, the formation of trusts and combinations for the purpose of arbitrarily forcing up or down prices are an outrage upon the people and should be prohibited.

10. The relation of capital to labor is a press-

ing political issue to be solved only by a party which regards politics as morals applied to public affairs. We favor legislation that will insure to the laborer a just return for his labor and will check the tendency to divert the wealth of the country from the hands of the many into the hands of the few.

11. The prohibition of alien land ownership and the limitation of land ownership by domestic corporations and by individuals; that all unearned land grants be declared forfeited and all government lands be held for settlers only.

12. The election of president, vice-president and United States senators by direct vote of the people.

With full faith in our cause as embodied in the foregoing platform, we invite the co-operation of all voters of this state in securing such reforms.

Michigan Industrial.

Adopted at Lansing, Feb. 19, 1891.

WHEREAS, the democratic and republican parties have been in control of the municipal, state and national government of this country since the close of the civil war; and,

WHEREAS, During that time, through the criminal and negligent abuse of power intrusted to the leaders of said parties, our public domain has been alienated to corporations, wealth has been centralized in the hands of the few, and the masses proportionately impoverished; corporations have been created which oppress the people; unjust discriminations have been made in the distribution of taxes, so that the aggregate wealth of millionaires and corporations does not bear the same rate of burdens of taxation as that of the small holders; the ballot has been corrupted; our system of currency has been manipulated in the interests of the bondholder; and,

WHEREAS, Rings and political tricksters control said parties so that the voice of the people has become powerless to correct abuses through the agency of said parties; and,

WHEREAS, The object of the various reform organizations is essentially the same, and the abuses to be removed are so alarming as to demand the laying aside of minor differences for the greater good; therefore, we citizens of Michigan, for the love of our country and our homes, in harmony with the general uprising of the reform elements throughout the country, and especially in the northwest, do under this preamble and declaration of principles merge ourselves into one united body for political action.

1. We demand the abolition of national banks and the substitution of legal tender treasury notes in lieu of national bank notes, issued in sufficient volume to do the business of the country on a cash system, regulating the amount needed on a per capita basis as the business interests of the country expand, and that all money issued by the government shall be a legal tender in payment of all debts, both public and private.

2. We demand the free and unlimited coinage of silver.

3. We demand that taxation, national or state, shall not be used to build up one interest or class at the expense of another.

4. We demand that means of communication and transportation shall be owned and operated in the interests of the people, as is the United States postal system.

5. We demand that eight hours shall constitute a legal day's work in all factories, mines and workshops.

6. We demand a law permitting the debtor to deduct his mortgage from his assessment, similar to the law now in force in California.

7. We demand a graduated income tax, thereby placing the burden of taxation on those most able to bear it.

8. We demand a government loan to the people on real-estate security at the same rate money is now loaned to the banks.

9. We demand a strictly secret ballot, better known as the Australian ballot system.

10. We demand a homestead exemption from taxation of \$1,000 on improvements and personal property.

11. We demand the election of the president of the United States and United States senators by a direct vote of the people and the reduction of the salaries of all public officers to a strict economical basis, proportioned to the wages of labor.

12. We are opposed to any fusion.

Nebraska Republicans.

Adopted at Lincoln, Sept. 24, 1891.

The republican party of the state of Nebraska gives renewed expression of its devotion to the principles of the republican party and declares that those principles as expressed by the national republican convention should be the strong point of union between all republicans in the state of Nebraska. We congratulate the state of Nebraska, we congratulate the people, upon the marvelous prosperity attending the development and growth of the state of Nebraska during its twenty-four years of statehood under the republican administration and which has brought us to the front rank among the leading states of the United States, and we can fearlessly assert that no state which has been controlled by democratic power during any considerable time of the same period can compare with us in economic management of affairs or in the rapid ratio of increase in population, wealth and general prosperity, notwithstanding the fact that there is within the border of the state a number of dissatisfied persons who took advantage of the general financial depression which swept all over the entire country to pave their way into temporary prominence by declaiming against the welfare of our people and slandering the fair name of our state. The rains from heaven and the rich soils vigorously cultivated by our farmers have produced such bountiful crops and such unrivaled prosperity that shall silence all calamity-talkers and add to the strength and enthusiasm of the republican party.

We congratulate President Harrison upon his eminently wise, loyal and courageous administration and declare our absolute confidence in his integrity, ability and patriotism and pledge him our cordial support in the discharge of the duties devolving upon him as the chief magistrate of the nation.

We rejoice in the restoration of dignity, vigor and statesmanship in the conduct of our foreign affairs under the guiding hand of America's favorite son, James G. Blaine.

We approve of the silver coinage act of the present administration by which the entire product of the silver mines of the United States is added to the currency of the people, but we denounce the democratic doctrines of the free and unlimited coinage of silver as a financial policy able to precipitate the people of every city and every state in the Union in a prolonged and disastrous depression and delay the revival of business enterprise and prosperity so ardently desired and now apparently near. The free and unlimited coinage of silver would tend to the hoarding of gold and force the use of cheap money in the payment of wages in every workshop, mill, factory, store and farm, and tend to the scaling down of the wages of the toilers already de-

pressed and weakening the purchasing power of the dollar which would be used to purchase the product of the farmers. We are in favor of having every dollar as good as any other dollar.

We demand the maintenance of the American system of protection to American industry and labor; the policy that has been identified with every period of our national prosperity, and we admire the genius of that heroic statesman, William McKinley Jr., whom the people of Ohio will make their next governor as a recognition of his magnificent services to the country.

We also commend and indorse that policy of reciprocity by which the Central and South American nations and the Spanish Indies are being opened up to our trade upon favorable terms and by which the surplus products of our country may find a market and by which all our people shall receive in exchange therefor a long line of products which do not produce ruinous competition among our own people nor destroy the developing industries of our country.

We are heartily in favor of the general provisions of the interstate commerce act and we demand the regulation of all railways and transportation lines in such a manner as to insure fair and reasonable rates to the producers and consumers of the country.

We favor such legislation as will prevent all illegal combinations and unjust exactions by aggregated capital and corporate powers.

We insist upon the suppression of all trusts, combines and schemes designed to artificially increase the price of the necessities of life.

We regard the World's Columbian Exposition as an important event in the world's history and we are in hearty sympathy with every effort to make it a success. In the friendly rivalry of states we should make a creditable exhibit of Nebraska's products. We favor an additional appropriation by the next legislature for this purpose, that our prosperity and greatness may be fully exemplified.

We take pride in the record of this state. We recognize that its growth and power, its prosperity and good name have been the fruits of its industrial people and we believe in such policies, state and nation, as will promote justice and wider opportunities among these classes. To their support in the future, as in the past, we pledge our most intelligent judgment, most sincere endeavor.

We denounce the Grand Island platform of the democratic party as framed with a deliberate purpose to mislead and deceive wherein sympathy is expressed where none is felt; wherein help is proposed where none is intended; wherein purposes are avowed which are not entertained.

In support of this indictment we point to the pretended friendship for the soldier, while at the same time the democratic party has always proclaimed against the granting of liberal pensions; to the free silver plank, intended to deceive the supporters of free and unlimited coinage of silver, when it is known that many of the leaders of the party are opposed to this doctrine; to the failure to give the people relief from exorbitant freight rates, while it was afraid to either approve or censure the action of its acting alien governor for vetoing the Newberry bill.

We denounce the democratic party for its insinuations against the integrity of the supreme court of the state as an effort to make the judicial power subordinate to political parties and as disgraceful to a political organization.

We denounce the democratic party for its double dealing with the civil and political rights of the people wherein it appears to favor free and untrammelled elections in the

state of Nebraska, but never raises its voice against the political outrages practiced against the republican voters white and black throughout the democratic states of the south.

We arraign the democratic party as the enemy of labor, scheming to break down the defense of protective laws, to block the wheels of home industry and to degrade the masses of the people—a party controlled by aristocracy and reactionary tendencies—the legacy of slavery.

The republican party of Nebraska appeals to the intelligence and to the integrity of the people of this state and from all good citizens we invite support.

The following additional resolutions were adopted:

Resolved, That the republicans of Nebraska in convention assembled, send cordial greeting to their brethren in Ohio, who are so nobly battling for the principles of our party, for honest money and reform and fair protective tariff and for Mr. Blaine's idea of reciprocity.

Resolved, That we will hail with enthusiasm and joy the announcement of their merited success.

Resolved, By the delegates of the republican party of the state of Nebraska in convention assembled, that we demand as a matter of right that the national republican convention of 1892 be held west of the Mississippi river, to the end that the great states west of that river containing as they do more than one-third of the entire population of the United States and wherein the republican party has always been loyal to the national republican ticket, be recognized, and we most heartily join the great republican party of Iowa, as expressed by their convention July 1, 1891, in naming the city of Omaha as the place where said convention should be held and to this end we most respectfully demand consideration at the hands of the national republican central committee when it shall meet to name the time and place for holding said convention.

Nebraska Democrats.

Adopted at Grand Island, Sept. 17, 1891.

The democrats of Nebraska in convention assembled give thanks to God and the energy and industry of our people for bountiful crops and to the prospects for remunerative prices. Considering the legislative obstacles confronting the people, these are blessings for which we are profoundly grateful. The democracy of Nebraska are determined, in as far as human foresight will permit us, to urge, guide and direct legislation, that the people of our glorious state may be so unhampered by unwise laws that a season or two of bad or indifferent crops will not find them in the future, as in the recent past, almost wholly at the mercy of grasping corporations and usurious money-lenders. We congratulate the country upon the overwhelming indorsement of democratic principles and the democratic party at the late election and believe that the revolution begun will continue until the democratic party has assumed control of all the branches of the government and brought to the people relief from the vicious legislation of the republican party. The democratic party believes in equality before the law. It has ever been the enemy of fraternalism and favoritism in government and it will continue to champion the cause of the many. It will oppose all class legislation under whatever name it may appear, believing the mass of people will find their only safety in equal laws that bear alike on all.

We congratulate the people of the state on

the defeat of the prohibition amendment and the people of the whole country without regard to political affiliation upon the defeat of the infamous force bill, and commend as worthy of all praise the power, consistency and courage with which our democratic representatives in both branches of congress, without any exception, successfully opposed it and we rejoice at the thought that within three months the American congress will become a deliberative body. We condemn the McKinley bill as a bold and shameless attempt to repay out of the pockets of the people the protective industries the amount contributed by them for the purpose of wholesale corruption at the last presidential election.

We direct public attention to the fact that while the bill pretends to help the farmer by useless additions to the agricultural products, it in fact multiplies the people's burdens and increases their taxes, lessens the price of their products and decreases the purchasing power of their income.

We demand a tariff for revenue limited to the necessities of the government, returning from the special to constitutional taxation; we favor placing raw materials on the free list, greatly reducing the burdens of the necessities of life, and of imposing the heaviest duties upon luxuries. We denounce the one-sided reciprocity as proposed by the present administration, which invites commercial intercourse only with nations which buy our manufacturing products and denies freedom of exchange with those nations which purchase our surplus agricultural products, as an attempt to continue to favor manufacturing industries in another form, the advantage which they have had under the system of protection, and we demand that all legislation upon this subject shall give to the farmer equal consideration with the other classes of society.

We condemn the giving of subsidies and bounties of every kind as a perversion of the taxing power. We are in favor of the election of United States senators by direct vote of the people. We denounce all trusts, pools and combines and we favor such action, state and national, as will forfeit to the public all franchises and property owned and used by corporations or other concerns to form trusts in manufactures, trade or commerce, to the injury and spoliation of the people, and also to insure the punishment criminally of individuals conspiring against the public welfare. On behalf of the laboring classes and producing masses we renew that devotion to their interests and rights which has always been the fundamental doctrine and practice of the democratic party.

We favor all fair and lawful methods by which labor may secure laws establishing free public employment agencies and adequate compensation undiminished by any devices for encroachment upon the army of toilers and we condemn the practice of importing contract labor.

We favor the free coinage of silver and that it be made a full and legal tender for all debts, private or public, and denounce as unjust and dishonest the provision of the law recently enacted, allowing parties to stipulate against payment in silver and silver certificates, thus setting up one standard for the rich and another for the poor.

We are in favor of liberal pensions to disabled soldiers and those dependent upon them and believe that congress should discriminate between the worthy and unworthy, to the end that the pension roll may be a roll of honor and the national bounty be kept for its rightful wards. We denounce as suggestive of partisan prejudice the indecent haste

shown by the majority of the supreme court in issuing the writ of ouster against the Hon. James E. Boyd, the chosen governor, denying to him the courtesy and fair treatment usually accorded to the meanest criminal in the land. And we regret that a man could be found within the bounds of the state willing to claim, upon a technicality without equity, an office to which another was called by the votes of the people.

We arraign the republican state board of transportation for having failed to give the people relief from exorbitant freight rates. We are in favor of the proposed amendment to the constitution, creating the office of railroad commissioner and making the same elective by the people and are also in favor of a law establishing a reasonable maximum of freight rates governing the railroads of this state.

The democratic party has always been outspoken in opposition to un-American and treasonable conspiracy to deprive citizens of their civil and political rights on account of religion and nationality. We emphatically denounce all cowardly, hidden and dark lantern practices which are directed toward effectuating such traitorous purpose in the face of constitutional provisions, both state and national.

Nebraska Prohibitionists.

Adopted at Lincoln, Aug. 6, 1891.

The prohibition party of Nebraska in convention assembled, acknowledging Almighty God as the source from which the just powers of government are derived and to whose laws human enactment should conform as an absolute condition of peace, prosperity and happiness, adopt the following platform:

1. We declare our adherence to the national prohibition party and pledge our devotion to its efforts to secure the suppression of the liquor traffic throughout the nation.

2. The traffic in intoxicating liquors as a beverage is a public nuisance which no government has a right to authorize or sanction; it is a leech on the industrial, commercial and financial prosperity of the state, unequaled by any of the evils of the day; it is the power in the hands of the corrupt politicians by which their unworthy ends in government are attained; it is the cause of all causes in producing discord, crime, misery, want and degradation in the domestic and social world; it is a deadly foe to all morality, purity and virtue and good government demands its immediate suppression by law.

3. The liquor traffic has bribed the public conscience, has secured such possession and control of the political parties not pledged to its overthrow and has entered into such a conspiracy with the great enemies of our national and industrial prosperity that the only hope of its suppression or the accomplishment of any national reform in government is in the success of a political party pledged to enact and enforce prohibition. No political party with a divided constituency on this issue can accomplish this work or secure any permanent reform in our government.

4. Laws should be enacted making it a felony for officers of any municipality to barter away the public health or morals by permitting the maintenance of houses of immorality or vice on condition that a portion of the proceeds be paid into the public treasury by a system of monthly fines or otherwise.

5. The government should own and operate the railroad and telegraph systems of the nation and furnish service at cost. To this end the government should refuse further extension of time of payment of the mortgages of the Pacific railroads.

6. All trusts and combinations organized to restrain and improperly control production and commerce should be prohibited and suppressed, and all corporations should be controlled by the government, so as to secure and protect the rights of individual citizens.

7. The money of the country should be issued by the general government only and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through issuing it. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita and made to increase with our increase in population. It should be made impossible for any man or combination of men to produce a scarcity of money in circulation.

8. A graduated income tax should be levied to assist in the support of the general government. We favor the abolition of the internal revenue system, by which our government derives support from the vices of its citizenship.

9. Taxation for state purposes should be so adjusted that each citizen and property-owner will contribute to the maintenance of the government in proportion to his ability.

10. Every honorably discharged union soldier, sailor and marine of the late civil war merits and should have a pension based upon service.

11. No alien should be allowed to vote until he has become a citizen of the United States.

12. No citizen should be deprived of the franchise by reason of sex.

13. The election of president, vice-president and United States senators should be by direct vote of the people.

14. As long as the present system of electing the president continues the presidential electors should be chosen, two from the state at large and one from each congressional district by the vote of the district.

15. That we are unalterably opposed to all laws tending to the regulation of vice.

Nebraska People's Independent Party.

Adopted at Hastings, Aug. 18, 1891.

The convention adopted the Cincinnati platform. A few additions were made and incorporated into it and a list of resolutions added. The following is the complete platform:

1. The right to make and issue money is a sovereign power, to be maintained by the people for their common benefit; hence we demand the abolition of national banks as banks of issue and as a substitute for national bank notes, demand that legal tender treasury notes be issued in sufficient volume to transact the business of the country on a cash basis, without damage or especial advantage to any class or calling; such notes to be legal tender in the payment of all debts, public and private; and such notes, when demanded by the people, shall be loaned to them at not more than 2 per cent per annum upon non-perishable products, as indicated in the sub-treasury plan, and also upon real estate, with a proper limitation upon the quantity of land and amount of money.

2. We demand the free and unlimited coinage of silver.

3. We demand the passage of laws prohibiting alien ownership of land and discouraging speculations in land, and that congress take prompt action to devise some plan to obtain all the lands now owned by alien and foreign syndicates and that all the land held by rail-

roads and other corporations in excess of such as is actually used and needed by them be reclaimed by the government and held for actual settlers only.

4. Believing in the doctrine of equal rights to all and special privileges to none, we demand that taxation, national, state and municipal, shall not be used to build up one interest or class at the expense of another.

5. We demand that all revenues, national, state or county, shall be limited to the necessary expenses of the government economically and honestly administered.

6. We demand a just and equitable system of graduated taxation of incomes.

7. We demand the government ownership of all means of public communication and transportation, and until such ownership can be effected we demand that the legislature of this state enact a freight-rate law for railroad service which shall fix rates no higher than those in force in Iowa.

8. We demand that corporations enjoying public franchises shall assume public burdens, and be compelled to answer in the courts for all damages sustained by employees when in the line of their duty.

9. We demand the election of president, vice-president and United States senators by a direct vote of the people.

Resolved, That we denounce the veto of the maximum freight-rate bill as an outrage perpetrated upon the people of Nebraska in the interest of railroads.

Resolved, That we heartily commend the independent members of the legislature, excepting Taylor, Collins and Gale, for having redeemed every pledge and enacted their platform into law.

Resolved, That we express our heartfelt sympathy with the wage-earners of this state who are engaged in the effort to enforce the eight-hour law, and we condemn in unmeasured terms the action of all individuals and corporations who, by refusing to obey said law, deny the laboring people the rights to which they are entitled.

Resolved, That we yield to no organized party in our admiration of the heroic services and glorious deeds of the brave soldiers of the union, and we hereby declare in favor of a service pension bill, a bill equalizing soldiers' bounties and pensioning prisoners of war, and agree to stand by and maintain the soldiers' home in order that no man who wore the sacred blue may become the inmate of an almshouse or fill a pauper's grave.

Resolved, That we denounce the present system of contract labor as maintained and fostered by the republican party in this state. That we believe the contract was fraudulently obtained and that contract conditions have not been complied with, and that its perpetuity at each session of the legislature is a source of constant corruption, and that it supports a gang of boodlers who, in many ways, at the last session of the legislature sought to reverse the will of the people, abducted a state senator and ran a free bar in the rooms of the state auditor in the capitol building, and by blackmail, bribery and shameless conduct generally, disgraced the state.

Resolved, That we ask our representatives in congress to demand the establishment of postal savings banks, with a money-order system so extended as to replace the bank exchange of the entire banking system of the country.

Resolved, That we heartily indorse the spirit and purpose of the address issued by the N. I. P. A., and that we recommend that all friends of the reform movement give to all independent papers, both state and local, every support in their power.

THE FARMERS' MOVEMENT.

Origin and growth of the various farmers' associations in the United States.

In 1890 the farmer became an important factor in national politics. For several years there has been a growing unrest among the agriculturists of the country. Wrongs, real and imaginary, united with light crops, low prices and onerous taxation, were confined to no single section of the country and under so many depressing conditions it is not surprising that the farmers should unite for the purpose of bettering themselves. To this end organizations, local and national, have been formed which have grown with astonishing rapidity until now, of the 4,500,000 white farmers in the United States, at least 1,250,000 are members of some one of the many orders, with secret work of discipline and oath-bound pledges, for mutual support and improvement. The American farmer is naturally a politician. He reads, thinks and understands. Many a statesman debates national questions with himself as he follows his plow. The farmers' organizations, as such, have rarely taken a hand in politics. The members of these bodies were identified with one or the other of the leading parties in the country and, as a rule, they were active partisans. It was not until 1890 that any considerable numbers acted in concert, independently of former political alliances, the result being that in some states that year they made and unmade United States senators and representatives, governors, state legislators and very many local officers. The farmers' vote in 1890 in the various states was as follows:

FARMERS' VOTE IN 1890.

Colorado.....	5,207
Illinois.....	6,696

Indiana.....	4,649
Iowa.....	4,720

Oklahoma.....	1,529
South Dakota.....	49,912

Total.....230,343

ORIGIN OF THE MOVEMENT.

Soon after the close of the civil war President Johnson sent O. H. Kelly, an employee of the Department of Agriculture, as an agent into the southern states to investigate the condition of the farmers in that section of the country and to report the result of his observations. He was so seriously impressed with what he saw that he proposed a national association of farmers, with branches in all sections of the country. On his return to Washington he held a consultation with J. R. Thompson and W. M. Ireland, also of the Department of Agriculture, who indorsed the views of Mr. Kelly. William Saunders, Rev. John Trimble, Rev. N. B. Grush, all in the employ of the government, and F. M. McDowell of Wayne, N. Y., were consulted, and these seven men met at the office of Mr. Saunders on the 4th day of December, 1887, and organized the National Grange, with Saunders as master, Thompson as lecturer, Ireland as treasurer, and Kelly as secretary. The object was to organize the farmers, not only of the south but of all parts

of the country, for purposes of mutual protection against the evils of which they complained. The grange grew with great rapidity, spreading over all the country, within the next seven years its membership numbering at least half a million; but it lacked discipline. While the intention was that none except persons directly interested in agriculture should become members yet there was nothing in the constitution of the body to prevent any person from coming in. In New York and Boston and in other large cities, lawyers, bankers, loan agents, indeed, all classes of professional men, were members of the grange; in some instances even stock gamblers posed as grangers. In order to relieve the body from these cumbrous excrescences, a national meeting of the patrons was called at St. Louis in 1874, at which time and place a thorough revision of the constitution was effected, limiting the membership to the class of persons that it was originally intended should form the working body of the order. The action of that convention cut off every person who was not either practically engaged in the work of farming, or was so closely connected with that sort of work as to be to all intents and purposes a farmer. This included agricultural editors and persons who in any way were directly interested in the practical work of farming. At the St. Louis meeting 32 states were represented, reporting over 20,000 subordinate granges with an aggregate membership of 800,000. The weeding-out process very greatly thinned the ranks of the order. Internal troubles followed and in the next twelve years the membership fell off to a small number of devoted men and women. Since that time there has been an increase in the membership and it now numbers about 250,000.

THE FARMERS' ALLIANCE.

Out of the Grange grew the Farmers' Alliance, which has been the largest and most powerful of all the farmers' organizations. The Alliance was organized by W. T. Baggett at Poolville, Parker County, Texas, July 28, 1879. A local society of the same name had been formed by Mr. Baggett in Lampasas county, Texas, in 1876, the direct object of this first organization being to oppose the spoliation of the public lands of Texas. Bodies of speculators were gathering up those lands for the purpose of bringing to themselves wealth out of the increase in their value, and the farmers insisted that the public interests should take precedence of those of private individuals. After two years of local effort it was deemed advisable by the officers to enlarge the scope and work of the Alliance, so as to take in the farmers of the entire state and to deal with public affairs generally. That occurred in 1879. In organizing the state Alliance everything of a partisan character was excluded, its functions "being educational and its field of operations limited only by the boundaries of human exertion." In its declaration of purposes we find: (1) "To labor for the education of the agricultural classes in the science of economical government in a strictly non-partisan spirit; (2) to develop a better state, mentally, morally, socially and financially; (3) to create a better understanding for sustaining civil officers in maintaining law and order; (4) constantly to strive to secure entire harmony and good-will among all mankind and brotherly love among ourselves; (5) to suppress personal, local, sectional and national prejudice, all unhealthy rivalry and all selfish ambition." In another part of the declaration of purposes it is stated that the laws of the Farmers' Alliance "are reason and equity; its cardinal doctrines inspire purity of thought and life, and its intentions are peace

on earth and good will toward men." These may be regarded as the fundamental principles of the Farmers' Alliance.

In October, 1880, the Farmers' Alliance was chartered under the laws of Texas. In February, 1882, the Texas State Alliance was organized and the work so carried on that at the state convention in 1886, 84 counties were represented. In January, 1887, a meeting was held at Waco for the purpose of effecting a union with the Farmers' Union, an association of Louisiana farmers which had been formed March 10, 1886, at Antioch church. The union was accomplished and the new organization bore the name of the "Farmers' Alliance and Co-operative Union of America," with C. W. McCune at its head. This new order spread rapidly in the states of Missouri, Kentucky, Tennessee, North and South Carolina, Georgia, Alabama and Mississippi.

At that time another famous organization was operating in the states of Arkansas, Missouri, Kentucky and Tennessee, known as the "Agricultural Wheel," which begun with seven members under the leadership of W. W. Tedford, at Des Arc, Prairie county, Arkansas, February 15, 1882. At a meeting held at Shreveport, La., October 12, 1887, a union of the "Wheel" and Alliance was effected which was completed at Meridian, Miss., December 5, 1888, the organization being called the "Farmers' and Laborers' Union of America."

NATIONAL FARMERS' ALLIANCE.

Up to this time the Farmers' Alliance was almost exclusively a southern institution, a secret order with grips and passwords, but it had taken no action whatever in politics except to impress its tenets in the minds of public men. In the spring of 1877 there had been organized by Milton George, at Chicago, an organization called the "National Farmers' Alliance," which in a little while had extended into the states of Illinois, Wisconsin, Minnesota, Iowa, Missouri, Kansas and Dakota. This was not at first a secret order but held open meetings and transacted its business in public. Later, however, this was changed and the order has now its ritual and secret work. The objects of the National Farmers' Alliance are stated to be "to unite the farmers for the promotion of their interests socially, politically and financially; to secure a just representation of the agricultural interests of the country in the national congress and state legislatures; to demand the prohibition of alien cattle and land syndicates; to oppose all forms of monopoly as being detrimental to the best interests of the public; to demand of our representatives in congress their votes and active influence in favor of the prompt passage of such laws as will protect live stock interests from contagious diseases; and to demand that agricultural interests shall be represented by a cabinet officer."

FARMERS' MUTUAL BENEFIT ASSOCIATION.

This association was started in southern Illinois in 1887, and now extends over a considerable portion of the states of Illinois, Kentucky, Missouri and Kansas. Its object is chiefly to resist the encroachments of monopolies.

THE PARTY FORMED.

A meeting was held in St. Louis in December, 1889, at the call of the Farmers' and Laborers' Union of America, for the purpose of bringing together in one great organization all the different bodies of organized farmers in the country. The result of this meeting was all these bodies were practically, if not actually, merged into one. The object of this consoli-

dation was to influence legislation in the interests of farmers and laborers generally. The new body was called the "Farmers' Alliance and Industrial Union."

THE Ocala CONVENTION.

December 2, 1890, a national convention of the Alliance and Union was held at Ocala, Florida. Thirty-five states and territories were represented by 163 delegates. Following the St. Louis convention it had been a serious question with the members of the order whether they would do their political work inside of the political parties or whether they would break away and unite for the enforcement of their demands. The Ocala convention decided in independent political action and adopted the following platform which has created a good deal of discussion.

"1. We demand the abolition of national banks; we demand that the government shall establish sub-treasuries or depositories in the several states which shall loan money direct to the people at a low rate of interest not to exceed 2 per cent. per annum on non-perishable farm products and also upon real estate with proper limitations upon the quantity of land and amount of money. We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

"2. We demand that congress shall pass such laws as shall effectually prevent the dealing in futures on all agricultural and mechanical productions, preserving a stringent system of procedure in trials such as shall secure the prompt conviction of offenders and the imposition of such penalties as shall secure the most perfect compliance with the law.

"3. We condemn the silver bill recently passed by congress and demand in lieu thereof the free and unlimited coinage of silver.

"4. We demand the passage of laws prohibiting alien ownership of land and congress take a prompt action to devise some plan to obtain all lands now owned by aliens and foreign syndicates, and that all lands now held by railroads and other corporations in excess of such as is actually used and needed by them be reclaimed by the government and held for actual settlers only.

"5. Believing in the doctrine of equal rights to all and special privileges to none, we demand that our national legislation shall be so framed in the future as not to build one industry at the expense of another. We further demand the removal of the existing heavy tariff tax from the necessities of life that the poor of our land must have. We further demand a just and equitable system of graduated tax on incomes. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all national and state revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

"6. We demand the most rigid, honest and just state and national governmental control and supervision of the means of public communication and transportation, and if this control and supervision does not remove the abuses now existing, we demand the government ownership of such means of communication and transportation.

"WHEREAS, The president of the United States in his annual message to congress recommends and urges the immediate passage of the measure known as the Lodge election bill; and, whereas, it involves the election machinery of the union, both state and national, and its passage will be fatal to the

autonomy of the states and cherished liberties of the citizens; and, whereas, said bill is in partisan spirit, and will be partisan in its application, thus revitalizing the gory ghost of sectional estrangement; and, whereas, in the holy war which we have declared against sectionalism the friends of the farmers of the north, east, south and west are the citadels around which the heaviest battles are being fought, and to the end that victory may crown our crusade and fraternity and unity reign; therefore be it

"Resolved, by the National Farmers' Alliance and Industrial Union of America, in national council assembled, That we do most solemnly protest against the passage of said Lodge election bill and most earnestly petition our senators to employ all fair and legal means to defeat this unpatriotic measure, which can result in nothing but evil to our common and beloved country."

At this convention the Farmers' Mutual Benefit association with a membership of 150,000 and the National Colored Farmers' Alliance with a membership of 1,200,000, were practically merged into the great organization.

At the Ocala convention a call was prepared for a convention to be held at Cincinnati on the 23d day of February, 1891, "for the purpose of forming a national union party, based upon the fundamental ideas of finance, transportation, labor and land, and the transaction of other legitimate business in furtherance of the work already begun by those organizations."

THE CINCINNATI CONFERENCE.

The meeting called for the 23d of February was postponed until the 19th of May, 1891. At this meeting thirty states and territories were represented by 1,418 delegates. A platform was adopted which will be found in full under the head of party platforms.

OTHER ORGANIZATIONS.

In the eastern states the strongest independent organization is the Farmers' League, which was started in Massachusetts in 1880 to elect a legislature pledged to enact an anti-oligo law. This work attracted so much attention that in January, 1890, a temporary organization of the National Farmers' League was perfected. The National League was permanently organized in Albany, N. Y., September 1, 1890, by representatives from the Maine, Vermont, Massachusetts, Connecticut, New York and Pennsylvania state leagues. The league is also making solid progress in the other New England states, and in New York, Maryland, Virginia, West Virginia, Ohio, Illinois, Indiana, Minnesota, Michigan, Colorado, Arkansas, Kansas, Kentucky, Georgia, Iowa, Washington, Oregon, California, Missouri, Nevada and Nebraska. The Farmers' League is a non-secret, independent, non-partisan organization, in harmony with the grange, alliance and kindred associations, agricultural societies, farmers' clubs and similar organizations. These are mainly devoted to the farmers' social, educational and financial improvement. But the league goes a step further. Its object is the farmers' political welfare. The work of the league is directed toward securing a just representation and treatment of the agricultural interests in congress and in the legislatures, and due recognition of farmers in all political affairs, without conflicting with the best interests of the entire people. It consists of a national league and of state leagues, with county and town leagues.

The northwestern alliance extends into the states of Nebraska, Minnesota, Wisconsin and Iowa, and has a membership of about 175,000.

The Supreme Court.

The Supreme court consists of seven judges, elected for a term of nine years, one from each of the seven districts into which the state is divided. The election is held in June of the year in which any term expires.

The state is divided into three grand divisions, southern, central and northern, in which the terms of the court are held. One clerk for each of the three grand divisions is elected for a term of six years.

The court sits at Mt. Vernon, Springfield and Ottawa.

The World's Columbian Exposition.

During the present year the World's Columbian Exposition will practically pass from the initiatory stage of existence. Before the year closes the buildings now in course of construction at Jackson park will be already partially filled with goods destined for exhibition. Builders and mechanics will have vacated Jackson park, and in their stead representatives of all nations on the earth will be engaged in making preparations for the grand triumphal demonstration ere the year closes. Indications continue to multiply showing that the quadri-centennial of the discovery of America will be celebrated in a manner unsurpassed in modern history. Already the entire world is deeply interested in the celebration. The note of preparation has been sounded throughout every state and nation, and the work of collecting and preparing exhibits is already far advanced. That the exposition of 1893 will fulfill the most sanguine expectations of those who have been interested in the project since its inception is beyond question. The World's Columbian Exposition will undoubtedly be the greatest the world has ever seen.

During the past year the site of the exposition at Jackson park has undergone a complete transformation. The semi-wilderness, half marsh, half prairie, which was selected by the directorate for the site of the exposition has been transformed into a park in reality as well as in name. Amid the growing buildings, which to the visitor bear the appearance of the nucleus of an embryonic city, the magnificent outline of the exposition plans may already be defined. The graceful lagoons, wooded islands, ornamental pro-

montories which will beautify the exposition in a manner never before attempted can already be defined even amid the chaotic lumber piles, saw mills, railroad tracks, dredges, temporary bridges and other paraphernalia of construction. The swampy shore line of Lake Michigan adjoining the park has already been ornamented by a sweeping promenade graceful and massive as the Thames embankment. The swampy ponds have given place to long, winding lagoons; the uneven prairie has been leveled up into terraces whose broad expanse is already ornamented with the colossal buildings to be devoted to exposition purposes. The exposition will be American in every sense of the word. Both as a monumental instance of the energy which has rescued a continent from oblivion and placed it among the leading and most developed countries of the world, and at the same time as an example of what American pluck can do, the exposition of 1893 will be absolutely and truly national.

For the last time prior to the announcement of the dates of the opening of the exposition the DAILY NEWS ALMANAC presents a synopsis of the work achieved up to date and of the magnificent plans of the exposition in the future.

EXPOSITION BUILDINGS.

The area under roof of the forthcoming exposition will equal that of Paris in 1889, Philadelphia in 1876 and Vienna in 1873 combined. In all there will be 150 acres under roof, not including the space covered by the buildings devoted to states and foreign government buildings and the sundry buildings lining each side of the Midway plaisance. The dimensions of the various buildings are as follows:

BUILDINGS.	Dimensions in feet.	Area acres.	Cost.
Mines and Mining.....	350 x 700	5.6	\$260,000
Manufactures and Liberal Arts.....	787 x 1687	30.5	1,100,000

Totals.....		144.4	\$5,900,000
United States Government.....	350 x 420	3.4	400,000
Battle Ship.....	348 x 69.25	.3	100,000
Illinois State.....	160 x 450	1.7	250,000
State annexes (2).....		.3	
Grand Totals.....		150.1	\$6,740,000

The last three are being erected, the first two by the United States government and the third by the state of Illinois. While not directly under the control of the executive of the exposition nor included in the estimates

of the cost incurred, they will nevertheless form a striking portion of the magnificent group of buildings surrounding the lagoons. In the plans formulated by the designers of the exposition space has been set aside for

* Including cost of pier.

these buildings in order to preserve a harmonious continuity, and to the visitor they will appear as a part of the exposition itself. In addition to these buildings there will be erected at the north end of the park buildings devoted to individual states and to foreign governments, in all probably one hundred structures. The latter will surround the gallery of fine arts at the north end of the lagoon. On the Midway plaisance will be located special features, such as the Bazaar of All Nations, the Street of Cairo, the Constantinople Street, the Japanese Village, the German Village and other special features not already decided upon.

Below are given in detail the proportions and features of each separate building:

THE ADMINISTRATION BUILDING.

The administration building is pronounced the gem and crown of the exposition palaces. It is located at the west end of the great court in the southern part of the site, looking eastward, and at its rear are the transportation facilities and depots. The most conspicuous object which will attract the gaze of visitors on reaching the grounds is the gilded dome of this lofty building. This imposing edifice cost about \$450,000. It covers an area of 200 feet square and consists of four pavilions 84 feet square, one at each of the four angles of the square and connected by a great central dome 120 feet in diameter and 220 feet in height, leaving at the center of each facade a recess 82 feet wide, within which are the grand

THE ADMINISTRATION BUILDING.

entrances to the building. The general design is in the style of the French renaissance. The first great story is in the Doric order, of heroic proportions, surrounded by a lofty balustrade and having the great tiers of the angle of each pavilion crowned with sculpture. The second story, with its lofty and spacious colonnade, is of the Ionic order.

Externally the design may be divided in its height into three principal stages. The first stage consists of the four pavilions, corresponding in height with the various buildings grouped about it, which are about sixty-five feet high. The second stage, which is of the same height, is a continuation of the central rotunda, 115 feet square, surrounded on all sides by an open colonnade of noble proportions, 20 feet wide and 40 feet high, with columns four feet in diameter. This colonnade is reached by staircases and elevators from the four principal halls and is interrupted at the angles by corner pavilions, crowned with domes and groups of statuary. The third stage consists of the base of the great dome, 30 feet in height and octagonal in form, and the dome itself. This great dome is gilded and forms a fitting crown to the first and second stages of the magnificent edifice.

The four great entrances, one on each side of the building, are 50 feet wide and 50 feet

high, deeply recessed and covered by semi-circular arched vaults, richly coffered. In the rear of these arches are the entrance doors, and above them great screens of glass, giving light to the central rotunda. Across the face of these screens, at the level of the office floor, are galleries of communication between the different pavilions.

The interior features of this great building even exceed in beauty and splendor those of the exterior. Between every two of the grand entrances and connecting the intervening pavilion with the great rotunda is a hall 30 feet square, giving access to the offices and provided with broad, circular stairways and swift-running elevators. Internally the rotunda is octagonal in form, the first story being composed of eight enormous arched openings, corresponding in size to the arches of the great entrances. Above these arches is a frieze 27 feet in width, the panels of which are filled with tablets, borne by figures carved in low relief and covered with commemorative inscriptions.

Above the balcony is the second story, 50 feet in height. From the top of the cornice of this story rises the interior dome, 200 feet from the floor, and in the center is an opening 50 feet in diameter, transmitting a flow of light from the exterior dome overhead. The

under-side of the dome is enriched with deep panelings, richly molded, and the panels are filled with sculpture in low relief and immense paintings representing the arts and sciences. In size this rotunda rivals, if it does not surpass, the most celebrated domes of a similar character in the world.

Each of the corner pavilions, which are four stories in height, is divided into large and small offices for the various departments of the administration and lobbies and toilet-rooms. The ground floor contains in one pavilion the fire and police departments, with cells for the detention of prisoners; in the second pavilion are the offices of the ambulance service, the physician and pharmacy, the foreign department and the information bureau; in the third pavilion the postoffice and a bank and in the fourth the offices of public comfort and a restaurant. The second, third and fourth stories contain the board rooms, the committee rooms, the rooms of the director-general, the department of publicity and promotion and of the United States Columbian commission.

THE TRANSPORTATION BUILDING.

Forming the northern architectural court of the exposition is a group of edifices of which the transportation building is one. It is situated at the southern end of the west flank and lies between the horticultural and the mines buildings. Facing eastward, it commands a view of the floral island and an extensive branch of the lagoon.

The transportation building is exquisitely refined and simple in architectural treatment, although it is very rich and elaborate in detail. In style it savors much of the Romanesque, although to the initiated the manner in which it is designed on axial lines and the solicitude shown for fine proportions, and subtle relation of parts to each other, will at once suggest the methods of composition followed at the Ecole des Beaux Arts.

Viewed from the lagoon, the cupola of the transportation building forms the effective southwest accent of the quadrangle, while from the cupola itself, reached by eight elevators, the northern court, the most beautiful effect of the entire exposition, may be seen in all its glory.

The main entrance to the transportation building consists of an immense single-arch enriched to an extraordinary degree with carvings, bas-reliefs and mural paintings, the entire feature forming a rich and beautiful yet quiet color climax, for it is treated in leaf and is called the golden door.

The remainder of the architectural composition falls into a just relation of contrast with the highly wrought entrance, and is duly quiet and modest, though very broad in treatment. It consists of a continuous arcade with subordinated colonnade and entablature. Numerous minor entrances are from time to time pierced in the walls, and with them are grouped terraces, seats, drinking fountains and statues.

The interior of the building is treated much after the manner of a Roman basilica, with broad nave and aisles. The roof is therefore in three divisions; the middle one rises much higher than the others and its walls are pierced to form a beautiful arcaded clear-story. The cupola, placed exactly in the center of the building and rising 165 feet above the ground, is reached by eight elevators. These elevators of themselves naturally form a part of the transportation exhibit, and as they also carry passengers to galleries at various stages of height a fine view of the interior of the building may easily be obtained. The main galleries of this building, because of the abundant elevator facilities, prove quite accessible to visitors.

The main building of the transportation exhibit measures 900 feet front by 250 feet deep. From this extends westward to Stony Island avenue an enormous annex, covering about nine acres. This is one story only in height. In it may be seen the more bulky exhibits. Along the central avenue or nave the visitor may see facing each other scores of locomotive engines, highly polished and rendering the perspective effect of the nave both exceedingly novel and striking. Add to the effect of the exhibits the architectural impression given by a long vista of richly ornamented colonnade, and it may easily be seen that the interior of the transportation building is one of the most impressive of the exposition.

The transportation exhibits naturally include ev-

THE TRANSPORTATION BUILDING.

THE MACHINERY HALL.

everything of whatsoever name or sort, devoted to the purpose of transportation, and range from a baby carriage to a mogul engine, from a cash conveyor to a balloon or carrier pigeon. Technically this exhibit includes everything comprised in class G of the official classification. The transportation building cost about \$300,000.

THE MACHINERY HALL.

Machinery hall has been pronounced by many architects second only to the administration building in the magnificence of its appearance. This building measures 850x500 feet, and with the machinery annex and power-house cost about \$1,300,000. It is located at the extreme south end of the park, midway between the shore of Lake Michigan and the west line of the park. It is just south of the administration building and west and across a lagoon from the agricultural building. The building is spanned by three arched trusses and the interior presents the appearance of three railroad train-houses, side by side, surrounded on all of the four sides by a gallery fifty feet wide. The trusses are built separately, so that they can be taken down and sold for use as railroad train-houses. In each of the long naves there is an elevated traveling-crane running from end to end of the building for the purpose of moving machinery. These platforms are built so that visitors may view from them the exhibits beneath.

THE WOMAN'S BUILDING.

The power for this building is supplied from a power-house adjoining the south side of the building.

All of the buildings on the great plaza are designed with a view to making a grand background for display and in order to conform to the general richness of the court and add to the striking appearance the two facades of the machinery hall on the court are rich with colonnades and other features. The design follows classical models throughout, the detail being followed from the renaissance of Seville and other Spanish towns, as being appropriate to a Columbian celebration. An arcade on the first story admits passage around the building under cover, and as in all the other buildings, the exterior is of "stucco" colored to an attractive tone; the ceilings are enriched with strong color. A colonnade with a cafe at either end covers the space between the machinery and agricultural halls, and in the center of this colonnade is an archway leading to the cattle exhibit. From this portico there extends a view nearly a mile in length down the lagoon and an obelisk and fountain in the lagoon form the southern point of this vista.

The machinery annex adjoins machinery hall on the west and is an annex in fact, and not a detached structure, as at first planned, with entrance by subways under the railway tracks. The annex covers between four and five acres and increases the length of the machinery building to about 1,400 feet, thus rendering it the second largest of all the exposition structures, the great manufactures building alone exceeding it in size.

THE WOMAN'S BUILDING.

The woman's building is situated in the northwestern part of the park, separated by a generous distance from the horticultural building on the one side and the Illinois state building on the other, and facing the great lagoon with the flowery island as a vista. A more beautiful site could not have been selected for this daintily designed building.

Directly in front of the building the lagoon takes the form of a bay about 40 feet in width. From the center of this bay a grand landing and staircase leads to a terrace six feet above the water. Crossing this terrace other staircases give access to the ground, four feet above, on which, about 100 feet back, the building is situated. The first terrace is designed in artistic flower beds and low shrubs, forming, together with the creamy-white balustrades rising from the water's edge, and also in front of the second terrace, a charming foreground for the fine edifice. The principal facade has an extreme length of 400 feet, the depth of the building being half this distance. Italian renaissance is the style selected.

The main grouping consists of a center pavilion flanked at each end with corner pavilions connected in the first story by open

arcades in the curtains, forming a shady promenade the whole length of the structure.

The first story is raised about ten feet from the ground line and a wide staircase leads to the center pavilion. This pavilion, forming the main triple-arched entrance with an open colonnade in the second story, is finished with a low and beautifully proportioned pediment enriched with a highly elaborate bas relief. The corner pavilions, being like the rest of the building, two stories high, with a total elevation of 60 feet, have each an open colonnade added above the main cornice. Here are located the hanging gardens and also the committee-rooms of the board of lady managers.

A lobby 40 feet wide leads into the open rotunda 70 by 65 feet, reaching through the height of the building and protected by a richly ornamented skylight. This rotunda is surrounded by a two-story open arcade as delicate and chaste in design as the exterior, the whole having a thoroughly Italian court-yard effect, admitting abundance of light to all rooms facing this interior space. On the first floor, on each side of the main entrance and occupying the entire space of curtains, are located on the left hand a model hospital; on the right a model kindergarten, each occupying 80 by 60 feet.

The whole floor of the south pavilion is devoted to the retrospective exhibit; the one on the north to reform work and charity organization. Each of these floors is 80 by 20 feet. The curtain opposite the main front contains the library, bureau of information, records, etc.

In the second story, above the main entrance and curtains, are located ladies' parlors, committee-rooms and dressing-rooms, all leading to the open balcony in front and commanding a splendid panorama of almost the entire ground. The whole second floor of the north pavilion incloses the great assembly-room and club-room. The first of these is provided with an elevated stage for the accommodation of speakers. The south pavilion contains the model kitchen, refreshment-rooms, etc.

MANUFACTURES AND LIBERAL ARTS BUILDING.

The building for manufactures and liberal arts is the largest exposition building ever erected or contemplated. It is 1,687 feet long by 787 feet wide, its greatest dimension being north and south. It covers an area of 30½ acres. It is rectangular in form, its central hall being surrounded by a nave and two galleries.

The feature of the building is the great central hall. It has a clear space of 1,280 feet by 330 feet. Its roof rises to a height of 245½ at the apex, and the 380 feet space is covered by a single-arched span, without a supporting column. The height from the floor to the center of the arch is 201 feet, clear, and the height of the lantern above the arch is 44½

THE MANUFACTURES AND LIBERAL ARTS BUILDING.

feet. Twenty-two steel arches support the center of the roof. Each arch weighs 125 tons, and more than 5,000 tons of steel enter into the construction of the hall. Extending around the hall is a gallery 20 feet from the floor. It is 67 feet wide, 21 feet of this space overhanging the floor of the hall. The total length of this gallery is 3,504 feet. Beyond the gallery and extending around the center hall is a nave, 108 feet wide and 114 feet to the apex of the roof. The east and west halls of this nave are 1,588 feet long, and the total length of the nave on a center line is 4,119 feet.

Extending entirely around the nave and to the outside line of the building is a gallery 20 feet from the floor and 49½ feet wide. The two galleries are connected by 28 bridges, 50 feet wide and 108 feet long. There is a fraction less than 11 acres of sky-light in the roof, requiring 41 carloads of glass. There is in the floor and two galleries a little more than 41 acres of space. There will enter into the construction of this building more than 1,600 carloads of material.

Only by comparison with existing structures can any adequate idea be formed of the size of this building. It is three times as large as St. Peter's cathedral in Rome, and the largest church in Chicago can be placed within the vestibule of St. Peter's. On the floor of the manufactures building could be placed twenty buildings like the big Auditorium. Its central hall, which occupies but one-third of its area, will comfortably seat 50,000 people.

The building is in the Corinthian style of architecture and is severely classic. The long array of columns and arches, which its facades present, is relieved from monotony by very elaborate ornamentation in "staff"—a fire-proof exterior covering having the appearance of marble. There are four great entrances to the building, one in the center of each facade. These are designed in the manner of triumphal arches, the central archway of each being 40 feet wide and 80 feet high. Surmounting these portals is the great attic story ornamented with sculptured eagles 18 feet high, and on each side above the side arches are great panels with inscriptions, and the spandrels are filled with sculptured figures in bas relief. At each corner of the main building are pavilions forming great arched entrances, which are designed in harmony with the great portals. The interiors of these pavilions are richly decorated with sculpture and mural paintings. The long facades of the great hall surrounding the building are composed of a series of arches filled with immense glass windows. The lower portion of these arches, up to the level of the gallery floor and 25 feet in depth, is open to the outside, thus forming a covered loggia, which forms an open promenade for the public, and will provide a very interesting feature, particularly on the east side, where it faces the lake. In these loggias and outer galleries will be 16 large cafes and 76 private dining-rooms.

The building occupies a most conspicuous

place in the grounds. It faces the lake with only lawns and promenades between. North of it is the United States government building, south the harbor and water basin and west the electrical building and the lagoon separating it from the wooded island. The building will cost \$1,500,000.

THE ART PALACE.

Grecian-Ionic in style, the fine arts building is a pure type of the most refined classic architecture. The building is oblong, and is 500 by 320 feet, intersected north, east, south and west by a great nave and transept 100 feet wide and 70 feet high, at the intersection of which is a great dome 60 feet in diameter. The building is 125 feet to the top of the dome, which is surmounted by a colossal statue of the type of famous figures of Winged Victory. The transept has a clear space through the center of 60 feet, being lighted entirely from above.

On either side are galleries 20 feet wide and 24 feet above the floor. The collections of the sculpture are displayed on the main floor of the nave and transept, and on the walls both of the ground floor and of the galleries are ample areas for displaying the paintings and sculptured panels in relief. The corners made by the crossing of the nave and transept are filled with small picture galleries.

Around the entire building are galleries 40 feet wide, forming a continuous promenade around the classic structure. Between the promenade and the naves are the smaller rooms devoted to private collections and paintings and the collections of the various art schools. On either side of the main building and connected with it by handsome corridors are very large annexes, which are also utilized by various art exhibits.

The main building is entered by four great portals, richly ornamented with architectural sculpture and approached by broad flights of steps. The walls of the loggia of the colonnades are highly decorated with mural paintings, illustrating the history and progress of the arts. The frieze of the exterior walls and the pediments of the principal entrances are ornamented with sculptures and portraits in bas relief of the masters of ancient art. The general tone of color is light gray stone.

The construction, although of a temporary character, is necessarily fire-proof. The main walls are of solid brick, covered with "staff," architecturally ornamented, while the roof, floors and galleries are of iron. All light is supplied through glass sky-lights in iron frames.

The building is located beautifully in the northern portion of the park, with the south front facing the lagoon. It is separated from the lagoon by beautiful terraces, ornamented with balustrades, with an immense flight of steps leading down from the main portal to the lagoon, where there is a landing for boats. The north front faces the wide lawn and the group of state buildings. The immediate

THE ART PALACE.

THE HORTICULTURAL BUILDING.

neighborhood of the building is ornamented with groups of statues, replica ornaments of classic art, such as the Choriadic monument, the "Cave of the Winds," and other beautiful examples of Grecian art. The ornamentation also includes statues of heroic and life-size proportions. The building cost between \$500,000 and \$600,000.

THE HORTICULTURAL BUILDING.

Immediately south of the entrance to Jackson park from the Midway plaisance and facing east on the lagoon is the horticultural building. In front is a flower terrace for outside exhibits, including tanks for Nymphaea and the Victoria Regia. The front of the terrace, with its low parapet between large vases, borders the water and at its center forms a boat landing.

The building is 1,000 feet long, with an extreme width of 250 feet. The plan is a central pavilion with two end pavilions, each connected with the central one by front and rear curtains, forming two interior courts, each 88 by 270 feet. These courts are beautifully decorated in color and planted with ornamental shrubs and flowers. The center pavilion is roofed by a crystal dome 157 feet in diameter and 113 feet high, under which are exhibited the tallest palms, bamboos and tree ferns

that can be procured. There are galleries in each of the pavilions. The galleries of the end pavilions are designed for cafes, the situation and the surroundings being particularly adapted to recreation and refreshment. These cafes are surrounded by an arcade on three sides, from which charming views of the grounds can be obtained.

In this building are exhibited all the varieties of flowers, plants, vines, seeds, horticultural implements, etc. Those exhibits requiring sunshine and light are shown in the rear curtains, where the roof is entirely of glass and not too far removed from the plants. The front curtains and space under the galleries are designed for exhibits that require only the ordinary amount of light. Provision is made to heat such parts as require it. The exterior of the building is in "staff," tinted in a soft warm buff, color being reserved for the interior and the courts. The cost of this building was about \$300,000.

THE DAIRY BUILDING.

The dairy building, by reason of the exceptionally novel and interesting exhibits it will contain, is quite sure to be regarded with great favor by world's-fair visitors in general, while by agriculturists it will be considered one of the most useful and attractive features

THE DAIRY BUILDING.

of the whole exposition. It was designed to contain not only a complete exhibit of dairy products, but also a dairy school, in connection with which will be conducted a series of tests for determining the relative merits of different breeds of dairy cattle as milk and butter producers.

The building stands near the lake shore in the southeastern part of the park and close by the general live-stock exhibit. It covers approximately half an acre, measuring 95 by 200 feet, is two stories high and cost \$30,000. In design it is of quiet exterior. On the first floor, besides office headquarters, there is in front a large open space devoted to exhibits of butter, and farther back an operating-room, 25 by 100 feet, in which the model dairy will be conducted. On two sides of this room are amphitheater seats capable of accommodating 400 spectators. Under these seats are refrigerators and cold storage rooms for the care of the dairy products. The operating-room, which extends to the roof, has on three sides a gallery where the cheese exhibits will be placed. The rest of the second story is devoted to a cafe, which opens on a balcony overlooking the lake.

The dairy school, it is believed, will be most instructive and valuable to agriculturists. Its plan was first proposed by the Columbian Dairy association, an organization formed with the express purpose of insuring the success of the dairy exhibit at the fair, and has

been widely approved by dairy associations throughout the country. The school will include a contest between both herds and individuals of the chief breeds of dairy cattle, with a view of ascertaining the respective merits of each in milk-giving and butter-producing. Each herd will be charged each day with the food consumed, accurately weighed, and will be credited with the milk and butter produced. Manufacturers of dairy utensils and appliances gladly offer to furnish all that will be required in their line. Spectators will be able to obtain an excellent view of the processes in all their stages. The tests and all details of management will be under rules prepared by a committee composed of one member from each of the dairy cattle associations in the United States, three from the Columbian Dairy association, three from the agricultural colleges and United States experimental stations and one from the manufacturers of dairy utensils. The school will continue through a definite period, probably three or four months, and each participating herd will be represented by the same number of cows. The results of this test and of the exhibition which will be made of the latest and most advanced scientific methods known in connection with the feeding and care of cattle, the treatment of milk and the production of butter and cheese cannot fail to be of great and lasting benefit to the dairy interests of this country. These interests, it is scarcely

necessary to state, are of enormous importance and extent, and, indeed, are scarcely surpassed by any other branch of industry in respect of the amount of money invested. It cannot be doubted that the exposition dairy school will cause a more economic and scientific management of the dairy interests of the entire country and consequently a greater return from the capital and labor invested.

THE FISHERIES BUILDING.

One of the most artistic of the exposition palaces is the fisheries building, which embraces a large central structure with two smaller polygonal buildings connected with it on either end by arcades. The extreme length of the building is 1,100 feet and the width 200 feet. It is beautifully located to the northward of the United States government building.

In the central portion is the general fisheries exhibit. In one of the polygonal buildings is the angling exhibit and in the other the aquaria. The exterior of the building is Spanish-Romanesque, which contrasts agreeably in appearance with that of the other buildings.

To the close observer the exterior of the building cannot fail to be exceedingly interesting, for the architect exerted all his ingenuity in arranging innumerable forms of

capitals, modillions, brackets, cornices and other ornamental details, using only fish and other sea forms for his motif of design. The roof of the building is of old Spanish tile and the side walls of pleasing color. The cost was about \$200,000.

The fish exhibit is a wonderful one, and not the least interesting portion of it is the aquarial or live fish display. This is approached through one of the arcades from the main building.

In the center of the polygonal building is a rotunda 60 feet in diameter, in the middle of which is a basin or pool 26 feet wide, from which rises a towering mass of rocks covered with moss and lichens. From clefts and crevices in the rocks crystal streams of water gush and drop to the masses of reeds, rushes, and ornamental semi-aquatic plants in the basin below. In this pool gorgeous gold fishes, golden d'ees, golden tench, and other fishes disport. From the rotunda one side of the larger series of aquaria may be viewed. These are ten in number and have a capacity of 7,000 to 27,000 gallons of water each.

Passing out of the rotunda a great corridor or arcade is reached, where on one hand can be viewed the opposite side of the series of great tanks and on the other a line of tanks somewhat smaller, ranging from 750 to 1,500 gallons each in capacity. The corridor or

THE FISHERIES BUILDING.

arcade is about 15 feet wide. The glass fronts of the aquaria are in length about 575 feet and have 3,000 square feet of surface. They make a panorama never before seen in any exhibition and rival the great permanent aquariums of the world not only in size but in all other respects.

The total water capacity of the aquaria, exclusive of reservoirs, is 18,725 cubic feet, or 140,000 gallons. This weighs 1,192,425 pounds, or almost 600 tons. Of this amount about 40,000 gallons is devoted to the marine exhibit. In the entire salt-water circulation, including reservoirs, there are about 80,000 gallons. The pumping and distributing plant for the marine aquaria is constructed of vulcanite. The pumps are in duplicate and each has a capacity of 3,000 gallons per hour. The supply of sea water was secured by evaporating the necessary quantity at the Woods Holl station of the United States fish commission to about one-fifth its bulk, thus reducing both quantity and weight for transportation about 80 per cent. The fresh water required to restore it to its proper density was supplied from Lake Michigan.

In transporting the marine fishes to Chicago from the coast there was an addition of probably 3,000 gallons of pure sea water to the supply on each trip.

THE FORESTRY BUILDING.

The forestry building is, in appearance, perhaps, the most unique of all the exposition structures. Its dimensions are 200 by 500 feet. To a remarkable degree its architecture is of

the rustic order. On all four sides of the building is a veranda, supporting the roof of which is a colonnade consisting of a series of columns composed of three tree trunks each 25 feet in length, one of them from 16 to 20 inches in diameter and the others smaller. All of these trunks are left in their natural state with bark undisturbed. They are contributed by the different states and territories of the union and by foreign countries, each furnishing specimens of its most characteristic trees. The sides of the building are constructed of slabs with the bark removed. The window frames are treated in the same rustic manner as is the rest of the building. The main entrance is elaborately finished in different kinds of wood, the material and workmanship being contributed by the wood-workers of the world. The other entrances are finished artistically to represent the woods of different countries and regions. The roof is thatched, not with straw, as was erroneously stated some time ago, but with tanbark and other barks. The interior of the building is finished in various woods in a way to show their beautiful graining, susceptibility to polish, etc. The visitor can make no mistake as to the kinds of tree trunks which form the colonnade, for he will see upon each one a tablet upon which are inscribed the common and scientific name, the state or country from which the trunk was contributed and other pertinent information, such as the approximate quantity of such timber in the region whence it came. Surmounting the cornice of the veranda and extending all around the building are numerous

flagstaffs bearing the colors, coats-of-arms, etc., of the nations and states represented in the exhibits inside.

The forestry building contains a most varied exhibition of forest products in general—the most complete which could be gathered together. It contains logs and sections of trees, worked lumber in the form of shingles, flooring, casing, etc. There are shown here dye woods and barks, mosses, galls, abnormal woody products, lichens, vegetable substances used for bedding and upholstery, gums, resins, vegetable ivory, cocoanut shells, gourds, wood pulp, rattan, willowware and woodenware generally, such as pails, tubs, brooms, etc. There is also an exceedingly interesting monographic display by the different states, in which their characteristic woods are most effectively and beautifully shown.

The forestry building cost about \$100,000.

In response to a very general desire on the part of the manufacturers of lumber and saw mill plants, arrangements were made to show several complete saw mills in operation. This exhibit is in connection with that of forestry, and it is entirely distinct from the displays of saw-mill and wood-working machinery which are installed in the machinery building. Four saw-mill plants are installed, occupying altogether a building measuring 125 by 300 feet.

The building is plainly constructed, costing only about \$85,000, but affords ample facilities for a competitive display of saw-mill plants and the latest improvements in connection with the same. Exhibitors of saw-mill plants in this building bear the expense of installing and operating them. One-half of the building is two stories high, to accommodate bands and gangs and to provide also a gallery from which visitors may view the working of the machinery to good advantage and without danger.

THE ELECTRICAL BUILDING.

The electrical building, the seat of perhaps the most novel and brilliant exhibit in the whole exposition, is 345 feet wide and 700 feet long, the major axis running north and south. The south front is on the great quadrangle or court; the north front faces the lagoon, the east front is opposite the manufactures building and the west faces the mines building. Its cost is \$375,000.

The general scheme of the plan is based upon a longitudinal nave 115 feet wide and 114 feet high, crossed in the middle by a transept of the same width and height. The nave and the transept have a pitched roof, with a range of skylights at the bottom of the pitch and clearstory windows. The rest of the building is covered with a flat roof, averaging 62 feet in height and provided with skylights.

The second story is composed of a series of galleries connected across the nave by two bridges, with access by four grand staircases. The area of the galleries in the second story is 118,546 square feet, or 2.7 acres.

The exterior walls of this building are composed of a continuous Corinthian order of pilasters, 3 feet 6 inches wide and 42 feet high, supporting a full entablature and resting upon a stylobate 8 feet 6 inches. The total height of the walls from the grade outside is 68 feet 6 inches.

The north pavilion is placed between the two great apsidal or semi-circular projections of the building; it is flanked by two towers 135 feet high. The central feature is a great semi-circular window, above which, 102 feet from the ground, is a colonnade forming an open loggia or gallery, commanding a view over the lagoon and all the north portion of the grounds.

The east and west central pavilions are composed of two towers 168 feet high. In front of these two pavilions there is a great portico composed of the Corinthian order, with full columns.

The south pavilion is a hemicycle or niche 78 feet in diameter and 103 feet high. The opening of the niche is framed by a semi-circular arch, which is crowned by a gable or pediment, with smaller gables on the returns, and surmounted by an attic, the whole reaching the height of 142 feet. In the center of this niche, upon a lofty pedestal, is a colossal statue of Franklin, whose illustrious name intimately connects the early history of the republic with one of the most important discoveries in the phenomena of electricity.

At each of the four corners of the building there is a pavilion, above which rises a light open spire or tower 169 feet high. Intermediate between these corner pavilions and the central pavilions on the east and west sides there is a subordinate pavilion bearing a low, square dome upon an open lantern. There are thus ten spires and four domes. The entablature of the great Corinthian order breaks around each of the pilasters of the four fronts and above each pilaster in the attic order is a pedestal bearing a lofty mast for the display of banners by day and electric lights by night. Of these masts there are in all

THE ELECTRICAL BUILDING.

THE AGRICULTURAL BUILDING.

fifty-four. The first story of the building is indicated in these facades between the great pilasters of the Corinthian order, by a subordinate Ionic order, with full columns and pilasters, forming an open screen in front of the windows.

The electricity building has an open portico extending along the whole of the south facade, the lower or Ionic order forming an open screen in front of it. The various subordinate pavilions are treated with windows and balconies. The details of the exterior orders are richly decorated, and the pediments, friezes, panels and spandrels have received a decoration of figures in relief, with architectural motifs, the general tendency of which is to illustrate the purposes of the building.

The appearance of the exterior is that of marble, but the walls of the hemicycle and of the various porticos and loggia are highly enriched with color, the pilasters in these places being decorated with scafolia and the capitals with metallic effects in bronze.

THE AGRICULTURAL BUILDING.

One of the most magnificent structures raised for the exposition is the agricultural building. The style of architecture is classic renaissance. This building is put up very near the shore of Lake Michigan and is almost surrounded by the lagoons that lead into the park from the lake. The building is 500 by 800 feet, its longest dimensions being east and west. The north line of the building is almost on a line with the pier extending into the lake, on which heroic columns, emblematic of the thirteen original states, are raised. A lagoon stretches out along this entire front of the building. The east front looks out into a harbor which affords refuge for numerous pleasure craft. The entire west exposure of the building faces a branch of the lagoon that extends along the north side. With these picturesque surroundings as an inspiration, the architects have brought out designs that have been pronounced all but faultless. For a single story building the design is bold and heroic. The general cornice line is 65 feet above grade. On either side of the main entrance are mammoth Corinthian pillars, 50 feet high and 5 feet in diameter. On each corner and from the center of the building pavilions are reared, the center one being 144 feet square. The corner pavilions are connected by curtains, forming a continuous arcade around the top of the building. The main entrance leads through an opening 64 feet wide into a vestibule, from which entrance is had to the rotunda, 100 feet in diameter. This is surmounted by a mammoth glass dome, 130 feet high. All through the main vestibule statuary has been designed. Illustrative of the agricultural industry. Similar designs are grouped about all of the grand entrances in the most elaborate manner. The corner pavilions are surmounted by domes 96 feet high and above these tower groups of statuary. The design for these domes is that of three women, of herculean proportions, supporting a mammoth globe.

To the southward of the agricultural building is a spacious structure devoted chiefly to a live stock and agricultural assembly hall. This building is conveniently near one of the stations of the elevated railway. It is a very handsome building and was designed to be the common meeting point for all persons interested in live stock and agricultural pursuits. On the first floor, near the main entrance of the building, is located a bureau of information in charge of attendants, who furnish visitors with all necessary information in regard to the assembly hall and the main agricultural building, as well as other features of the exposition. This floor also contains suitable committee and other rooms for the different live stock associations of every character, where such associations can meet and have their secretaries in constant attendance, thus affording this important industry ample headquarters near the live-stock exhibit and the agricultural building. On this floor there are also large and handsomely equipped waiting-rooms for ladies, lounging-rooms for gentlemen and ample toilet facilities. Broad stairways lead from the first floor into the assembly-room, which has a seating capacity of about 1,500. This assembly-room furnishes facilities for lectures, delivered by gentlemen em-

nent in their special fields of work, embracing every interest connected with live stock, agriculture and allied industries.

Such a building was never erected at any exposition, and its construction here shows that the board of directors purposed affording every desirable facility that they could furnish to aid the great live stock and agricultural interests.

Close by the agricultural building and its annex are buildings for the forestry and dairy exhibits. These measure respectively 200 by 500 and 95 by 200 feet. In the forestry building the visitor may see a very extensive exhibit illustrating forestry resources and products. In the dairy building he may be a pupil of a dairy school scientifically conducted, and may watch the tests which will determine the respective merits of different breeds of cattle as milk producers.

The agricultural building covers more than nine acres and its annex about 3.5 acres. The forestry and dairy buildings together cover about three acres. The live-stock buildings, which will of course be of inexpensive construction, cover about thirty acres. All of these structures together cost nearly \$1,000,000 and afford most extensive and gratifying provision for showing and subserving the agricultural and allied interests.

THE HALL OF MINES AND MINING.

Located at the southern extremity of the western lagoon or lake, and between the electricity and transportation buildings, is the mines and mining building. The building is 700 feet long by 350 wide. Its architecture has its inspiration in early Italian renaissance, with which sufficient liberty is taken to invest the building with the animation that should characterize a great general exposition. There is a decided French spirit pervading the exterior design, but it is kept well subordinated. In plan it is simple and straightforward, embracing on the ground floor spacious vestibules, restaurants, toilet rooms, etc. On each of the four sides of the building are placed the entrances, those of the north and south fronts being the most spacious and prominent. To the right and left of each entrance, inside, start broad flights of easy stairs leading to the galleries. The galleries are 60 feet wide and 25 feet high from the ground floor and are lighted on the sides by large windows and from above by a high clearstory extending around the building.

The main fronts look southward on the great central court and northward on the western and middle lakes and an island gorgeous with flowers. These principal fronts display enor-

THE MINES AND MINING BUILDING.

mous arched entrances, richly embellished with sculptural decorations emblematic of mining and its allied industries. At each end of these fronts are large square pavilions, surmounted by low domes, which mark the four corners of the building and are lighted by large arched windows extending through the galleries.

Between the main entrance and the pavilions are richly decorated arcades, forming an open loggia on the ground floor and a deeply recessed promenade on the gallery floor level, which commands a fine view of the lakes and islands to the northward and the great central court on the south. These covered promenades are each 25 feet wide and 230 feet long, and from them is had access to the building at numerous points. These loggias on the first floor are faced with marbles of different kinds and hues, which will be considered part of the mining exhibit and so utilized as to have marketable value at the close of the exposition. The loggia ceilings will be heavily coffered and richly-decorated in plaster and color. The ornamentation is massed at the

prominent points of the facade. The exterior presents a massive though graceful appearance.

The main fronts are 65 feet high from ground to top of cornice, and the main central entrances are 90 feet to apex of pediment. The long sides of the building are treated in a simpler manner than the main fronts; large segmental windows extend through the galleries and are placed between the broad piers, affording an abundance of light to the space beneath the galleries.

The two-storied portion of the building, of which the gallery forms the upper part, extends entirely around the structure and is 60 feet wide.

The great interior space thus inclosed is one-story high, 630 feet long and 230 feet wide, with an extreme height of 100 feet at center and 47 feet at sides, and is spanned by steel cantilever roof trusses supported on steel columns placed 65 feet apart longitudinally and 115 feet and 57 feet 6 inches transversely, thus leaving clear space in center of building 630 feet long and 115 feet wide, with two side

THE UNITED STATES NAVAL EXHIBIT.

divisions, each 57 feet 6 inches wide and 630 feet long, leaving the central space incumbered with only 16 supporting steel posts. The cantilevers are of pin connection, to facilitate erection. The inner and higher ends of the cantilevers are 46 feet apart and the space between them is spanned by riveted steel trusses with an elliptical chord.

These trusses are designed so as to form a clearstory 12 feet high, with vertical sash extending the entire length of central space—630 feet; this space terminating at each end with a great glass gable setting back 60 feet from front ends of building. The wide spacings of the cantilever necessitated an extensive system of longitudinal perlines of the riveted lattice type. A great portion of the roof is covered with glass. It may be of interest to state that the cantilever system as applied to roofs has not been used heretofore on so large a scale.

The exterior of this building, like that of all the others, will be made of "staff," similar to that used in facing the recent Paris exposition buildings. The cost of the mines building is \$250,000.

THE NAVAL EXHIBIT.

Unique among the other exhibits is that made by the United States navy department. It is in a structure which, to all outward appearance, is a faithful, full-sized model of one of the new coast-line battleships designed by the bureau of construction and repairs of the navy department, and now being built at a cost of about \$3,000,000 each. This imitation battleship of 1893 is erected on piling on the lake front in the northeast portion of Jackson park. It is surrounded by water and has the appearance of being moored to a wharf.

The structure has all the fittings that belong to the actual ship, such as guns, turrets, torpedo tubes, torpedo nets and booms, with boats, anchors, chain cables, davits, awnings, deck fittings, etc., etc., together with all appliances for working the same. Officers, seamen, mechanics, and marines are detailed by the navy department during the exposition, and the discipline and mode of life on our naval vessels are completely shown. The detail of men is not, however, as great as the complement of the actual ship. The crew gives certain drills, especially boat, torpedo, and gun drills, as in a vessel of war.

The dimensions of the structure are those of the actual battleship—to wit: Length, 348 feet; width, amidships, 69 feet 3 inches; and from the water line to the top of the main deck, 12 feet. Centrally placed on this deck is a superstructure 8 feet high with a hammock berthing on the same 7 feet high, and above these are the bridge, chart-house and the boats.

At the forward end of the superstructure there is a cone-shaped tower called the "military mast," near the top of which are placed two circular "tops" as receptacles for sharpshooters. Rapid firing guns are mounted in each of these tops. The height from the water line to the summit of this military mast is 76 feet, and above is placed a flagstaff for signaling.

The battery mounted comprises four 13-inch breech-loading rifle cannon, eight 8-inch breech-loading rifle cannon, four 6-inch breech-loading rifle cannon, twenty 6-pounder rapid firing guns, six 1-pound rapid firing guns, two galling guns and six torpedo tubes or torpedo guns. All of these are placed and mounted respectively as in the genuine battleship.

The superstructure shows the cabins, state-rooms, lavatories, lactrines, mess-rooms, galley and fittings, mess-table for crew, lockers, berthings, etc.; also the manner in which officers and enlisted men live, according to the rules of the navy. On the superstructure deck and bridge is shown the manner in which the rapid firing guns, search lights, boats, etc., are handled. The entrance to the conning tower is from the deck, in which are all appurtenances that the captain has at his disposal when taking the ship into battle and during the progress of a fight at sea.

An electric-light plant is installed and provision made for heating with steam. On the berth deck are shown the various fittings pertaining to the hull, machinery and ordnance; ordnance implements, including electrical devices, gun-carriage motors and range finders; models showing typical ships of the past and present; samples of the provisions, clothing, stores and supplies, bunting, flags, etc.; in short, the thousand and one things that go to make up the outfit of a man-of-war.

The traditional costumes of the sailors of the navy from 1775 to 1848 are shown by men dressed in those costumes.

On the starboard side of the ship is shown the torpedo protection net stretching the entire length of the vessel. Steam launches and cutters ride at the booms and all the outward appearance of a real ship of war is imitated.

Nothing of the kind has ever before been attempted at a world's fair. The cost of this curious and original structure is about \$100,000.

THE GOVERNMENT BUILDING.

Delightfully located near the lake shore, south of the main lagoon and of the area reserved for the foreign nations and the several states, and east of the woman's building and of Midway plaisance, is the government exhibit building. The buildings of England, Germany and Mexico are near by to the northward. It is classic in style and bears a strong resemblance to the national museum and other government buildings at Washington. It covers an area of 350 by 420 feet, is constructed of iron, brick and glass and cost \$400,000. Its leading architectural feature is a central octagonal dome 120 feet in diameter and 150 feet high, the floor of which will be kept free from exhibits. The building fronts to the west and connects on the north by a bridge over the lagoon with the building of the fisheries exhibit.

The south half of the government building is devoted to the exhibits of the postoffice department, treasury department, war department and department of agriculture. The north half is devoted to the exhibits of the fisheries commission, Smithsonian institute and interior department. The state department exhibit extends from the rotunda to the east end and that of the department of justice from the rotunda to the west end of the building. The allotment of space for the several department exhibits is: War department, 23,000 square feet; treasury, 10,500 square feet; agriculture, 23,250 square feet; interior, 24,000 square feet; postoffice, 9,000 square feet; fishery, 21,000 square feet, and Smithsonian institute balance of space.

The treasury department exhibit is in charge of Assistant Secretary Nettleton. He matured the plans whereby the mint, the coast, and the geodetic survey, the supervising architect of the treasury, the bureau of engraving and printing, the bureau of statistics, the life-saving board, the lighthouse board, and the marine hospital all have made exhibits.

The authorities of the mint show not only a complete group of the coins made by the

United States, but a large number of the coins of foreign countries.

The supervising architect of the treasury shows a number of photographs of all the public buildings of the capital. These include not only the buildings but also the parks and reservations.

The bureau of engraving and printing shows many new bills under framing. These include a sample of every bill of every denomination that the United States government now authorizes as money.

A life-saving station is built and equipped with every appliance and a regular crew goes through all life-saving maneuvers.

Perhaps the most interesting exhibit of the whole treasury department is that by the coast survey. It includes a huge map of the United States, about 400 feet square, or about the size of a block of city property. This is accurately constructed of plaster of paris and is placed horizontally on the exposition grounds with a huge covering erected over it, with galleries and pathways on the inside to allow the visitors to "walk over the whole United States" without touching it. This model is built on a scale showing the exact height of mountains, the depth of the rivers and the curvature of the earth.

The quartermaster's department shows lay-figure officers and men of all grades in the army, mounted and on foot, fully equipped in the uniform of their rank and service.

Aside from these there are nineteen figures, showing the uniforms worn during the revolutionary war and the war of 1812 and thirty-one figures showing the uniforms in the Mexican war. A novel exhibit is that of a telephone as used on the battle-field. The heliograph, which practically annihilates distance in the matter of talking, is shown in full operation. All means of army telegraphing and signaling with the batteries, lines, cables, bombs, torches, and so forth are shown with great elaborateness.

Capt. Whipple of the ordnance department developed the plan for an exhibit of huge guns and explosives. At certain hours of the day there are regular battery drills and loading and firing of pieces. Many of the guns used are the finest of their kind in the world.

The exhibit of the medical bureau occupies a hospital built especially for its use, operated by a corps of hospital nurses and doctors.

THE CASINO AND PIER.

All visitors to the exposition will inspect the casino and pier and enjoy thoroughly the delights which they, together with their surroundings, afford. The pier is 80 feet wide and extends 1,000 feet out into Lake Michigan from the eastern extremity of the grand court or avenue, running from the administration building to the lake. Along the shore, on either side of the pier, are broad, beautiful promenades, where thousands of visitors may stroll in the intervals of sight-seeing in the exposition buildings.

From the shore promenade they may walk out on the pier to the beautiful casino at the extremity.

The casino is a composite structure, embracing nine pavilions, and was planned to be a representation of Venice on a small scale in the waters of Lake Michigan. Accordingly its architecture is of the Venetian order. The casino is built on piles and measures 175 by 300 feet. With the exception of the central pavilion, which rises to the height of 180 feet, the pavilions are two stories high, rising 80 feet from the water. There is communication between the nine pavilions, both by gondolas and bridges. Completely surrounded by water, this structure, with its fleet of boats and numerous waterways, presents a de-

clingly Venetian aspect. Surrounding the central pavilion runs a gallery 56 feet wide. At the west end of the pier stand the thirteen columns designed by Sculptor St. Gaudens to represent the thirteen original states. In front of the casino is the harbor for small pleasure craft.

At night this harbor is lighted by incandescent lamps sunk beneath the surface of the water on floats. The material of the casino is of wood and the walls are covered with "staff." A striking combination of high colorings is effected. Within the pavilions of the casino are various conveniences that contribute to the comfort and enjoyment of visitors. The casino and pier cost \$150,000.

THE ILLINOIS STATE BUILDING.

The Illinois building at the World's Columbian exposition is by far the most pretentious of those erected by the several states of the union. Being in a sense the host at the exposition, it was deemed not only proper but requisite that Illinois should make such appropriation and provide such a building as would enable her to perform creditably the duties of that office. The state appropriated \$800,000.

Situated on a high terrace, in one of the most favored spots in Jackson park, the Illinois building commands for nearly a mile to the southward a view of the beautiful waterway which encircles the great island and extends to the buildings for electricity and mines, while to the northward across a branch of the lagoon is presented the imposing facade of the palace of fine arts. To the westward are the California building and those of several other states and to the eastward the buildings of a number of the foreign nations. The building in the main is 160 feet wide by 450 feet long. On the north memorial hall forms a wing 50 by 75 feet and on the south another wing 75 by 123 feet and three stories high accommodates the executive officers and in the third story two public halls. The side walls are 47 feet high, while the south wing is 72 feet and the ends 54 feet. Surmounting the building at the center a fine dome 72 feet in diameter rises to a height of 235 feet. The building is constructed almost wholly of Illinois material—wood, stone, brick and steel—and is covered with "staff" artistically treated. The grand entrance faces the waterway to the south, while at the west and north ends are others scarcely less imposing. In front of the entrances are beautiful terraces with balustrades, statues, fountains, flowers and stone steps leading down to the roadways and lagoon landings.

The building is embellished with fine carving and statuary. It is thoroughly lighted first from the side windows, which are placed about fourteen feet above the floor to permit cases to be placed against the walls; second, with sky-lights placed in the flat roof of the side aisles; and, third, with continuous sky-lights on the ridge of a pitched roof or nave. Ventilation is provided for through windows placed a story above the flat aisle roof and the foot of the sloping roof over the nave. The interior of the structure is appropriately and beautifully ornamented.

Memorial hall, which is fire-proof, has a gallery encircling it and contains a large and interesting collection of relics and trophies of the war and other periods, all owned by the state. There are also spacious galleries from which an excellent survey of the main exhibit hall may be taken. One feature of the Illinois building which is sure to attract much attention consists of five model common school-rooms of high grade, fully equipped and furnished under the direction of the state superintendent of public instruction. Here

may be seen an illustration of the methods and results of educational work as pursued in the normal universities, the public, technical and art schools and the high schools of the state; an exhibit by the university of Illinois of the equipment, methods of instruction and achievements of that institution in its several departments, and an exhibit of the educational and industrial work as conducted in the state charitable institutions.

There are no competitive exhibits in the Illinois building. These are distributed in their proper places in the several exposition structures. The Illinois building contains a "collective departmental exhibit for the state which shall illustrate its natural resources, together with the methods employed and results accomplished by the state in its municipal capacity through its several departments, boards, commissions, bureaus and other agencies in the work of promoting the moral, educational and material welfare of its inhabitants so far as such methods and results are susceptible of exhibition." There are also collections, correctly classified and labeled, illustrating the natural history and archaeology of the state; an exhibition by the state fish commission of native and cultivated live fish, with hatchery and appliances and equipments for transportation, models of fishways in use; a special collection of the cultivated products in the several branches of agriculture; architectural drawings (with elevations) of every public building erected and now used or maintained in whole or in part by the state; also maps, charts, diagrams and tables conveying full and accurate information relative to Illinois and its resources. The topographical maps of the state are sure to claim much attention. To the women of Illinois was granted \$50,000, or one-tenth of the entire appropriation, and also one-tenth of the space in the building. The visitor will doubtless be intensely interested in observing how creditably the women of the state have improved the exceptional opportunity thus afforded them. The Illinois building will cost \$250,000.

INTERNATIONAL PARTICIPATION.

The foreign nations and colonies which have formerly announced their determination to take part in the exposition and the amounts named as the cost of their exhibits are as follows:

Argentina Republic.....	\$100,000
Austria-Hungary.....	147,000
Belgium.....	150,000
Bolivia.....	550,000
Brazil.....	100,000
China.....	100,000
Colombia.....	100,000
Costa Rica.....	100,000
Denmark.....	10,000
Danish West Indies.....	125,000
Ecuador.....	400,000
Egypt (informal).....	
France.....	
Germany.....	
French Guiana.....	215,000
Great Britain.....	125,000
Barbadoes.....	
British Columbia.....	
British Guiana.....	20,000
British Honduras.....	7,000
Cape Colony.....	25,000
Ceylon.....	40,000
India.....	
Jamaica.....	10,000
Mashonaland.....	
Malta.....	
New South Wales.....	
New Zealand.....	27,500

Queensland.....	
Tasmania.....	
Trinidad.....	\$15,000
Victoria.....	
Guatemala.....	120,000
Haiti.....	
Hawaii.....	
Honduras.....	20,000
Italy (Informal).....	
Italy Erythra.....	
Japan.....	700,000
Madagascar.....	
Mexico.....	750,000
Netherlands (Informal).....	
Dutch Guiana.....	6,000
Dutch West Indies.....	10,000
Nicaragua.....	30,000

Paraguay.....	
Persia.....	
Peru.....	140,000
Russia.....	
Salvador.....	30,000
San Domingo.....	
Siam.....	
Spain.....	
Cuba.....	25,000
Porto Rico.....	
Transvaal.....	
Turkey.....	
Uruguay.....	
Venezuela.....	
Zanzibar.....	

All the governments named above have accepted the invitation, those marked "informal" having declared an intention to assist exhibitors in an unofficial manner.

GOVERNMENT REGULATIONS.

The following regulations are issued by the treasury department governing the importation of articles intended for exhibition:

Under the authority conferred upon him by the statutes of the United States the secretary of the treasury prescribes the following regulations—viz:

1. It is the purpose of this department to secure expedition and security to all articles imported for exhibition at the Chicago exposition, without the exaction of customs duties, fees or charges, and to arrange the proceedings on entry so as to afford the utmost convenience and dispatch.

2. In order to obtain the benefits of this arrangement every package destined for the exposition should have affixed to it by the foreign shipper one or more labels representing the flag of the country to which it belongs. This label should be about 8 by 12 inches in size and should bear across the face in plain black letters the inscription: "Exposition at Chicago."

All packages should be plainly marked, as follows:

(a) "Collector of customs, Chicago."
(b) "Exhibits for Columbian Exposition."
(c) Name of consignee or agent at the port of first arrival in the United States.
(d) The shipping marks and numbers of the exhibitor.

(e) Name and address of the exhibitor.
3. Every foreign exhibitor will prepare in duplicate a statement in the form of an invoice, which shall show the name of the exhibitor, the marks and numbers of the packages, with a description of their contents and a declaration of the quantity and the market value of each separate kind thereof in the country of production. This statement must be signed by the exhibitor but will require no further verification. One of the invoices will be transmitted by mail to the collector of customs at Chicago and the other to the consignee of the goods at the port of first arrival.
4. As a matter of convenience it is recom-

mented that all packages intended for the exposition shall be consigned to an agent or forwarder or commissioner at the port of first arrival, who will attend to customs business incident to the transfer of packages from the importing vessel to a bonded route for transportation to Chicago.

All of the bonded transportation lines will discharge their freight at stations in Chicago to be arranged within the exposition grounds, and packages marked as suggested in article 2 may be taken to their respective divisions as soon as they have been identified by the customs officers.

5. The following list of companies, bonded for the transportation of merchandise to Chicago, without appraisement, is furnished for the information of parties whom it may concern:

From Portland, Me.—Grand Trunk railway company of Canada; American express company.

From Boston, Mass.—Central Vermont railroad company; American express company; New York & New England railroad company; the Fitchburg railroad company; Merchants' Despatch transportation company; Boston & Maine railroad company.

From New York, N. Y.—Pennsylvania company; American express company; Pennsylvania railroad company; New York, West Shore & Buffalo railway company; Michigan Central railroad company; Merchants' Despatch transportation company; New York, Lake Erie & Western railroad company; Central Vermont railroad company; Chesapeake & Ohio railway company; Baltimore & Ohio railroad company; Wells, Fargo & Co.; Lehigh Valley railroad company; West Shore railroad company; Delaware, Lackawanna & Western railroad company; United States express company.

From Philadelphia, Pa.—Pennsylvania company; Pennsylvania railroad company; Delaware, Lackawanna & Western railroad company; Merchants' Despatch transportation company; Baltimore & Ohio railroad company.

From Baltimore, Md.—Baltimore & Ohio railroad company; Northern Central railway company.

From Norfolk, Va.—Norfolk & Western railroad company.

From Newport News, Va.—Chesapeake & Ohio railway company.

From Key West, Fla.—Plant Investment company.

From Mobile, Ala.—Mobile & Ohio railroad company.

From New Orleans, La.—Morgan's Louisiana & Texas railroad and steamship company; St. Louis, Iron Mountain & Southern railway company; Illinois Central railroad company; Louisville, New Orleans & Texas railway company; Texas & Pacific railway company; Southern Pacific company; Mobile & Ohio railroad company.

From Galveston, Tex.—St. Louis, Iron Mountain & Southern railway company; Southern Pacific company.

From San Francisco, Cal.—The Central Pacific railroad company; Southern Pacific company; Wells, Fargo & Co.

From Port Townsend, Washington—Northern Pacific railroad company.

From Portland, Oregon—Northern Pacific railroad company; Oregon Short & Utah Northern railway company.

From Port Huron, Mich.—Chicago & Grand Trunk railway company.

From Detroit, Mich.—Michigan Central railroad company; Lake Shore & Michigan Southern railroad company; Wabash railroad company.

6. The consignee of the merchandise at the first port of arrival must present at the custom house the invoice above described, with a bill of lading and an entry in duplicate made out upon the special form to be provided for this purpose by the treasury department, which shall show the name of the foreign shipper or owner, the name of the importing vessel, the marks and numbers of the packages, with a statement of the nature of their contents and of their foreign value, as declared in the invoice. The entry must also indicate the bonded route by which the goods are to be transported to Chicago, and must be signed by the consignee. No other declaration will be required. The goods will be consigned, on the customs entry, to "Collector of Customs, Chicago," and there need be no computation of duties upon this entry, but the amount charged against the bond of the transportation company shall be double the invoice value.

7. The collector will thereupon issue a special permit bearing the words "Chicago Exposition," authorizing the transfer of the goods from the ship to the bonded railroad for transportation to Chicago, and will record and file one of the entries in his office and send the other by mail, with the invoice, to the collector at Chicago.

8. The permit will be taken by the agent or consignee to the inspector on board the importing vessel, who will thereupon send the goods, by a cartman duly licensed, to be delivered under the supervision of a customs officer to the transportation company.

9. The consignee will also prepare a manifest of the goods which, after being duly certified, will be handed to the conductor of the car carrying the same and a duplicate copy must be sent by mail to the collector of customs at Chicago. Upon arrival at Chicago of any car containing such articles, the conductor or agent of the railroad company will report such arrival by the presentation of the manifest to the customs officer designated to receive it, who shall compare the same with the copy received by mail and superintend the opening of the car, taking care to identify the packages by marks and numbers as described in the manifests. In case of the non-receipt of the manifests the unloading of cars need not for that reason be delayed, but the invoice may be used to identify the packages.

10. Articles sent by foreign governments to the exposition which are used solely for government purposes and are not intended for sale will be admitted to entry at the exterior port of arrival, on certificates of the proper foreign commissioner, without the production of invoice. But it is desired that the estimated value of each package shall be stated on the certificate or the bill of lading in order that the pecuniary responsibility of the transportation company may be fixed.

11. These regulations will also apply to goods sent to the exposition from foreign contiguous territory. All articles destined for the exposition arriving from Canada on through cars under consular seal and articles which are sent direct by vessel from any foreign port to Chicago must be consigned by the foreign shipper to the "collector of customs" at that port and on entry being made, as in the case of goods arriving at the seaboard, a permit will be issued for the transfer of the goods directly to the exposition grounds.

12. The buildings and spaces set apart for the purposes of the exposition are constituted "constructive bonded warehouses and yards" and all foreign articles placed therein under the supervision of the customs officers and which have been specially imported for exhibition therein will be treated the same as

merchandise in bond. No warehouse entry will be required at Chicago in order to obtain entrance for such goods, but the latter will be kept under customs supervision in accordance with the general regulations governing merchandise in bonded warehouses, except as herein otherwise provided for. The collector at Chicago will keep a special record in the form of a warehouse ledger of every invoice, assigning serial numbers to the same in order of their reception, and the transportation entry received from the collector at the port of arrival will be considered the warehouse entry.

13. After the packages have been placed in the respective positions assigned to them by the officers of the exposition they will be opened by an officer of the customs, who shall primarily identify the contents with the invoice only as to quantity and character. Due examination of the contents and appraisement of values will be subsequently made by the appraiser, who shall be furnished with the invoice of the articles to be appraised and shall indorse his report of appraisement upon such invoice in like manner as if such articles were regularly entered for consumption or warehouse. The entry will then be liquidated, the full amount of duties ascertained and the whole transaction entered upon the prescribed record. All the proceedings relating to the examination, appraisement and liquidation shall be the same as on ordinary importations.

14. As under the United States tariff the cost of packages is made a part of the dutiable value of imported goods, the empty boxes, barrels and casks from which imported articles have been taken in order to be displayed should be carefully preserved so as to be repacked for exportation at the close of the exposition. Dutiable packing cases not exported will be subject to the payment of duty. It is expected that a place will be provided for the storage of such empty packages and the latter should be recorded and numbered for identification.

15. Packages containing articles imported for gratuitous distribution or for actual use and consumption in restaurants, refreshment rooms, etc., must be regularly entered for consumption and duty paid thereon before being delivered by the customs officers.

16. The articles after having been received in the exposition will remain under the custody of the customs officers and must not be removed from the place assigned without a permit from the collector of customs or the officer who may be designated by him to grant such permit. In no case shall such articles be released from the custody of the customs officers unless the same shall have been regularly withdrawn for consumption, for warehouse or for export.

The requisite number of customs inspectors will be stationed at every place containing foreign exhibits, each of whom will be placed in charge of a section, which shall be numbered and designated as a customs division.

A list of the articles entered for exhibit in his section will be furnished to each of such inspectors, who shall retain a copy thereof, certify the original and transmit it to the collector.

17. Sales may be made during the exposition of articles imported for exhibition, but deliveries of the same will be allowed only at the close of the exposition. For this purpose a regular withdrawal as from bond will be required and duty must be paid according to law. In case the articles are sold for delivery at some port other than Chicago a withdrawal may be made for transportation and rewarehouse, duty to be paid at the place of

destination. Any exhibitor of articles which shall be sold may authorize withdrawal of the same by the purchaser, such authority to be contained in a written notice to the collector at Chicago. After the filing of such notice the person specified in the same shall be recognized as entitled to all the rights and subject to all the liabilities of the original importer.

18. Withdrawal from bond cannot be made for less than one entire package, but in case of accidental damage or destruction it is not intended to assess duties upon such articles as shall not have entered into actual consumption in this country. On articles which shall have suffered diminution or deterioration from incidental handling and necessary exposure the duty, if paid, will be assessed according to the appraised value at the time of withdrawal for consumption.

19. At the close of the exposition all goods intended for exportation will be transported in bond to the seaboard or exterior port and exported therefrom under the general regulations for immediate export in bond, as modified by special regulations to be in due time provided.

20. Any exhibitor who may import merchandise in excess of that which he desires to place on view in the exposition may make regular warehouse entry of the same on its arrival at Chicago, whereupon it shall be taken to a United States bonded warehouse and stored without payment of duty, subject to the regulations provided for bonded goods.

Withdrawals of merchandise stored under these conditions, if made for the purpose of placing the same within the exposition, will be treated under the provisions for entry on arrival at first port of entry and no duty will be required to be paid. Such merchandise must be delivered at the exposition in charge of a customs officer.

Should any merchandise be abandoned by the owner at the close of the exposition it will be placed in a general order warehouse for twelve months and, if then unclaimed, will be sold for account of the owner.

21. The privileges granted by virtue of these regulations are intended solely for the benefit of exhibitors at the World's Columbian exposition and with the view of relieving them, so far as practicable, of delays and vexations in connection with the customs business pertaining to their importations.

Any attempt to take advantage of these regulations in order to evade the tariff laws of the United States will subject the offender to all the penalties prescribed by those laws, including confiscation of goods and fine and imprisonment.

22. The regulations issued by this department on Jan. 7, 1891, are hereby revoked and the foregoing adopted in lieu thereof.

Charles Foster, Secretary.

RULES AND REGULATIONS.

The general rules and regulations for foreign and domestic exhibitors are as follows:

Rule 1. Exhibitors will not be charged for space. A limited amount of power will be supplied gratuitously. This amount will be settled definitely at the time space is allotted. Power in excess of that allowed will be furnished by the exposition at a fixed price. Demands for such excess must be made before the allotment of space.

Rule 2. Any single piece or section of any exhibit of greater weight than 30,000 pounds will not be accepted if machinery is required for its installation.

Rule 3. Exhibitors must provide, at their own expense, all show-cases, cabinets, shelving, counters, fittings, etc., which they may require, and all counter-shafts, pulleys, belt-

ing, etc., for the transmission of power from the main shafts.

Rule 4. Exhibitors will be confined to such exhibits as are specified in their application. When the allotment of space is definitely made exhibitors will be notified of their allotment of space and its location and will be furnished with a permit to occupy such space, subject to the general rules and regulations adopted for the government of the exposition and the special rules governing the department in which their exhibit will be made.

Rule 5. Special rules will be issued governing each department and the sale of articles within the buildings or on the grounds.

Rule 6. Decorations, signs, dimensions of cabinets, shelving, counters, etc., and the arrangement of exhibits must conform to the general plan adopted by the director general.

Rule 7. Reasonable precautions will be taken for the preservation of exhibits but the World's Columbian exposition will not be responsible for any damage to or for the loss or destruction of an exhibit resulting from any cause.

Rule 8. All packages containing exhibits intended for the several departments must be addressed to the "Director-General World's Columbian Exposition, Chicago, Ill., U. S. A." In addition, the following information must be written on the outside of each package:

(a) Department in which exhibit is to be installed.

(b) The state or territory from which the package comes.

(c) The name and address of the exhibitor.

(d) The number of the permit for space.

(e) Total number of packages sent by the same exhibitor. The serial number must be marked on each package and a list of the contents inclosed in each package. Freight must be prepaid.

Rule 9. Favorable terms will be arranged by which exhibitors may insure their own goods. Exhibitors may employ watchmen of their own choice to guard their goods during the hours the exposition is open to the public. Such watchmen will be subject to the rules and regulations governing employees of the exposition.

Rule 10. The expense of transporting, receiving, unpacking and arranging exhibits, as well as their removal at the close of the exposition, shall be paid by the exhibitor.

Rule 11. If no authorized person is at hand to take charge of exhibits within a reasonable time after arrival at the exposition buildings they will be removed and stored at the cost and risk of whomsoever it may concern.

Rule 12. The installation of heavy articles requiring foundations should, by special arrangement, begin as soon as the progress of the work on the buildings will permit. The general reception of articles at the exposition buildings will commence Nov. 1, 1892, and no article will be admitted after April 10, 1893. Space not taken possession of April 1, 1893, will revert to the director-general for reassignment.

Rule 13. If exhibits are intended for competition it must be so stated by the exhibitor or they will be excluded from examination for award.

Rule 14. The chief of each department will provide cards of uniform size and character, which may be affixed to exhibits and on which will be stated only the exhibitor's name and address, the name of the object or article exhibited and its catalogue number.

Rule 15. Articles that are in any way dangerous or offensive, also patent medicines,

nostrums and empirical preparations whose ingredients are concealed, will not be admitted to the exposition.

Rule 16. Exhibitors' business cards and brief descriptive circulars only may be placed within such exhibitor's space for distribution. The right is reserved by the director-general to restrict or discontinue this privilege whenever, in his judgment, it is carried to excess or becomes an annoyance to visitors.

Rule 17. The chief of each department, with the approval of the director-general, has the power to order the removal of any article he may consider dangerous, detrimental to or incompatible with the object or decorum of the exposition or the comfort and safety of the public.

Rule 18. Exhibitors will be held responsible for the cleanliness of their exhibits and the space surrounding same. All exhibits must be in complete order each day at least thirty minutes before the hour of opening. No work of this character will be permitted during the hours the building is open to the public. In case of failure on the part of any exhibitor to observe this rule the chief of the department may adopt such means to enforce the same as circumstances may suggest.

Rule 19. The removal of exhibits will not be permitted prior to the close of the exposition.

Rule 20. Sketches, drawings, photographs or other reproductions of articles exhibited will only be allowed upon the joint assent of the exhibitor and the director-general; but general views of portions of the interiors of the buildings may be made by the approval of the director-general.

Rule 21. Immediately after the close of the exposition exhibitors must remove their effects and complete such removal before Jan. 1, 1894. Goods then remaining will be removed and disposed of under the direction of the World's Columbian exposition.

Rule 22. An official catalogue will be published in English, French, German and Spanish. The sale of catalogues is reserved exclusively by the exposition company.

Rule 23. Each person who becomes an exhibitor thereby agrees to conform strictly to the rules and regulations established for the government of the exposition.

Rule 24. Communications concerning the exposition, applications for space and negotiations relative thereto should be addressed to the "Director-General World's Columbian Exposition, Chicago, Ill., U. S. A."

Rule 25. The management reserves the right to construe, amend or add to all rules and regulations whenever it may be deemed necessary for the interest of the exposition.

George R. Davis, Director-General.

STATE EXHIBITS.

Appropriations for their representation at the exposition have been made by the states and territories of the union as follows:

Arizona.....	\$ 30,000	N. Hampshire.....	\$ 25,000
California.....	300,000	New Jersey.....	20,000
Colorado.....	100,000	New Mexico.....	25,000
Delaware.....	10,000	North Carolina.....	25,000
Idaho.....	20,000	North Dakota.....	25,000
Illinois.....	800,000	Ohio.....	100,000
Indiana.....	75,000	Pennsylvania.....	300,000
Iowa.....	50,000	Rhode Island.....	25,000
Maine.....	40,000	Vermont.....	15,000
Massachusetts.....	75,000	Washington.....	100,000
Michigan.....	100,000	West Virginia.....	40,000
Minnesota.....	50,000	Wisconsin.....	65,000
Missouri.....	150,000	Wyoming.....	30,000
Montana.....	50,000		
Nebraska.....	50,000	Total.....	\$2,695,000

State associations where no appropriation bill has been passed:

Alabama.....	\$ 100,000	Oregon.....	\$ 100,000
Arkansas.....	100,000	South Dakota.....	80,000
Florida.....	100,000	Tennessee.....	50,000
Georgia.....	100,000	Texas.....	300,000
Kansas.....	100,000		
		Total.....	\$1,030,000

In addition to the above it is certain that several other states will offer appropriate funds for this purpose. In others, where a state appropriation is impossible on constitutional grounds, private subscriptions have been solicited to raise a sum for state representation on the following basis:

The total sum appropriated or to be raised by states and territories will amount to \$1,000,000.

The following circular has been issued by the director-general in relation to state exhibits:

RULES FOR DOMESTIC EXHIBITS.

THE WORLD'S COLUMBIAN EXPOSITION, OFFICE OF DIRECTOR-GENERAL, CHICAGO, May 5, 1891.—In answer to many inquiries as to the matter of domestic exhibits and the establishment and maintenance of separate state exhibits at the World's Columbian exposition the following regulations have been adopted by the national commission and the board of directors:

1. All exhibits intended to be competitive and within the jurisdiction of juries or committees authorized to award prizes must be located in some one of the general exposition buildings and be grouped according to the official classification, except such exhibits as can only be properly and advantageously displayed in the grounds; provided, however, that this exception shall only operate in those cases where, in the judgment of the director-general, he shall deem it expedient to grant the express permission.

2. Each of the states of the union, the territories and the District of Columbia shall be entitled to erect and maintain on the exposition grounds a building for the use of state, territory or District of Columbia (or two or more states or territories, if so desired, may erect and maintain a building in common) and each state or territory desiring to erect such a building (or two or more proposing to erect a building to be used in common) shall, through their official representatives or their state world's-fair boards, file with the director-general an application, in writing, for ground space for such building and as soon as possible give a general description of the character and style of the building proposed to be erected and the sum of money appropriated for the construction thereof, and after the ground space shall have been allotted, as hereinafter provided and before any occupation thereof, there shall be filed with the chief of the bureau of construction detailed plans and specifications for each such proposed building and when such plans and specifications shall have been approved by the chief of the bureau of construction and by the director-general a permit to erect the building shall be issued by the last-named officer.

3. That, preparatory to the assignment of ground space for state buildings, the director-general, after conference with and the concurrence of the grounds and buildings committee of the exposition, shall cause the states and territories of the union to be grouped in such manner as shall appear most likely to produce the best results to the exposition as a whole, and shall allot suitable ground space to each of such groups; and after such allotment shall have been made the space in each allotment shall be again

properly subdivided so as to provide suitable independent location for each such state or territory (or any two or more of them desiring a location in common), and the location of each individual state or territory (or any two or more of them desiring a location in common) within the territorial space assigned to that group wherein they are included shall be determined in the order of their application; subject, however, to harmony of grouping of buildings, which shall be determined by the chief of the bureau of construction and director-general.

4. That correct plans and specifications for every state building, as approved by the chief of the bureau of construction and the director-general, shall, before the issuance of the permit, be filed in the office of the director-general and chief of the bureau of construction and be preserved as a record of the exposition.

5. That, in the construction of such state buildings, each state or territory may use such material or materials produced in such state or territory as the state board shall determine, with a view of promoting a full exhibition of the structural materials produced in such state or territory.

6. Such state buildings shall be maintained as a state or territorial headquarters, under the control of the state board but subject to the rules and regulations governing the exposition, for the convenience and entertainment of residents of the particular state or territory and the reception and entertainment of their friends and such guests as they may invite to share the hospitality of such state or territory; and shall also, if desired by the state or territory, be used as a depository for a collective exhibit of such a line as shall best illustrate and exemplify the natural resources of such state as well as its historical and archaeological features. Each such collective state exhibit shall, however, be installed and maintained only subject to the following conditions, limitations and restrictions—to-wit:

(a) These exhibits shall not be catalogued nor considered as competitive or at all entitled to participate in prizes or awards nor be within the jurisdiction of the committees or juries of award.

(b) They shall embrace no manufactured goods or products.

(c) No processes shall be included therein and no motive power permitted in any such building. *George R. Davis, Director-General.*

DEPARTMENT OF MANUFACTURES.

Exhibitors must be the manufacturers or producers of the goods or materials intended for exhibition.

Applications for space and negotiations relative thereto for all articles of foreign production intended for exhibition must be conducted with the commission of the country where the article is produced.

All applications must be accompanied by a diagram to the scale of one-quarter inch to the foot of the plan and distribution of the articles to be exhibited.

If exhibits are intended for competition it must be so stated by the exhibitor or they will be excluded from examination for award.

Articles that are in any way dangerous or offensive, also patent medicines, nostrums and empirical preparations whose ingredients are concealed, will not be admitted to the exposition.

No fire, inflammable oils nor other combustible material will be permitted in the building.

Before filling out the application for space your attention is especially directed to the general rules and regulations for the government of the exposition promulgated by the

director-general and printed upon each blank form of application.

Be prompt in making application for space. The sooner the mass of applications is in our hands the sooner can we determine the assignments to be made. Fill out the application in exact accordance with the regulations accompanying the blank furnished. This will save delay, annoyance and needless correspondence.

INSTALLATION.

To preserve harmony and to make the exhibits attractive the chief reserves the authority to direct the arrangement of all articles on exhibition and to regulate the dimensions, character and location of all signs and advertisements or to exclude them.

The flooring must not be altered or removed except by the sanction of the director-general or the chief of the department.

All designs for structures, platforms, cases, partitions and height of same must receive the approval of the chief of the department and must conform to general rules approved by the director-general.

It is not intended that machinery shall be installed in the manufacturers' department but shall take its place in machinery hall. In order to encourage pleasing and attractive effects and add life to the various exhibits where required to keep them moving a limited amount of noiseless motor power may be applied, subject to the approval of the chief of the department.

The following limits may not be exceeded: Platforms, seven inches above the floor; railings, two feet six inches above platforms (they must be included within the space assigned to the exhibitor); counters, two feet ten inches above the floor on side next passageway.

The material to be used for covering counters, screens or partitions will be subject to the approval of the chief of the department. Unless otherwise ordered all signs must be of a uniform design, with gold letters on black or maroon ground. They may not be made of muslin, linen, canvas or paper. They must be placed parallel with the frontage or passageways of the respective stands or exhibits and must in no case interfere with the light or view.

Exhibitors will not be permitted to put up flags, banners or other decorations or advertisements without permission from the chief of the department.

Each person who becomes an exhibitor thereby agrees to conform strictly to the rules and regulations established for the government of the exposition.

The chief of the department hopes to secure such perfection of detail in the presentation of each separate exhibit and such logical, consistent and harmonious combination in the arrangement of the several classes and groups as will secure a display which will be both instructive and artistic, appealing to the intelligent and esthetic sense of each observer. To this end he desires to aid exhibitors and to secure their hearty co-operation and assistance. Regulations are intended not to annoy the individual exhibitor but to develop that success which can only be secured by the most careful and elaborate organization. *James Allison,*

Chief Department of Manufactures.

SPECIAL RULES — DEPARTMENT OF TRANSPORTATION EXHIBITS.

Rule 1. Power (electric or compressed air) will be furnished for operating such machinery or appliances as can only properly be shown in that manner. No direct steam power will be furnished nor will any lines of shafting be erected in the building. Electric

or compressed-air power must be taken direct and the exhibitor must furnish his own motor for utilizing the same.

Rule 2. Steam will be furnished under adequate pressure for testing car-heating and other devices requiring it. The escape of such steam into the atmosphere will not be permitted and the exhibitor must provide for taking care of condensation.

Rule 3. Loan exhibits accepted by the chief of the department will be cared for without expense to the owner. Special arrangements will be made in each case for exhibits which are non-commercial in character but designed to add to the completeness and educational value of the exposition.

Rule 4. Platforms, counters, ornamental partitions, show-cases, etc., will be at the expense of the exhibitors and must not exceed these dimensions: Show-cases, fifteen feet above the floor; counters, two feet ten inches; platforms, one foot.

Rule 5. All exhibits of machinery in operation must be inclosed by a railing two feet and six inches in height, to come inside the space. Railings of the same height may be used to inclose and protect other exhibits, in the discretion of the chief of department.

Rule 6. No signs will be allowed to extend over the passageway and no signs will be allowed made of muslin, linen, canvas or paper.

Rule 7. The department will lend any proper assistance to exhibitors in securing the services of reliable attendants or caretakers.

Rule 8. The chief of the department reserves the right to modify any of the above rules upon proper occasion and to promulgate such further rules as he may deem necessary from time to time.

MACHINERY.

DEPARTMENTAL REGULATIONS.

Department of Machinery:

Rule 1. Exhibitors must be manufacturers or producers of machinery and not dealers only.

Rule 2. Exhibitors or such agents as they may designate shall be responsible for the receiving, unpacking and arrangement of objects as well as for their removal at the close of the exposition.

Rule 3. No person can exhibit in another one's space without express permission of the head of the department.

Rule 4. No exhibitor will be permitted to erect or arrange his exhibit in a way to obstruct the light or occasion inconvenience or disadvantageously affect the display of other exhibitors.

Rule 5. No machinery on exhibition will be allowed to run longer than is necessary for that purpose, except by special permission of the chief of the department.

Rule 6. Steam pressure supplied will be 150 pounds per square inch above the atmosphere. Exhibitors requiring a lower pressure can obtain it by using a reducing valve.

Rule 7. The line shafting will be placed sixteen feet from the center of shaft to floor of building, unless otherwise decided, in which case due notice will be given. Size and relative position of shafting to space allotted will be shown on permit.

Rule 8. The line shafting will make 120 and 240 revolutions per minute.

Rule 9. Driving pulleys on main line of shafting must be supplied by exhibitors and must be in halves and limited to thirty-six inches diameter. They must be secured in a manner that will not weaken the shaft and be subject to the approval of the chief of the department.

Rule 10. The main lines of steam, water and sewer pipes will be laid by the construction department, but all connecting pipes,

valves, etc., will be supplied by the exhibitor.

Rule 11. No steam or water pipes will be allowed to cross over passageways, except as specially provided for in group 69, class 417.

Rule 12. The water pressure will be that due to a head of 200 feet or a pressure of about eighty-six pounds per square inch.

Rule 13. The chief of department will have care and supervision of the main shaft but all gear supplied by exhibitors will be under their care. They will also select persons to attend to their machinery, who alone will be allowed to operate it.

Rule 14. Exhibitors of steam engines, boilers, steam pumps, machine tools, shafting, separators, feed-water heaters, steam traps, etc., who desire to offer their exhibits, or a portion thereof, for use in the department, should send in their application for space or otherwise notify the head of the department as soon as possible.

Rule 15. Exhibitors furnishing machinery, such as engines, boilers, etc., for the use of the department, may select their own men to operate them; their wages will be fixed and paid by the exposition company.

Rule 16. The exposition company will defray the necessary expenses of exhibitors loaning their machine tools, etc., for use, beyond that which they would have incurred as exhibitors simply, wear and tear excepted.

Rule 17. Fire engines entered for exhibition, offered and accepted for use, will be properly cared for and furnished with fuel free of expense.

Rule 18. All platforms, counters, ornamental partitions, show-cases and appurtenances of approved design must be erected at the expense of the exhibitor and shall not exceed the following dimensions without special permission of the chief of department: Show-cases, fifteen feet above the floor; counters, two feet ten inches above the floor on the side next to passageway; platforms, one foot above the floor; partitions of various heights, not exceeding fifteen feet, of approved design, may be erected in certain parts of the building.

Rule 19. All exhibits of machinery in motion must be inclosed by a railing of uniform height of two feet six inches, the railing to come within the space. All designs of railing, show-cases and signs must be submitted to the chief of department for approval. No signs will be allowed to extend over passageway nor will signs of muslin, linen, canvas or paper be permitted.

Rule 20. No fire will be allowed in machinery hall except by special permission of chief of department. Not more than a day's supply of oils and other inflammable material will be permitted in the building but a suitable place will be provided for the storage of the same.

Rule 21. In every case applicants for space are requested to give timely notice if they decide not to exhibit.

Rule 22. Permits will be issued by the chief of department to bring in raw material required for the successful operation of certain exhibits and such articles as may be required by concessions and privileges before fifteen minutes of the opening of the exposition in the morning. Also for the removal of such articles and products as come within the regulations.

Rule 23. The location of exhibits in machinery hall will be indicated by the rows of columns and the number of the nearest column in a row. The rows will be lettered A, B, C, D, etc., from the south side, and the columns numbered 1, 2, 3, etc., from the east end. Example: "Exhibit No. — B, 71."

L. W. Robinson, U. S. N.,
Chief Department Machinery.

DEPARTMENT OF ELECTRICITY.

The following rules and regulations governing the installing of exhibits in the electricity building have been issued from the department of electricity:

1. Applicants for space in this department are requested to furnish the following information as nearly as possible:

A. Drawing to the scale of one-quarter inch to the foot, showing size of space desired and general distribution of articles to be exhibited; also aisles, if any, among exhibits. Express length, breadth, etc., in feet and inches.

State whether current for motors, lamps or other devices is required, specifying quantity and potential in amperes and volts.

If power for operating machinery is required state number of horse-power wanted.

The above information is absolutely necessary for the proper allotment of space.

2. Applicants accepting space must agree to occupy it in accordance with the rules and regulations, except when special arrangements are made in writing with the chief of the department and are requested to give earliest possible notice if they decide not to exhibit. Whenever exhibits will admit the exhibitor is requested to display in glass cases.

3. No exhibitor can exhibit in other than his own space without obtaining the written permission to do so from the chief of the department.

4. No exhibitor will be allowed to arrange his exhibit in a way to occasion inconvenience or affect the display of other exhibitors. The chief of the department reserves the right to order any change in the design or arrangements of exhibits in the interest of harmony or the protection of other exhibitors.

5. The floor of the electrical building is designed to sustain a weight of 150 pounds per square foot. Any exhibit requiring an extra support, in the judgment of the chief of the department, must be furnished with satisfactory support or foundation at exhibitor's expense.

6. All exhibits of dynamos and dynamic-current-generating apparatus intended for operation, with full or more than a very small percentage of their full capacity, will be located in machinery hall and will be placed in practical operation for transmitting current to the exposition buildings. Applicants for space desiring to offer their exhibit of dynamos and generators, etc., for the service of the exposition for lighting the grounds and buildings for artistic effects, or for furnishing power to the various departments, should communicate with the director-general or chief of the department of electricity as early as possible.

7. All platforms, railings, counters, signs, partitions and show-cases must be erected at exhibitor's expense and shall not exceed dimensions given below. All designs for the above with locations of same in exhibitor's space must be submitted to the chief of the department for his written approval before installation is begun. Show-cases shall not be higher than fifteen feet above the floor of the main aisles. Counters shall not be higher than two feet ten inches above the floor of the main aisles. Railings may be erected but must be of a uniform height of two feet six inches and subject to the approval of the chief, as in Rule 8. Platforms will be allowed only in certain parts of the building. All exhibitors wishing platforms to cover their space must build them to a uniform height of eight inches. Partitions will be allowed only in certain parts of the building and in all cases must not exceed fifteen feet in height and must be approved in writing by the chief of the department before their erection is begun. Signs must be ornamental in charac-

ter and designs for the same must be submitted to the chief of the department for his written approval. No signs will be allowed to extend beyond the limits of exhibitor's space nor will signs of muslin, linen, canvas or paper be accepted. The chief of the department will have the right to order down any signs that may be in an objectionable location or may disadvantageously affect the appearance of the general exhibit.

8. All exhibits of machinery in motion must be protected by ornamental railings of a uniform height of two feet six inches and all designs for railings must be submitted to the chief of the department for his written approval.

9. No fire will be allowed in the electrical building except by the written permission of the chief of the department. Oils and inflammable material will be allowed only in quantities sufficient for one day's use. Suitable storage will be provided for the same.

10. Exhibitors requiring power in the electrical building will have to furnish the necessary counter-shafting, pulleys, hangers, etc., at their own expense. Electric motors only will be allowed for moving machinery in this building and must be furnished at the expense of the exhibitor. Shafting and motors will be under the care of the exhibitors requiring them, but can be erected only on receipt of a permit from the chief of the department. Exhibitors must arrange their exhibits in such a manner as to require a minimum of shafting by using motors connected or belted to their machinery direct.

11. Exhibitors may employ watchmen to take care of their machinery and exhibits at night, but such watchmen will be subject to the approval of the chief of the department.

12. Exhibitors will be required to have their space clean and all rubbish swept into the aisles within one hour after the close of the exposition at night. In cases where this rule is not complied with the work will be done by the department and charged to the exhibitor. No sweeping will be allowed during the exposition hours.

13. The distribution of cards, circulars, pamphlets or samples about the building or its vicinity will not be permitted under any circumstances. Exhibitors can distribute such articles only from their own space, but will not be allowed to solicit their acceptance.

14. The arrangements and erection of electric conductors in all parts of the building shall be wholly under the supervision of the chief of the department, whose directions must be followed and whose decisions shall be final.

15. Exhibitors will be required to attach to each exhibit a printed or type-written description in the English language of the use and operation of the object exhibited for the information of the public.

16. Exhibitors or their agents will be furnished by the department with duplicate cards upon which must be the name or description and the catalogue number of each article entered for exhibition. These will be countersigned on receipt of articles into the exposition. One of these cards shall be conspicuously attached to the article described and the other be retained by the exhibitor to serve as his order for the article at the close of the exposition.

The department of electricity reserves the right to amend these rules whenever it may become necessary.

GENERAL REGULATIONS.

1. The exposition will be opened on the 1st day of May, 1893, and closed on the 30th day of October following.

2. Works of art will be admitted for exhibi-

bition, whether previously exhibited or not.
3. No charge will be made for space.

4. All works of art must be of the highest order of merit and whether produced by citizens of the United States or works of foreign artists belonging to residents of the United States will be admitted on approval of the committee on selection.

5. The installation of the works of art admitted to the exposition will be under the supervision of the chief of the department of fine arts and such assistants as he may appoint.

6. Packages forwarded by exhibitors in the United States for admission to this department must be marked "Art Department World's Columbian Exposition, Chicago." There must be also attached to the outside and inside of each package a label giving the name and address of the exhibitor and the title and number of articles in the package. Cases containing pictures should have the name and address of the exhibitor on the outside and inside of the cover, also on the inside of the case the number of pictures and the title of each. On the back of each picture and frame there should be attached a label giving the name of the artist, the title and the name and address of the exhibitor.

7. All pictures round or oval should be placed in square frames. Excessive breadths in frames or projecting moldings should be avoided. Shadow-boxes will not be allowed to project more than one inch beyond the frame. Glass over oil paintings will only be allowed by special permission.

8. Works of art intended for sale will be so designated in the official catalogue.

9. Works intended for competition must be so stated by the exhibitor or they will be excluded from the examination by the jury.

10. All works of art must be in Chicago prior to March 1, 1893, and after having been admitted under the rules cannot be removed before the close of the exhibition. Applicants will be notified of the time and place to present their work to the committee on selection for examination.

11. Each person presenting works of art for admission thereby agrees to comply with the special rules established for this department and the general rules for the government of the exposition.

PROSPECTUS OF DEDICATORY CEREMONIES.

The ceremonies attending the dedication of the buildings of the World's Columbian exposition in October, 1892, have been fully decided upon by the joint committee on ceremonies, and will embrace a four days' celebration, from Oct. 11 to Oct. 14, inclusive.

The character of the projected celebration has been carefully considered, and the plan and scope of ceremonies adopted will, it is believed, fittingly celebrate the 400th anniversary of the discovery of America.

The military encampment will last four days, and the troops will be under the command of an officer of the United States army designated for that purpose by the honorable secretary of war.

The opening ceremonies on Oct. 11 will consist of a civic parade and the "March of Progress." In the evening will be given the "Procession of Centuries," a historical representation of the progress of the nation, showing scenes in the early life of Columbus and the evolution of science and art, the development of literature, steam, electricity, etc. This parade will be repeated each evening during the celebration.

The military parade and review will take place Tuesday, Oct. 12.

During each evening of the celebration

there will be magnificent displays of fireworks at Jackson park and on the lake along the front of the city.

Wednesday, Oct. 12, will be dedication day proper, and the memorial services, which will be of a brilliant and imposing character, will be held in the main building in Jackson park.

The ceremonies of the day will be ushered in by the firing of a national salute of forty-eight battery volleys by all batteries in attendance.

At 10 o'clock a. m. the troops will be in readiness to receive the president of the United States with appropriate honors. The president will then pass into the building, and surrounded by his cabinet, diplomatic corps and distinguished foreigners, will receive the thirteen original states with proper ceremonies. Then, in reasonable rapidity, the remaining states will enter the building in the order of their admission to the union. The states and territories will be represented by their governors, uniformed staffs, banners emblazoned with their coat of arms and such allegorical representations as each state and territory may design.

The programme to follow will be:

1. Overture—(Original music by an American composer.)

2. Prayer.

3. Address and report from Director-General George R. Davis.

4. Presentation of buildings by the president of the World's Columbian exposition to the president of the World's Columbian commission.

5. Commemoration ode—(Miss Harriet Monroe)—with original music.

6. Address by the president of the United States.

7. "Star-Spangled Banner."

8. Dedication oration.

9. Hallelujah chorus.

10. National salute of forty-eight battery volleys.

During Wednesday evening, Oct. 12, the president of the United States will hold a reception in honor of distinguished foreigners and invited guests.

Military drills and parades will be held each day, closing on Friday, Oct. 13, with a grand mimic battle.

The marvelous growth of the United States since the adoption of the constitution, the improvement in mechanical appliances, the advance in science, art, literature and education, will be appropriately illustrated.

There will be a grand dedication ball on the evening of Thursday, Oct. 13, at the Auditorium.

The foregoing is a mere outline of the magnificent and elaborate dedication ceremonies that will be given in honor of the completion of the buildings of the World's Columbian exposition in the City of Chicago, on Tuesday, Wednesday, Thursday and Friday, Oct. 11, 12, 13 and 14, 1892.

It should be distinctly understood that the World's Columbian exposition does not open until May 1, 1893, and that the opening ceremonies will occur on that date, while the ceremonies referred to in this prospectus are the dedication ceremonies occurring October, 1892.

Immediately upon the close of the dedication celebration the work of installing the exhibits will begin and continue until the opening of the exposition on May 1, 1893.

The following named gentlemen compose the committee on ceremonies of the World's Columbian commission.

Hon. P. A. B. Widener, Philadelphia, Pa.; Hon. John D. Adams, Little Rock, Ark.; Hon. Wm. Lindsay, Frankfort, Ky.; Gen. J. D. Groner, Norfolk, Va.; Hon. C. H. Richmond,

Ann Arbor, Mich.; Hon. G. W. Allen, Auburn, N. Y.; Hon. M. B. Harrison, Duluth, Minn.; Gov. R. B. Furnas, Brownville, Neb.

The following-named gentlemen compose the committee on ceremonies of the World's Columbian exposition:

Messrs. Edward F. Lawrence, Chas. T. Yerkes, James W. Ellsworth, Charles L. Hutchinson, W. D. Kerfoot, Ferd. W. Peck, Charles H. Schwab, Charles H. Wacker, all of Chicago.

These two committees, acting as the joint committee, selected the following sub-committee to represent them in the detailed work

of preparing for the ceremonies of the exposition:

On behalf of the World's Columbian commission—Director-General George R. Davis and Secretary John T. Dickinson.

On behalf of the World's Columbian Exposition association—Charles T. Yerkes, E. F. Lawrence and C. H. Wacker.

For all information in reference to the ceremonies of the World's Columbian exposition address Edwd. C. Culp, Secretary Joint Committee on Ceremonies, Chicago.

THE WORLD'S CONGRESS AUXILIARY.

By HON. C. C. BONNEY, President.

The World's Congress Auxiliary is an organization authorized and supported by the Exposition corporation for the purpose of bringing to Chicago a series of world's conventions of leaders in the various departments of human progress during the exposition season of 1893. The auxiliary has also been recognized by the government of the United States as the appropriate agency to conduct this important work. Its general announcement has been sent to foreign governments by the department of state, and an appropriation for its expenses has been made by act of congress.

The auxiliary consists of an active member-

ship of persons residing in Chicago or sufficiently near to attend committee meetings without inconvenience and a non-resident membership divided into advisory councils of the different departments of progress and honorary and corresponding members. Each committee has its own advisory council, composed of the eminent leaders of the world in the department to which it relates. Honorary and corresponding members are persons not assigned to a particular department, but whose prominence and influence make their aid and co-operation desirable in all.

The officers of the auxiliary are as follows:

President, Hon. Charles C. Bonney; vice-president, Hon. Thos. B. Bryan; treasurer, Hon. Lyman J. Gage; secretary, Hon. Benjamin Butterworth. There is also a president of the woman's branch of the auxiliary, Mrs. Potter Palmer, and a vice-president, Mrs. Charles Henriotin.

These general officers are aided by a long list of general committees for the various departments with appropriate special committees for the chapters and sections into which the departments are divided. Many of the committees are dual in form—a committee of men and a committee of women on the same general subject authorized to meet separately or jointly, as may be most convenient, under regulations intended to secure uniformity of action in the arrangements of the plans for each of the contemplated congresses.

This arrangement will preserve the identity of woman and her work, and will at the same time secure all the advantages of co-operation of men and women in the various congresses appropriate to both.

The general committees so far as created are as follows:

Executive committee, committee of arrangements, committee on places of meeting, education, science and philosophy, literature, public press, musical, artists, government and law reform, religion, moral and social reform, temperance, labor, health and medicine, commerce and finance, engineering and agriculture.

These general departments have been divided into appropriate divisions and committees appointed for each. To illustrate: The department of commerce and finance, under the chairmanship of Hon. Lyman J. Gage, includes transportation, exchange and distribution, with divisions of banking, stock exchange, board of trade, water commerce, railway commerce and insurance. Each subject has a special committee and each committee has its advisory council.

The work of these general and special committees, now ninety-five in all and still to be increased, is very distinct and well defined. Each committee first issues its preliminary address, which states the objects of the auxiliary, with especial reference to its own department. This address is sent to appropriate persons and societies throughout the world,

and the advisory councilors are requested to make any suggestions they may deem necessary and to furnish appropriate themes for discussion in the particular congress in which they are interested.

The permanent memorial art palace, to be erected on the shore of Lake Michigan, in the heart of the City of Chicago, will be devoted during the entire six months' exposition season to the exclusive use of the world's congresses. This building will have two large audience rooms with a seating capacity of about thirty-five hundred each, and twenty smaller rooms which will be used for the meetings of the various divisions into which a congress will be divided.

The proposed congresses in each department will be of a two-fold character. First, special congresses of existing organizations, under the general direction of the auxiliary, which will consider such living questions as they may deem appropriate, conducted by their own proper officers; and, second, popular congresses arranged by the auxiliary for the purpose of presenting to the people of the world as represented by those who will be in attendance at the World's Columbian exposition the results of human progress in all the leading departments of civilized life, voiced by the ablest living representatives whose attendance can be secured on that occasion. This method of special congresses on the one hand, and popular union congresses on the other, will at the same time secure the greatest relative freedom and independence of existing organizations in the conduct of their own proper work, and also afford the largest practicable opportunities for the people to see and hear the living leaders of mankind. It is also proposed that the speakers and writers both in the special congresses and popular congresses shall be selected as nearly as practicable a year in advance of the date when the congress in which they will participate will be convened, in order that the material thought of the world may be presented on that occasion. The discourses and papers so to be presented will, it is expected, be permanently preserved in an encyclopaedia publication, which will naturally find its way into all the leading languages of the world, and will constitute the most imposing and enduring monument of the World's Columbian exposition of 1893.

STATE ELECTIONS IN 1892.

ALABAMA—Presidential electors and members of congress Nov. 8; governor, other state officers and legislature Aug. 1.

ARIZONA—Delegate in congress and territorial legislature Nov. 8.

ARKANSAS—Presidential electors and members of congress Nov. 8; governor, state officers and legislature Sept. 5.

CALIFORNIA—Presidential electors, members of congress and legislature Nov. 8.

COLORADO—Presidential electors, members of congress, state officers and legislature Nov. 8.

CONNECTICUT—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

DELAWARE—Presidential electors, members of congress and legislature Nov. 8.

FLORIDA—Presidential electors, members of congress and governor Nov. 8.

GEORGIA—Presidential electors and members of congress Nov. 8; governor, state officers and legislature Oct. 5.

IDaho—Presidential electors, member of congress, governor and state officers Nov. 8.

ILLINOIS—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

INDIANA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

IOWA—Presidential electors and members of congress Nov. 8.

KANSAS—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

KENTUCKY—Presidential electors and members of congress Nov. 8.

LOUISIANA—Presidential electors and members of congress Nov. 8; governor, state officers, legislature and for rechartering Louisiana State lottery April 19.

MAINE—Presidential electors and members of congress Nov. 8; governor, state officers and legislature Sept. 10.

MARYLAND—Presidential electors, members of congress, governor and state officers Nov. 8.

MASSACHUSETTS—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

MICHIGAN—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

MINNESOTA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.

MISSISSIPPI—Presidential electors and members of congress Nov. 8.
 MISSOURI—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 MONTANA—Presidential electors, member of congress, governor, state officers and legislature Nov. 8.
 NEBRASKA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 NEVADA—Presidential electors, member of congress and legislature Nov. 8.
 NEW HAMPSHIRE—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 NEW JERSEY—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 NEW MEXICO—Delegate in congress and legislature Nov. 8.
 NEW YORK—Presidential electors, members of congress, state officers and legislature Nov. 8.
 NORTH CAROLINA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 NORTH DAKOTA—Presidential electors, member of congress, governor, state officers and legislature Nov. 8.
 OHIO—Presidential electors, members of congress and state officers Nov. 8.
 OKLAHOMA—Delegate in congress and legislature Nov. 8.
 OREGON—Presidential electors, member of congress and legislature Nov. 8.

PENNSYLVANIA—Presidential electors, members of congress, state officers and legislature Nov. 8.
 RHODE ISLAND—Presidential electors and members of congress Nov. 8; governor, state officers and legislature April 6.
 SOUTH CAROLINA—Presidential electors, members of congress, governor and state officers Nov. 8.
 SOUTH DAKOTA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 TENNESSEE—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 TEXAS—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 UTAH—Delegate in congress Nov. 8.
 VERMONT—Presidential electors and members of congress Nov. 8; governor, state officers and legislature Sept. 6.
 VIRGINIA—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 WASHINGTON—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 WEST VIRGINIA—Presidential electors, members of congress and legislature Nov. 8.
 WISCONSIN—Presidential electors, members of congress, governor, state officers and legislature Nov. 8.
 WYOMING—Presidential electors, member of congress, governor, state officers and legislature Nov. 8.

THE MERCANTILE SHIPBUILDING OF THE WORLD.

Total vote.....		35059							

At a special election held May 19, 1891, to ascertain the will of the people on calling a convention to amend the state constitution the vote was, "For a Convention," 17,114; "Against a Convention," 115. As the vote was less than that cast for representatives in the legislature, at the general election in November, 1890, the call for a convention failed.

FOR REPRESENTATIVES IN CONGRESS, 1890.

Streeter (Labor) received 22 votes in Webster county for President in 1888.

VOTE FOR RAILROAD COMMISSIONERS, 1891.

Walter McLaurin, Dem.	31,986
James F. Sessions, Dem.	31,552
Joseph H. Askew, Dem.	31,473

The statute provides that one commissioner shall be elected from each of the three Supreme court districts, but that each shall be voted for by all the qualified electors of the state. McLaurin is from the first, Sessions from the second and Askew from the third district. There was no opposition ticket and the persons named were the nominees of a democratic state convention.

OTHER STATE OFFICERS ELECTED, 1889.

<i>Lieut.-Gov.—M. M. Evans, Dem.</i>	
<i>Sec'y of State—C. M. Goran, Dem.</i>	
<i>Auditor—W. W. Stone, Dem.</i>	
<i>Treasurer—J. J. Evans, Dem.</i>	
<i>Att'y-Gen.—T. M. Miller, Dem.</i>	
<i>Supt. Inst.—J. R. Preston, Dem.</i>

	1890-1	1888-9
	Sen. Ho. J. Bal.	Sen. Ho. J. Bal.
Rep. Ho. J. Bal.	13	177
Dem. Ho. J. Bal.	163	172
No choice.....	2	—

*The democrats claim that the state senate should stand 11 republicans, 10 democrats and no choice in three districts, Nos. 6, 15 and 17. The republicans claim that it stands 13 republicans, 9 democrats and no choice in two districts, Nos. 6 and 8. The governor and council, which compose the board of canvassers, have given the certificates accordingly. The house is claimed by the democrats to stand 172 democrats and 161 republicans, 11 democratic majority. The republicans claim that the house stands 177 republicans and 163 democrats, 14 republican majority. The contest turns on the question of admitting certain persons who were elected to represent the increased population in certain towns as determined by the census of 1890.

County elections were held in Oklahoma February 4, 1891, for the election of county officials, the territory having been recently divided into counties. Official returns show that the democrats and alliance tickets were victorious. Guthrie and Logan counties elected the straight democratic ticket; Payne county is half and half, democratic and all-

ELECTION AUG. 11, 1891.

Five amendments to the state constitution were submitted to the people at an election held Aug. 11, 1891. The gist of the amendments and the vote upon them was as follows:

1st—For registration of votes in cities of 10,000 inhabitants and over, and empowers the legislature to make changes in the ballot laws. For, 59,645; against, 16,815.

2d—Authorizing the legislature to take 1 per cent of the permanent school fund and place it to the credit of the available school fund. The fact that the public schools of Texas are not kept open more than four months in the year, and teachers are forced to wait for their pay, is at the bottom of this amendment. For, 40,525; against, 35,702.

3d—Providing that the legal rate of interest shall not be more than 10 per cent per annum, and in contracts where the rate is not stated it shall be 6 per cent. For, 53,797; against, 18,320.

4th—Giving more extended facilities for adopting and enforcing local prohibition. For, 40,344; against, 35,279.

5th—Providing for the creation of additional courts of civil and criminal appeal. For, 37,445; against, 35,695.

THE DEMOCRATIC CONSTITUTION.

The new constitution under which the democratic party of Cook county is organized provides for the application of the Australian ballot to the party primaries.

It provides for an annual democratic primary on the same day as the November election. Five committeemen will be elected from each precinct and they will hold office until the succeeding fall election.

Those committeemen have the power of electing the two central committeemen from each of the wards.

The committeemen from Cook county have jurisdiction over affairs in Cook county, from the city over the affairs of the city, from the ward over the affairs of the ward, from dis-

trict over the affairs of the district, from the precinct over the affairs of the precinct.

The precinct committeemen have the power to select the delegates to all democratic conventions.

No person holding an appointive office can be elected a delegate.

Contests will be allowed in precincts where fifty democratic voters protest against the delegates selected by the ward or town organizations.

Contestants are required to deposit enough money to cover the expenses of the contest.

The secretary of the central committee shall be a paid officer, with established headquarters.

- 6 miles—England: 43:01. J. W. Raby, London, Aug. 20, 1883; *44:57. H. Curtis, Birmingham, July 12, 1880. America: 43:41. John Meagher, N. Y. City, Nov. 29, 1882; *45:23. E. E. Merrill, Boston, Mass., Oct. 5, 1880.
- 7 miles—England: 51:04. J. W. Raby, London, Aug. 20, 1883; *52:23 2-5. H. Curtis, Birmingham, July 12, 1880. America: 51:11 1/2. John Meagher, N. Y. City, Nov. 29, 1882; *54:07. E. E. Merrill, Boston, Mass., Oct. 5, 1880.
- 8 miles—America: 58:37. John Meagher, N. Y. City, Nov. 29, 1882; *1:02:04 1/2. J. B. Clark, N. Y. City, Sept. 8, 1880. England: 58:44. J. Hibbard, London, April 16, 1883; *1:03:41. C. W. V. Clarke, London, March 5, 1887.
- 9 miles—England: 1:07:14. J. W. Raby, London, Dec. 8, 1883; *1:11:44. J. B. Clark, London, March 5, 1887. America: 1:09:30 1/2. D. A. Driscoll, N. Y. City, Feb. 1, 1881; *1:10:08. E. E. Merrill, Boston, Mass., Oct. 5, 1880.
- 10 miles—England: 1:14:45. J. W. Raby, London, Dec. 8, 1883; *1:19:50. C. W. V. Clarke, London, March 5, 1887. America: 1:17:53 1/2. D. A. Driscoll, N. Y. City, Feb. 1, 1881; *1:17:40 1/2. E. E. Merrill, Boston, Mass., Oct. 5, 1880.
- 20 to 50 miles—England: *Professional*—20m., 2:39:57. W. Perkins, London, July 1, 1877; William Howes, London, March 30, 1878. 50m., 7:54:16. J. Hibbard, London, May 14, 1888. *Amateur*—20m., 2:47:52. Thos. Griffith, London, Dec. 3, 1870. 40m., 6:38:03; 50m., 8:25:25 1/2. A. W. Sinclair, London, Nov. 14, 1879. America: *Professional*—20m., 2:50:05; D. A. Driscoll, Lynn, Mass., April 6, 1882. 40m., 6:26:08; 50m., 8:10:54. John Meagher, Boston, Mass., April 21, 1882. *Amateur*—20m., 3:08:10. J. B. Clark, N. Y. City, Dec. 5, 1879. 40m., 7:25:41; 50m., 9:29:22. G. B. Gillie, N. Y. City, May 10, 11, 1878.
- Greatest distance walked in an hour—America: 8 miles 302yds. John Meagher, N. Y. City, Nov. 29, 1882; *7 miles 1,318yds. J. B. Clark, N. Y. City, Sept. 8, 1880. England: 8 miles 172yds. W. Griffin, London, Oct. 4, 1881. Two hours—England: 15 miles 824yds. Wm. Perkins, London, July 16, 1877. America: 14 miles 1,320yds. D. A. Driscoll, N. Y. City, Feb. 1, 1881; *13 miles 900yds. W. O'Keefe, Brooklyn, N. Y., Dec. 31, 1880. Three hours—England: 22 miles 450yds. H. Thatcher, London, Feb. 20, 1882; 21 miles. Thos. Griffith, London, Dec. 3, 1870. America: *19 miles 570yds. J. B. Clark, N. Y. City, Dec. 5, 1879. Four hours—England: 27 miles 440yds. W. Franks, London, Aug. 23, 1882. America—*24 miles 1,152yds. J. B. Clark, N. Y. City, Dec. 5, 1879. Twenty-four hours—127 miles 1,210yds. Wm. Howes, London, Feb. 23, 1878; *115 miles 1,600yds. A. W. Sinclair, London, Aug. 26, 27, 1881.
- Greatest distance walked in 72 hours (12 hours each day)—America: 363 miles. C. Faber, Pittsburg, Pa., June 28-July 3, 1880. England: 363 miles. Jos. Scott, London, May 14-19, 1888.
- Greatest distance walked without a rest—America: 121 miles 835yds. C. A. Harriman, Truckee, Cal., April 6, 7, 1883. England: 120 miles 1,540yds. Peter Crossland, Manchester, Sept. 11, 12, 1876.

ROWING.

Performances by amateurs are designated by an *.

$\frac{1}{4}$ mile—*1:19, single-scutt, straightaway, dead water, John F. Corbet, Iroquois Boat club, July 23, 1890.

$\frac{3}{4}$ mile—*4:27 $\frac{3}{4}$, six-oared barge, straightaway, Iroquois Boat club, Lake Calumet, Pullman, Ill., May 30, 1890.

1 $\frac{1}{2}$ miles—*7:41, eight oars, straightaway, Atlanta Boat club, Lake Calumet, Pullman, Ill., Aug. 9, 1889. [The Cornell University crew rowed the distance in 7:03, at Philadelphia, July 4, 1889, but the conditions were unfair, the current running very strong.] 8:01 $\frac{1}{4}$, four oars, straightaway, Fairmount Rowing association, Albany, N. Y., July 21, 1886. [The Watkins crew rowed the distance in 7:47 $\frac{3}{4}$, at Detroit, Mich., Aug. 15, 1887, but the current was very strong.] *7:59, double scull, straightaway, J. Buckley and W. O'Connell, Portland, B. C., Lachine, Canada, Aug. 21, 1882. *8:36, single scull, straightaway, Joseph Laing, Lachine, Canada, Aug. 19, 1882. *8:39 $\frac{1}{4}$, four oars, turn, still water, Modoc Boat club, Salt Lake, Utah, Aug. 30, 1888. *8:41, paired shell, straightaway, J. H. Clegg and F. D. Standish, Excelsior B. C., Lachine, Canada, Aug. 19, 1882.

2 miles—*9:43 $\frac{3}{4}$, eight oars, straightaway, Columbia College crew, New London, Conn., June 26, 1884. *12:16, double-scutt, turn, F. E. Yates and C. E. Courtney, Saratoga, N. Y., Aug. 8, 1876. *12:20 $\frac{3}{4}$, pair-oar, straightaway, J. H. Riley and J. A. Kennedy, Greenwood lake, N. Y., Oct. 9, 1876. *13:21 $\frac{1}{4}$, single scull, turn, J. H. Riley, Saratoga, Aug. 9, 1876.

2 $\frac{1}{4}$ miles—*12:57, eight oars, straightaway, Yale University crew, New London, Conn., June 29, 1888.

3 miles—*15:25, eight oars, straightaway, Yale University crew, New London, Conn., June 29, 1888. *15:37 $\frac{1}{4}$, four oars, straightaway, Argonaut R. A., Kill von Kull, N. J., Sept. 8, 1875. *16:32 4-5, six oars, straightaway, Amherst university, G. E. Brewer, B. L. Brown, L. Bradley, Jr., F. M. Wilkins, A. J. Benedict, W. Negley, Springfield, Mass., July 24, 1872. *17:34 $\frac{3}{4}$, eight oars, straightaway, Cornell University crew, Owasco lake, N. Y., July 17, 1878.

BICYCLING.

Amateur performances are designated by an *.

ORDINARY BICYCLE.

$\frac{1}{4}$ mile—America: *32s. A. E. Lusden, Providence, Aug. 30, 1890.

$\frac{1}{2}$ mile—*1:10 4-5, W. W. Windle, Peoria, Sept. 11, 1890. England: 1:12, Coventry, May 21, 1888.

$\frac{3}{4}$ mile—*1:49 2-5, W. W. Windle, Peoria, Sept. 15, 1890.

440 yards—America: 36 2-5s, G. M. Hendee, against time, Springfield, Mass., July 5, 1886.

1 mile—America: *2:15 3-5, W. Windle, against time, Peoria, Ill., Sept. 15, 1890; 2:24 4-5, W. A. Rowe, Springfield, Mass., Oct. 2, 1886. England: 2:31 1-5, R. Howell, against time, Grimsby, Sept. 3, 1889; *2:28 4-5, F. J. Osmond, against time, Paddington, July 15, 1890.

2 miles—America: 5:11, W. A. Rowe, against time, Springfield, Mass., Oct. 14, 1886; 5:21 3-5, W. A. Rowe, Springfield, Mass., Oct. 23, 1885. England: *5:12 1-5, W. A. Illston, against time, Coventry, May 21, 1889, and F. J. Osmond, against time, Paddington, July 15, 1890; 5:20 2-5, H. G. Crocker, Leicester, Aug. 10, 1888. Australia: *5:26 3-5, T. W. Busst, Adelaide Oval, N. S. W., Oct. 6, 1888.

3 miles—America: 7:48 4-5, W. A. Rowe, Springfield, Mass., Oct. 14, 1886; *8:07 2-5, W. A. Rowe, Springfield, Oct. 23, 1885. En-

gland: *8:14 2-5, F. J. Osmond, London, Sept. 8, 1887; 7:59 1-5, H. G. Crocker, Leicester, Aug. 10, 1888. Australia: *7:57 4-5, T. W. Busst, Adelaide Oval, N. S. W., Dec. 28, 1888.

4 miles—America: 10:41 2-5, W. A. Rowe, against time, Springfield, Mass., Oct. 25, 1886; *11:11 3-5, A. B. Rich, against time, Peoria, Ill., Sept. 15, 1890. England: 11:05 2-5, F. J. Osmond, London, Sept. 8, 1887; 11:05 2-5, H. G. Crocker, Leicester, Aug. 10, 1887.

5 miles—America: 13:23 4-5, W. A. Rowe, Springfield, Mass., Oct. 25, 1886; *13:51 3-5, A. B. Rich, against time, Peoria, Ill., Sept. 15, 1890. England: *13:53 4-5, F. J. B. Archer, against time, Paddington, Sept. 6, 1890; 13:27, H. G. Crocker, Leicester, Aug. 10, 1888.

10 miles—America: *Professional*—10m., 27:07 1-5, W. A. Rowe, Springfield, Mass., Oct. 25, 1886. *Amateur*—10m., 28:37 4-5, W. A. Rowe, against time, Springfield, Mass., Oct. 19, 1885. England: **Professional*—10m., 27:08, H. G. Crocker, Leicester, Aug. 10, 1888. *Amateur*—10m., 28:04 3-5, F. J. Osmond, London, Sept. 8, 1887. Australia: 10 m., 28:45 1-5, J. Hogan, Adelaide, N. S. W., April 23, 1889; *28:53 3-5, R. Davis, Adelaide, Oct. 6, 1888.

25 miles—America: *Professional*—25m., 1:14:23 1-5, F. F. Ives, against time, Springfield, Oct. 9, 1886. *Amateur*—25m., 1:19:36 3-5, F. F. Ives, against time, Springfield, Mass., Oct. 9, 1885. England: *Professional*—25m., 1:10:34 4-5, J. Dubois, Coventry, Aug. 25, 1887. *Amateur*—25m., 1:13:49 3-5, P. Furnivall, Surbiton, Sept. 22, 1887.

50 miles—America: *Professional*—50m., 2:55:38 3-5, Samuel G. Whittaker, St. Louis, Mo., Nov. 26, 1885. England: *Amateur*—50m., 2:33:37 2-5, J. H. Adams, July 25, 1889. *Professional*—50m., 2:29:41, W. F. Knapp, against time, Leicester, Aug. 14, 1888.

100 miles—Great Britain: *Amateur*—100m., 5:50:05 2-5, F. R. Fry, London, Eng., July 27, 1883. *Professional*—100m., 5:55:21, W. F. Knapp, against time, Leicester, Eng., July 17, 1888. In a race under cover in Edinburgh, Scotland, May 7, 1880, G. W. Waller beat the foregoing for each mile from 80 up, riding 100 miles in 5:51:07. America: *Professional*—100m., 5:38:44 1-5, F. E. Dingley, Lynn, Mass., Sept. 22, 1887. *Amateur*—100m., 6:25:30, F. F. Ives, Springfield, Mass., Oct. 10, 1885. June 7, 1890, F. Ed Spooner of Chicago established a new world's record, indoor, for 100 miles in 5:39:53 4-5.

105 to 350 $\frac{1}{2}$ miles—105m., 6:21:25; 120m., 7:22:48; 130m., 8:04:55; 140m., 8:44:37; 150m., 9:24:32; 160 m., 10:06:45; 170m., 10:48:53; 180m., 11:28:08; 190m., 12:13:22; 200 m., 12:56:50; 220m., 14:38:52; 250m., 16:39:42; 290m., 17:23:37; 270 m., 18:05:10; 280m., 18:44:15; 290m., 19:32:35; 300m., 20:16:12; 310m., 21:03:10; 320 m., 21:45:25; 330m., 22:30:35; 340m., 23:15:25; 350m., 23:58:18; 350 $\frac{1}{2}$ m., 23:59:58, Frank E. Dingley, Minneapolis, Minn., Dec. 9, 10, 1887.

DISTANCE BY HOURS.

Greatest distance ridden in one hour—America: 22m. 150yds, W. A. Rowe, against time, Springfield, Mass., Oct. 25, 1886. *20m., 1:01yds, W. A. Rowe, against time, Springfield, Mass., Oct. 19, 1885. England: 21m. 48yds, J. Dubois, Coventry, Aug. 25, 1887. *20m. 67yds, P. Furnivall, Surbiton, Sept. 22, 1887. Two hours—America: Over 39 $\frac{1}{2}$ m., F. F. Ives, Springfield, Mass., Oct. 9, 1886. England: 40m. 340yds, W. F. Knapp, Aug. 16, 1888; *37m. 1,420yds, C. Potter, Surbiton, Eng., Sept. 24, 1887. Three hours: Over 54 $\frac{1}{2}$ m., F. F. Ives, Springfield, Mass., Oct. 9, 1886. England: 54m. 57yds, J. H. Adams, Aug. 22, 1888. Twenty-four hours, 302m., F. E. Spooner, 1891. Twenty-two hours, 12hrs. daily—America: 1,042yds., J. S. Prince, Minneapolis, Minn., May 10-15, 1886; 1,073 miles, J. S. Prince and Louise Armaindo, alternat-

ing hourly, San Francisco, Cal., April 15-20, 1884, England: 1,007m. 1.22yds. F. Lees, Middlesborough, Oct. 2, 1889. Eighty-four hours, 14hrs. daily—1,131m. 842yds. George Edlin, Newcastle, Eng., June 22-23, 1890.

SAFETY BICYCLE.

$\frac{1}{4}$ mile—England: *3:15-58, Bedwin Paddington, May 9, 1891; 36s., S. G. Whittaker, against time, Long Eaton, Aug. 3, 1888; *5:25-58, A. J. Sheen, Cardiff, Wales, Oct. 19, 1889. America: *2:45-58, G. M. Warden, J. W. Schaefer, A. A. Zimmerman, Hartford, Sept. 8 and 9, 1891; *3:38, W. C. Thorne and G. K. B. Rockfire, July 4, 1891; *3:48, W. F. Gassler, against time, Hartford, Conn., July 11, 1890; 43s., R. Howell, Springfield, Mass., Sept. 25, 1885.

$\frac{1}{2}$ mile—England: *1:07 2-5, J. Osmond, July 31, 1891; 1:13 1-5, A. P. Engleheart, Coventry, June 13, 1888; *1:13 5-5, E. Letch, against time, Paddington, June 17, 1890. America: *1:04 3-5, W. W. Windle, Springfield, Oct. 17, 1891; 1:11 3-5, W. F. Murphy, Springfield, Sept. 2, 1891; *1:13 1-5, P. J. Berlo, against time, Sept. 15, and C. E. Kluge, against time, Sept. 16, 1890, Peoria, Ill.; 1:22, R. Howell, Springfield, Mass., Sept. 25, 1885.

$\frac{3}{4}$ mile—England: 1:53 3-5, F. W. Allard, Coventry, May 12, 1888; *1:52 4-5, R. J. Meeredy, Paddington, July 9, 1890. America: *1:38 3-5, W. W. Windle, Springfield, Oct. 17, 1891; 1:41, same place; 2:01 3-5, R. Howell, Springfield, Mass., Sept. 25, 1885; *1:51 P. J. Berlo, against time, Sept. 15, and C. E. Kluge, against time, Sept. 16, 1890, Peoria, Ill.

1 mile—America: *2:15, W. W. Windle, against time, Springfield, Mass., Oct. 17, 1891; *2:30, P. J. Berlo, against time, Peoria, Ill., Sept. 15, 1890; *2:43, R. Howell, Springfield, Mass., Sept. 25, 1885. England: *2:16, F. J. Osmond, against time, Home Hill, July 13, 1891; 2:31 4-5, S. J. Whittaker, Long Eaton, Sept. 18, 1888; *2:36 1-5, W. Price, Paddington, Aug. 30, 1889.

2 miles—America: *4:49 $\frac{1}{2}$, A. B. Rich, Springfield, Mass., Oct. 10, 1891; *5:46 3-5, A. P. Engleheart, Springfield, Mass., Sept. 10, 1885; 5:55 2-5, R. Howell, Springfield, Mass., Sept. 8, 1885. England: 5:15 2-5, S. G. Whittaker, Long Eaton, Sept. 11, 1888; *5:20 3-5, W. Price, Paddington, July 22, 1890.

3 miles—America: *7:49 2-5, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891.

4 miles—America: *10:27, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891.

5 miles—America: *12:53 4-5, A. A. Zimmerman, Peoria, Ill., Sept. 22, 1891; *13:51 3-5, A. B. Rich, against time, Peoria, Ill., Sept. 15, 1890.

10 miles—America: *26:46 3-5, C. W. Dorntge, Peoria, Ill., Sept. 23, 1891; 37:30, T. W. Eck, Minneapolis, Dec. 10, 1887. England: 27:05 2-5, S. G. Whittaker, against time, Long Eaton, Sept. 11, 1888; *27:35 3-5, H. E. Laurie, against time, Paddington, June 18, 1890.

20 miles—America: *53 56 2-5, C. W. Dorntge, Peoria, Ill., Sept. 23, 1891.

25 miles—Professional: 25m., 1:11:05 1-5, S. G. Whittaker, against time, Long Eaton, Eng., Sept. 18, 1888. Amateur: 25m., 1:14:37 1-5, J. E. L. Bates, Paddington, July 30, 1889.

25 to 50 miles—England: Professional—25m., 1:15:23 2-5, S. G. Whittaker, against time; 30m., 1:28:29, E. Oxborrow, against time, Coventry, Eng., Sept. 12, 1888. Amateur—25m., 1:17:39 4-5; 30m., 1:30:34; 40m., 2:05:56 4-5; J. E. L. Bates, London, July 30, 1889; 50m., 2:41 47, R. A. Lloyd, against time, Paddington, July 31, 1890. America: 25 miles, 1:39:12; 40m., 2:37:28; 45m., 2:58:43; 50m., 3:18:50, Thos. W. Eck, Minneapolis, Minn., Dec. 10, 1887.

One hour—21 miles 12yds, S. G. Whittaker, roadster safety, Bordeaux, France, Aug. 15,

1888; *21 miles 100 yds, H. E. Laurie, England, Aug. 31, 1888. Two hours—*37 miles 910 yds, J. H. Adams, England, Aug. 28, 1889.

TANDEM SAFETY BICYCLE.

440 yards—*40 2-58, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

580 yards—*1:15 1-5, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

1,320 yards—*1:58 3-5, S. E. Williams and E. E. Glover, against time, Paddington, Eng., Sept. 20, 1890.

1 mile—America: *2:27, Hoyland Smith and W. F. Murphy, against time, Peoria, Ill., Sept. 15, 1890. England: *2:40, S. E. Williams and E. E. Glover, against time, Paddington, Sept. 20, 1890.

$\frac{1}{4}$ miles—*3:55 1-5, Bert Myers and L. Masi, against time, Peoria, Ill., Sept. 16, 1890.

2 miles—America, *5:15 3-5, Bert Myers and L. Masi, against time, Peoria, Ill., Sept. 16, 1890. England: *5:37 2-5, E. B. Turner and Scheltema-Beduin, Paddington, Aug. 30, 1889.

3 miles—England: *8:30 2-5, R. A. Lloyd and E. E. Glover, Paddington, Sept. 4, 1890. America: *9:47 4-5, A. A. Zimmerman and S. B. Bowman, Bergen Point, N. J., May 31, 1890.

4 miles—*11:16 1-5, R. A. Lloyd and E. E. Glover, against time, Paddington, Eng., Sept. 4, 1890.

5 to 10 miles—England: 5 miles, *14:02 2-5; 10m., 28:24 4-5, R. A. Lloyd and E. E. Glover, Paddington, Sept. 4, 1890; 15m., 46:43; 20m., 1:02:16 3-5, D. Albone and E. E. Glover, against time, London, Eng., Oct. 15, 1888. America: 5 miles, *14:05, W. F. and C. A. Murphy, Syracuse, N. Y., Sept. 2, 1890.

TANDEM ROAD RIDING.

30 miles—*1:59:00, D. Albone and R. Tingey, safety, Great North Road, Eng., Oct. 9, 1888.

50 miles—*2:40:34, P. C. Wilson and E. Dangerfield, safety Great North Road, Eng., Aug. 18, 1890.

100 miles—*6:57:32, S. F. Edge and G. L. Morris, Great North Road, Eng., Oct. 25, 1887.

TRAP-SHOOTING.

100 single pigeons killed in succession, A. L. Fulford, 28yds rise (10-gauge gun), Marion, N. J., Nov. 17, 1891. Al. Bandle, Hurlingham rules (except 10-gauge gun), 5 ground traps, 30yds rise, using fence (80yds.) for boundary, Cincinnati, O., Dec. 25, 1888.—99 pigeons killed out of 100, single, A. H. Bogardus, 30yds rise, 80yds fall, 5 ground traps, Coney Island, July 2, 1890. 99 killed out of 100 single, A. L. Fulford, Marion, N. J., Nov. 17; same manner and same time and place, J. L. Brown.

94 pigeons killed out of 50 pairs, John Taylor, match, Greenville, N. J., Nov. 23, 1895.

40 birds out of 50, single, 23yds, Miss Annie Oakley, Gloucester, N. J., July 30, 1888.

223 pigeons killed out of 250, A. L. Fulford, Woodlawn Park, N. Y., Dec. 12, 1891.

186 inanimate targets broken in succession, Rolla O. Helkes, Corry, Pa., Aug. 20, 1890.

300 glass balls broken in succession, A. H. Bogardus, Lincoln, Ill., July 4, 1877.

500 glass balls broken in 24m. 28. out of 514, J. C. Haskell, two traps, 12ft apart, Hyde—Lynn, Mass., May 30, 1881.

501 clay pigeons broken in 34m. 7s. out of 543, A. H. Bogardus, loading his own guns, one bird sprung at a time and thrown fair from three to ten feet above the ground, several traps; 444 pigeons in 30m.—Cincinnati, O., April 15, 1882.

990 glass balls broken out of 1,000 shot at, A. H. Bogardus, 3 traps, 11yds—Bradford, Pa., Nov. 20, 1879.

1,000 glass balls broken in 1h. 1m. 54s., A. H. Bogardus, loading himself, changing barrels at end of every hundred, 15yds. two traps, 12 ft apart—N. Y. City, Dec. 20, 1879.
 In 1h. 6m. 58s., A. H. Bogardus, three guns, two traps, 15 yds—London, Eng., June 26, 1878.
 1,003 bats killed out of 1,200, in 1h. 11m., Dr. W. F. Carver, four guns, loading himself, bats thrown up in pairs—New Orleans, La., March 9, 1884.
 5,500 glass balls broken in 7h. 19m. 2s., out of 5,854 shot at—A. H. Bogardus, 15yds, two traps, 12 ft apart, changing barrels about 54 times. He broke 1,500 balls in 1h. 37m. 20s., 2,000 in 2h. 14m. 43s., 3,000 in 3h. 34m. 40s., 3,500 in 4h. 10m. 16s., 4,000 in 4h. 48m. 43s., 4,500 in 5h. 32m. 45s., and 5,000 in 6h. 22m. 30s.—N. Y. City, Dec. 20, 1879. In 7h. 30m. 30s., out of 6,222 shot at, W. F. Carver, Winchester repeating rifles, assistants loading—Brooklyn, N. Y., July 13, 1878.
 64,017 balls broken with rifle between 6:30 a. m. Sept. 7 and 5:30 p. m. Sept. 12, 1889—B. A. Bartlett, International Fair, Buffalo, N. Y.
 60,000 wooden balls hit out of 60,670 shot at—W. F. Carver, Minneapolis, Minn., Dec 24 to 30, 1888.

OCEAN STEAMSHIPS.

Queenstown to New York—5d. 16h. 31m., mean time, Teutonic, White Star line; sailed 2:05 p. m. Aug. 13, arrived 1:33 a. m. Aug 19, 1891. Time computed from Roche's Point (Daunt's Rock lightship) to Sandy Hook lightship, adding 5h. for difference in time. *Fastest ocean passage.*
 New York to Queenstown—5d. 21h. 3m., mean time, Teutonic, White Star line; sailed 8:30 a. m. Oct. 21, arrived 12:33 p. m. Oct. 27, 1891. Computed from bar off Sandy Hook to Roche's Point, deducting 4h. 35m. for difference. *Fastest eastward passage.*

RAILROADING.

1 mile—39 4/5s., Pennsylvania & Reading railroad, Aug. 27, 1891; 50 4/5s., during run of special train from West Philadelphia to Jersey City Sept. 4, 1879.
 2.1 miles—1m. 30s., engine 366 and an ordinary day coach, P. & R. R., Ardley to Trenton Junction, N. J., March 10, 1890.
 2.9 miles—2m. engine 366 and an ordinary day coach, P. & R. R. R., Somerton to Neshoay Falls, N. J., March 10, 1890.
 3.1 miles—2m., engine, two parlor cars and dining-room car, P. R. R., Aberdeen to Perryman's, N. J., March 10, 1890.
 4.1 miles—3m., engine 366 and an ordinary day coach, P. & R. R. R., Skillman to Belle Mead, N. J., March 10, 1890.
 6.1 miles—4m. 30s., engine 366 and an ordinary day coach, P. & R. R. R., Bethayres to Neshoay Falls, N. J., March 10, 1890.
 10 miles—6m. 38s., Skillman to Weston, N. J., engine 366 and one ordinary day coach, P. & R. R. R., March 10, 1890.
 14 miles—11m., locomotive Hamilton Davis and six cars, N. Y. Central R. R., 1885.
 18 miles—15m., special train conveying the Duke of Wellington, Paddington to Slough, Eng.
 27.1 miles—26m., special extra 953 and two cars, Pennsylvania R. R., Morrisville to Germantown Junction, Pa., May 6, 1885.
 36.7 miles—34m., special extra 953 and two cars, Pennsylvania R. R., Rahway to Trenton, N. J., May 6, 1885.
 44 miles—43m. 30s., special train conveying newspaper correspondents, last 15 1/2 miles in 14m., Washington Junction to Washington, D. C., June 10, 1884.
 53 1/2 miles—47m., broad-gauge engine Great Britain, 4 carriages and vans, Paddington to Didcot, Eng., May 11, 1849.

54.9 miles—49m. 30s., engine 366 and one ordinary day coach, P. & R. R. R., Wayne Junction, Pa., to Bound Brook, N. J., March 10, 1890.
 59.2 miles—56m., engine 366 and one ordinary day coach, P. & R. R. R., Philadelphia (Ninth and Green streets) to Bound Brook, N. J., March 10, 1890.
 59.4 miles—91m. (actual running time 85m.), special train, engine 366 and one ordinary day coach, P. & R. R. R., Ninth and Green streets, Philadelphia, to Jersey City, N. J., March 10, 1890.
 90 miles—1h. 37m. (actual running time 90m.), special extra 953 and two cars, Pennsylvania R. R., Jersey City to Broad Street Station, Philadelphia, May 6, 1885; 1h. 47m., train 19, engine 733 and six cars, two regular stops, Jersey City, N. J., to Broad street, Philadelphia, Feb. 12, 1889.
 111 miles—95m., Fontaine engine and two coaches, Amherstburg to St. Thomas, Canada, May 5, 1881; 109m., locomotive, baggage car, one coach and one Pullman palace car, St. Thomas to Amherstburg, Sept. 13, 1877.
 118 miles—120m., engine No. 10, special palace car; 17m. (Welland to Victoria), in 14 1/2m.; St. Thomas to Victoria, Canada, 153m., Fontaine engine and two coaches, in 25m., St. Thomas to Victoria, May 5, 1881. The schedule time from London to Bristol, Eng., 118 1/2 miles, by the train known as "The Flying Dutchman," is 12m.
 157.74 miles—165m., special train, Niagara Falls to Syracuse, N. Y., March 1, 1876. 158 miles in 178m., West Coast Flyer, London to Crewe, Eng., Aug. 6, 1888.
 228.9 miles—4h. 18m., including stops. A. M. Palmer's special theater train, two parlor cars and a Pullman dining car, Pennsylvania R. R., Jersey City to Washington, D. C., March 10, 1890. Made return trip same day in 4h. 19m.
 400 miles—7h 25m., West Coast Flyer, London to Edinburgh, Scotland, Aug. 6, 1888.
 436 1/4 miles—New York to Buffalo, New York Central & Hudson River railroad (actual running time), 7h. 49m., Sept. 14, 1891. This is the most wonderful run on record. The train consisted of engine No. 870, weight 100 tons; private car No. 347, weight 85,600 lbs.; Wagner Palace Car company's private cars Traveler, weight 77,900 lbs., and Mariquita, weight 93,600 lbs. Total weight of train, 230 tons, about equal to that of an ordinary passenger train of five cars. The run from New York to Albany, 143 miles, which was made without stop, occupied 140m.; the distance from Albany to Syracuse, 148 miles, was covered in 146m., and that from Syracuse to East Buffalo, 146 miles, in 147m. 34s. The change of engines at Albany required 3m. 28s., the change at Syracuse 2m. 58s., and a hot journal at Fairport occasioned a delay of 7m. 50s. The gross time of the trip from New York to East Buffalo, 436 1/4 miles, was 4:39m. (7h. 49m.), including all stops, while the actual running time, exclusive of all stops, was 425m. 44s. (7h. 41m. 10s.) for the 436 1/4 miles. An accurate schedule of the time between stations was kept by a disinterested party. The 4.08 miles between Kirkville and Chittenango were made in 3m. 34s., or at the rate of 68.63 miles an hour. The 5.37 miles between West Batavia and Corfu were made in 4m. 20s.; a speed of 74.35 miles an hour. The run from Forks to East Buffalo, 3.25 miles, was made in 2m. 36s., a rate of 75 miles an hour.
 813 miles—23h. (actual running time, 19h. 30m.), special train conveying Washington newspaper correspondents from convention, Chicago, Ill., to Washington, D. C., June 7, 8, 1884.

Jersey City to San Francisco, Cal., 83h. 39m. 16s. Jarrett & Palmer's train, combination passenger, mail and baggage car and Pullman hotel car, June 1 to 4, 1876. No stop between Jersey City and Pittsburg, Pa.

ISELLANEUS.

BASE BALL.

Largest number of innings played, 24, Harvard vs. Manchester, Boston, Mass., May 11, 1877.

Quickest played game, 47m., Dayton vs. Ironton, Dayton, O., Sept. 19, 1884.

Greatest distance ball thrown, 133yds. 1ft. 7 1/2in., John Hatfield, Brooklyn, N. Y., Oct. 15, 1872.

Largest number of games played by a club in any one season, 188, by the Detroit club, from March 11 to Oct. 25 inclusive, 1887.

Largest number of games ever credited to a player in any one season, 184, by S. L. Thompson of the Detroit club in 1887.

FOOT BALL.

Highest score: England—17 goals to 0, Nottingham Foresters, match, Derbyshire, March 30, 1881. America: 154 points to 0, Harvard College, match with Exeter, Exeter, Mass., Nov. 3, 1886.

H. A. F. Chambers dribbled the ball around the hurdle forming the 120yds. hurdle course in 44 1/2s., Finchley, Eng., May 18, 1878.

Place kick, with a run—20ft. 8in., Wm. P. Chadwick, Exeter, N. H., Nov. 29, 1886. *187ft. 10in., R. Young, Glasgow, Scotland, July 2, 1881. 174ft., S. Pritchard, Brisbane, Australia, October, 1882; S. Bruton, aged 14 years, placed 13 goals out of 14 attempts, Leatherhead, Eng., March, 1884.

Drop kick—172ft. 8in., F. Hardgrave, Queen's Park, Brisbane, Australia, October, 1882. *161 ft. 9in., M. Cooper, Cambridge University, Cambridge, Eng., Nov. 21, 1881. *168ft 7 1/2in., J. E. Duffy, Ann Arbor, Mich., May 22, 1886.

TYPE-WRITING.

John S. Cass, memorized sentences, 145 words in one minute; same, blindfolded, 136 words in one minute; new matter from dictator, 116 words per minute; on Remington type writer; accurate work; at Peoria, Ill., Nov. 14, 1881.

Miss Mae E. Orr, writing five minutes each on legal testimony and ordinary correspondence, wrote 987 words, averaging nearly 99 words per minute—Toronto, Can., Aug. 13, 1888.

8,709 words in 1h. 30m.; 4,294, or 95.55 per minute from dictation, and 4,415, or 93.11 per minute, from copy, 45m. each; Frank E. McGurkin, Cincinnati, O., July 25, 1888.

SHORTHAND.

Isaac S. Dement, writing one minute on new matter, at Clear Lake, Iowa, on July 22, 1890, 309 words and read his notes accurately.

Same conditions, at Dayton, Ohio, Aug. 26, 1890, 315 words.

In a private test at same place and same conditions, on Aug. 29, 1891, 347 words with perfect accuracy.

Same conditions, at Chicago, Oct. 4, 1891, 350 words.

BASE BALL, 1891.

It was not a successful season financially in base ball. The National league championship season closed Oct. 6. For the first time in the history of the organization the award of the pennant was contested. A meeting of the club presidents held in New York awarded the championship to Boston. Chicago contested the decision on the ground that the last series of five games between New York and Boston was played with a preconcerted determination that the Bostonians should win.

The standing of clubs at the close of the season was as follows:

NATIONAL LEAGUE.

Clubs.	Won.	Lost.	P.ct.
Boston.....	57	51	630
Chicago.....	52	53	607
New York.....	71	61	538
Philadelphia.....	68	69	495
Cleveland.....	65	74	468
Brooklyn.....	61	76	445
Cincinnati.....	56	81	409
Pittsburg.....	55	80	407

AMERICAN ASSOCIATION.

Clu's.	Won.	Lost.	P.ct.
Boston.....	53	42	689
St. Louis.....	55	52	620
Athletics.....	73	65	525
Baltimore.....	69	64	519
Milwaukee.....	64	72	471
Columbus.....	61	76	445
Louisville.....	55	84	396
Washington.....	44	88	333

The most remarkable game played during the year was that between Chicago and New York on Aug. 31. Eleven innings were finished without a run having been scored by either team. The pitchers were Hutchison and Rusie.

At a meeting held in Indianapolis in December the National league and the American association were consolidated into one organization under the name of the National League and American Association of Base Ball Clubs. Twelve clubs compose the circuit: Boston, New York, Brooklyn, Philadelphia, Baltimore, Washington, Chicago, Cleveland, St. Louis, Louisville, Cincinnati and Pittsburg. This ended a strife that had lasted two years and was believed to be the most important movement made in base ball since the organization of the National league.

IRISH AFFAIRS.

The close of the year 1890 left the political affairs of Ireland in an extremely chaotic condition. The O'Shea scandal had become public property in November of that year. On its authentication Mr. Gladstone, the English liberal leader, issued a pronouncement to the effect that it would be impossible for the party which he represented to act in accord with the nationalists of Ireland so long as Mr. Parnell continued to be their leader.

This called out a long and remarkable manifesto from Mr. Parnell to the people of Ireland. It was meeting the Gladstonian controlment with controlment at least as determined. Mr. Parnell declined, with his usual unyielding coolness, to regard the Irish party

as in any sense under the orders of Mr. Gladstone. In case of need he proposed to appeal from the dictum of the liberal, and even of the Irish, party to the Irish people. Mr. Gladstone was backed by Mr. Morley in his demands for the retirement of Mr. Parnell.

Probably at no time in the history of Anglo-Irish political relations did excitement run so high as when the parties to this remarkable contention joined issue. Not even the marriage of Mr. Parnell to Mrs. O'Shea, which took place June 25, 1891, availed to heal the factional breach.

Meanwhile the entrance into the dispute of the Irish catholic hierarchy and the inferior clergy, under the lead of Archbishop Walsh

of Dublin, so intensified the contention that Mr. Parnell soon found himself deserted by the majority of the Irish members of parliament.

The factional contest which ensued was carried on in a series of meetings held in one of the committee-rooms of the house of commons. Mr. Parnell led his followers in person and fought with what is called "a courage worthy of a better cause." No politician ever before made so determined and desperate a fight under such overwhelmingly adverse circumstances.

During the contest Mr. Parnell rallied many of the doubtfuls to his side; applied stinging taunts to the mild rebukes of Mr. Justin McCarthy; many times forced Mr. Healy to a withdrawal; on several occasions right cleverly pricked Mr. Sexton; in the end, however, all to no purpose.

It was the opportunity of Mr. Parnell's personal opponents and they eagerly availed themselves of it. Col. Nolan, one of Mr. Parnell's friends, moved to transfer the debate to Dublin. The motion was decided against the Irish leader by a vote of 44 to 29. This may be said to have been decisive of his fate, for had he succeeded in taking his appeal to Dublin later events go far to prove he would have been able to overcome his opponents.

During the progress of this contest Mr. Parnell agreed to resign if Mr. Gladstone would give definite pledges on the subject of the constabulary and the land courts. Such pledges were peremptorily refused. The final outcome of the contention has been the breaking of the Irish nationalists into two fragments, which have ever since waged a most relentless warfare one upon the other.

It was supposed that Mr. Parnell's sudden demise, which took place early in October and within a day or two of the death of Sir John Pope Hennessy, who had been one of his opponents, would modify the feelings of the Irish factions toward each other. Yet such has not been the case. On the contrary, the bitterness of hatred with which they regard each other has been greatly intensified by their struggles at three or four bye-elections in which the anti-Parnellites have been invariably successful.

In the meantime, the conservative government, under the skillful lead of Mr. Arthur J. Balfour, has taken the opportunity of the rupture of the nationalists to pass three or four ameliorative Irish measures. These are an Irish land bill, a measure for the construction of light railways and a bill for the purchase of seed potatoes. These measures have had a good effect. The money in the savings banks of the country has increased. The tenants seem to be better satisfied with their condition and prospects. What is called boycotting has almost wholly ceased. At the same time the landlords and tenants are having much less contention than ever before. Finally, the conservative cabinet is pledged to a local government measure, which they propose as an alternative to Mr. Gladstone's home-rule bill, and which is to be pressed at the coming session of parliament. On the other hand, at latest dates Messrs. Gladstone and Morley are said to be preparing a new home-rule bill, which is to be offered in the form of an amendment to the address, in answer to the queen's speech, at the session of parliament which commences in February, 1892.

POPULAR VOTE

For presidential candidates from 1824 to and including 1888. Prior to 1824 electors were chosen by the legislatures of the different states.

1824—J. Q. Adams had 105,321 to 155,872 for Jackson, 44,282 for Crawford, and 46,587 for Clay. Jackson over Adams, 50,551. Adams less than combined vote of others, 140,839. Of the whole vote Adams had 29.92 per cent, Jackson 44.27, Clay 13.23, Crawford 13.23. Adams elected by House of Representatives.

1828—Jackson had 647,231 to 509,097 for J. Q. Adams. Jackson's majority, 138,134. Of the whole vote Jackson had 55.97 per cent, Adams 44.03.

1832—Jackson had 687,502 to 530,189 for Clay, and 33,108 for Floyd and Wirt combined. Jackson's majority, 124,205. Of the whole vote Jackson had 54.36 per cent, Clay 42.33, and the others combined 2.65.

1836—Van Buren had 761,549 to 736,656, the combined vote for Harrison, White, Webster, and Maguin. Van Buren's majority, 24,893. Of the whole vote Van Buren had 50.83 per cent, and the others combined 49.17.

1840—Harrison had 1,275,017 to 1,128,702 for Van Buren, and 7,059 for Birney. Harrison's majority, 139,256. Of the whole vote Harrison had 52.89 per cent, Van Buren 46.82, and Birney .29.

1844—Polk had 1,337,243 to 1,239,068 for Clay and 62,300 for Birney. Polk over Clay, 38,175. Polk less than others combined, 24,125. Of the whole vote Polk had 49.55 per cent, Clay 48.14, and Birney 2.21.

1848—Taylor had 1,360,101 to 1,230,544 for Cass, and 291,233 for Van Buren. Taylor over Cass, 139,577. Taylor less than others combined, 151,706. Of the whole vote Taylor had 47.36 per cent, Cass 42.50, and Van Buren 10.14.

1852—Pierce had 1,601,474 to 1,386,578 for Scott, and 156,149 for Hale. Pierce over all, 58,747. Of the whole vote Pierce had 50.90 per cent, Scott 44.10, and Hale 4.97.

1856—Buchanan had 1,838,169 to 1,341,264 for Fremont, and 874,534 for Fillmore. Buchanan over Fremont, 466,905. Buchanan less than combined vote of others, 377,629. Of the whole vote Buchanan had 45.34 per cent, Fremont 33.09, and Fillmore 21.57.

1860—Lincoln had 1,836,352 to 1,375,157 for Douglas, 845,763 for Breckinridge, and 589,581 for Bell. Lincoln over Breckinridge, 491,195. Lincoln less than Douglas and Breckinridge combined, 354,568. Lincoln less than combined vote of all others, 944,149. Of the whole vote Lincoln had 39.91 per cent, Douglas 29.40, Breckinridge 18.08, and Bell 12.61.

1864—Lincoln had 2,216,067 to 1,808,725 for McClellan (eleven states not voting, viz.: Alabama, Arkansas, Florida, Georgia, Louisiana,

Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia). Lincoln's majority, 408,342. Of the whole vote Lincoln had 55.06 per cent and McClellan 44.94.

1868—Grant had 3,015,071 to 2,709,613 for Seymour (three states not voting, viz.: Mississippi, Texas and Virginia). Grant's majority, 305,458. Of the whole vote Grant had 52.67 per cent and Seymour 47.33.

1872—Grant had 3,597,070 to 2,834,079 for Greeley, 29,408 for O'Connor, and 5,608 for Black. Grant's majority, 729,975. Of the whole vote Grant had 55.63 per cent, Greeley 43.83, O'Connor .15, Black .03.

1876—Hayes had 4,033,950 to 4,284,885 for Tilden, 81,740 for Cooper, 9,522 for Smith, and 2,636 scattering. Tilden's majority over Hayes, 250,935. Tilden's majority of the entire vote cast, 157,037. Hayes less than the combined vote of others, 344,833. Of the whole vote cast Hayes had 47.95 per cent, Tilden 50.94, Cooper .97, Smith .11, scattering .03.

1880—Garfield had 4,449,053 to 4,442,035 for Hancock, 307,306 for Weaver, and 12,576 scattering. Garfield over Hancock, 7,018. Garfield less than the combined vote for others, 313,864. Of the popular vote Garfield had 48.26 per cent, Hancock 48.25, Weaver 3.33, scattering .13.

1884—Cleveland had 4,874,986 to 4,851,981 for Blaine, 150,369 for St. John, 173,370 for Butler. Cleveland had over Blaine 23,005. Cleveland had 48.48 per cent, Blaine 48.22, St. John 1.49, Butler 1.74.

1888—Harrison had 5,441,902 to 5,538,560 for Cleveland, 249,937 for Fisk, 147,521 for Streeter, 3,073 for Cowdrey, 1,591 for Curtis, and 9,845 scattering. Harrison had 96.658 less than Cleveland. Of the whole vote Harrison had 47.83 per cent, Cleveland 48.63 per cent, Fisk 2.21 per cent, and Streeter 1.30 per cent.

Of the presidents, Adams, Federalist; Polk, Buchanan, and Cleveland, Democrats; Taylor, Whig; Lincoln, Hayes, Garfield, and Harrison, Republicans, did not, when elected, receive a majority of the popular vote. The highest percentage of popular vote received by any President was 55.97 for Jackson, Democrat, in 1828, and the lowest 39.91 for Lincoln, Republican, in 1860; Harrison, Republican, next lowest, with 47.83. Hayes and Harrison, with the exception of John Quincy Adams, who was chosen by the house of representatives, were the only Presidents ever elected who did not have a majority over their principal competitors, and Tilden and Cleveland the only defeated candidates who had a majority over the President-elect.

RATES OF POSTAGE.

LETTERS.—Prepaid by stamps, 2 cents each ounce or fraction thereof to all parts of the United States and Canada; forwarded to another postoffice without charge on request of the person addressed; if not called for, returned to the writer free, if indorsed with that request. If the stamp is omitted the letter is forwarded to the Dead-Letter office and returned to the writer. For registering letters the charge is 10 cents additional. Drop letters at letter-carrier offices, 2 cents per ounce or fraction thereof, at other offices, 1 cent per ounce or fraction thereof. On insufficiently prepaid matter mailed in Canada, 3 cents per $\frac{1}{2}$ ounce or fraction thereof. Stamped postal cards, furnished only by government, 1 cent each; if anything except a printed address slip is pasted on a postal card, or anything but the address written on

the face, letter postage is charged. Postage on all newspapers and periodicals sent from newspaper offices to any part of the United States, to regular subscribers, must be paid in advance at the office of mailing.

SECOND-CLASS MATTER.—Periodicals issued at regular intervals, at least four times a year, and having a regular list of subscribers, with supplement, sample copies, 1 cent a pound; periodicals, other than weekly, if delivered by letter-carrier, 1 cent each; if over 2 ounces, 2 cents each. When sent by other than publishers, for 4 ounces or less, 1 cent.

THIRD-CLASS MATTER (not exceeding 4 pounds).—Printed matter, books, proof-sheets, corrected or uncorrected, unsealed circulars, inclosed so as to admit of easy in-

spection without cutting cords or wrappers, 1 cent for each 2 ounces.

FOURTH-CLASS MATTER.—Not exceeding 4 pounds, embracing merchandise and samples, excluding liquids, poisons, greasy, inflammable, or explosive articles, live animals, insects, etc., 1 cent an ounce. Postage to Canada and British North American states, 2 cents per ounce; must be prepaid; otherwise, 6 cents.

POSTAGE RATES TO FOREIGN COUNTRIES.—To the countries and colonies which, with the United States, comprise the Universal Postal Union, the rates of postage are as follows: Letters, per 15 grams ($\frac{1}{2}$ ounce), prepayment optional, 5 cents; postal cards, each, 2 cents; newspapers and other printed matter, per 2 ounces, 1 cent. Commercial papers—First 10 ounces or fraction thereof, 5 cents; every additional 2 ounces, 1 cent. Samples of merchandise—First 4 ounces, 2 cents; every additional 2 ounces, 1 cent. Registration fee on letters or other articles, 10 cents. All correspondence other than letters must be prepaid at least partially.

Printed matter other than books received in the mails from abroad under the provisions of postal treaties or conventions is free from customs duty.

Dutiable books forwarded to the United States from the Postal Union are delivered to addressees at postoffices of destination upon payment of the duties levied thereon.

POSTAL MONEY ORDERS.—The limit of a single money order is \$100, instead of \$50, as formerly. The fees charged are as follows:

For orders not exceeding \$10.....	8c
For orders from \$10 to \$15.....	10c
For orders from \$15 to \$30.....	15c
For orders from \$30 to \$40.....	20c
For orders from \$40 to \$50.....	25c
For orders from \$50 to \$70.....	30c
For orders from \$70 to \$80.....	35c
For orders from \$80 to \$100.....	40c

To Switzerland, Germany, Belgium, Portugal, Canada, Newfoundland, Italy, France, Algeria, New South Wales, Victoria, Tasmania, New Zealand, Jamaica: Fees, for not exceeding \$10, 15 cents; \$10 to \$20, 30 cents; \$20 to \$30, 45 cents; \$30 to \$40, 60 cents; \$40 to \$50, 75 cents. To Great Britain and Ireland and adjacent islands: Fees, for not exceeding \$10, 25 cents; \$10 to \$20, 50 cents; \$20 to \$30, 70 cents; \$30 to \$40, 85 cents; \$40 to \$50, \$1. To British India: Fees, for sums not exceeding \$10, 35 cents; not exceeding \$20, 70 cents; not exceeding \$30, \$1; not exceeding \$40, \$1.25; not exceeding \$50, \$1.50.

TRADE, COMMERCE AND MANUFACTURES IN 1891.

Below will be found a series of brief reviews of the general conditions prevailing in various important lines of trade, commerce and manufactures in 1891. The information has been collected from the most trustworthy sources.

BOARD OF TRADE MARKETS.

The business of the year has been greater than that of any other year in the history of Chicago. The year began with highly gratifying commercial prospects. These prospects have been more than realized. In addition to the impetus imparted to every industry and to every citizen by the stupendous preparations for holding the world's fair in this city, and by the determination to make it worthy of America and the chiefest event of the nineteenth century, the crops of the country have been unprecedented in extent and quality. As the year closes the people of this favored land must with devout gratitude exclaim: "He hath not dealt so with any nation!"

We most sincerely deplore the distress caused by short food crops in that vast empire which stood by us with courageous sympathy in our national extremity. Our receipts of grain aggregate over 232,000,000 bushels. Of hogs we have received 820,000, of sheep 2,200,000, and of cattle our average receipts per day number 10,500 (week days). The growing proportions of the meat industry of Chicago are yet scarcely appreciated, though on almost every occasion when Chicago is referred to the stock yards and the business there transacted form a fruitful subject of conversation. During the last year we have shipped of the products of this industry about 2,000,000,000 pounds in the form of cured meats, canned meats, dressed beef and pork. What all this, in addition to the enormous city consumption, means in the city's growth, in the business which feeds transportation lines throughout the union, in all departments of business life the world over, we cannot describe, especially in a limited review of this kind.

This enormous supply has been handled in this market at remunerative prices and has been the source of a general commercial prosperity. The year has been free from any failures of moment. The business of this board has been exceptionally large and satisfactory. Nearly every firm shows a larger business and a more profitable one than it has ever before transacted. Transportation lines by water and by rail have shared in the general prosperity. It has been a year of liquidation of old as well as of new indebtedness, and the murmurings of the farmer because of low prices have been sensibly subdued. The short corn crop of 1890 enabled the agriculturist to maintain high prices, and from 47 cents per bushel on the 20th of January the price was advanced by an urgent and unflagging demand to 75½ cents per bushel in April. The necessarily small reserve accounts for the continued demand, so that, notwithstanding the advent of a crop of 2,400,000,000 bushels and more, high prices prevailed throughout the year.

The conversion of the great agricultural products into cash, without the slow and uncertain circumstances which inevitably attend a credit system of doing business, sets the wheels of industry in motion in all parts of the land; money flows from the board, as the grain and provisions arrive and are shipped to all parts of the world without a moment's delay, to the great western and central states, and merchants in all our cities throughout the union are supplied with funds; the banker's paper is paid at maturity and with the amount not needed for the discharge of obligations new enterprises are inaugu-

rated, bringing additional comforts and luxuries in an inconceivable variety of forms. This means a higher civilization, which finds its expression in splendid charities, in educational endowments, in impulses for noble achievements in individual careers, in quickened ambitions for excellence in science and in all the arts of peace.

The part which boards of trade play in universal enlightenment is profoundly impressive and their effect upon the development of this country and in sustaining its industries was never more apparent than at this time. They marshal the forces of individual capacity, the resources of the field and of the mine; they call forth for the common good the latent forces of mind and of matter and are constantly creating facilities for the saving of time, for reducing expenses in the distribution of merchandise and minimizing risks of business transactions. They study the problems—and solve them—which a keen and educated competition presents. They are conservators, but take a wide outlook in carrying out their purposes; they keep in view not one market, nor one state, nor one country, but plan and legislate for a world-wide commerce.

The year 1893 presents a most opportune occasion for the establishment of an international board of trade, which shall bear the same relation to the great markets of the world that the national board of trade of this country sustains to the markets of the United States. A resolution will be introduced at the next meeting of the national board, to be held in Washington in January, to correspond with foreign boards of trade urging the organization of an international board of trade in Chicago in 1893.

One of the most important events—and significant as well—which occurred in 1891 was the convention held in Detroit with the object of securing congressional aid in deepening the channels in the line of navigation through the lakes, from Duluth to Buffalo, to twenty feet. The commerce on the great lakes is increasing to such an enormous value that this must be done. Transportation lines during the year were taxed to their utmost capacity, and Chicago as a great distributing and manufacturing center has before her a future that shall astonish those of a generation hence, even as we to-day are amazed at her growth during the last generation.

GEORGE F. STONE,

Secretary Chicago Board of Trade.

Chicago, Dec. 31, 1891.

PACKING AND PROVISIONS.

The year 1891 was a fairly profitable and successful one for the packing and provision industries. There was no improvement in the demand for inferior animals, but choice, well-fed cattle found quick sales the entire year at prices ranging from 30 cents to \$1.25 higher than the price paid for like animals in 1890. Cattle prices ranged from \$1 to \$6.40 per 100 pounds. The dressed product was largely marketed throughout the United States, although our exports of fresh beef reached almost 200,000,000 pounds, an increase of about 10 per cent over 1890.

Almost 6,000,000 hogs were slaughtered in Chicago in 1891, and the greater part of the resulting product found a home market, although the export of pork products for the year 1891 exceeded 1,000,000 pounds. The prices for good heavy hogs throughout the entire year have shown a fair advance over the prices of 1890, and throughout the season the demand for such hogs was good.

The provision market during the year was

THE CHICAGO DAILY NEWS

Prints ALL the News. It is a member of the Associated press. Its facilities for newsgathering are unsurpassed by any other Chicago daily.

It is a short-and-to-the point paper. Its matter of all kinds is closely edited, with the view of giving the reader all the news of the day and eliminating the merely trivial and inconsequential. It is designed to be a daily paper for busy people.

It is an independent newspaper. It aims to be fair and impartial in discussing men and measures and to give its readers all political news free from the taint of partisan bias.

It is pre-eminently a family newspaper. It is clean throughout, and, in addition to "all the news" tersely told, every issue contains more or less entertaining matter of a literary and general character of common interest to the family circle.

SOLD BY NEWSDEALERS AND AGENTS

EVERYWHERE IN CHICAGO AND THE NORTHWEST.

free from any unusual or noticeable fluctuations in prices: 1,400,000 sheep were slaughtered in Chicago, an increase of at least 200,000 over the slaughter of the previous year. Prices for good quality were much better than the prices paid in 1890.

There have been many improvements adopted by the progressive packers during the year for the more profitable utilization of different parts of the animal. The manufacture of extract of beef has been brought to the point of perfection, and to-day Chicago beef extract is everywhere known and appreciated. It is but a few years since this new industry was monopolized by South America. In 1891 one of the prominent houses added another industry, the manufacture of pepsin, to the packing business, and has been entirely successful both in its manufacture and in the reception given by the medical profession and by the public.

The prominent events in the packing and provision industries during the year 1891 were the operations begun under the inspection law passed by congress early in the year, and the removal of the restrictions upon the importation of American-cured meats by Germany, France, Italy and Hungary. Under this inspection law the secretary of agriculture is required to have a careful inspection made of all cattle, sheep and swine before the same are slaughtered, and is further authorized to have a post-mortem inspection of the meat made. Under the regulations of the secretary of agriculture the post-mortem inspection has been provided for in such a manner that it conforms largely to the requirements of foreign countries in the premises.

As a result of this system of inspection and of the efforts of the agricultural and state departments the countries named above have removed the restrictions, but have not sufficiently reduced the duty on American meats to make the removal of any immediate apparent benefit. It is a move in the right direction, however, and must eventually result in a largely increased exportation of meat products. The result is very creditable to the present administration.

DRY GOODS.

The dry goods trade the past year has presented many changes and features of special interest, owing largely to the modifications of prior conditions made by the tariff, which affected this branch of industry more than any other. The beginning of the year found practically all lines of dry goods on a firm if not rising market, but notwithstanding the very heavy consumption of goods which has taken place the year closes with cotton goods, carpets, silks and many other lines weak and in buyers' favor. The jobbing business of the country as a whole has been satisfactory, the increase in the transactions of Chicago wholesale houses aggregating from 15 to 20 per cent and a corresponding gain being made by most western jobbing centers.

The business of domestic manufactures has also increased largely, resulting in overproduction in some lines. Many mills which had previously made only flannels and blankets have been turned on woolen dress fabrics and their products otherwise diversified. Excellent silk-warp Henriettas are now made in this country, as are also all-wool fabrics, to retail at from \$ to \$1.50 per yard.

The business of importers has shown a gradual decline during the year, and the totals entered at New York and thrown on the market from Jan. 1, 1890, to Dec. 8, 1890, were \$108,836,660 as against \$138,244,267 for the same time the previous year. This included dress goods, piece silks, ribbons, laces and embroideries, handkerchiefs, linens and clothing woolsens.

Cotton goods, in sympathy with the raw cotton market, have shown a gradual decline during the year and standard sheetings are now quoted at 7c as against 7½c in 1890 and 1889 and 7½c in 1888. Print cloths, 64x74, are quoted at 8c, with occasional fluctuations to 2 15-16c, as compared with 3c in 1890, 3 11-16c in 1889 and 3 15-16c in 1888. These figures only reflect the condition of the raw cotton market, middling cotton being 8 1-16c as against 8½c in 1890, 10½c in 1889 and 9¾c in 1888. In August of the present year middling cotton touched 8c, which minimum of value has been touched but four times within the present century. Despite these adverse conditions cotton goods have been in fair position, with stocks well in hand and few or no breaks in the market. Fancy denims have done well and desirable makes are sold ahead. Cottonades and Kentucky jeans have been only in fair request. Four-yard sheetings have been favorite sellers, but three-yard goods have been neglected. Tickings and wide sheetings have done moderately well. Ducks are rather slow and satteens and corset-jeans have experienced only a fair business. The exports of cottons for the year show a steady increase, the outward movement for China, the east, and the Pan-American states amounting to 242,606 packages, valued at \$12,265,106, up to Dec. 8, as compared with 217,171 packages, worth \$11,491,076 for the same period last year.

Prints have been characterized by extremely low prices during the year, goods being jobbed at 44 cents, which, in previous years, have been held at 54 cents. The popular styles have included the small figured effects on dark grounds.

In dress goods Bedford cords have been the reigning fabric. Each season develops a marked peculiarity of style in dress materials. In 1890 the somber effects were in the ascendency. The rule is that a fashion, in style of fabric or effect of weave, will commence in the higher-priced goods, run its way through the medium and low-priced goods and finally into prints. A good, seasonable business has been done in silk-warp and all-wool Henriettas, tricots, cashmeres, serges, Luster brillantines and mohairs, which were so popular in 1889-90, are scarcely seen in this market. Homespun and chevrons have been in fair inquiry and large quantities of camel's hair and tufted effects have been sold. Gingham of standard make and attractive pattern have been in excellent position during the year. Outing-cloths and soft-wool fabrics have also been popular sellers in season.

The year has shown some improvement in silks, which is as yet, however, far from being all that could be desired. Importations of raw silk have increased, while that of piece goods has diminished, indicating a greater prospect on the part of American manufacturers, but not yet sufficient to retrieve the losses of the last few years. A steady business has been in black sarahs with a few rhadamés and gros grains. Moires have been only fair. Changeable taffetas have been popular, and brocades, swivels and bengalines have been very good. Crepes will be popular for spring trade and double-faced satins and wool and silk mixtures are again promised us. Velveteens have done well, but it has been a bad year for ribbons.

LIVE STOCK.

At the Union stock yards in Chicago the receipts of live stock as compared with 1890 show an increase in calves and hogs and a decrease in cattle, sheep and horses. Corresponding increases and decreases are shown in the shipments. The figures for 1891 are: Receipts of cattle, 3,303,009; calves, 205,010; hogs, 8,848,500; sheep, 1,202,824; horses, 95,959.

The year just closed will be a memorable one in the history of the live-stock trade; to some it has been satisfactory and to others disappointing; the former applies to ranchmen of the south, west and north, and the latter to the handlers of native cattle. Values were low at the beginning of the year, with feed scarce and high. Supplies were expected to decrease and values to advance; both expectations were realized. During the first two months of the year prices changed but little, but by the middle of March values had crept up to \$5.75 to \$6 per 100 pounds for extra prime beefs, while all other grades suitable for shipping and the dressed-beef trade were selling from \$3.50 to \$5.00 per 100 pounds. From this point prices advanced until \$6.40 per 100 pounds was paid for extra prime beefs; \$5.40 to \$6 for export grades, while fair to good dressed-beef and shipping steers sold from \$4 to \$6 per 100 pounds. Prices held up well until the middle of June, when a reaction set in and values have been called down until they are nearly as low as a year ago for everything below extra prime beefs.

At the close of the year hog values were at about the lowest point of the season, good hogs of all weights selling at \$3.35 to \$3.80 per 100 pounds. Supplies during January, February and the first half of March were much heavier than were expected and no relief was afforded the market. In fact, a lower line was reached, and on Feb. 13 prices ranged from \$3.20 to \$3.55 per 100 pounds for hogs of all weights. From this time until the middle of March fluctuations in values were narrow. During the remainder of the month receipts were light and values advanced \$1 to \$1.50 per 100 pounds, prices ranging from \$4.20 to \$4.75 per 100 pounds. The market continued to advance during April until \$5.50 per 100 pounds was paid, while at the close of May values showed a decline of 30 to 40 cents per 100 pounds. During July and August a strong demand prevailed and values were marked up to \$5.35 for good hogs. September witnessed a reaction of 30 to 40 cents per 100 pounds, while in October a further shrinkage of 10 to 20 cents per 100 pounds was recorded. From the 1st of November prices gradually declined until the bulk of the hogs marketed during November and December sold under \$4 per 100 pounds, or at prices ranging from \$3.60 to \$3.90 per 100 pounds, and while the above was somewhat higher than a year ago it was lower than the trade expected. As a whole the year has been a satisfactory one to producers, more especially from April to November.

The market for sheep has been a quiet one throughout the year. The quality was only fair, the bulk of the offerings being marketed half fat. Screening and corn-fed westerns came forward freely and sold from \$4.50 to \$6 per 100 pounds, chiefly from \$4.75 to \$5.50 per 100 pounds. These, with the fed Texans, formed the bulk of the supply during the spring months, and everything of good quality sold readily. Through May, June and July prices gradually receded until but few sheep sold above \$5 per 100 pounds. During the season for grass westerns the market remained steady and everything of good quality and flesh was rapidly absorbed.

STATIONERY.

The stationery for the year 1891 has maintained its position as one of the growing and prosperous branches of commerce. Manufacturers have not only largely increased the product to meet the growing demand, but in keeping with the tendency noted in the latter half of the year 1890, they have continued to improve the quality. Numerous novelties

have been thrown on the market and the grade of ordinary or staple stationery is higher than ever before. This is particularly noticeable in papereries, packages and tablets. Manufacturers have forsaken the old and beaten track of putting up unsalable papers in attractive packages and are placing on the market in convenient and attractive form the very best and most finished qualities of correspondence papers, for which there is a growing and steady demand from consumers in all ranks of life. The same features of improvement are noticeable in other articles strictly in the stationery line, such as blank books and writing materials of every description and office attachment devices and appliances. Beauty and utility have been combined in new inventions that have crowded out many old and familiar articles, all to the advantage of the consumer. Artists and designers of the highest reputation are in the employ of manufacturing stationers and the counters and shelves of retail dealers and the sample rooms of the jobber present a wonderful variety and a striking evidence of the progress made in catering to a higher taste in all articles in this line. In the staples there is not much change, but in fancy stationery paper, paper pulp, papier mache, leather, rubber, celluloid, silk, satin, plush, gold, silver, aluminium, brass, steel and oxidized metals, glass, wood and numerous other raw materials have been utilized to an extent that excites surprise. Prices have generally ruled steady with a slight advance over last year's figures. The fluctuations have been small and confined to goods of a low grade. While margins have been small, manufacturers and jobbers have maintained their standing in the trade and no serious disasters have been reported. The agricultural prosperity of the country and an increase of exports have contributed largely to the present prosperous condition of the trade as well as a cheerful outlook for the ensuing year. In envelopes the trade has not improved. Overproduction, close competition and a cutting of prices have tended to render the envelope business unremunerative. All efforts to regulate the output have been failures and until there is an advance all along the line in papers the trade is likely to continue in a stagnated condition.

THE PAPER TRADE.

The manufacture of paper of late years has assumed such proportions, and its place on the roll of American industries has become so prominent as to compel a recognition (hitherto denied it) by all who are actively identified with American industries. Quietly but none the less surely and rapidly the production and sale of paper in its many varieties has within the past quarter of a century grown from an output of about 350,000,000 pounds and a value of \$40,000,000 to a production of nearly 3,000,000,000 pounds and a value estimated at over \$200,000,000. It ranks to-day with the leading industries of the country, only exceeded in manufacture by flour, lumber and possibly cotton goods. The amount of capital invested in plants for its production is estimated at \$100,000,000, with \$50,000,000 more of working capital. It employs not less than 125,000 operatives, many of them skilled, and consumes of raw materials much which is worthless for any other purpose, in value over \$100,000,000, to say nothing of the cost of the chemicals which enter so largely into its production. Nearly 1,200 paper and pulp mills are in active operation many of them night and day, for its production, the capacity of which equals over 10,000,000 pounds of paper and nearly 5,000,000 pounds of pulp per day, as per report made at the last meeting of the American Paper-Makers' association. Its production in the last

ten years has increased about 200 per cent. In the single item of book and news print the output is about 4,000,000 pounds daily. While the production of paper has been increasing so rapidly the decline has been so great that at no time in its history has the price generally been so low in most grades as at present. During the year now closing there has been no advance except in some grades of fancy and fine writing papers, while in other classes there has been a decline, especially in straw and tissue papers. There has been a largely increased demand for building and sheathing papers. The outlook for the ensuing year is very encouraging to manufacturers and jobbers, and the preparations being made for an exposition of this industry at the approaching world's fair promises to result in giving it one of the highest places in the ranks of American industries.

CARPETS.

The year opened auspiciously in carpets, but it closes in a very unsettled condition and with a general feeling of uneasiness pervading the trade. When the heavy duty was placed on carpet wools in the McKinley bill the Philadelphia and eastern carpet manufacturers conceded that point provided that in turn a corresponding increase were made in the duties on imported carpetings. They didn't stop to reflect, apparently, that the carpet looms of America were vastly more than sufficient to supply the home demand. Immediately after the passage of the act an effort was made to form a combination to control production, but it failed. Soon after this the treasury department began applying harsh measures in the constructions placed on the wool schedules, such as in the case of the sorting clause and other instances wherein manufacturers were compelled to pay greatly higher duties than they had anticipated. Meanwhile the looms kept piling up carpets by the millions of yards. The break was threatened in September but it didn't come until November. At that time Lowell extra supers, which were quoted at 60c but had been quietly disposed of at 57½c, were cut to 55c by several leading jobbing houses simultaneously. Then a big Boston concern, for the purpose of protecting its customers, as it claimed, sent out a circular on them at 52½c, with a rebate on every yard which had been sold at a price exceeding that. Then the war commenced. Alexander Smith, Sons & Co., who had piled up 2,500,000 yards, offered them all at a great auction sale in New York, and many wholesalers and manufacturers sent out cut-rate circulars at the same time. The auction came off, the largest of its kind ever held in this country, prices being cut from 10 per cent to 33½ per cent off of regular quotations. From that time until the end of the year the feeling remained very unsettled. Schedules of prices for the coming spring were issued with manifest nervousness, showing a reduction of 10 to 15 per cent on every line of goods. Under such circumstances the logical inference is that the smaller manufacturers of carpets will be driven to the wall and the business of the country drift into the hands of a few great corporations.

KNIT UNDERWEAR AND HOSIERY.

In knit underwear and hosiery the year has been a trying one to manufacturers, importers and jobbers alike. The immense stocks imported to escape the new tariff duties were supplemented by large lines of domestic manufacture, in the lower grades especially, and in addition to this Chemnitz has the last season unloaded an enormous surplus stock on our market. Prices have consequently been low, and while there has been more than average consumptive demand margins have

proved unprofitable. The sky is now clearing and confidence is returning. It is now conceded that foreign manufactures will still continue to command the bulk of our trade in high colors and fancy hosiery, full fashioned fast blacks in cottons and lises, tights, silk opera hose, etc., etc., while American makers will control the market in medium and low grades of knit underwear, hosiery, etc.—In short, the goods worn by the masses of the people. In these lines black goods have continued leaders, and while it is believed eastern mills have made up large quantities of fancy striped hosiery it has proved unsalable. Natural and solid colored goods have also sold fairly well. Generally speaking the knit goods situation is very unsatisfactory. Stocks in hands of retailers, jobbers, manufacturers and importers are large, prices are low, and it would now appear that production must in some manner be curtailed.

In the woolen goods departments the depression which has prevailed for several years has given way to a better and more healthful feeling. Prices have remained fairly steady, the low price of wool checking any tendency to advance prices. In flannels, the great event of the year had always been the auction sales in New York, which determined the prices in all parts of the country. These auction sales were regarded as a demoralizing element and were dispensed with the last year. The market at the commencement of the fall season opened from 10 to 15 per cent higher on flannels than in the previous year and has remained steady ever since. Blankets have been featureless.

IRON AND STEEL.

The year 1931 was not a satisfactory one in the pig iron, iron ore and Bessemer steel trade, either in tonnage or prices, and in consequence there was a material decrease in the output and manufacture. The early part of the year opened with quiet business and gradually declining prices and no material activity or improvement was manifest until the latter part of the year, when there was some change for the better in demand for tonnage, but no improvement of consequence in prices. However, at the end of the year conditions were more hopeful and indications better for the year 1932. During the year there was an increase in the number of furnaces erected in this district, and Chicago and its vicinity has now become one of the largest pig-iron-producing centers in the country. The low price of Lake Superior ore has discouraged the opening up and development of new properties, and less was done in that way during the year than for a number of years past, and even the larger, older and best-equipped companies have not received returns in proportion to their investments. The stoppage, however, of a number of mines decreased the visible supply of ore and improved the prospect. The steel rail business was only fair with prices close to cost. The entire situation is not new, all lines of business being subject to years of depression, and, knowing this, the more conservative ones have kept their financial condition in good shape and will be ready to take advantage of improved conditions. The economy in railroad construction and renewals, prevalent for the past two years, is likely to cease, as with abundant harvests interests in that direction will seek new and increased equipment and renewals, and all other interests depending upon good crops will show a like improvement, and while the outlook for 1932 at present does not indicate any large increase in prices producers and manufacturers have reason to look hopefully forward to better business and material increase in tonnage.

LUMBER.

The year in the lumber business was on the whole quite satisfactory, especially in Chicago. More than 2,300,000 feet of lumber of all kinds were handled here. The total receipts in Chicago up to Dec. 1, 1891, were 1,989,820,000 feet; the total receipts for the same period in 1890 were 1,902,321,000 feet, an increase of 87,499,000 feet in 1891. That the demand was good is shown by the fact that notwithstanding this heavy increase in receipts the stocks on hand at the close of the year were 35,000,000 feet short of what they were at the same time in 1890. New railroad lines were built into the hardwood lumber districts and the trade in this variety increased very largely, though Chicago did not get as much of it at usual owing to the circumstance that many of the consumers received their stocks direct from the mills where formerly they drew upon Chicago. Pine lumber more than held its own and exhibited a steady increase in sales during the year without marked fluctuations in prices. The use of steel and iron for construction purposes, in this city especially, has caused a decrease in the demand for yellow pine joists but notwithstanding this Chicago has become the largest consumer of lumber in the world. Fully 60 per cent of the year's receipts was used within the limits of this city.

Receipts of shingles fell off considerably owing to a shrinkage of supply and the opposition of dealers to pay the prices demanded. Up to November the decrease as compared with 1890 was 200,000,000 feet. The year closed with a better inquiry for the best qualities. The manufacture of the low grade "standards" has almost ceased.

The supply of lath was also less than in 1890, but the market was steady and easy. Toward the end of the season the demand increased and prices were advanced on both the white pine and mixed product.

The most notable failure in the lumber world in 1891 was that of the S. R. Howell interests. It had a depressing effect upon the market, but only temporarily.

CARRIAGES.

The carriage trade has had a year of medium success. There have been some extensive failures, due in a large degree to the action of a combination of wheel-makers, who associated themselves under the name of the American Wheel company, and early in the year, having obtained control of a very large proportion of the seasoned wheel stock of the country, put up the prices on wheels nearly 100 per cent. Hence the makers of cheaper grades of carts and buggies, some of whom had contracted for their output at narrow margins, found themselves unable to meet their obligations. The demand for carts has also fallen off, so that it is commonly stated that road carts have had their day. Between these difficulties some firms failed. Makers of finer grades of vehicles, on the other hand, have generally been successful and the taste for elegant styles has materially advanced, with correspondingly better prices. As a case of poetic justice and as instancing the sentiment of the business public in respect to trusts or combinations, it may be stated that the American Wheel company, though having \$3,000,000 capital and apparently having a "cinch" on the situation, failed. Numerous wheel companies were started, even under the most barren prospects of success, and the indignation of the trade against arbitrary exactions by the wheel trust has sufficed as an incentive if not as a support to the independent companies, who at least have slaughtered the aggressor if dying in the act. The early snows relieved the trade of a burden of sleighs accumulated for many seasons. The carts

are in the hands of dealers in the back districts and the way is clear for a good carriage trade in 1892, which all intelligent manufacturers expect.

GROCERIES.

The volume of business in the grocery line in 1891, as represented in dollars and cents, will, when summed up, probably fall below the trade of 1890. This is owing entirely to the lessened prices for goods in this line. The operation of the McKinley tariff law reduced the price on sugar of itself at least 2 cents per pound and the general condition of the market another cent. This was the general difference in prices as compared with last year. Dried fruits were of a superior quality but the prices were about one-third of what they were one year ago, and the same condition existed in many other lines, so that while more goods were sold their value was less. As a consequence of this general shrinkage jobbers and dealers made less money than during the years when prices were maintained. The change in values was probably beneficial to the retail trade, as they were able to offer goods at seemingly very low prices and yet maintain a healthy profit. The number of failures was not unusual. The abundant crops that prevailed throughout the country and the remunerative prices which such crops were bringing toward the close of the year had the effect of putting the producing class upon a sound financial basis. The prospect for the future is therefore flattering for jobbers and wholesale and retail merchants in the grocery line. The best judgment of those in the business is that the coming year will be one of general satisfaction to the dealers. It was noticed in the course of the year that the trade was more favorably inclined to the idea of short credits and that a large proportion of the retail merchants of the country were discounting their purchases.

JEWELRY.

Few changes in prices or the general conditions have marked the course of the jewelry trade during the last year. The price of diamonds has continued firm at the advance mentioned last year. Fine manufacturers of clocks, watches, jewelry, silverware and optical goods have placed an unusually large number of novelties on the market and the demand for the better classes of these goods, which was a feature of last year's business, has been maintained. The enormous crops of the country led the trade to anticipate an unusually heavy business throughout the fall season, but to the surprise of all concerned the volume of trade has not exceeded if it has equaled that of the fall months of last year. The prospects for an active spring trade in 1892 are excellent. The inventions of the trade have included nothing revolutionary in character. The manufacture of stop watches and repeaters in the United States promises to be an important feature of the business henceforth. Importers have complained considerably of the effect of the new tariff law, but the volume of importations has not been perceptibly diminished and the new tariff has given an impetus to home manufacturing. The disposition of the retail trade to form state organizations evidently is increasing and several new bodies of retail jewelers will be formally organized early next year. An unusual tendency to the organization of trades unions among the employees in silverware, watch, clock and watch-case factories is also noticeable.

MUSICAL INSTRUMENTS.

The general demand for musical instruments increased somewhat during the year. Prices remained about the same, in some

cases being a trifle lower. The retail and general jobbing trade in musical instruments in Chicago has shown an increase of about 10 per cent for the year 1891. Fully one-half of this gain is the product of Chicago factories. There appears to be a marked improvement in the quality of all musical goods sold in this market, with the single exception of parlor organs, and in this one instrument the increased demand has largely stimulated the production of inferior instruments. Within a few years this city has made gigantic strides in the manufacture of musical instruments. Fifteen years ago Chicago was barren of musical instrument factories, while to-day it produces more parlor organs than all of the rest of the United States combined. It takes rank after New York and Boston as a producer of pianos, and the small-instrument factories turn out more instruments than those of any other city in America.

THE CLOTHING TRADE.

The clothing trade for 1891 has been generally satisfactory to both manufacturers and the retail merchants. The business has been characterized by a conservative policy which has resulted in a lessening of the stocks on hand and the paying of bills promptly. The weather, always an important factor in the clothing business, has interfered somewhat with trade, particularly during the fall and early winter months. The generally prosperous business of the country, the good crops and the large railroad business has had its effect in stimulating a demand for ready-made clothing, which, with the natural increase of population, has undoubtedly increased the amount of sales by a considerable percentage. It is difficult to see where the tariff has had an appreciable effect on prices in this line. It has kept out many foreign woolsens to the benefit of American mills and the prices have tended downward owing to improved machinery and competition. At the close of the year the clothing trade is in excellent condition. There have been few failures and a satisfied feeling exists.

BARBED WIRE FENCING.

The estimated consumption of barbed fence wire in the United States for the calendar year of 1891 is 175,000 tons, or a trifle over 15 per cent increase as compared with the preceding year. Although other styles of fencing are being constantly placed upon the market, barbed fence wire seems to thus far more than hold its own. Prices in December were lower than a year before, though at that time such a possibility seemed out of the question. With the consolidation of some twenty odd manufacturers into the Columbia Patent company many dealers supposed prices would be slightly advanced, but the competition from the outside companies seems to have dictated the policy adopted by the consolidated company. A general improvement has been made in the quality of stock furnished in lighter barbs and in the use of more carefully selected stock, so that the cheaper article of two or three years ago could now hardly find a market.

WOOL.

The business in wool was disappointing. In the spring it was thought that by the help of the McKinley law and good crop prospects the market would certainly improve, but to the surprise of wool men generally it was draggy. The tendency was all the time toward lower prices. In Chicago the receipts in 1891 were 35,049,944 pounds, against 22,281,570 pounds in 1890. The shipments were 57,189,677 pounds, against 39,003,233 pounds for the corresponding period of 1890. The discrepancy between the receipts and shipments can be ac-

counted for by the sheep pelts being pulled here and shipped as wool.

The stocks of wool on hand unsold in the principal markets of the United States at the close of the year amounted to 79,314,233 pounds, against 65,920,882 pounds last year. The estimated amounts in pullers' hands and elsewhere added to the foregoing make a total supply of 104,414,233 pounds, against 92,861,682 pounds a year ago.

FLOUR.

The flour market showed no great fluctuations either in price or sales. Home and foreign demand was steady. From the first of the year until August prices rose slowly in response to the gradual reduction of stocks. Then there was a decline in values until, in October, the big wheat harvest brought prices down but not to an unreasonable extent. In November the figures began climbing up again because of the good quality of the wheat and the increased foreign demand. Better prices are looked for by most dealers than prevailed at the close of the year, when the market was rather dull. This dullness was attributed to the lack of transportation facilities to the seaboard and to the holiday season in England. Flour should bring better prices in 1892 on account of the heavy shortage in grain in England.

HIDES AND LEATHER.

The hide and leather business in 1891 was comparatively poor. The season of 1890 was one of unusual prosperity and this resulted at the close of that year in the accumulation of large stocks. Financial troubles in the early part of '91 caused numerous failures among manufacturers of boots and shoes and in consequence there was a decided reaction in the sale of hides and leather. The exceptional prosperity of the previous year induced tanners to increase their production and this with the decrease in demand naturally made the market close and "draggy." Tanners feel, however, that 1892 will show a much more favorable condition of the trade both in volume and prices. Hides and leather are now cheap and probably lower on the average than they have been before for twenty years. A gain is looked for in 1892.

CROCKERY, GLASSWARE AND LAMPS.

Prices of ordinary glassware did not undergo any marked change in the course of the year nor was anything more than the normal increase shown in the volume of sales. In the case of lamp goods it was somewhat different, sales in this line, and especially in the better grades, increasing from 25 to 35 per cent. This was owing, no doubt, to the great improvement made in the burning quality of the lamps, to their greater perfection in other respects and to an increased demand on the part of the wealthier classes for lamps of an ornamental character. While the recent tariff legislation has had the effect of increasing the cost in many cases, particularly upon foreign glassware, the advance has not been sufficient to seriously interfere with the continued growth of the business.

PICTURES.

Business in the art line in 1891 showed an improvement over the preceding year and was quite satisfactory in every respect. A broader feeling for true art was noted, together with an improved taste and a better appreciation of high-class art publications. The people seem to be rapidly acquiring a better knowledge of the works of the masters and a desire to possess pictures of genuine merit. The younger generation has learned that a thorough acquaintance with art, past and present,

is a social necessity. The time has come when American dealers no longer assort their stock for different degrees of taste. They now buy the best pictures obtainable, and many of them make annual visits to European art centers for that purpose.

FRUITS.

The first half of the year was the clearing up largely of the 1890 crop and at prices fully 25 per cent less than earlier in the season, most goods going out clean in anticipation of one of the heaviest crops this country has ever seen. The quantity of all kinds of fruit was large and the values were fully 40 to 50 per cent less than during the corresponding time in 1890. The demand was not as heavy as usual, owing largely to the putting up of fruits by consumers which could not find an outlet during the glut in the shipping season. This largely interfered with the demand through merchants. A heavy trade is predicted for this winter and it is thought the volume will compare favorably with that of a year ago.

CONFECTIONERY.

The confectionery trade in 1891 exhibited great activity all over the country. In all sections companies specially organized for the manufacture of confections sprang up. The reduction in the price of sugar materially aided them in turning out better grades at prices obtained formerly for poorer qualities. Many tasty novelties were added in the course of the year to the lines of American production, especially in chocolates, and many firms have imported special machinery for perfecting this class of goods. Financially the trade was in excellent condition, no failures of importance having taken place. The outlook for the coming season is exceedingly good.

BOOTS AND SHOES.

The boot and shoe trade of 1891 had no marked features. The results, generally speaking, were satisfactory, though prices gradually declined until in December they were lower than they had been at any time since 1890. The same conditions that prevailed in the hide and leather market existed also in the boot and shoe trade to a greater or less extent. Manufacturers report, however, that the condition of the business, so far as concerns the future, was never more promising. Those located in Chicago, for example, are already taking orders for the spring trade, and from all indications the country is going to use large quantities of boots and shoes the coming season.

SHELF HARDWARE.

The shelf-hardware trade of the country in general, and of Chicago in particular, increased very largely in 1891. While values steadily declined from the 1st of January, the increase in the volume of business fairly compensated for the losses on stock. The year closed with a trade steadily growing, with every prospect for a still better business in the early months of 1892. All conditions having improved, the outlook is encouraging. With increased consumption and enforced reduction of accumulated stock it is reasonable to suppose that manufacturer, jobber and retailer may participate in an increase in values.

COAL.

The year was not a very satisfactory one to the coal trade. Prices opened in the early spring and summer about as they did in 1890, on a basis of \$1.55 to \$2 a gross ton at the mines. Freight rates averaged about the same for the season as in the year previous. Mild weather made country dealers backward in buying and heavy stocks were accumulated in Chicago and other central points. This led to

a tendency at the close of the year to unload at a sacrifice. The eastern freight blockade and the strike of block coal miners in Indiana also served to upset the calculations of dealers and to keep them in a state of uncertainty.

FURNITURE.

Business in the furniture line was fairly good in 1891, the volume exceeding that of the preceding year considerably. The few individual complaints of a falling off in trade were probably due to the fact that a larger number of concerns were engaged in the business than ever before. Prices did not change materially. Many new styles were introduced in the higher grades of furniture, the general trend being toward the unique and odd. It may be added that the amount of furniture handled in Chicago exceeds by many millions of dollars that of any other city in the United States.

HATS AND CAPS.

The hat business has perceptibly increased during 1891. The factories, nearly all of which are located within a radius of a hundred miles of New York, report a large business. The cheapening process has been going on the lower grades until to-day as good a hat can be bought at retail for \$2 as was sold for \$3 or \$4 a few years ago. The high-priced trade-mark hats remain the same. The imported business has fallen off until it amounts to so little that it is hardly worth mentioning. The straw hat business was seriously injured during the cool summer. Plush caps, muskrat and cony fur caps were higher but in less demand.

CLOAKS.

The ladies' cloak business has had many ups and downs, owing mainly to the prevalence of unseasonable weather, but notwithstanding this the trade has been the largest in the history of the business. The manufacture of ladies' garments for summer wear, outing, tennis and yachting, costumes, due to the growth of the "summer girl," who has taken up with mannish ideas in dress, has opened up a new field which has been assiduously cultivated. Altogether this industry has had a good and profitable year.

MILLINERY GOODS.

The amount of capital invested in the millinery business was about the same as in 1890. Sales, according to the reports of leading houses, increased about 8 per cent. Collections were about the same as in the preceding year. No heavy failures in this line took place. With the good crops in the west and northwest wholesalers and retailers look for still better times to come, though they consider the present condition of the trade as healthy and satisfactory.

TOBACCO.

Manufacturers of smoking and chewing tobacco report that their business has been but slightly and not unfavorably affected by the McKinley law. They say that prices have remained about the same and that there has been an increase in the demand. The year, generally speaking, was a satisfactory one and at its close all manufacturers were increasing their output. The price of cigars was a little higher for the best brands, but on the whole the tariff law did not operate to change either values or qualities very materially.

MACHINERY.

The year was in the experience of some of the heaviest manufacturers of machinery materially behind 1890 in the demand, especially from rolling mills and blast furnaces and from corporations who were depending upon the placing of bonds to pay for their improve-

ments. This decline was very notable at the close of the season, at which time lower prices prevailed than for years past. There was no prospect of immediate improvement, though the outlook was by no means discouraging.

MEN'S FURNISHING GOODS.

In men's furnishing goods there has been an active and increased demand throughout the year. The United States supplies nearly all this demand, the many special manufacturers in these lines having attained an excellence that practically does away with foreign competition. The shirt business, greatly augmented by the increase of special goods for the summer, has been very large. Neckwear, underwear, collars and cuffs all show an increase.

RAILROADS.

In 1891 there were 4,093 miles of new railway built, a decrease of 1,574 miles from 1890. It is the smallest mileage built since 1885, when 3,131 miles of track were laid. In the course of the year there were foreclosure sales of twenty-one railroad properties, with 3,223 miles of track, and having an aggregate capital of

\$88,000,000. Receivers were appointed for twenty-six companies, having a total of 2,159 miles of track and \$84,479,000 capital. The figures are about the same as for 1890.

FURS.

The fur business has been subject to many fluctuations. It has been a remarkable year for fur trimmings for ladies' dresses and cloaks, and any animal with any fur-bearing proclivities has been hunted to the death to secure his valuable covering. Sealskins have been so high in price and the quantity in the market so limited that the sales have not been so large, but every other fur has increased in demand.

HAY.

The market for hay was good and prices averaged from \$3 to \$5 per ton higher on all grades than in 1890. This was owing to short crops in Wisconsin and Michigan caused by the dry weather in the fall of last year and the drought of last summer. Hay was also scarce in parts of New England. Dealers expect that prices will be still higher next spring.

CHICAGO GRAIN AND PRODUCE STATISTICS.

The following shows the lowest and highest prices for grain and produce in the Chicago market for the last 29 years and the months in which extreme prices were reached:

LAKE MICHIGAN TO THE ROCKIES.

Chicago, Rock Island & Pacific

—RAILWAY—

LEAVES CHICAGO DAILY AT 10.00 P. M

**AND
RUNS
TO**

DENVER ARRIVING AT 7.40 A. M.

**COLORADO SPRINGS
AND PUEBLO.**

THIS TRAIN HAS THREE ELEGANT PULLMAN SLEEPERS.

The Route is via Des Moines, Omaha, and Lincoln.

The train is a magnificent one, equipped with brand new Coaches, Chair Cars (free), Pullman Sleepers of latest designs and improvements, and best of all, our own Dining Car Service, that exceeds in this line anything between Lake and Mountain.

Patrons of this line enjoy all the modern conveniences of travel, and on the "BIG FIVE" en route take in, all the way, large cities, note them:—JOLIET, LA SALLE, ROCK ISLAND, DAVENPORT, DES MOINES, COUNCIL BLUFFS, OMAHA, LINCOLN, BEATRICE, PHILLIPSBURG, GOODLAND, DENVER COLORADO SPRINGS, AND PUEBLO. Its counterpart, east bound,

"THE WORLD'S FAIR SPECIAL,"

Leaves Denver at 8.10 p. m., and via route above mentioned, passes Lincoln at 1.20 noon, Omaha at 4.00 p. m., and arrives at Chicago at 7.45 a. m.

GEORGE F. LEE, City Ticket Agent, 104 Clark-st., Chicago.

Below will be found brief descriptions of notable Chicago buildings begun or projected in 1891. Those included in the list for 1890, given above, are described in last year's Almanac. The year just closed was notable for the number of high buildings, or so-called "sky-scrapers," upon which work was begun or for which plans were made. The question was raised whether structures of this class were entirely safe, healthy or desirable, and official action was taken by the city council looking toward a limitation of the height. Before this was done many "emergency" permits were issued for lofty office buildings, the erection of which had not been fully decided upon. Such of these as may be built will be included in the list for 1892. It may be added that during the year rapid progress was made toward the completion of the Masonic temple, the W. C. T. U. temple, the Fair building, the big Leiter block, which was leased to Siegel, Cooper & Co., and the other great structures, detailed mention of which was made a year ago. The building season, taking it altogether, was one of extraordinary activity.

UNITY BUILDING.

The Unity building, on Dearborn street between Washington and Randolph, which is being put up by a syndicate headed by Judge John P. Altgeld, is sixteen stories in height, is of iron construction and covers a site 80 by 120

feet. The frame work and exterior walls were completed in a remarkably short space of time, while the work of finishing the interior is already far advanced. The walls up to the third story are of rough and polished granite; above that they are of buff brick and terra cotta, hung to the iron skeleton in the usual way. Three bays reach from the top of the second to the eleventh story. The remainder of the building is plain with the exception of the terra cotta work about the cornice, which is ornamental. As a whole the effect is pleasing as well as impressive. The main entrance to the building is sixteen feet wide and twenty-four feet high. For the interior finish mosaic floors, marble wainscoting and similar arrangements are provided. The building contains some 600 offices, exclusive of the rooms on the first and second floors, which have been divided off into bank suites. The total cost of the building is estimated by the architect, Clinton J. Warren, at \$800,000.

LEXINGTON HOTEL.

The Lexington hotel when completed will be one of the finest buildings of its kind in the city. It is located on the northeast corner of Michigan avenue and Twenty-second street, having a frontage of 125 feet on the former and 161 feet on the latter thoroughfare. The main and ladies' entrance will be on Michigan avenue, with another entrance

on Twenty-second street. It is a ten-story structure of iron and brick construction, no wood being used except for doors and window frames. The claim is made that it will be as thoroughly fire-proof as it is possible to make it. The plans provide for a wide vestibule from the main entrance to a rotunda 50 by 68 feet, which is roofed over at the second story and overlooked on all sides by a glass-enclosed balcony on a level with the parlors. From this rotunda there will be entrances to the nine stores on Twenty-second street and also a splendid marble stairway leading up to a parlor-hall 50 by 75 feet, into which six private parlors open. The dining-room, 45 by 96 feet, will also be on this floor, together with the kitchen, banquet-hall and rooms for servants. Three hundred and seventy bedrooms will take up the remaining eight floors. Of these apartments 225 will overlook the avenue or street, while the others will overlook the open court. Eleven rows of bay windows are upon the facade. The building is owned by E. A. Batcheller, Milo S. Hascall and John Burton Payne. Its cost complete will be \$750,000.

ABSTRACT COMPANY'S BUILDING.

The Cook County Abstract and Trust Company's new building, at 100 and 102 Washington street, is sixteen stories or 210 feet high, has a frontage of 60 feet and a depth of 183 feet. For the site \$525,000 was paid to Orrington Lunt and Horace F. Waite by the abstract company, of which D. B. Lyman is president and W. C. Niblack vice-president. The plans drawn by Architect Henry Ives Cobb provide for a series of vaults in the basement, a bank and an office for the owners on the ground floor and office suites in the remaining stories. The front of the first four stories is of stone. Above brick is used up to the fourteenth story, and then brick and stone to the top. The chief material of construction is steel. To the bank and the abstract company's office there will be two arched entrances from the street. From a light court in the interior, 60 by 65 feet in dimensions, six elevators will run to the upper floors. Mosaic floors, marble wainscoting and ornamental iron work will beautify the interior, while the monotonous effect of the lofty front exterior will be relieved by two bays extending from the fourth to the ninth story and heavy cornice and coping running through the three upper stories. The whole structure is to be fire-proof. Its cost is placed at between \$600,000 and \$700,000.

ASHLAND BLOCK.

The Ashland building, in course of erection on the northeast corner of Clark and Randolph streets, is to be sixteen stories in height. It stands on a lot 80 by 140 feet in dimensions, and when completed will be 210 feet high from the sidewalk. The fronts are of red pressed brick and terra cotta veneering, carried by steel construction, and the floors of fire-proof tiling arranged in the usual way. In its general architectural style the Ashland will correspond to the modern type of Chicago office buildings. The interior finish will be like that of the Rookery building, marble and iron being used on the floors and for stairways and wainscoting. The main entrance is on Clark street and is in the form of a semi-circular arch two stories in height. In the vestibule will be an arch of seven elevators, all of which will run to the top floor. The first story is to be arranged for stores, each having a street entrance. Banks will occupy the second story, and all the floors above that will be devoted to office purposes. Each story will contain thirty offices arranged in suites. Every room will have gas

and electric light and steam heating. From the foundation, which is of railroad iron, beams and concrete, to the roof of the building is to be thoroughly fire-proof. Its cost is estimated at \$550,000. The owner of the lot and building is Mr. C. A. Alexander, and the lessee and manager is Mr. R. A. Waller.

MECCA APARTMENTS.

The Mecca apartment building, work upon which was begun late in the fall, is in course of erection at the corner of Thirty-fourth and Dearborn streets. When completed it will be one of the finest structures of the kind in the city. It extends 266 feet along Thirty-fourth street and 234 feet on Dearborn, and will be four stories high. The outside walls will be of Roman pressed brick, with terra cotta and stone trimmings. The bays will be of brick and terra cotta, not galvanized iron, copper or other light material heated. The windows will be of fine plate glass. Each floor covers a space of one and three-fourths acres, making the total floorage area equal to seven acres. A large court, 66 by 152 feet, will divide the two principal sections or wings and will form the main entrance to the block. A series of stone columns will separate the carriage and foot passages. A covered light court, 33 feet wide and 170 deep, with surrounding balconies connected by four main stairways, will be placed in the center of each of the two wings. From these rotundas will be entrances for tenants to every apartment in the block. There will be ninety-eight flats and twelve large stores in the building. The cost is placed at \$600,000.

GERMAN THEATER AND HOTEL.

The German opera-house, theater and hotel being put up on the north side of Randolph street, between Dearborn and Clark, will, when completed, be a massive fire-proof structure nine stories in height, with a large square tower rising to a height of fifteen stories, with a belvedere on top. The main building will have a frontage of 80 feet 4 inches and a depth of 181 feet 6 inches. The tower will be 44 feet wide and 51 feet deep. On the front, level with the entresol story, will be a covered balcony. Rich bas-relief carving will make the cornices, balustrades and other parts of the building very attractive. The construction will be of steel columns and cross-beams, the outer walls being of terra cotta. In the center of the street front will be the main entrance, thirty-two feet wide, leading to the theater. Floors and wainscoting are to be of polished marble. Two vestibules will extend from the entrance to the foyer, in the inner one of which will be found the ticket office and four passenger elevators furnishing access to the hotel and club-rooms above. From the foyer broad marble stairs will lead to the main floor, balcony and gallery of the theater, the arrangements for reaching the seats being similar to those at the Auditorium. About 1,300 people will be able to witness the stage performances in comfort. The proscenium arch will be 29 feet wide and 30 feet high; the stage will have a superficial area of 3,220 square feet, and the auditorium, including the foyer, will be 60 by 90 feet in dimensions. Above the theater will be seven stories devoted to hotel purposes. The dining-room on the ninth floor will be 40 feet wide by 76 feet long, and the bedrooms, of which there will be 131, will all be commodious and convenient of access. The thirty-nine bath-rooms will be so arranged that they can be connected with the bedrooms or be reached separately from the corridors. The hotel office will be on the ground floor with a street entrance of its own, and the parlors will be on the entresol floor. On

thetenth floor will be club, billiard, sitting, card and other rooms; on the eleventh will be a fine ball room, concert halls and parlors. Quarters for the servants will be provided on the floors above. All the hotel rooms will have plenty of light and good ventilation. In the basement a large restaurant will be located. Work was begun on the foundation in April last, and by the end of the year the steel work of the first two or three stories had been completed. The total cost of this fine structure is estimated at \$300,000 exclusive of the ground. The building is being put up by a company, of which the directors are A. C. Hesing, Theodore Arnold, Louis Wolff, Edward G. Uiblein, Franz Amberg, Charles Wacker, C. P. Dose, Louis Wampold, J. A. Orb, Joseph Scheurer, William Heineman, George E. Weiss, John M. Krause, C. Herman Plautz and Theodore Oehne.

CHICAGO ATHLETIC ASSOCIATION BUILDING.

The Chicago Athletic association building, on the west side of Michigan avenue just south of Madison, was practically completed, so far as concerns the exterior, at the close of the year. It is a magnificent ten-story building, with blue Bedford stone facing and of fire-proof, steel construction. The front has a striking appearance and will compare favorably with any in the city. Its architecture is gothic, the artistic arrangement of the windows being particularly noteworthy. The interior of the building is to be fitted up in marbles, mosaics and hardwood. The whole edifice is to be used by the Chicago Athletic association, no portion of it being designed for office or mercantile purposes. It will contain gymnasiums, swimming baths, billiard rooms, tennis and racquet courts, a 400-foot sprinting track in the basement, and, in brief, every convenience for the practice of athletic exercises. There are two entrances, one to the basement and another to the main building, both on Michigan avenue. The cost of the structure is placed at \$600,000.

HARTFORD DEPOSIT CO.'S BUILDING.

Before the close of 1892 a fourteen-story office building will stand on the southwest corner of Madison and Dearborn streets. The work of removing the old Hawley block was begun in December. The new structure is to be of iron and steel construction and fire-proof. It will have a frontage of 50 feet on Madison street and 93 on Dearborn. On the ground floor will be a large and finely-fitted-up bank room, while all the remaining floors will be devoted to office purposes. The Hartford Deposit company, which is putting up the building, has leased the property on which it is to stand for ninety-nine years at an annual rental of \$27,000 after the fourth year. Before that time the amount paid will be somewhat less.

MRS. S. P. LEE'S BUILDING.

Contracts have been let for the erection of a fourteen-story building at 147 to 153 Fifth avenue at a cost of about \$400,000. The lot has a frontage of 80 feet on the street and extends back 112 feet, with alleys on three sides. The plans provide for a steel, iron, pressed-brick and terra cotta structure of the most solid description. It is to be used for commercial purposes exclusively, and will be the tallest building of its kind in the city. It will be well lighted on all sides. In the front, plate glass will be liberally used. Two passenger elevators, two or three freight elevators, and staircases in front and rear will furnish easy communication between all the floors. In the back part of the building will be an arcade ten feet wide, which, with the alley, will

greatly facilitate the loading and unloading of goods. Heavy iron pillars will be used throughout so as to enable each floor to carry a large weight without danger. There will be two entrances in the front of the building, the main one being in the center, and the other, leading to the staircase and passenger elevators, being at the north end. From an architectural standpoint the exterior of the building will be plain but imposing on account of its height and solidity. Mrs. S. P. Lee, of New York city, who is represented here by Mr. R. A. Waller, is the owner.

WARREN APARTMENT HOUSE.

On the southeast corner of Clark street and North avenue, overlooking Lincoln avenue, will stand a fine apartment house, owned and designed by Architect Clinton J. Warren. It is to be eight stories in height, resembling in its exterior appearance the Virginia hotel. On North avenue the frontage is 100 feet and on Clark street 220 feet. Iron and other fire-proof materials will be used in the construction, while the street fronts will be of salmon-colored brick with terra cotta trimmings. Through the front will extend two light courts and sixteen bays. The building will contain 150 suites of apartments, each suite containing four, five or six rooms. Its interior is to be elegantly finished in hardwood, with wainscotings of marble and floors of tile and mosaic. On the Clark street front will be ten stores. Passenger elevators of the latest pattern and all modern appliances for the safety and comfort of the guests and tenants will be provided. The foundations of the building have been laid and the whole structure will be completed this year.

VENETIAN BUILDING.

Where the Vienna bakery building stood, on the south side of Washington street just east of State, the Venetian building is now looming up. This is a thirteen-story structure, owned by the Chicago Real Estate Investment and Declaration of Trust association, and is designed for the occupancy of doctors and dentists and for stores on the ground floor. Its exterior appearance will be more attractive than that of the average office building. The first and second stories are faced with carved stone, and the upper stories with brick and terra cotta. A high tiled roof will give a pleasing effect to the whole, as will also the large plate glass windows. The interior will be elaborately and handsomely finished in marble and hardwoods. Four passenger elevators are to be put in. The building is 50 by 100 feet, with light on all sides, and is of fire-proof, steel construction. Its cost is placed by the architects, Holabird & Roche, at \$350,000.

CHICAGO UNIVERSITY.

Preliminary work upon two of the buildings for the Chicago university was begun Nov. 25, 1891. These were the divinity dormitory and the recitation building. They will form the first section of the graduate quadrangle which is to occupy the southwest corner of the great campus of twenty-four acres extending from Fifty-seventh street to Midway plaisance. The dormitory is to cost \$100,000 and the recitation building \$250,000. The dormitory will be four stories high, 270 feet long, and will accommodate 200 persons. The rooms will be arranged in suites and singly to suit the tastes and means of the students. The recitation hall will be a handsome building 168 feet long, 85 feet wide and four stories high. For each department of instruction from three to six rooms arranged in suites will be provided in place of one large recitation hall. The central room of each suite will be the departmental library or laboratory.

These three structures will form only a small portion of the whole system of university buildings, upon which it is expected that at least \$1,000,000 will be expended within the next year or two. The institution now has land valued at \$2,000,000 and \$2,400,000 in endowments, which is, however, unavailable for building purposes. Mr. John D. Rockefeller has given \$100,000 cash to defray the cost of the divinity dormitory.

JOHN M. SMYTH BUILDING.

John M. Smyth's new building, to replace that destroyed by fire in April last, was begun and completed within a space of about five months. It is one of the finest blocks on the west side, being eight stories in height, having a frontage of 265 feet on Madison street and a depth of 180 feet, and costing \$350,000. It is of the so-called, slow-burning mill construction, iron columns and wood being used in the interior and buff Bedford stone and brick for the exterior walls. Two massive arches form the entrance. The store front is provided with eight of the largest plate glass windows in Chicago, each pane being 195 by 120 inches in size. Handsome pillars separate the windows. The main show-room is 120 by 125 feet in area, and the central shipping court, which has a glass, iron-trussed roof, is 55 by 118 feet. Two wings, each 40 by 180 feet, extend back from the main room. Four freight elevators are provided, as well as a number of passenger elevators, run by six engines of 120-horse power. Three thousand, six hundred incandescent electric lights, 250 arc lights and 1,800 gas-jets furnish brilliant illumination for every part of the building. Four broad stairways connect the various floors. The entire structure, having a total floor area of 279,000 square feet or six and one-fourth acres, is used for the storing, finishing and upholstering display and sale of furniture. It is located at 150-166 West Madison street.

AMERICAN EXPRESS CO.'S STABLES.

Three hundred and twenty thousand dollars is the cost of the immense stables being erected on the west side for the American Express company. The structure is sixty feet or four stories in height, faces on Sebor street and extends clear through from Clinton to Jefferson street. It is of steel construction and fire-proof.

LEITER BLOCK ON WABASH AVENUE.

Work was begun on a building for L. Z. Leiter on Wabash avenue, just back of his great State street block, in the fall of the year. It is to be an eight-story structure, fifty feet

front, of steel and brick, and thoroughly fire-proof. In its basement will be the boilers for the State street block. It is to be used for stores and offices. The cost of the building will be about \$250,000.

MALLERS' BUILDING.

On the southeast corner of Quincy and Market streets is the new ten-story building owned by Mr. J. A. Mallers. It is notable as being the first structure of its height built in Chicago for mercantile purposes exclusively. The material of which it is constructed is brick, iron, terra cotta and glass. The building, which is thoroughly fire-proof, stands on a lot having a frontage of 42 feet on Market street and 114 feet on Quincy. Hardwood of various kinds is used for interior finishing. Three elevators are provided, two of which are for freight and one for passengers. The total cost is placed at \$210,000.

KIMBALL BUILDING.

That the business district of Chicago is expanding more and more toward the south is shown by the erection of the Kimball building on the southwest corner of Harmon court and Michigan avenue. It is the first structure of its size and importance to be put up in that locality. It is seven stories high, or 100 feet from the sidewalk to the cornice. A notable feature is the clock-tower on the corner, 25 feet square and 150 feet high. The chief material of construction is granite and obsidian brown brick. The whole building, which is owned by the Doggett estate, is to be occupied by the Kimball Carriage Manufacturing company, the first three floors being used as show-rooms and the others as warerooms. Two hundred thousand dollars is the estimated cost of this fine structure.

NORTHWEST DIVISION HIGH SCHOOL.

The Northwest Division high-school building, at the corner of Davis and Potomac streets, was begun last summer, and is to be finished next May. It is a large two-story, basement and attic structure, with a frontage of 325 feet on Davis street and 108 on Potomac. It will contain an assembly hall having a seating capacity of 1,200 persons, a gymnasium 40 by 65 feet and 30 feet high, and a lecture-room large enough to accommodate 300 students, and so constructed that it may be thoroughly darkened in the daytime for chemical and other experiments. Bedford stone is used to the first floor, and above that a combination of black and red brick. The cost of the building complete will be \$125,000. Flanders & Zimmerman are the architects.

REGISTRATION OF TITLES.

Australia has not only given the world a system of ballot reform, but the plan for registering titles to land which has been in vogue in one at least of the Australian colonies for the last eighteen years is attracting the attention of older and more populous states. In brief it is as follows: By this system a land-owner who chooses to avail himself of the registration act may, if he desires, apply to the register-general, giving an abstract of the title, the deeds and a certified map of the property. Official examiners of titles proceed as lawyers do here and examine the title with care. If the title is reported good, the register-general issues a certificate vesting the estate absolutely in the applicant. Thereafter that property cannot be conveyed by deed but by register of title. The certificate which is issued is a guaranty by the government that the title is good, and in the

eighteen years that this system has been enforced in New South Wales and Tasmania, the government has not been forced to pay out anything on any of these guaranties. The government occupies in this case practically the same position that one of the title guaranty companies hold in this country. A duplicate of the certificate is held by the register-general, and subsequent transfers are made by contract entered on the registers, and it is only necessary to search for any caveats or other liens since the time of the last registration. Prussia, as well as several of the British colonies, has found the system practicable and satisfactory. It will simplify the transfer of real estate, prevent long delays and expensive charges for examining titles. It will facilitate the borrowing of money on real estate.
